

TABLE OF CONTENTS

INTRODUCTION

Forward: Medical Device Reprocessing Manual Third Edition

MDRD Function and Structure

Standardized Workflow Processes

MDRD Design with One-Way Flow

Organizational Structure

Line Department

Staff Department

CHAPTER 1: QUALITY SYSTEMS

Creating a Culture of Quality

What Is Quality

External Quality Controls

WHMIS

Quality Healthcare

Quality Management System (QMS)

Documentation and Records

Control of Documents

Control of Records

Policies and Procedures

Policies

Procedures

Manufacturer's Information and Instructions

Senior Management Responsibility

Management Responsibility

Key Performance Indicators (KPI)

Accountability and Communication

Process Management

Quality Control Indicators

Management Control Monitors

Internal and External Audits

Human Resources

Competence, Awareness, and Training

Quality in the MDRD

Total Quality Management (TQM) and Six Sigma

Appendix I: CSA Standards

Appendix II: Accreditation Canada

Appendix III: Provincial Infectious Diseases Advisory Committee (PIDAC)

Appendix IV: Sample Material Safety Data Sheet (MSDS)

Appendix V: Sample Standard Operation Procedure (SOP) Documentation

Appendix VI: Audit Checklist for Reprocessing Critical and Semi-Critical Medical Equipment/Device

Appendix VII: Sample Competency Checklist for Reprocessing Personnel

CHAPTER 2: MEDICAL TERMINOLOGY

The Evolution of Medical Terminology

- Medical Greek

- Medical Latin

- Medical English

Medical Terminology Word Elements

- Roots

- Prefixes

- Suffixes

- Linking or Combining Vowels

CHAPTER 3: BASIC ANATOMY AND PHYSIOLOGY

Overview

- Cells

- Tissues

- Organs

Organ Systems

- Integumentary System

- Skeletal System

- Muscular System

- Nervous System

- Endocrine System

- Cardiovascular System

- Lymphatic System

- Respiratory System

- Digestive System

- Urinary System

- Reproductive System

CHAPTER 4: MICROBIOLOGY

Microbiology Overview

- Microorganisms

- Important Events in the History of Microbiology

- Types of Microbiology

The Cell

- Cytoplasm

- Nucleus

- Organelles

- Cell Membrane

- Cell Wall

- Spore Coats

- Proteins

Requirements for Cell Life

Classification of Microorganisms

- Bacteria

- Viruses

Fungi
Prions

CHAPTER 5: TRANSMISSION OF INFECTION

Chain of Transmission

Modes of Transmission

Contact

Droplet

Airborne

Vehicle

Vector

Routine Practices

Performing a Risk Assessment

Hand Hygiene

Personal Protective Equipment (PPE)

Environmental Controls

Administrative Controls

Additional Precautions

Infection Prevention and Control in Hospitals

CHAPTER 6: DECONTAMINATION

Decontamination Area Essentials

Staff Safety and Personal Attire

Restricted Area Safety Policy and Procedures

Staff Education and Training

Quality System

Point-of-Use Handling and Transportation

Retrieval and Transport

On-Site Transport

Off-Site Transport

Decontamination Area Design

Decontamination Area

Housekeeping Practices

Environmental Controls

Water Quality

Selection and Use of Cleaning Agents

Decontamination of Instruments in the MDRD

Care and Handling of Instruments

Sorting and Disassembly

Decontamination of Patient Care Equipment

Cleaning

Disinfection

Disinfection Levels

Low- and Intermediate-Level Disinfectants

High-Level Chemical Disinfectants

Mechanical Equipment for the Decontamination Area

- Equipment Overview
 - Mechanical Washers
 - Washer-Disinfector
 - Ultrasonic Cleaner
 - Cart Washer
 - Micro-Sprayer
 - Respiratory Equipment
 - Respiratory Pasteurmatic Washer
 - TD-100 Automated Disinfection Process
 - Ultrasound Transducer Probes
 - Automatic Endoscope Reprocessor (AER)
- Appendix I: Sample Orientation Plan for Reprocessing Personnel
- Appendix II: Categories of Water Quality

CHAPTER 7: ASSEMBLY AND INSTRUMENT CLASSIFICATION

- Overview
- Lubrication
 - Instrument Milk
 - Silicone Spray
 - Oil
- Sorting
 - Initial Sorting
 - Secondary Sorting
- Inspection
 - Cleanliness
 - Working Condition
 - Damaged Instruments
 - Guidelines for Inspecting Working Conditions of Specific Instruments and Instrument Parts
- Instrument Classification
 - Instrument Quality
 - Classification of Surgical Instruments
- Instrument Set Assembly
- Instrument Management System (IMS)
 - What Is an IMS?
 - Unique Identification
 - Programs/Modules
 - Benefits of IMS
 - Functional Requirements

CHAPTER 8: RIGID AND FLEXIBLE ENDOSCOPY

- Overview
 - Minimally Invasive Surgery/Endoscopic Surgery
- Rigid Endoscopy Instruments
 - Exposure and Visualization Instruments
 - Surgical Procedure Instruments

- Hemostatic Instruments
- Inspecting and Testing of MIS
- Endoscopic Equipment and Functions
- General Reprocessing Guidelines for MIS Endoscopy Instruments
 - Disassembly and Handling
 - Cleaning and Decontamination
 - Inspection
 - Lubrication
 - Assembling Sets
 - Packaging
 - Sterilization
- Flexible Endoscopy Instruments
 - Types of Flexible Endoscopes
 - Anatomy of Flexible Endoscope
 - The Flexible Endoscope Reprocessing Work Area
 - Storage Cabinet Design
 - Flexible Endoscope Reprocessing Protocol
- Automated Endoscope Reprocessor (AER)
 - Disinfectants
 - Rinsing
 - Sterilization

CHAPTER 9: PACKAGING, TEXTILES, AND CONTAINERS

Overview

- Policies and Procedures
- Packaging Integrity
- Protective Packaging Materials (Wrappers)
 - Characteristics of Protective Packaging Materials
 - Selecting Packaging Material
 - Wrapping Techniques
 - Closure Techniques
 - Types of Packaging Materials
- Single-Use Non-Woven Packaging Materials
 - Paper (Wrapper)
 - Paper (Draping)
 - Polypropylene (Wrapper)
 - Polypropylene (Draping)
 - Pouches
 - Seal Rupture
 - Packaging Instruments
 - Sealing Packages (Woven and Non-Woven)
 - Labelling Packages
 - Expiration Date
- Reusable Packaging Materials/Textiles
 - Classification of Reusable Textiles
 - Care of Reusable Textiles

Summary of Guidelines for Packaging with Reusable Textiles

Containers

- Container Standards
- Container Characteristics
- Container Decontamination and Reprocessing
- Container Inspection
- Container Assembly
- Sterilizer Loading and Unloading
- Container Storage
- Transportation of Sterile Containers
- Quality Assurance

Appendix I: Development of a Pre-Purchase Evaluation Protocol (CAN/CSA Z314.14)

Appendix II: Pre-Purchase Testing of Containers (CAN/CSA Z314.14)

CHAPTER 10: LOANERS

Overview

Loaner Policies and Procedures

Documentation and Tracking

- Coordination and Timing
- Sending
- Transportation
- Receiving
- Personnel Training
- Infection Prevention and Control

Healthcare Facility Roles and Responsibilities

Manufacturers, Distributors, and Vendor Roles and Responsibilities

Transportation Companies

Sample Policies and Procedures

- Receiving Instruments into the MDRD from Vendors
- Use of Loaner Instruments and Implants
- Removal of Loaner Instruments/Implants from the MDRD by Vendors

CHAPTER 11: STERILIZATION

Overview

Effectiveness of Sterilization

Key Factors of Sterilization

- The Purpose of Sterilization
- Compatibility
- Disassembly
- Packaging
- Sterilizer Operation

Types of Sterilization

- Steam Sterilization
 - Characteristics of Steam
 - Conditions Affecting Steam Sterilization
 - Components of a Steam Sterilizer

- Sterilizer Controls
- Phases of Sterilization Cycle
- Steam Sterilizer Cycles
- Common Steam Sterilization Concerns
- Sterilizer Maintenance
- Chemical Sterilization
 - Ethylene Oxide (EtO) Gas
 - Low-Temperature Sterilization Using Hydrogen Peroxide (H₂O₂)
 - Steris Systems
- Other Sterilization Methods
 - Dry Heat
 - Irradiation (Gamma Sterilization)
- Quality Assurance Monitoring
 - Sterility Assurance
 - Monitoring the Sterilization Process
 - Monitoring of Physical Parameters
 - Chemical Indicators (CI)
 - Bowie-Dick PCD
 - Biological Indicators (BI)
 - Quarantine/Recalls
- Appendix I: Sample Policy and Procedure Documentation for Sterilization QA and Process Monitoring

CHAPTER 12: STORAGE AND DISTRIBUTION

- Overview
- Storage
 - Sterile Storage
 - Location
 - Environmental Controls
 - Shelving
 - Organization
 - Rotation of Supplies
 - Standards of Shelf Life
 - Event-Related Sterility
 - Cleaning
- Distribution
 - Central Dispatch
 - Top-Up/Exchange Cart
 - Case Cart
- Transportation

CHAPTER 13: MDRD ACCOUNTABILITIES

- Clients-Centered Services
 - Total Quality Management (TQM)
 - The Balanced Scorecard
 - The Benchmark Concept

- Building Client Relationships
- Effective Communication
- Legal Aspects and Risk Management
 - Types of Law
 - Statute Law
 - Healthcare Legislation
 - Risk Management
- Workplace Health
 - Occupational Health and Safety Regulations
 - Occupational Health and Safety Committees
 - Healthcare Workers and OHS
 - Ergonomics
 - Human Factors and Ergonomics
 - Domains of Specialization
 - Ergonomic Design
 - Diversity in the Workplace
 - Multigenerational Workplaces
 - Harassment
 - Code of Conduct
 - Violence in the Workplace
 - Conditions of Employment
- Appendix I: Medical Device Reprocessing Department (MDRD) Sample Job Descriptions
 - MDRD Supervisor
 - MDRD Lead Technician
 - MDRD Technician
 - MDRD Coordinator
- Appendix II: Canadian Medical Device Reprocessing Technician Certification

CHAPTER 14: REPROCESSING IN COMMUNITY HEALTHCARE SETTINGS

Overview

- The Risk Is the Same
- Unique Community Setting Challenges

Quality System

- Staff Education and Training
- Transmission of Microorganisms in Clinical Office Setting
- Routine Practices
 - Risk Assessment and Screening
 - Hand Hygiene
 - Personal Protective Equipment (PPE)

Environmental Control: Cleaning

- Principles of Cleaning and Disinfection
- Choosing and Using Cleaning and Disinfecting Products

Reprocessing Medical Devices/Equipment

- General Principles for Reprocessing
- Reprocessing Methods
- Single-Use Medical Devices

- Requirements for Staff Training
- Requirements for Reprocessing Space
- Transportation of Contaminated Equipment within Premises
- Instrument Cleaning
- Packaging Instruments
- Sterilization
- High-Level Disinfection (HLD)
- Low-Level Disinfection (LLD)
- Surgical/Invasive Procedures
 - Surgical Hand Preparation for Surgical Settings
 - Cleaning After Invasive/Surgical Procedures
 - Surgical Space
- Administrative Controls
 - Healthy Workplace Policies
 - Staff Immunization
 - Tuberculin Skin Test (TST)
- Appendix I: Performing a Risk Assessment
- Appendix II: Waste Management and Cleaning
- Appendix III: Summary of Mandatory Practices and Best Practices Recommendations for Clinical Office Practice

GLOSSARY

INDEX
