FAA REPAIR STATION TH4R544M— A SUBSIDIARY OF LINDEN STREET CAPITAL CORPORATION

Date: January 2017

Dear Customer,

At Floats and Fuel Cells we have consolidated a certification package for our Maintenance Repair Station. This package includes a copy of the following:

- ✓ Completed Audit Checklist
- ✓ FAA Repair Station Air Agency Certification
- ✓ Drug and Alcohol Certification
- ✓ ISO 9001 Certification
- ✓ Capability List
- ✓ Operations Specifications

Thank you for your interest in FFC. For additional information or questions contact FFC's Quality Department.

Best Regards,

Dale Rosson
Floats and Fuel Cells
Quality Manager

A	GENERAL	Yes	No	N/A	Comments
1	Does the provider hold an FAA Air Agency or Transport Canada AMO Certificate?	x			14 CFR Part 145 Air Agency Certificate
	a) Certificate # TH4R544M	x			
	b) Operation Specifications attached	x			
2	Does the Provider only perform work for which it is authorized on it's Op Spec?	x			
3	Are the person(s) directly in charge of maintenance authorized on it's Op Spec?	x			
	a) Certificates to include company employees and subcontract personnel?	x			No subcontracting allowed per RSM, ref.
4	Does the repair station observe duty time limitations?	x			

B	QUALITY ASSURANCE	Yes	No	N/A	Comments
1	Is there an established Quality Control Program?	x			
2	Does the provider have an up to date QC manual that covers the FAR manual requirements?	x			
	a) Does it detail duties, responsibilities and reporting	x			
	b) Is the manual current and available to employees in acceptable formats: i.e. paper, CD Rom, intra net?	x			
3	Does the provider have an internal audit and surveillance function?	x			
	a) Do you have an established schedule?	x			
	b) Is there an established procedure to provide corrective actions for discrepancies?	x			
	c) Is there evidence appropriate corrective actions have been applied when necessary?	x			
4	Do you maintain a file of audit findings and corrective actions for 3 years?	x			
5	Does the provider have an established procedure to ensure segregation of military and commercial parts/ components?	x			
6	Does your company maintain an approved vendors list?	x			
	a) Do Receiving Inspection and Purchasing Department receive copies of the approved vendor's list?	x			
7	Does the provider have a procedure for reporting defects or nonairworthy conditions to the FAA concerning significant findings within 96 hours of the discovery?	x			

C	INSPECTION	Yes	No	N/A	Comments
1	Does the provider use appropriately licensed/authorized maintenance personnel to sign the maintenance releases, airworthiness releases, inspections, etc. Such personnel shall have met the applicable authority requirements?	x			
2	Does the provider ensure a proper separation of maintained and inspection responsibilities if they perform required inspections?	x			
3	Does the provider maintain an up to date roster of persons authorized to conduct required inspections and any restrictions imposed?	x			
4	Does the provider maintain a roster that identifies all personnel authorized for return to service?	x			
5	Does the roster maintain a roster identifying all supervisory and inspection personnel?	x			
6	If stamps are used, is there an acceptable system for the control of stamps for authorized personnel?			x	No stamps used.
7	Does the provider have an acceptable receiving inspection program?	x			
	a) Does the provider have an acceptable procedure to identify customer parts?	x			
	b) Does the provider inspect and maintain traceability certification on all parts and raw materials?	x			
	c) Are incoming shipments checked to the requirements of the Repair or Purchase order?	x			
	d) Are inspected items properly segregated from material awaiting inspection?	x			

D	TECHNICAL DATA	Yes	No	N/A	Comments
1	Is a specific individual by title responsible for the Technical Publications Program?	x			
2	Does the Technical Publications department maintain a record of all manual revisions?	x			
3	Does the provider have the required technical data and or publications and the specification to perform the repair/overhaul OEM specifications?	x			
4	Are there established approved procedures controlling revisions in manuals deviating from OEM specifications?	x			
5	Are components overhaul manuals properly identified and available to all maintenance /QA personnel?	x			
6	Is there a system to control working copies of manuals to ensure they are revised with the master?	x			
7	Is technical data stored in a manner that will protect it from dirt and damage?	x			

E	CALIBRATED TOOLS	Yes	No	N/A	Comments
1	Does the provider have a calibrated tool program?	x			
2	Is a specific individual by title responsible for the Calibrated Tooling Program?	x			
3	Are all tools that require calibration on the Calibrated Tool List?	x			
4	Are all tools calibrated to NIST standards?	x			
5	Is there a system to identify each tool in the program, it's calibration frequency and it's calibration due date?	x			
6	Does the provider have a procedure for controlling and/ or preventing out-of-service and due-for-calibration tools and equipment from being used?	x			
7	Does the provider have a procedure to control the calibration of employee owned tools and gauges?	x			
8	Did a sample check of tooling indicate that the tooling is within calibration?	x			
9	Are the tools in serviceable condition, clean, and properly stored?	x			
10	In a sample comparison of the tools to the master tool list, did the due dates, P/N, etc. match?	x			
11	Do the records:	x			
	a) Show the date calibrated?	x			
	b) Identify vendor that performed calibration?	x			
	c) Show calibration due date and frequency?	x			
	d) Details of adjustments and repairs?	x			
	e) Show P/N and S/N of the standard used?	x			

F	MATERIALS/ PARTS/ SUPPLIES	Yes	No	N/A	Comments
1	Is access to stock room and material storage areas controlled to prevent unauthorized stocking or removal?	x			
2	Does provider have a quarantine area for rejected parts awaiting disposition?	x			
3	Does your company have a documented procedure to assure that scrapped parts are either returned to the customer or mutilated beyond repair?	x			
4	Do you maintain a record of all life limited parts that are scrapped for two years?	x			
5	Does the record include that part number and serial number of the part and the date scrapped?	x			
6	Do the parts in bins, plastic bags, etc., match the part numbers on the containers?	x			
7	Does the provider handle any ESD parts?			x	No ESD Parts
8	Are sensitive parts and equipment (O-rings, oxygen parts, ESD devices, etc.) properly packaged, identified and stored to prevent damage, contamination, electrostatic discharge and/or loss?	x			
9	Are controls adequate to properly segregate customer furnished material to assure its use in the intended end items?	x			
10	Are flammable, toxic or volatile materials properly identified and stored?	x			

11	For non-aircraft parts, materials and/or maintenance activities, are they adequately segregated from the aircraft function?	x			
12	Are high pressure bottles correctly labeled and properly stored and secured?	x			
13	Does the Repair Station provide material/parts certifications with every shipment?	x			

G	SHELF LIFE PROGRAM	Yes	No	N/A	Comments
1	Does the provider have a documented shelf life program?	x			
2	Does the program assign program responsibility to a specific person?	x			
3	Does the program list parts and materials that have shelf life limits?	x			
4	Does each shelf life item have the shelf life expiration limit displayed and is the item properly identified?	x			
5	Is there an adequate system to assure that no item will be issued or used past its expiration date?	x			
6	Were items sampled for shelf life within limits?	x			

H	TRAINING	Yes	No	N/A	Comments
1	Does the provider have a documented training program?	x			
2	Does the provider have sufficient training facilities/space and instructors, either employed or contracted?	x			
3	Does it include all mechanics, inspectors and technical supervisors?	x			
4	Does the training program employ a scheduling method that assures all required initial training is accomplished and recurrent training is accomplished on time?	x			
5	Are accurate files kept that contain all training certifications, OJT records and copies of certificates?	x			
6	Are special authorizations such as inspection and airworthiness releases identified and documented?	x			
7	Are training records for mechanics, inspectors and supervisors retained for two years after the person leaves the company?	x			
8	Does the Training Program include training in the knowledge and skills related to human performance?	x			
9	Does the Training Program assure maintenance personnel with technical responsibilities have the requisite knowledge of regulations, standards and procedures?	x			
10	Does the Training Program include a training and qualification program for auditors used in the QA Program?	x			

I	FACILITIES	Yes	No	N/A	Comments
1	Does the facility meet all of the requirements for housing facilities and capabilities for work to be performed?	x			
2	Overall, are the work areas, shops, hangar and offices clean and orderly?	x			
3	Does your company provide adequate security for customer parts in its possession?	x			
4	Is the security system reviewed periodically by management or an outside vendor?	x			
5	Are components returned in an appropriate shipping container or as specified by the customer?	x			
6	Are "No Smoking" areas clearly identified and is the provider in compliance with its State laws regarding authorized locations?	x			
7	Are there sufficient fire extinguishers, inspected annually by the Fire Marshall or supplier and are monthly checks completed by provider management?	x			
8	Are fire stations identified and can one be found easily from any work location?	x			
9	Are fire lanes, doors, alarms, blankets, hoses, axes and extinguishers clear of obstructions?	x			
10	Are safety guards in place on power equipment and is there evidence of periodic cleaning and inspections of the equipment operations?	x			
11	Does the provider maintain shop personnel safety records?	x			
12	Are parts and materials properly identified and stored to prevent accidental falls, slips and trips?	x			
13	Are oil and all liquid 55 gal drums kept in a containment area after opening to prevent spills into the sewer/waste water system?	x			
14	Are oil and other liquid 55 gal drums (non-plastic) properly grounded to prevent the possibility of sparks?	x			
15	Are spill kits or equivalent available for use?	x			
16	Are there sufficient eye wash stations which are clearly marked, clean and inspected routinely?	x			
17	Do stands & ladders have the maximum weight placards or markings and the last inspection dates?	x			
18	Are electrical boxes clearly identified and free from obstruction to access the doors?	x			
19	Are oxygen and other high pressure bottles properly identified & stored, secured with chains or equivalent?	x			
20	Are first aid kits clearly identified?	x			

J	STORAGE	Yes	No	N/A	Comments
1	Does the provide have a facility of adequate size to house all necessary tooling, equipment, materials and parts?	x			
2	Does storage adequately protect parts, materials and customer's units from damage, theft and contamination?	x			
3	Is the environment appropriate to protect workers so the quality of the workmanship is not impaired?	x			
4	Do the facilities storage areas have adequate lighting?	x			
5	5 Is the storage separate from shop and work areas?	x			
6	Do shipping and receiving areas have adequate space, lighting, shelving, security and fire protection?	x			
	a) Is there space to safely store suitable shipping containers and protect them from damage?	x

Memphis, TN 38118

Dear Ms. Hogenbirk:

We have processed your program registration renewal and a copy is enclosed. Your Registration number, **CONN671B**, has not changed.

Your program registration includes the following certificated repair stations or locations:

Name	Certificate #	Location
FFC Services Inc.	N2RR559Y	Memphis, TN
Floats & Fuel Cells	TH4R544M	Memphis, TN

To complete your registration process, please contact your FAA Principal Maintenance Inspector and request that an "A2" and your registration number are added to Table 1 of the drug and alcohol paragraph (A449) in each repair station's Operations Specifications.

Please note that your registration will **expire on February 5, 2019** and we request that you submit a Renewed Registration prior to the date.

If you have any questions, please contact our office at (202) 267-8442 or drugabatement@faa.gov.

Sincerely,

Tainisha Esco

Subject: Renewal of EASA Part-145 approval
Reference: L6/Rev 1/EASA.145.4448/FAA.TH4R544M
Attachment: EASA Part-145 approval certificate

Dear Sir or Madam,

Following a positive recommendation from the **FAA** the European Aviation Safety Agency hereby confirms the renewed validity of your EASA Part-145 approval until **01 February 2019**, subject to continued compliance with FAR 145 and the EASA special conditions in accordance with the Agreement between the United States of America and the European Community on Cooperation in the Regulation of Civil Aviation Safety and the Maintenance Annex Guidance (MAG):

Floats and Fuel Cells

EASA Part-145 Approval certificate reference number:

EASA.145.4448

You are reminded that you will be required to submit your next renewal paperwork package in accordance with the MAG which is available on our web site at www.easa.europa.eu.

Yours faithfully,

Karl Specht

U.S. APPROVAL CERTIFICATE

EASA.145.4448

Taking into account the provisions of Article 12 of Regulation (EC) 216/2008 of the European Parliament and of the Council and the bilateral agreement currently in force between the European Community and the Government of the United States of America, the European Aviation Safety Agency (EASA) hereby certifies:

Floats and Fuel Cells

FAA NUMBER: TH4R544M

3615 Air Park

Memphis, Tennessee 38118

United States of America

as a Part-145 maintenance organization approved to maintain the products listed in the FAA Air Agency Certificate and associated Operations Specifications and issue related certificates of release to service using the above reference, subject to the following conditions:

1. The scope of the approval is limited to that specified on the 14 CFR part 145 repair station Air Agency Certificate, and the associated Operations Specifications for work carried out in the United States (unless otherwise agreed in a particular case by EASA).
2. The approval scope shall not exceed the permitted EASA Part-145 ratings as detailed in Regulation EC (No) 1321/2014.
3. This approval requires continued compliance with 14 CFR part 145 and the differences as specified in the Maintenance Annex Guidance (MAG), including the use of the FAA Form 8130-3 for release/return to service of components up to and including power plants.
4. Certificates of return to service must quote the EASA Part-145 approval reference number quoted above and the 14 CFR part 145 Air Agency Certificate number.
5. Subject to compliance with the foregoing conditions, this approval shall remain valid until:

01 February 2019

unless the approval is surrendered, superseded, suspended or revoked.

Date of issue: **30 March 2017**

Signed

For EASA

FAA Approved Repair Station TH4R544M
Capability List

This capability list provides compliance with the requirements outlined in 14 CFR §145.215. This list provides a supplement to the FFC Repair Station Operations Specifications that indicates the articles this repair station is authorized to perform maintenance, preventive maintenance, or alterations under the relevant ratings.

Revisions to this Capability List will be performed consistent with the Repair Station Manual requiring "Acceptance" by the local FAA FSDO. Before additions are made to this list, the Director, Quality Assurance will ensure this repair station has adequate housing, facilities, equipment, material, technical data, processes, and trained personnel in place to perform the work on the article as required by part 145.

LEP/ Record of Revisions:

Memphis, Tennessee 38118

b. The holder of these operations specifications is the holder of certificate number TH4R544M and shall hereafter be referred to as the "certificate holder".

c. These operations specifications are issued as part of this repair station certificate and are in effect as of the date approval is effective. This certificate and these operations specifications shall remain in effect until the certificate for a repair station that is located in the United States is surrendered, suspended, or revoked.

d. The repair station specified on these operations specifications and located within the United States performs maintenance and/or an alteration of aircraft and/or aeronautical products to be installed on aircraft under the terms and conditions of the U.S./EU Safety Agreement, Annex 2, Maintenance, between the FAA and the EU.

e. The certificate holder is authorized to use only the business name which appears on the certificate to conduct the operations described in subparagraph a.

Delegated authorities: None

1. Issued by the Federal Aviation Administration.
2. These Operations Specifications are approved by direction of the Administrator.

A002 . Definitions and Abbreviations

HQ Control: 02/11/2016

HQ Revision: 05c

Unless otherwise defined in these operations specifications, all words, phrases, definitions, and abbreviations have identical meanings to those used in 14 CFR and 49 U.S.C., as cited in Public Law 103-272, as amended. Additionally, the definitions listed below are applicable to operations conducted in accordance with these operations specifications.

BASA	The Bilateral Aviation Safety Agreement (BASA) is an executive agreement concluded between the United States and a foreign country for the purpose of promoting aviation safety; also known as an Agreement for the Promotion of Aviation Safety.
Certificate Holder	In these operations specifications, the term "certificate holder" means the holder of the repair station certificate described in these operations specifications in Part A paragraph A001 and any of its officers, employees, or agents used in the conduct of operations under this certificate.
CFR	Code of Federal Regulations
Class rating	As used with respect to the certification, ratings, privileges, and limitation of aircraft within a category having similar operating characteristics.
EASA	European Aviation Safety Agency
EASA Accountable Manager	The manager who has corporate authority for ensuring that all maintenance required by the customer can be financed and carried out to the standard required by the EASA full-member Authority.
EU	European Union
Exemption	An authorization that permits an alternate means of compliance with a specific CFR. The exemption must meet the procedural requirements of 14 CFR Part 11.
FOCA	Federal Office of Civil Aviation
FAA Accountable Manager	A person designated by the certificated repair station who is responsible for and has authority over all repair station operations that are conducted under 14 CFR Part 145, including ensuring that the repair station's personnel follow the regulations and serving as the primary contact with the FAA.
Geographic	An approval provided to a repair station located outside the United

Authorization	States to perform maintenance support under contract for a U.S. air carrier (or an operator of U.S.- registered aircraft under 14 CFR Part 129) at a location other than the repair station facility. A geographic authorization is issued by the FAA to respond to a U.S. air carrier's or Part 129 foreign operator's need for maintenance at a station where the frequency and scope of that maintenance does not warrant permanently staffing and equipping the station for its accomplishment.
Limited Rating	A rating issued to repair stations for the performance of maintenance on particular makes and models of airframes, powerplants, propellers, radios, instruments, accessories, and/or parts.
Limited Ratings - Specialized Services	Rating issued for a special maintenance function when the function is performed in accordance with a specification approved by the Administrator.
Line Maintenance	Any unscheduled maintenance resulting from unforeseen events, or scheduled checks where certain servicing and/or inspections do not require specialized training, equipment, or facilities.
MAG	The Maintenance Annex Guidance (MAG) defines the process that the FAA and EASA undertake in the inspection, findings of compliance certification, and monitoring of repair stations, as well as their joint cooperation in quality assurance and standardization activities in support of the Agreement, Annex 2, Maintenance.
Maintenance	The inspection, overhaul, repair, preservation, and replacement of parts, but excludes preventive maintenance.
U.S./EU Aviation Safety Agreement, Annex 2, Maintenance	Annex 2 covers the reciprocal acceptance of findings of compliance, approvals, documentation and technical assistance regarding approvals and the monitoring of repair stations/maintenance organizations.
MIP	Maintenance Implementation Procedures (MIP) are procedures for implementing the provisions of a BASA that apply to maintenance.
MOE	A maintenance organization exposition (MOE) pertains to EASA member countries that use an MOE in place of a Repair Station Manual (RSM) and a Quality Control Manual (QCM).
Preventive Maintenance	As defined in 14 CFR part 1 and part 43 appendix A, subparagraph (c).
QCM	Quality Control Manual
Repair Station located in the United States	A certificated repair station located in the United States.

Repair Station located outside the United States A certificated repair station located outside of the United States.

A004 . Summary of Special Authorizations and Limitations

HQ Control: 09/23/1998

HQ Revision: 010

a. The certificate holder, in accordance with the reference paragraphs, is authorized to:

	Reference Paragraphs
Conduct operations choosing to have an antidrug and alcohol misuse prevention program.	A449

b. The certificate holder is *not authorized and shall not*:

	Reference Paragraphs
Use Exemptions.	A005
Use an acceptable electronic recordkeeping system, electronic/digital signature, and/or electronic media.	A025
Perform maintenance with EASA ratings where the scope of work is authorized by a BASA/MAG (U.S.-EU), MIP/MaG (U.S.-Swiss).	A060
Perform work, including continuous operations, at additional locations other than at its primary fixed location.	A101
Perform maintenance in accordance with foreign repair station geographic authorizations.	B050
Perform work, excluding continuous operations, at additional locations other than at its primary Fixed Location.	D100
Perform line maintenance for cert. holders conducting operations under Parts 121 and 135 and for foreign carriers/persons operating non-U.S. registered aircraft in common carriage under Part 129, apart from D100 which authorizes that work away from station.	D107

A449 . Antidrug and Alcohol Misuse Prevention Program

HQ Control: 07/17/2009

HQ Revision: 00a

- a. The Part 145 repair station certificate holder has elected to implement an Antidrug and Alcohol Misuse Prevention Program, because the certificate holder performs safety-sensitive functions for a 14 CFR Part 121, and 135 certificate holder and/or for a 14 CFR Part 91 operator conducting operations under Section 91.147.
- b. The certificate holder certifies that it will comply with the requirements of 14 CFR Part 120 and 49 CFR Part 40 for its Antidrug and Alcohol Misuse Prevention Program.
- c. Antidrug and Alcohol Misuse Prevention Program records are maintained and available for inspection by the FAA's Drug Abatement Compliance and Enforcement Inspectors at the location listed in Table 1 below:

Table 1

Location & Telephone of Antidrug and Alcohol Misuse Prevention Program Records:	
Telephone Number:	A2 CONN671B
Address:	3615 Air Park Street
Address:	
City:	Memphis
State:	TN
Zip code:	38118

d. Limitations and Provisions.

- (1) Antidrug and Alcohol Misuse Prevention Program inspections and enforcement activity will be conducted by the Drug Abatement Division. Questions regarding these programs should be directed to the Drug Abatement Division.
- (2) The certificate holder is responsible for updating this operations specification when any of the following changes occur:
 - (a) Location or phone number where the Antidrug and Alcohol Misuse Prevention Program Records are kept.
 - (b) If the certificate holder's number of safety-sensitive employees goes to 50 and above, or falls below 50 safety-sensitive employees.
- (3) The certificate holder with 50 or more employees performing a safety-sensitive function on January 1 of the calendar year must submit an annual report to the Drug Abatement Division of the FAA.
- (4) The certificate holder with fewer than 50 employees performing a safety-sensitive function on January 1 of any calendar year must submit an annual report upon request of the Administrator, as specified in the regulations.

1. Issued by the Federal Aviation Administration.
2. These Operations Specifications are approved by direction of the Administrator.
