▲ MetalWorks Torsion Spring panels in Sequels – Montauk Driftwood

armstrongceilings.com/ metalworkscreate

MetalWorks™ Torsion Spring panels provide a monolithic visual with a unique hide-the-grid installation with 100% swing-down accessibility.

KEY SELECTION ATTRIBUTES

- Four new Sequels[™] pre-coat, wood-look finishes are part of the FAST134 program, including downlight panels
- Seventeen standard Effects[™] wood-look finishes offer on-trend design options in bold, subtle, and classic woodgrain looks
- Natural Reflections laminate finishes provide superior wood-look visual with printed vinyl bonded to aluminum, now Class A and Canadian fire tested; visuals other than the ones shown are also available
 - Precise factory-cut downlight panels are fit-and-finish certified to integrate with USAI® Lighting BeveLED® 2.2 and BeveLED® Mini trimless downlights
- Sustainable Beyond Standard: Select standard and custom panels are part of the Sustain™ portfolio, and meet the most stringent industry sustainability compliance standards today

- CleanAssure[™] family of products includes disinfectable panels, suspension systems, and trim
- Select products included in the FAST134 program – ready to ship in 4 weeks or less
- Transform your images onto custom perforated MetalWorks[™] Create![™] ceiling panels for a unique aesthetic plus acoustical performance
- Interior panels feature swing-down accessibility
- Exterior options available in 24 x 24 x 1-1/2" and 24 x 48 x 1-1/2" standard panel sizes
- NRC values up to 0.90 with fiberglass infill panels (select perforation patterns)
- Washable and impact-, scratch-, and soilresistant

DOWNLIGHTING: MetalWorks Torsion Spring center-cut panel with coordinating USAI® Lighting trimless downlight fixture. Integration details at armstrongceilings.com/downlighting

FAST134 program items ready to ship from manufacturer in 4 weeks or less.

Up-to-date lead times and product options (sizes and colors) at armstrongceilings.com/fast134

Design Considerations

Anodized, Lacquer Mill and pre-coat finishes may vary in shade between production runs as well as over time. Sizes can be mixed and matched on non-perforated panels only.

Class A 0.75

30" x 30" panels have a directional finish that is perpendicular to the main beams; all other panel sizes have a directional finish that is parallel to the main beams.

MetalWorks steel and aluminum panels are made at different manufacturing facilities that use different paint systems. Because of this, similar colors, i.e., White and Whitelume, are not exact color matches. Please consider this when designing adjacent spaces with multiple MetalWorks products.

On pre-coated finishes, clarity of image is best on flat surfaces. Pattern repeat may occur. Product is dye-lotted. Due to potential color variation, be certain to order sufficient initial quantities and attic stock.

Wind Uplift Performance 24" x 24" and 24" x 48" panels noted for exterior flat applications tested for wind uplift Classes 30, 60, and 90. Specific installation instructions to meet these classes

Design Support

Project management assistance is available by calling TechLine customer support at 1 877 276-7876.

Seismic Restraint

MetalWorks Torsion Spring panels have been engineered, tested, and approved for application in all seismic areas when installed per Armstrong Ceilings installation instructions.

Cleaning and Disinfecting

Cleaning and CDC approved disinfecting options available on armstrongceilings.com/cleaning

FAST134 Program Considerations Size of Job Matters: Big jobs, over 2500 SF or 50 pieces for shapes/vertical elements will have longer lead times.

Location Matters: Transit time not included. We are ready to ship in one week on FAST1 items. However, transit to the states west of Wyoming may add time.

Distributor Truck Schedule Matters: We rely on distribution to help move products around the country. When speed matters, work with your local distributor to ensure FAST134 service.

Stock vs Made-to-Order Matters: FAST3 & FAST4 items are made-to-order and will ship direct to distributor. FAST1 (stocked items) will go through distribution and depend on distributor truck schedules.

Warranty

One (1) year limited warranty.

Center-cut Panels for Recessed Downlighting smooth texture

MetalWorks Torsion Spring center-cut downlight panels in Sequels - New Haven Walnut

Pre-cut durable, metal ceiling panels are designed to seamlessly integrate with trimless downlights. Perfectly centered fixtures, perfectly cut tiles—every time.

KEY SELECTION ATTRIBUTES

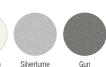

- · Perfectly centered USAI® Lighting fixtures for flush-fit visual
- · Coordinating fixture colors available for all standard downlight finishes
- Time and labor savings solution downlight fixtures are fully adjustable within the system so there is no cutting, no mess, and no need to remove panels
- · Entire system helps contribute to healthier spaces, part of CleanAssure™ portfolio
- · Clean, minimal trimless appearance in durable, factory-cut metal panels
- · Pre-cut Torsion Spring panels available in FAST134 program
- · Pre-engineered and tested for fitand-finish in all seismic areas
- · For offset factory-cut panels, contact ASQuote@armstrongceilings.com Custom grid layouts are possible depending on lighting layout.
