Fall 2016

Dear Valued Customers and Friends,

Well, the spring and summer didn't turn out exactly the way I thought it would. Much more time had to be spent on the website than I had anticipated, which put new LitPlan production temporarily on a back burner.

The good news is that the new website is up and running well—so now I can move on to adding more LitPlans and developing more of my own products for you.

If you would like to suggest LitPlan titles or have ideas for other products that would be helpful to you, please let me know. Just come onto chat or send me an email. I want to create things that you, my loyal customers, would like to have. The best way for that to happen is for you to tell me what you want.

Please tell a friend or colleague about Teacher's Pet Publications and the many wonderful resources we offer. And, as always, thank *you* for your continuing support and your orders; I sincerely appreciate each one of you, my loyal customers.

Happy Teaching!

Mary

Novel Unit Tests

Download $14.95

Sometimes, All You Need Is A Test.

Students are quick to share test information. You need to be quicker. Stay one step ahead of your students by downloading a new unit test now.

Our end-of-the-book unit tests are solid, multi-purpose whole-book tests designed to give you the maximum flexibility. There are several different sections, each with a different format and focus. Also, each test section is set up so it can be used separately or included together with other sections.

- **Matching**: Focus is on identification of characters, places, symbols.
- **Multiple Choice**: Focus is on easily answered questions, mostly factual.
- **Short Answer**: Focus is on questions that usually start with words like "describe," "how," or "why," requiring a little more thought.
- **Quotations**: Focus is on a few key quotations from the work.
- **Composition**: Focus is on theme, character development, and other meaty topics.
- **Vocabulary**: Focus is on matching the words to their definitions, usually 20-25 words. Same list as the LitPlans use.

Answer keys are given for Matching, Multiple Choice, Short Answer, and Vocabulary. Quotes and Composition have no directions so you can set your own criteria and no answers for the same reason.

Students Love This Review Game!

Need a quick little review game that's fun and covers key elements?

Easy! Print out the PDF file. Cut the pages on the horizontal lines & fold the resulting "cards" on the vertical lines. Tape, staple, or glue closed.

How To Play

- Give each student a "card."
- Any student can start by reading the WHO HAS side of her card. For example, "Who has the name of the author of 1984?".
- The student with the answer (Orwell) on the I HAVE side of his card says, "I have Orwell!" That student then reads the WHO HAS side of his card.
- The student with the correct answer responds then reads his "WHO HAS," and so on.
- The game continues until all the cards have been read.

At least 24 cards are included; often more.

Print on card stock or laminate your game cards for use year after year.

Thorough, well-researched lecture notes provide you with essential background information to pass on to your students.

You'll save dozens of hours on creating instructional material that meets the needs of your Advanced Placement students.

They combine literature study with test preparation — so you don't have to choose between teaching literature and "teaching to the test.

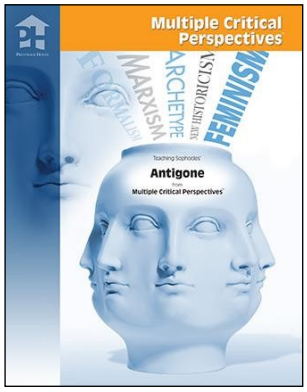
Multiple Critical Perspectives



Download $14.99

Open Students' Eyes to Other Possibilities

There Are Many Ways To Look At And Interpret Most Books

With Multiple Critical Perspectives, your students will look at the same book through three different critical viewpoints.

For example, evaluating a book from a Feminist perspective would give you a different interpretation than looking at the same book from a Marxist point of view.

The viewpoints chosen for each work depend on what the work best lends itself to, but some of the common views used in this series are: Feminist theory, Marxist theory, New Historicism, Formalism, Mythological/ Archetypal, and Psychoanalytic theory.

Each Multiple Critical Perspectives guide is divided into four parts: a general introduction to the work and then one section for each of the critical lenses being applied to that work.

Each critical section includes notes about that approach, essential questions, three activities, discussion questions, and essays or writing assignments

Literature Resources For Spanish-Speaking ELLs

For students whose native language is not English, participating in regular classwork is sometimes a big challenge. And it's a challenge, too, for their teachers—trying to find ways to help them fit in with the class, to teach them the material that needs to be covered, and to assess their understanding.

Dual Language Packs address these problems head-on and provide an excellent solution.

The **multiple choice and matching questions** with the Spanish translations written next to the English are ideal for Spanish-speaking students with very limited English skills.

- They can understand and respond to the questions without the frustrations of language barriers.
- By seeing and studying the English, students can build an academic vocabulary as well as learn important elements of English sentence structure, punctuation, and capitalization.
- These portions of the Dual Language pack give you and the student common ground even if neither of you speaks the other's language.

There are also **short answer and discussion/essay questions** with translations for students who know some English but might not be confident in knowing the exact meanings of the questions.

- You can be sure your students understand what is being asked.
- Your students can give written answers that, although they may not be perfect English, will let you know they know the answers, also giving your students practice in writing English.
- You can use these questions to give oral tests, allowing the students more ways of communicating their responses.

Teacher's Pet Publications

Dual Language Packs

Dual Language Packs use the same questions and vocabulary words as our LitPlan Teacher packs, so your ELL students can fit right in with your regular class.

The **vocabulary worksheets for each reading assignment** have the same words as the LitPlans, with the Spanish translations of the definitions again next to the English. There are a couple of extra whole-unit vocabulary worksheets students can use for practice and review.

The **unit tests** are also side-by-side translated and are basically the same as the LitPlans, with a variety of sections: matching, multiple choice, short answer, and vocabulary. There are also some essay questions for ELLs whose English skills are good enough for that.

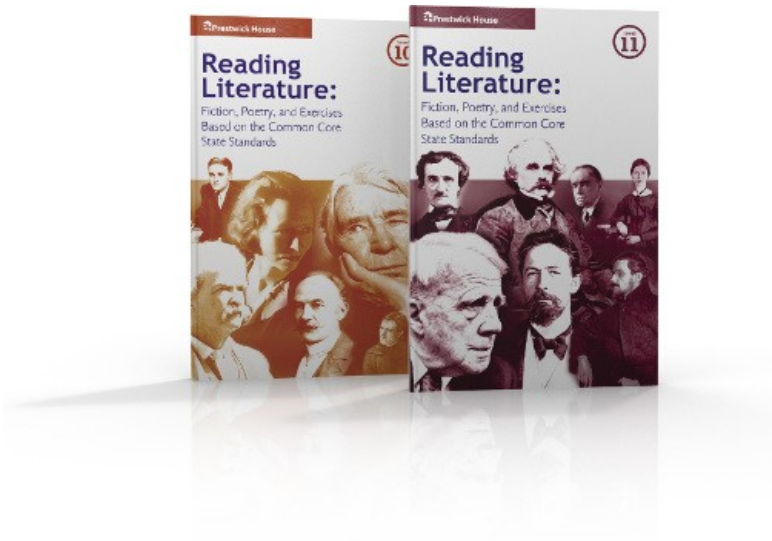
Reading Literature

Teach Your Students How To Read Any Work of Literary Fiction with

Reading Literature



Some students need help with challenging texts. Every story and poem in the Reading Literature series is annotated with important information: definitions for tough vocabulary words, interpretations of difficult passages, explanations of unfamiliar allusions, and more.

Multiple short-answer questions for every story and poem require students to analyze literary elements — not merely list plot points.

All of these questions help your students achieve the high levels of reading proficiency the Common Core State Standards demand, and every question in the Teacher's Edition is labeled with the standard it covers.

Why should you use Reading Literature?

- You'll get everything you need to teach your students how to analyze any work of literary fiction — in one book.
- Every short-answer question was written with one of the Common Core State Standards for reading literature in mind.
- Your students will learn more from every story and poem thanks to detailed annotations on vocabulary, tough passages, allusions, and more.
- The Teacher's Edition includes information on reader-task considerations, Common Core State Standards alignment for every question, and qualitative and quantitative measures of text complexity.

Class Sets With Teacher Editions Are Available

Call For A Price Quote

Prepare your students to read each story with **background information** about genre, themes, structure, and the author.

Context fills in knowledge gaps, priming your students to learn as much as they can from a text.

Annotations for every story and poem define challenging and/or arcane vocabulary words, explain esoteric allusions, reveal the meanings of tough passages, and more.

Questions for every story and poem will challenge your students to analyze literary techniques used in the texts.

In the Teacher's Edition, **every question is marked with the Common Core State Standard** it helps your students achieve.

Great For Differentiating Instruction and Adding Variety To Your Discussions & Curriculum!

Try Something A Little Different!

Theme Packs give you the LitPlan Teacher Packs and Puzzle Packs for three or four books related by theme.

- Differentiate instruction by allowing students to choose which of the books on the theme seems most interesting to them.
- In most cases, the titles offered in a Theme Pack have "easier" and "harder" selections or titles that are in different formats (play vs. novel or lower reading level vs higher reading level, for example), providing more opportunities for differentiated instruction.
- Broaden your thematic discussions by examining different facets of the theme and the ways the theme is presented in different books.

You can teach several books at once within one class because the LitPlans and Puzzle Packs give you all the resources you need for each book.
