

# TEXTBOOKS – MESA / MATH

AUGUST 18, 2019

**(New Pearson rep: Belen Poltorak: [belen.poltorak@pearson.com](mailto:belen.poltorak@pearson.com))**

**(NEW EDITIONS: The textbook requisitions site should flag you re new editions.)**

by KEN KUNIYUKI

[kkuniyuk@sdccd.edu](mailto:kkuniyuk@sdccd.edu)

**CENGAGE UNLIMITED:** Many science classes are using Cengage, and students can save a lot of money if they also use Cengage for their math classes.

**BUYBACK COMMENTS:** If software / codes are part of a package, the package may well not be eligible for buyback at the campus bookstore. **However, students have been able to sell the textbook portions of their 46/96 packages back to the campus bookstore. You shouldn't have to order the textbook standalone.** If a book simply has a CD, you should put in your requisitions "no CD required."

## SUPPLIES: INDICATE IN YOUR REQUISITIONS

This includes calculators – type, scientific vs. graphing?

If you need to add these to requisitions you have submitted, email Ken.

You must include optional items, also!

## ABBREVIATIONS / ACRONYMS

**HB** = Hardback / Hardbound / Hardcover printed text

**JB** = Jumpbooks (typically e-rentals)

**LL** = Loose-leaf, presumably 3-hole-punched, shrink-wrapped collection of pages

**MML** = MyMathLab, an online course management system by Pearson, including potentially homework and quizzes; includes e-book; only one version for now across classes and textbooks, though expect that to change with new editions of textbooks © 2018 and beyond!

**MSL** = MyStatLab (similar to MyMathLab)

**WA** = WebAssign, an online course management system by Cengage, including potentially homework and quizzes; includes e-book; different versions for different types of classes, especially at the advanced level.

## **OER (OPEN EDUCATIONAL RESOURCES)**

<https://openstax.org/subjects/math>

## **CONSIDER ORDERING:**

Student Solutions Manuals (though Pearson no longer prints them; see below).

Packages with (or standalone):

MyMathLab, MyStatLab, or MathXL by Pearson, or  
WebAssign by Cengage.

## **PUBLISHER CONTACTS (FOR DESK COPIES AND SO FORTH)**

**Pearson (NEW!). Belen Poltorak:** [belen.poltorak@pearson.com](mailto:belen.poltorak@pearson.com)

Pearson includes Addison-Wesley and Longman.

## **MATH 96 (not 96X)**

### Intermediate Algebra & Geometry

- The departmental textbooks are:

Bittinger, *Elementary & Intermediate Algebra*. 7<sup>th</sup> edition beginning Fall 2017.  
© 2017 Pearson.

Bass, *Geometry*. (Pearson.)  
© 2008 Pearson.

- Math 46 and 96 do not require the Study Skills component.

Possible items to order (aside from calculators):

#### **PACKAGES**

• **BUYBACKS.** Students have been able to sell the textbook portions of their 46/96 packages back to the campus bookstore. You shouldn't have to order the textbook standalone. Scott Krause says that students can use the MML access code and just return the book at the end of the term.

Scott Krause recommends as the best deal  
(as well as the digital rental option):

- **Hardbound Bittinger book plus MyMathLab (MML), but excludes Bass *Geometry***

Scott emailed:

... the rental is an attractive option since [students] can use MyMathLab access all semester and only need to return the book (in good condition) at the end of the semester.

– ISBN 9780134772349 (\$136.50 as of Aug. 2019; **\$60 rental** as of Aug. 2019)

#### **ELEMENTARY & INTERMEDIATE ALGEBRA -W/MML PKG**

THE OLD LOOSE-LEAF PACKAGE IS NO LONGER BEING DISCOUNTED,  
SO THE BOOKSTORE NO LONGER CARRIES IT.

### **MML STANDALONE**

- MyMathLab (MML) standalone with ebook – ISBN 9780134762616 **(Must pick specific MML for Bittinger, *Elementary and Intermediate Algebra: Concepts and Applications*. A generic MML won't work as before.)**

(As of July 2019)
