Message from the Managing Director

Welcome to Corporate Concepts Infra Pvt. Ltd,

I am happy and proud to present you this brochure for your consideration and further action. As you are aware we are living in an era of advanced technology in every field.

Education and training equipments need to be innovative. We bring those innovative products and solutions to the Indian education through multiple global partnerships.

As a SMART TECHNOLOGIES authorized partner, we can provide SMART Boards, SMART Interactive Projectors, SMART Flat Touch Panels etc., which bring a world of change to the modern class rooms and training centres.

Call us to modernise the class rooms and training centres with state of the art latest products and solutions.

I would like to thank you personally for your continuous support.

Below you will find my direct contact details, I welcome your suggestions for improvement.

With Regards,

MJF Lion. K. Duraisamy MBA.

SMART Board–SB480/ SBM685 Model:

Quality and affordability come together in the easy-to-use SMART Boards 480/685 Interactive whiteboards, which offers both finger and pen touch functionality to engage students and enhance interactive learning.

Natural touch functionality makes it easy for students and teachers to use and will help enable quick and successful adoption.

SMART Notebook™ collaborative learning software, makes it easy for teachers to create, manage and deliver interactive lessons all from single application.

Teachers can easily present dynamic lessons that will engage every student no matter what their learning style.

Users can access free, ready-to-use educational resources, including thousands of standards correlated SMART Notebook lesson activities, anytime on the SMART Exchange™ website.

Key Features:

- 77" and 87" interactive whiteboard
- DVIT technology (patented technology of SMART)
- Touch sensitive
- No special tools required
- Dual touch
- Ships with Notebook software
- Durable steel backboard
- Compatible with Windows and Linux

Minimum Requirements:

- PC / Laptop
- LCD Projector

LightRaise™ 60wi Interactive Projector

World's first touch interactive projector, which makes any smooth surface like walls into an interactive surface.

Supports both natural finger touch and pen interaction

Dual-user interactivity enables two students to simultaneously interact and collaborate with a finger or interactive pen.

Stunning HD visuals using ultra-short throw projection

Easily access control settings with the optional extended control panel

Powerful SMART Notebook collaborative learning software included

Key Features:

- Ultra-short-throw projector
- Projects image sizes from 67" to 100" (170–254 cm)
- Integrated speaker and microphone input
- HDMI input, two VGA inputs and network connection
- SMART Notebook collaborative learning software
- Immediate access to the SMART Exchange website
- Rechargeable interactive pens

Minimum Requirements:

- PC / Laptop

Other Innovative SMART Products

SMART Board® E70 Interactive Flat Touch Panel

Designed specifically for classrooms, the SMART Board E70 interactive flat panel combines a premium touch experience on a 70" display.

Designed to work with SMART Notebook software, the most powerful education software for content creation and delivery

Brilliant Visual

Brilliant HD contrast commercial grade panel with 50,000 hrs, Provides stunning visuals to capture students' attention and increase engagement.

The 70" surface has little to no glare, ensuring every student, no matter where they are seated, can see the display clearly.

In any light with no shadows.

Premium touch experience

Low-friction, coated glass that allows your finger to glide smoothly over the surface, facilitating a natural touch experience

Eight touch points allow multiple students to collaborate together simultaneously

No Projector

Never replace another projector bulb.

Less maintenance, low total cost of ownership.

Key Features:

- 70" 16:9 aspect ratio
- Multi touch capabilities
- Supports gestures
- Ships with Notebook software
- Low friction coated glass
- HD/High resolution display
- Compatible with Windows and Mac
