

HEAT TRANSFER SYSTEMS OF GEORGIA, LLC

Manufacturer's Representative

Serving the HVAC, Process, and Industrial Refrigeration Industry. Water Conservation Specialists Representing the following quality manufacturers:

Evaporative Cooling Products

Evapco Inc. is an employee owned manufacturing company with global resources and solutions for worldwide heat transfer applications. Evapco is dedicated to designing and manufacturing the highest quality products for the evaporative cooling and industrial refrigeration markets around the globe. Evapco supports its worldwide customers with manufacturing facilities and sales offices strategically located around the world. The world headquarters is located in Taneytown, MD (U.S.A.).

PRODUCTS

EVAPCO offers a broad line of products including:

- Cooling Towers
- Low Sound Solutions
- Closed Circuit Coolers
- Ice Thermal Storage
- Evaporative Condensers
- Evaporators
- Critical Process Units
- Pressure Vessels
- Recirculator Packages

Water Treatment Systems by EVAPCO

Green technology, Pulse~Pure® non-chemical/chemical-free water treatment system or Smart Shield® Solid Chemistry Treatment by EVAPCO for Cooling Towers, Condensers, and Closed Circuit Coolers

Pulse~Pure®

Non-chemical/Chemical Free Water Treatment System for evaporative cooling products.

Smart Shield®

Solid Chemistry Water Treatment System for evaporative cooling products.

The Pulse~Pure Water Treatment System is your best choice for non-chemical/chemical-free water treatment for your cooling tower or evaporative cooler. This patented system created by EVAPCO is available only through Authorized EVAPCO representatives. An environmentally responsible alternative for treating cooling water, Pulse~Pure utilizes pulsed-power technology to provide chemical-free water treatment with no harmful by-products. This cutting-edge technology enables you to rely on one trusted supplier for your evaporative cooling equipment and associated water treatment - EVAPCO!

Mr. GoodTower®

Aftermarket Service by Mr. GoodTower®

*Replacement Units, Parts & Service for ANY MANUFACTURER! Marley~
Baltimore Aircoil ~ Frick ~IMECO ~ Spectrum~ Tri Thermal ~ Recold*

As a division of Evapco Worldwide, globally-recognized experts in HVAC commercial and industrial process applications and industrial refrigeration, Mr. GoodTower is Evapco factory authorized and specializes in the restoration and upgrade of evaporative cooling equipment including cooling towers, closed circuit fluid coolers and evaporative condensers for galvanized steel, stainless steel, fiberglass (FRP) wood and ceramic units. We sell parts on all manufacturers' equipment including Evapco EVAPTech BAC Marley IMECO Recold and others. Heat Transfer Systems is your local authorized Mr. GoodTower Representative and is a replacement market specialist. Contact Heat Transfer Systems to ensure your equipment's optimum performance and to schedule a **FREE UNIT INSPECTION** regardless of the original equipment manufacturer.

- Access Doors
- Air Inlet Louvers
- Basin Heaters
- Bearings
- Belts
- Bushings
- Centrifugal & Vane Axial Fans
- Coils
- Counterflow Fill
- Crossflow Fill
- Drift Eliminators
- Electric Water Level Control
- Fan Housing & Snouts
- Fan Screens
- Fans - Super Low Sound
- Float Valve & Ball Assemblies
- Gear Drives & Couplings
- Hot Water Basins
- Jib Boom & Davit
- Ladders
- Motors
- Platforms & Ladders
- Pumps & Motor Assemblies
- Shaft Kit
- Sheaves
- Sheet Metal Panels
- Strainers
- Vibration Switches
- Water Distribution Systems / ZM Nozzles
- And More

Field Erected Cooling Towers by EvapTech

EvapTech, Inc.
A wholly owned subsidiary of Evapco, Inc.

EvapTech is a premier cooling tower designer, manufacturer, and contractor providing *Innovative Cooling Solutions* for the satisfaction of customer needs in the power generation, industrial, refrigeration, and HVAC evaporative cooling markets. EvapTech offers new and replacement field erected cooling towers and a variety of field erected cooling tower parts and after-market services.

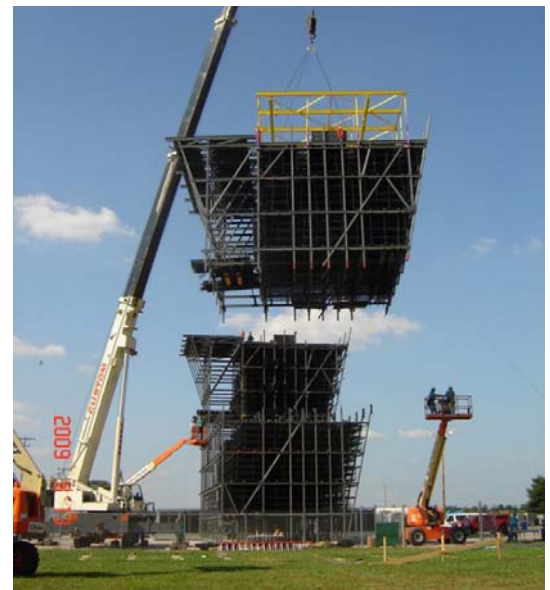

Plate Heat Exchangers

SONDEX PLATE HEAT EXCHANGERS

SONDEX is a worldwide leading manufacturer of plate heat exchangers. Products include Gasketed, Semi Welded, Free Flow, Brazed, Double Wall and Plate and Shell. Industries served include HVAC, Refrigeration, Chemical, Power, Marine, Sugar, Food, Dairy, Ethanol, NH₃, and District Heating and Cooling.

Cooling Tower Filtration

Since their beginning in 1976, Process Efficiency Products (PEP) has been a world leader in industrial fluid filtration. PEP manufactures a wide variety of standard and custom pressure filters. We specialize in cooling tower and HVAC water, process water and other fluids, wastewater treatment and other industrial filtration applications. PEP utilizes deep media, disc, cartridge, bag and centrifugal separation technologies for a wide range of HVAC and Process applications.

ICS2 Centrifugal Separator

IMF 0.5 micron Filtration

Water Reuse and Rainwater Harvesting

Aquanomix Water Reuse and Rainwater Harvesting

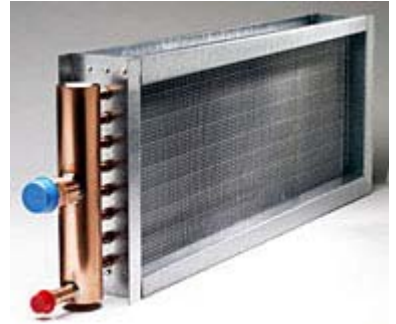

Aquanomix designs treatment skids engineered to filter and disinfect harvested rainwater, gray water, and condensate for reuse as cooling tower, toilet, and irrigation makeup water. Aquanomix skids feature a controls system to monitor onboard diagnostics and integrate with an existing building management system. Controls system comes with a programmable touchscreen and remote access capability via Internet connection. All components are skid-mounted, pre-wired, pre-piped, and sized to meet project parameters. Standard treatment skid includes a centrifugal separator and a bag filter for filtration, and an ultraviolet lamp for disinfection. Filtration and disinfection techniques can be customized as needed. Aquanomix also offers additional system options, such as cistern, booster pump, and hydroneumatic tank selection and sourcing services, and controls system upgrades.

Replacement Coils

Precision Coils, LLC provides large or small custom replacement coils or high volume repetitive OEM requirements, Precision Coils is your single source manufacturer for ALL your heat transfer coil needs.

- Special Copper Tubing
- Special Casing Depths
- Stainless Steel Casing
- Pitched Casing
- Steel MPT Connections
- Supply Connections on Both ends of Non-Freeze Steam Coils
- Additional distributors
- Special Circuiting (DX Interwined etc.)
- Special Coatings Fins and Casings
- Custom Crating
- All hand -brazed inside and outside the coil.

Pre-Insulated Pipe

PERMA-PIPE[®]

Perma-Pipe Inc. is the largest manufacturer of pre-insulated piping systems for District Heating and Cooling in North America, and a Global Leader operating six (6) strategically placed manufacturing facilities worldwide. Our full product line also includes pipe-in-pipe containment systems for environmental control of hazardous fluids, subsea oil & gas pipelines and equipment, above and below ground insulated piping systems for industrial applications, liquid leak detection and location for our piping systems and stand-alone applications such as computer rooms and data centers

XTRU-Therm[®]

POLYTHERM[®]

Cooling Tower Controls & Starters

Franklin Controls markets high quality motor control and automation components. Franklin's direct approach to marketing and customer service ensures competitive pricing and 24-hour support. Products include robust VFD's, Fan/Pump Starters, Tower IQ Control Panels, and more.

Tower IQ Controls:

VFD's:

Motor Starters:

Fan Coils & Water Source Heat Pumps

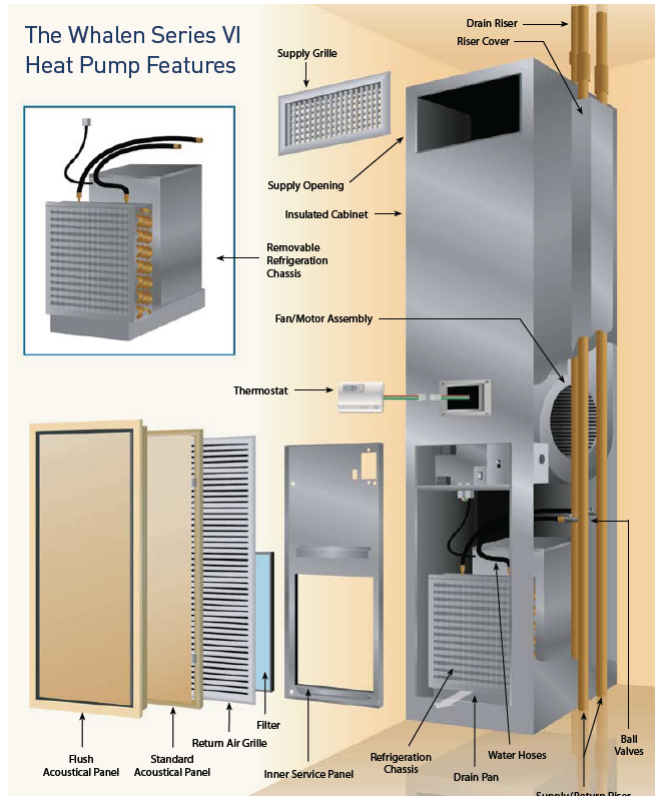

Always the perfect fit.™

The Whalen Company manufactures of the original vertical stack fan coil unit and water source heat pumps. As innovators of the riser fan coil concept, The Whalen Company takes pride in its history of responsiveness to the needs of the residential and commercial building industries
