Attract loyal customers with gluten-free options!

An estimated one in 133 Americans has celiac disease, and the only existing treatment is a 100% gluten-free diet. This may be why the gluten-free market is now a \$4.2 billion dollar industry... and growing. Since it can be tough to find establishments with acceptable gluten-free variety, customers often become loyal to those that can best meet their dietary requirements. You'll find out how easy it is to capitalize on this growing market and effectively implement gluten-free within your business.
