# TGE's After-School Care Programme

## Key take-away from today session

- TGE's After-School Care Programme outline
- Using the *7 Habits of Happy Kids* to help your child in self-management
- Enrichment modules

# Discovering Potential Through Experiences

- TGE's After-School Care programme (TGE AFC) gives children the opportunity to thrive in an environment that encourages exploration and creative expression, providing inspiring and enriching activities that enrich their development.
- TGE AFC allows children to discover their potential and uncover their interests and take ownership of his/her learning. Each child will be plotting their own progress on their individual website.

# Discovering Potential Through Experiences

- TGE AFC is not school and we are not babysitting, we provide a structured and resourceful environment that invests in a child's development – from social emotional development, to better understanding of their interests and goals, to identifying their likes and dislikes, to valuing team efforts and taking chances in a safe environment where they are mentored and encouraged.

# Discovering Potential Through Experiences

- “Emerging research indicates that regular attendance in quality after-school programs can yield a range of positive developmental outcomes for school-age children” - Priscilla M. Little, *The Quality of School-Age Child Care in After-School Settings*

# The 7 Habits of Happy Children

# The 7 Habit of Happy Children

## Habit 1 — Be Proactive

I am a responsible person. I take initiative. I choose my actions, attitudes, and moods. I do not blame others for my wrong actions. I do the right thing without being asked, even when no one is looking.

## Habit 2 — Begin with the End in Mind

I plan ahead and set goals. I do things that have meaning and make a difference. I am an important part of my team. I look for ways to be a good camper.

# The 7 Habit of Happy Children

## Habit 3 — Put First Things First

I spend my time on things that are most important. This means I say no to things I know I should not do. I set priorities, make a schedule, and follow my plan. I am disciplined and organized.

## Habit 4 — Think Win-Win

I balance courage for getting what I want with consideration for what others want. I make deposits in others' Emotional Bank Accounts. When conflicts arise, I look for third alternatives.

# The 7 Habit of Happy Children

Habit 5 — Seek First to Understand, then to Be Understood

I listen to other people's ideas and feelings. I try to see things from their viewpoints. I listen to others without interrupting. I am confident in voicing my ideas. I look people in the eyes when talking.

Habit 6 — Synergize

I value other people's strengths and learn from them. I get along well with others, even people who are different than me. I work well in teams. I seek out other people's ideas to solve problems because I know that by teaming with others we can create better solutions than anyone of us can alone. I am humble.

# The 7 Habit of Happy Children

## Habit 7 – Sharpen The Saw

**BALANCE**  
**FEELS**  
**BEST!**

I take care of my body by eating right, exercising and getting sleep. I spend time with family and friends. I learn in lots of ways and lots of places, not just in school. I find meaningful ways to help others.

## Walking in...

An area is allocated for children to store their belongings neatly. This allows children to learn how to organise their own belongings and understand the importance of classifying.

# Exploration

An open area of exploration for teachers to work with their students. A maker's culture starts early with simple activities such as making toys with recycled materials.

## Experiential Learning

Learning through experiences is a key part of our programme. Children will be exploring natural spaces and making connections to their learning in the classroom.

# Our Community Garden

Singapore is a City in a Garden. Besides being pleasing to the eye, greenery also contributes to the mental, physical and emotional well-being of people. Children will learn how plants grow and flourish in our Community Farm.

Find out more about how greenery benefits young minds [here](#)

## S.T.E.A.M.

In a VUCA world, constant change will become the norm. S.T.E.A.M. and the Makers' movement will become more prominent. Through our enrichment modules, we would play a greater role in nurturing students of the future

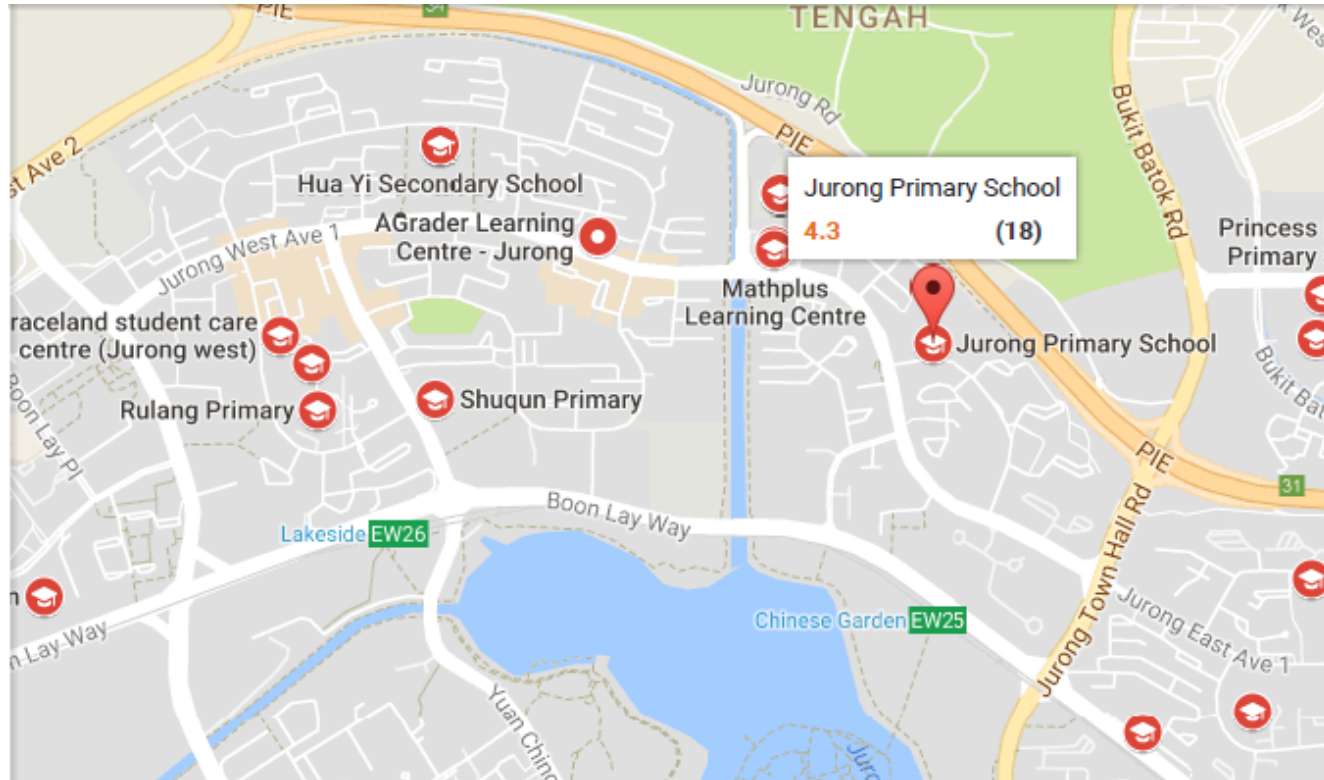

# Our Fees

- We adopt a modular approach to our fee structure so that parents can choose a programme most suitable to their needs and pay for what their children require.
- Basic Fees start at \$320 and will cover what you have seen earlier in the “A Typical Day”. We will pick up your child at **no cost** if your child’s school is **within 3km** of our premises. (e.g. Jurong Primary, Fuhua Primary, Rulang Primary, Princess Elizabeth Primary, etc)

# Schools within 3km

# Our Fees

Enrichment Fees starts from \$80 per month with modules such as:

- Sports (covering 4 sports – Soccer, Basketball, Archery and Badminton). 45 minutes session, twice a week.
- Coding (covering Lego Wedo 2.0 and Scratch Programming) with an option to take part in the First Lego League. 1 hour session per week.
- Science Enrichment (Experiential learning beyond the syllabus). 1 hour session per week.
- Creative Writing. 45 minutes session, twice a week.

# Experiential Learning Journeys

We will conduct experiential learning journeys to Parks, Community Gardens, Museums and other places of interest once a term. We will inform parents of the costs involved in advance. Although we highly encourage participation, these will not be compulsory.
