# THE POWERMATIC PROMISE

## QUALITY

Each and every Powermatic machine goes through a rigorous inspection during manufacture before it is given the time honored name.

## TECH SUPPORT

The technical support personnel at Powermatic are unmatched in the industry with tenures of the individuals ranging from 4 years to 31 years.

## SERVICE PARTS

Powermatic is poised to service your investment for many years to come with a vast service part inventory performing at a 98% fulfillment rate.

## PM2000 10" CABINET SAWS

- Quick release riving knife greatly reduces binding/kickback risk
- Built-in retractable caster system (patent pending) for immediate shop mobility
- Push button arbor lock (patent pending) for rapid blade change
- Poly-V drive belt system delivers efficient, quiet operation
- Wide stance heavy-duty trunnion for stability and smooth blade positioning
- Adjustable angle indicators (patent pending) on the blade bevel scale for repeatable bevel cuts
- Industrial-duty Accu-Fence® System ensures accurate cuts
- Enclosed cabinet with cast iron base for rigidity
- Heavy-duty deluxe micro-adjust miter gauge with aluminum extruded 13" extension fence, for good workpiece support and fine angle adjustments
- Precision ground, high luster, cast iron table top with front and rear edge bevel to prevent catching of miter gauge on table edge
- Heavy-duty chrome plated handwheels contribute to smooth trunnion/arbor movement
- Independent leaf blade guard and anti-kickback pawls promote safe cutting

PRICE

**\$2999<sup>99</sup>**

STOCK NO. 1792000K

## TOP AND FRONT ASSEMBLY

Precision ground high luster cast iron table tops with front edge bevel and easy to access magnetic controls and hand wheels

## TRUNNION AND ARBOR LOCK

Poly V-belt drive system with heavy duty arbor system with arbor lock for easy blade changes

## CASTOR SYSTEM

Integrated, retractable, heavy duty caster system allows the saw to be raised for mobility and lowered onto its cast iron base for stability during operation

## Magnetic Controls

Industrial magnetic switch has an easy to access, large on/off switch with a built-in power indicator light and a removable magnetic safety key

# 3520B WOOD LATHE

- Spindle lock and built in spindle indexing on the headstock for drilling hole patterns, routing flutes, and other equally spaced features
- Set of dead centers which hold a spindle for visual comparison
- Re-designed toolrest geometry allows for better chisel movement along the toolrest
- Laser etched quill is self ejecting
- Two position mount for the optional bed extension
- Brass tipped knockout bar concentrates the action in the sliding handle; the brass tip will not damage drive centers
- Attached tool caddy allows convenient access to centers, wrenches, etc.
- Tailstock has internal storage for additional accessories
- Chrome trimmed handwheels are ergonomic for a comfortable feel

PRICE

**\$3999<sup>99</sup>**

STOCK NO. 1352001

## Spindle Comparator

Allows user to visually replicate projects

## Tailstock

Ergonomic chrome handles, finely tuned quill, and storage compartment

## Control Panel & Headstock

Sliding headstock with digital RPM readout for accurate adjustments and fine tuning

## PM1800 BANDSAWS

- Blade tension lever has full tension, partial tension and release settings for easy blade changes and tracking
- Micro-adjustable, virtually tool-less bearing guide system gives close blade control while reducing friction
- Special grooved thrust bearing stabilizes smaller blades
- Heavy duty T-style rip fence has adjustable aluminum resaw fence
- Large 24" x 24" cast iron table
- 2-inch diameter solid steel pin for resaw work
- 18-inch resaw, and 18-inch blade to column capacity
- Magnetic starter with power indicator lamp and jumbo stop
- Chrome knobs and handles ensure solid grip and firm locking of parts
- Computer balanced cast iron wheels reduce vibration
- Dual 4-inch exhaust ports for effective dust and chip removal
- Adjustable miter gauge with stops

## PM2700 SHAPERS

- Integrated caster system built into the cast iron base for instant shop mobility
- Spindle height digital readout for making fine incremental adjustments on multiple passes
- Heavy duty 30" x 40" precision ground tabletop for smooth stock feeding
- Convenient quick lock belt tensioning for easy speed adjustment
- Industrial fence system with fine adjust dials for more precise positioning
- 3HP totally enclosed motor offers plenty of power
- Two spindle speeds (reversible) for a variety of work
- Superior clear cutter guard promotes safety, allows observation of the entire cut
- Table predrilled and tapped for feeder mounting in two locations
- Fence has dual featherboards for work holding

## BYRD® SHELIX® PLANER CUTTERHEAD

Most woodworkers know that a shear cut is far better than a straight cut. They also know that a shearing cut produces a superior finish and is much quieter during operation. The Byrd Shelix cutterhead addresses each of these through the use of spiral staggered knives that are shear cut. Each individual cutter head is sharpened on four sides allowing for indexing. If you happen to plane a nail or staple, it is not necessary to replace knives the full length of your planer head. Replace the 2 or 3 small knives that were affected and you are ready to get back to work.

- Spiraled Stagger tooth to break up chips for dust collection
- Helix to assist the chip flow
- Shear to give clean cutting action
- Shear on each knife for true helical cut
- Clearance between knives for chip flow
- Inexpensive 4 sided replaceable carbide
- Unbelievably quiet

**Made In the U.S.A**

DESCRIPTION	STOCK NO.
Byrd® 15" cutterhead with inserts	1791211

## 15S AND 15HH PLANERS

- Spiral cutterhead and knives, or Byrd helical cutterhead with knife inserts, both provide smoother cutting and a finer finish than conventional knives
- Powerful 3HP TEFC motor controlled with a magnetic switch for safety
- Three V-belts transfer maximum power to the cutterhead
- Digital readout ensures accurate table positioning
- Large cast iron handwheel positions table quickly and easily
- Serrated steel infeed roller and smooth steel outfeed roller allow for 1/8" maximum depth of cut and trouble free operation
- Large, precision ground cast iron table and extensions provide maximum workpiece support
- Two-speed gearbox features automatic chain tensioner

### 15HH

The Byrd® helical cutterhead with 74 four-sided knife inserts provides smoother, quieter cutting and finer finish than conventional systems

## 719T TILT TABLE MORTISER WITH STAND

- Sturdy cast iron construction with precision-machined column and table
- Quick position table mounted swiveling vise clamp accommodates angled work pieces
- Feed lever features size positions allowing for quick adjustments
- Table and fence tilt from 0 to 35° for angled mortises
- Gas cylinder controlled rack and pinion system for smooth head raising and lowering
- Hinged chuck door allows easy access for quick bit changes
- Quick adjust depth stop for uniform mortise depths
- Provided 5/8", 3/4" and 1-1/8" bushings allow multiple chisel shank sizes
- Handwheels control smooth linear and cross table motions
- Adjustable work stop for repeat cuts

## PM1200 AIR FILTRATION SYSTEM

- Two-filter system traps particles as small as 1 micron
- Remote control operates on radio frequency for wider range of effectiveness
- Timer has nine settings, for up to nine hours of continuous operation
- Inner filter has fine mesh pockets for high efficiency, can be blown clean
- Electrostatic outer filter is disposable
- Diffusion filter disperses exhausted air
- Four eye bolts allow suspension from shop ceiling
- Indicator lights up after 200 hours to remind user to replace filters
- Three blower speeds to modify air flow
- Filter guards install and remove easily without tools for quick access to filters
- Two carry handles for portability
- Fully enclosed motor has overload protection for long service life

## WARRANTY AND SERVICE

The Powermatic Promise is something we take very seriously, and the warranty and service aspects are the backbone of the Promise. We work every day to manufacture the best machines in the business. Machines that let you do your best work, and machines that give you the peace of mind that they'll perform for you, year after year. In the rare case that something should go wrong, we're here to resolve your problem quickly, and with the expertise you've come to expect from Powermatic.
