STATEMENT OF OBJECTS AND REASONS

The importance of providing for protected drinking water and adequate drainage facilities to urban and rural areas alike has been engaging the attention of the Government for quite some time past. At present, matters connected with drinking water supply and drainage schemes are being dealt with by several Departments. The Government considered that for effective planning and execution of drinking water and drainage schemes, it was essential that these were brought under the purview and control of a single agency for purposes of investigating, preparing and executing water supply and drainage schemes. Accordingly, the Government constituted the Tamil Nadu Water Supply and Drainage Board to achieve the above object.

Government are of the view that if the Board could be set up as an autonomous body on a statutory footing, it will conduce to speedier planning, investigation and execution of schemes and also enable it to raise substantial resources from financing institutions and in the open market, with a view to providing drinking water and drainage facilities to urban and rural areas in the State of Tamil Nadu within the shortest possible time. The Bill provides for the constitution of an autonomous Tamil Nadu Water supply and Drainage Board to be entrusted with powers and functions to investigate, prepare and execute water supply and drainage schemes throughout the State and matters connected therewith.

The provisions of the Bill are explained in detail in the notes on clauses.

M. Karunanidhi
Chief Minister.
