The Belsaw Planer/Molder... NO Other Machine Offers This Much!

Planing Capacity

Max Depth Of Cut	3/16"
Max Width Of Cut	12-3/8"
Max Thickness Of Stock	6-1/4"
Min Thickness Of Stock	3/16"
Minimum Length Of Stock	8"

Molding Capacity

Max Depth Of Cut	3/4"
Max Width Of Cut	12-3/8"
Max Thickness Of Stock	6-1/4"
Min Length Of Stock	8"

General Specifications

Cutterhead Speed	4500 RPM
Cutterhead	3-Knife
Cutterhead Bearings	Sealed Ball Bearing
Feed Rate (FPM)	12 FPM (Standard), 20 FPM (Optional)
Cuts Per Inch	94 @ 12 FPM or 56 @ 20 FPM
Bed Width	12-3/8"
Bed Length	27-1/4"
Bed Construction	1 Piece Solid Cast Iron

Electrical Specifications

Motor	5 HP Industrial Duty
Voltage/Amperage	220v. Single Phase, 23-26 Amps
Starter Switch	Magnetic
Switch	Rocker With Removable Key
Motor RPM	3,450 RPM

The Belsaw Planer / Molder

- Planes Lumber
- Makes Moldings
- Surface Sands

- Plane your own lumber and save money over lumberyard prices. Plus, dimension your material to your needs and control the quality instead of having to accept what is available!
- Create your own intricate moldings in virtually any wood species you desire. Be it a stock pattern, tongue and groove or one of your own designs, no other machine opens up such flexibility!
- Surface sand your lumber to eliminate hours of tedious hand sanding!

Simply stated, this machine can make AND save you money every time you use it!

Buy the versatile Belsaw planer/molder and you will find rugged construction, and features not found on similar equipment...

- Heavy duty chain and sprocket Feedworks system ensures that full power is transmitted to the feed rollers for positive and consistent feed rate. This will deliver consistent planing and molding finish results.
- Our molding guide system will make molding setups fast and easy.
- Exclusive hairline height scale, precision cuts are not only possible, but consistent.
- Solid 3-1/2" bar stock steel cutterhead that has been precision milled. The cutterhead is multipurpose so that planing and molding can be performed without the need to buy molding attachments.
- Rubber feed rollers are manufactured to a specific durometer that ensures correct feed pressure that will not mar delicate molding patterns.
- Safety interlock switch that cuts power to the planer when the hood is opened. This exclusive feature should prove that we have taken extra measures to ensure operator safety.
- Solid cast iron bed measures a full 27-1/2" long and offers superior material support and adds to the machine's stability.
- Dual drive belt system ensures that full power is transmitted from the 5 HP industrial duty motor to the cutterhead.

The **Belsaw Planer/Molder** ideally lends itself to high production by utilizing combined power-fed operations. Yet the simplified chain and sprocket drive system provides easy maintenance and factory assured alignment. The drive reduction system keeps moving parts operating at low speeds, lessening friction and resulting wear. You can also change the standard feed rate of 12' per minute to an optional rate of 20' per minute, letting you work your stock nearly twice as fast. With this unit, you can put an end to your search for properly dimensioned stock. In order to insure the highest standard of quality, each component part, as well as the finished machine, is carefully examined and tested before being approved for shipment. By providing the highest quality, the most innovative and imaginative engineering, and the utmost in service and integrity, Belsaw has fulfilled the needs of the home craftsman and the woodworking industry for well over 60 years.

Select the planer/molder package that best suits your needs!

Designed for the professional woodworker but priced for the do-it-yourself-er. Get the BEST Belsaw has to offer in a planer/molder. Includes the basic unit, 5HP continuous duty motor with magnetic controls. Plus...

- Our precision dial indicator knife setting gauge for precise planer knife adjustment.
- The dust collector attachment for connection to your dust collection system.
- Our high performance molding guide system for rapid setup of molding operations.
- A set of our Micro-Bevel high speed steel planer knives specifically designed for planing "problem" wood species.

Accessories

Knife Hone & Guide

With this handy sharpener, you will be able to hone your jointer and planer knives to razor sharpness without removing them from the machine! Great for quick touch-ups and extends the period between major re-sharpening.

#D1123

\$ 8.95

Lumber Thickness Gauge

This easy to use thickness gauge will provide lumber thickness readings in seconds. Measures from 0" to 2" by 1/32" increments. Use it to calibrate your planer thickness gauge, measure lumber thickness, molding widths, etc. Made from aluminum.

#MJ-821

\$ 14.95

Feedworks Chain Replacement Kit

This kit contains the three drive chains in the feedworks system. Also included is the 20" V-Belt that transfers power from the cutterhead to the feedworks. Replacing all three chains at the same time will ensure longer sprocket life and deliver consistent transfer of drive power to the feed rollers.

#BRK-1 \$ 34.95
For Belsaw Planer/Molders models 910 & 912, order by kit number below...

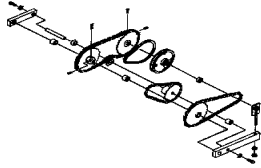

#BRK-2 \$ 47.95

Complete Feedworks Rebuild Kit

Completely rebuild your planers feedworks system with this kit. Includes all sprockets, chains, bushings, link adjustment assemblies, 20" V-Belt, and sprocket weldments to replace worn out feed works systems.

This kit will breath new life into your planer/molder giving you many more years of service. Will not fit on Belsaw planer/molder models 910/912. Please contact Customer Service for other

BRK-3 \$ 329.95

Feed Roller Rebuild Kits

Replace your planer/molder's worn and grooved feed rollers to restore feed performance. This kit includes the front and rear feed rollers, feed roller bushings, and a complete set of feed roller tension springs. If you are having any feeding problems, by installing this kit, any difficulty you have been having should be eliminated.

Planer Bed Wax

Extends the life of feed rollers, chains, bearings and sprockets by reducing feed drag. Very easy to apply and long lasting. Does not contain silicone. Use on virtually any machine surface. Protects against corrosion. 14 ounce can.

#WPW1 \$ 17.95

Locking Caster Kit

Fits any Belsaw 12" Planer-Molder as well as the Sears 12" Planer-Molders. Set includes 4 casters with a positive locking foot brake for stability after being moved to the desired location and all mounting hardware.

#4500526 \$ 62.50

Belsaw Planer Knife Sets

Belsaw Planer Knives

Made from only the highest quality materials. We also have specially priced our sets with quantity discounts so you can stock up with extra sets on hand. 12" knives are sold 3 blades to a set; 8" are sold 2 blades to a set.

#4501958 12" \$ 48.50

#4540858 8" \$ 36.95

Belsaw 12" MICRO-BEVEL PREMIUM QUALITY Planer Knives

These high speed steel knives feature a secondary bevel ground at the tip that will allow you to get much more life out of your knives before they require sharpening. Further benefits such as a smoother planed finish make Micro-Bevel knives the choice of professionals! Sold per set of 3 knives.

#4501963 \$ 69.95

12" Solid Carbide Planer Knives

#TN 6325C (Set of 3) \$ 349.95

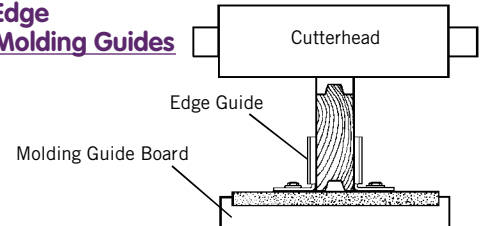

Molding Guide System

This complete molding guide system will save you time when making the transition from planing to molding operations. Takes only minutes to attach and is constructed from high density particle board for stability and strength, it measures a full 42" long. The two sets of standard guides (included) make adjustments easy.

#4500502 \$ 98.75

Edge Molding Guides

Use the optional edge molding guides when molding profiles such as tongue and groove patterns. Made from heavy gauge formed steel. Zinc plated to guard against corrosion. Four required.

#4509492 \$ 8.25 ea.

Dust Collection Attachment

Includes dust port, and internal dust channel. Very easy to install. Fits Belsaw model 985, & similar models. Attachment will not fit model 910/912 planers.

#4500592 \$ 59.95

Knife setting Gauges

Dial Indicator Knife Setting Gauge

Position knives to within thousands of an inch. Once you set your knives using this gauge, you will never use anything else again! Large Dial Indicator face is easy to read. Indicator has 1" travel with secondary dial. Measures in increments of .001". Large Indicator Anvil and instructions are included.

#SC-001G \$ 76.50

The "Sure-Set" Knife Setting Gauge

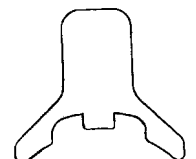

Take readings on the left and right side of the planer knives and the adjustable floating top pin will indicate alignment. An economical alternative to more expensive gauges.

#4501960 \$ 32.50

Economy Knife Setting Gauge

This simple gauge straddles the top of the cutterhead over the planer knives. Simply raise the knife until it makes contact with the gauge. Instructions are included.

Band Saw Blades

Swedish Band Saw Blades

These silicon carbide blades with their milled teeth, are designed to give you the absolute cleanest cuts. The thin kerf design means less waste and greater maneuverability. Low tension gives you more power and creates far less wear and tear on your saw. Available in a variety of widths for everything from resaw to sweeping turns to craft cuts, and in lengths to fit most band saw makes and models.

- 52" fence Left tilt saw #50-185L-M1 **\$ 749.00**

Feather Board

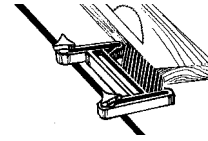

This wood feather board will keep your stock tight against the rip fence and down on the table during ripping operations giving you more control. Will fit in standard 3/4" wide mitre slots.

#19134

\$ 15.95

Deluxe Feather Board

Our plastic featherboard keeps stock up against the fence on tablesaws, shapers, router tables, etc. Fits in standard mitre slots.

#10215

\$ 9.95

Biesemeyer T-Square Saw Fence Systems

Biesemeyer T-Square saw fence system fits any new or used table saw, making it a faster more efficient woodcutting tool. The T-Square's hairline pointer and built-in tape allow you to make precision setups, cut after cut. The fence locks only at the front of the tablesaw. Its three-point locking system ensures that the fence will be precisely parallel to the blade and will provide a smooth, clean cut accurate to 1/64th of an inch. All parts are constructed of rugged material for many years of dependable use. Designed and warranted for commercial users who rely on their tablesaw on a daily basis and cannot afford poor results. This system will provide 50" cut capacity to the right of the blade and 12" to the left side of the blade.

#78-900

\$ 359.00

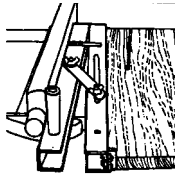

Biesemeyer Super Fence Systems

Same high quality features as the commercial fence system but designed for the home hobbyist and small cabinet shop's budget. Purchase the fence you need by the right of the blade capacity. (Not warranted for commercial use).

- #78-930 12" Left/28" Right Capacity **\$ 259.00**
- #78-931 12" Left/40" Right Capacity **\$ 269.00**
- #78-935 12" Left/52" Right Capacity **\$ 279.00**

Tapering Jig

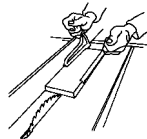

Cut tapers with ease when using this jig on your tablesaw, band-saw or radial arm saw. Converts to left or right hand use and is adjustable up to a 15° taper. Very easy to use and constructed from aluminum.

#19066

\$ 19.95

Safe "V" Shoe

Unique because of a bottom groove that applies pressure down and in towards the fence. Made from high density plastic. Sold per pair.

#10223 **\$ 7.95**

Delta Sliding Jig

Provides greater accuracy and safety when cutting angled tenons, straight tenons, and dados on either left or right-tilted table saws. Fits standard 3/8" x 3/4" miter gage grooves.

#43-188

\$122.15

Zero Clearance Table Saw Inserts

- #DL-1U 13-3/8" x 3-3/4" Delta Universal **\$ 21.95**
- #JT-1 12-1/2" x 3-9/16" Jet/Powermatic 64 **\$ 21.95**
- #JT-2L1 13-5/16" x 3-11/16" Jet XACTA Left Tilt **\$ 22.95**
- #PM-1 14-7/16" x 4" Powermatic 66 **\$ 21.95**
- #GE-1 13-13/16" x 3-1/2" General #350 **\$ 21.95**

The Zero Clearance concept is simple; the blade cuts its own perfectly sized slot by being raised through a machinable "blank" insert. Inserts are 1/2" thick high-density phenolic laminate, with bonded laminate surface-offering superior rigidity, flatness, durability, and low friction. User friendly features include top-accessible leveling screws, lateral adjustment screws for a vibration free fit, rear anti-lift pin (except JT-1) and a precut blade pocket on bottom that provides clearance for fully retracted blades and bevel cuts. Instructions included. Use only carbide tipped blades. Colors may vary.

Magnetic Featherboard

NEW!

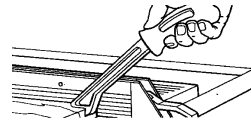

Powerful magnets hold the Grip-Tite guide solid to any cast iron or steel tabletop. As a board is pushed between the Grip-Tite guide and the fence, flexible polycarbonate feather blades force the board down and against the fence. Narrow boards can be cut, shaped, or jointed without putting your hands near the blade.

#GRIP-TITE

\$ 34.95

Push Stick

Specially designed handle for comfort and grip. Sold individually.

#10221

\$ 4.95

Anti-Kickback Mechanism

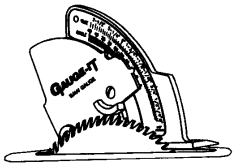

These safety colored yellow rollers rotate clockwise for tablesaws and prevent dangerous kickback. Also maintain even pressure against the saw table and fence so that ripping long boards is a very easy operation. If you work alone, this table saw accessory will really speed up your ripping operations while providing a higher degree of safety for the operator. Optional track makes adjustments a breeze. Sold in pairs.

#W1104

\$ 36.95

Saw Gauge

This useful and quick acting gauge will allow you to measure the blade height of your table-saw or the angle the saw is set to in a matter of seconds! Use the left tilting version for left tilt saws, the right tilt version for all others.

- #338-2500 (LH Version) **\$ 28.20**
- #338-2000 (RH Version) **\$ 28.20**

9-in-1 Saw Aid Tool

Of course it works like (1) a safety push stick, with a long, narrow hold-down surface. But this tool also works as: (2) a table saw depth gauge, (3) router depth gauge, (4) 6" hook rule, (5) 30°/60° angle gauge, (6) 45° angle gauge, (7) 9" rule, (8) 90° engineers square, (9) center finder. The depth gauges and center finder are accurate to .005"; engineers square is accurate to .01". Heavy-duty, glass-filled-nylon tool is guaranteed for 5 years against breakage!

Sanders

Performax "16-32 Plus" Drum Sander

From the premier drum sander manufacturer, we are very pleased to offer one of the most innovative machines to come along in years! The 5" x 16" extruded aluminum, precision machined and balanced, self-cooling drum operates at 1700 RPM with a 1HP direct drive, continuous duty motor. Performax's "no-give" power feed conveyor is an integral part of the 16-32 PLUS. The durable, thin abrasive belt and the reinforced steel bed provides a rigid surface to precisely sand stock to within .010" uniform thickness. With a variety of abrasive grits, and an infinitely variable feed rate of 0-10 feet per minute, you have the flexibility to surface, dimension, and finish sand your material all in one machine! Comes with an 80 grit abrasive already mounted on the drum.

Shop Supplies

Franklin Titebond Glue

Very light tan in color, once set becomes virtually clear. This is a ready to use aliphatic resin adhesive with exceptional strength that is easily sanded, resists moisture and sets fast. Similar to white glue, it was specifically designed for people who work extensively with wood.

#506-4	16 oz.	\$ 4.15
#506-5	Quart	\$ 6.50
#506-6	Gallon	\$ 14.25

Franklin Waterproof Titebond II Glue

Designed for use where exposure to moisture is possible. It will maintain a positive glue bond even when exposed to rain! Ideal for outdoor furniture construction, bathroom cabinetry and kitchen cabinetry.

#500-4	16 oz	\$ 4.95
#500-6	Gallon	\$ 17.80

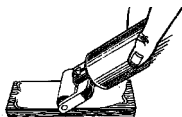

Polyurethane Wood Glue

This glue is 100% waterproof, gap filling (expands as it dries), sands and scrapes like wood, can be stained and painted, and it works in 30 minutes. It also features a low consumption rate compared to other adhesives, will not burn, soften, or clog sandpaper and is gentle on saw blades and other equipment. It is fully guaranteed and can be used on exterior or interior woods.

#EX50	50 ML	\$ 2.25
#EX250	250 ML	\$ 8.95
#EX750	750 ML	\$ 18.95

Glue Applicator

The wide roller dispenses glue evenly and uniformly to a wide variety of surfaces. Works very well for gluing large surfaces and works even better for edge gluing lumber.

# G-08	\$ 9.95
--------	---------

All Purpose Gluing Kit

Apply your adhesive with pinpoint precision into dowel holes, finger joints, dovetail joints, board edges, etc. Eight different nozzle attachments for a wide variety of application needs. Also includes a wide roller head for edge and face gluing applications.

# G-09	\$ 19.95
--------	----------

Glue Brushes

Great to have around the shop. Inexpensive enough to be disposable yet can be used over and over by simply cleaning after each use. Made from pure black horse-tail bristle, set in a handle with a bright, tin-plate finish

#130250	1/4" Glue Brush	4 for \$ 1.00
#13030	1/2" Glue Brush	4 for \$ 1.00
#D2026	50 Piece Assorted	\$ 9.95

"Hot Shot" Instant Glues

Very fast acting, these adhesives will bond just about everything. Carefully read the descriptions below and select the adhesive that best suits your needs. We also offer a sampler package below.

The Original "Hot Stuff" - Bonds clean and smooth surfaces. Setting time is incredibly fast at only 3 to 10 seconds.

#WHS1	1 oz.	\$ 6.40
#WHS2	2 oz.	\$ 11.10
#WHS4	4 oz.	\$ 21.10

Super "T" Glue - For filling small gaps between the surfaces to be bonded. Setting time is 10-15 seconds.

#WSUT1	1 oz.	\$ 6.40
#WSUT2	2 oz.	\$ 11.10
#WSUT4	4 oz.	\$ 21.10

Special "T" Glue - For filling large gaps and a longer open time. Setting time is about 20 to 50 seconds.

#WST1	1 oz.	\$ 7.25
#WST2	2 oz.	\$ 12.20
#WST4	4 oz.	\$ 23.35

"Hot Shot" Surface/Joint Cleaner & Accelerator - Speeds the setting time for almost instant bonding. Pump spray bottle.

#WNCF2M	2 oz	\$ 6.65
#WNCF5M	5 oz	\$ 11.10
#WNCF18M	18 oz. Refill	\$ 39.95

Ultra Super Solvent - Removes adhesives from hands, workpiece or wherever the glue was not meant to be.

#WUS2	2 oz.	\$ 6.65
-------	-------	---------

"Hot Shot" Replacement Tips - Sold per pack of 2 tips.

#WS2	\$ 2.20
------	---------

"Hot Shot" Sampler Packs - Each kit includes all three glues, 3 oz. of Accelerator, 2 oz. Solvent, 2 spouts with caps and the applicator tubing. Order by the glue quantity you desire.

#WSS1	1 oz. Set	\$ 32.95
#WSS2	2 oz. Set	\$ 46.75

Pitch and Gum Cleaner

This 18 oz. gum and pitch cleaner is great for cleaning saws, router bits, shaper cutters and other cutting tools. Very easy to use and works in minutes. Loosens build up on cutting tools so that it can be wiped away.

#SBC	\$ 5.95
------	---------

Woodworking Sprays

DriCote lets blades, bits and cutting tools work easier, and longer by coating the cutting edges with a micro-thin, extremely tough material that bonds with the metal to prevent build-up of resin and pitch.

TopCote dramatically reduces friction on

sliding parts and seals against rust and corrosion, dirt, dust, and moisture. **Bearing lubricant** allows router bit and shaper cutter bearings to stand up to heat and abuse. It can free a frozen bearing and keep dust out. All are silicone free and ozone friendly.

#204805	5.5 oz. Dricote	\$ 10.90
#204801	10.75 oz. Dricote	\$ 15.95

Rosette Cutterhead & Knives

For years, rosette cutters have been priced out of the reach of the average woodworker. That was until now! Finally, a manufacturer has taken the time to develop an affordable rosette cutter system to fill your needs. The HSS knives will produce the intricately-carved, rosettes up to 3" in diameter. Purchase the cutterhead and then select the interchangeable pattern you wish to carve. The 1/2" shank on the cutterhead is easily installed in your drill press and should be operated between 250-350 RPM for the best results.

Only **\$ 19.95 each**

Please note pattern number when ordering. Art not shown to scale.
