Transcon's Absentee Buyer Representation

The Transcon Team is available to anyone that cannot personally attend to confidentially appraise, bid and buy on your behalf. This service is conflict-free as we are not paid any buying incentive fees by the sellers and we are not active Simmental breeders. This service is also provided free of charge to all prospective buyers. Please call our cell phones for any assistance you may require.

Visa or MasterCard Payments

There is a 3% administration fee on all Visa or MasterCard purchases applied to the buyer's invoice.

TRANSCON'S COWBOY CHRISTMAS

Enjoy some Christmas shopping before and after the sale from Transcon's "Cowboy Christmas" market!

Featuring these small businesses

ULTIMATE
Red & Black
XXIII SIMMENTAL SALE

SUNDAY, DECEMBER 20TH 2020 • 1:00 PM • WESTERNER PARK • RED DEER, AB

We are absolutely thrilled with the large youth movement that make up this year's "Red & Black" Sale. As a business owner, it's very encouraging to see these future breed leaders step to the plate to showcase themselves and their breeding programs in a high profile, friendly and welcoming sale such as this. We have always tried to send warm welcoming vibes out to Simmental breeders that we think we've created an event that will accommodate any level of breeder, regardless of cowherd size and years of experience. It looks like the message transpired to many and it makes for a very exciting future outlook for this sale that is already well rooted with a successful, no-nonsense reputation! The sale veterans have a great addition with a bunch of youthful enthusiasm to compliment their efforts in 2020 and beyond!

It's always a great "trifecta" of sales happening at Westerner Park in Red Deer just on the verge of the Christmas Holidays! There is a great positive atmosphere during the National Trust, Fleckvieh Equation and Ultimate Red & Black Sales that you will surely want to experience. The cattle will be display-ready from Friday on through to sale time on Sunday, stop by for a look ahead of time if you're in the area.

We are always available to assist any of you with any bidding/buying assistance you may require, feel free to call our cell phones listed to access this free service.

Merry Christmas,

Jay Good

SMRT LIVESTOCK

Lot 1

7/8. HOMO POLLED, HOMO BLACK.

We are pleased to be offering a bull of this quality and performance as our feature this year. He is one that has been a favourite of ours throughout the summer. This bull possesses a ton of bone and maturity in a very fluid sound package. If you're looking to improve hair on your cattle in a hurry, this guy will get it done. 1H has a birthweight of 82lbs, and is bold ribbed and deep bodied. It is hard to ignore the amount of natural muscle shape and width on his topline that carries right into his hip. 1H goes back to our donor cow DTD Honey Boo Boo 347A (RF Torque 6W) that we purchased from Russell Sevcik in 2013. She went on to win Overall Supreme Commercial at Summer Synergy in 2016 as a three year old pair. We decided to do a flush to JF Back in Black 406B on her and we have not been disappointed. 1H's dam is the result of the flush, and is a super nice maternal cow that has a beautiful udder attachment and is smooth in her structure, yet remains deep bodied and feminine. We had the opportunity to purchase semen interest on Bold Venture in 2019 as a group from Kersten Cattle in Nebraska. 1H goes back to the influential BF Crysteel Tango cow family and High Voltage, who have both made an impact on the Simmental industry. 1H is a royal bred maternal machine, and we are confident that he will sire calves that will be high performing and maternal. When bred with purebred females, he will make purebred heifers and 7/8 bull calves.

A red blaze face Simmental bull calf that really checks all the boxes when searching for a new herd sire. Soggy middled, stout hipped while still being very sound when he's set in motion. The cow family underneath this bull calf is exceptional. With his dam at 8 years of age and grand dam at 10 years of age. Both are very functional, low maintenance and remarkable females still in production. This guy is everything we expected out of this mating to Epic.
Homo Polled. Diluter Free.

We are excited to market our females at Transcon's Red & Black again! 2020 has been a crazy year and we hope all of our fellow producers have stayed safe and healthy and haven't gone too stir crazy!

We want to thank our customers for another year in trusting our always evolving and improving program and are so thankful for this amazing breed we are involved with. We invite you all to swing by our stall for a visit and a beverage in the sale barn.

Merry Christmas to our customers and fellow producers and we wish everyone the best in 2021!

Another 14E daughter with a ton of substance and super sound foot! Her dam, 251A, was purchased by Jason and Ty from Skor Simmentals as a calf and she's been a great producer.

This powerhouse female will be a great asset to any black program and we are excited to see what she does in her future in new hands!

Exposed to DANA Mr Westway 76G April 7 - Sept 1

*AI services on breds are assumed but not yet confirmed. Will be confirmed Nov. 25/2020

Lot 4

Owned by Ty-D Livestock, JK Bar Cattle and Connor Njaa

14G is the first daughter had by 744E, the \$17,500 Merchant daughter purchased from Rancier Farms in 2017.

This girl is total show cow material. With an extremely sound foot and a beautiful front in addition to the huge potential for the picture perfect udder her mother carries, we think this female would look great in the show ring with a calf at side and become your next great donor cow!

AI'd to Boone Pickens March 29. Exposed to Ty-D's Sunshine 1G April 7 - July 1

This sweet calf has a ton of pedigree to back her up and hits the top 2% in WWT and YWT.

Out of RF Drama Queen 744E, a female we purchased as a calf in the 2017 CWA Simmental sale for \$17,500.

744E boasts an immaculate udder and foot and we have no doubt 17H will carry the same assets along with the incredibly fancy look she already radiates. Show her and snag some banners then bring her home to produce great ones and be your next donor female.

Lot 5

LOT 5 AT LLOYDMINSTER STOCKADE ROUND-UP

1H is out of a Sheriff first calf heifer purchased from Willerton Simmentals as a calf. Her sire is an industry leader in spectacular EPDs and 1H follows suit with great numbers. She hits the top 3% in CE and the top 4% in BWT. 1H is cool made in type and extremely docile. We are confident she will make a great addition to any program who wants to add a fancy red female with fantastic numbers!

Welcome to Red and Black! We are very excited to return to Simmental weekend and be a part of this event. Each year, this weekend is one we save on our calendar because it marks the coming together of our breed in the most valuable way. The opportunity to access some of the best genetics in the industry will be yours and we look forward to visiting with you about our offering. Each of the females coming to Red Deer come from the top of our pen. We've worked hard to combine some of the most exciting sires in the breed with our most consistent cow families. We believe in selling the females we are going to miss having at home and know they'll do a great job in your program. We know coming together can present challenges this year so please get in touch anytime to see the females prior to the sale. Videos will be available. We look forward to visiting with you in Red Deer!

City View Haley 32H ranks among the most exciting females we have offered to date. Direct from the first calf crop of the widely regarded Tycoon, this baldy female is elite in so many ways. Tycoon worked exceptionally well in our program and his first sons along with heifers in the replacement pen are highlights this fall. Her actual performance combined with a shot of fleck on the mother's side make her a slam dunk as a mother cow but her supremely attractive look add to her versatility as a show heifer as well. It's taken a lot of arm twisting for her to be here because the kids have been set on keeping her for themselves. Haley has an exemplary foot, is homozygous polled and is perfectly sound in structure and design. This is one we can't say enough things about and one we're sure to regret offering here for years to come.

City View Harriet 14H is one of your first opportunities to add a Swayze female to your arsenal and she's a great one! Her maternal sister sold through Red and Black to Rose Hill Simmentals before going on to be Reserve Supreme Female at the Prince Albert Regional and a maternal brother sold this spring through our bull sale. Harriet is a real beauty with all the underpinnings of a great female much like her hardworking mama who stems from the Raven cow family; a group we consistently rank among our best. 14H is really beautiful in her design, good haired and sweet to be around. She is homozygous polled and black and we feel she's an ideal candidate to be a junior project with a bright future once her show career wraps up.

CITY VIEW 127T RAVEN 566C DAM OF LOT 12

Lot 13

CITY VIEW 127T RAVEN 55Z GRAND DAM OF LOT 13

City View Raven 11G is a royally bred female with a world of future and one we simply can't say enough about. A direct daughter of the 2019 Agribition Reserve Champion bull, The National, Raven comes directly from our most cherished cow family. The Raven name is synonymous with big time cow power in our program and 11G is, without doubt, going to carry on that tradition. She is moderate framed, boldly constructed, has an attractive baldy face and a great disposition to boot. A maternal brother sold through our bull sale and a sister is in our replacement pen. Homozygous polled and black, she sells safe to our new red calving ease prospect, IPU Approval 101G for a February baby. City View Raven 11G will be easy to find sale day and a smart piece of business will be getting her bought.

Exposed April 23 - June 5 to IPU Approval 101G. Preg tested 35 days bred on June 12.

City View Queen 8G is a big bodied, stout made female who's setting down a beautiful udder with an exceptional foot under her. We are so excited about our National females! They're stamped with a real mother cow look just like Queen 8G. This homozygous black stunner ranks in the top 3% of the breed for both weaning and yearling values and is well balanced in other traits. Her early mating to Limitless should be an ideal combination and yield powerful results right out of the gate.

AI bred April 8 to WHF Limitless B011. Exposed April 23 - June 5 to IPU Approval 101G. Preg tested safe to AI breeding.

Lot 14

MADER THE NATIONAL 43E SIRE OF LOTS 13 & 14

City View Kelsey 38G is a highly appealing Bounty Hunter female who comes complete with all the bells and whistles of an ideal mother cow. We appreciate the udder, foot quality and disposition that are bred in. Her Riddler mother offers all the same traits. 38G is bold in her construction with a beautifully feminine front third. We are really excited about the potential that exists in the package combined in the homozygous polled and black City View Kelsey 38G. Her power pedigree lends itself to a huge variety of matings that are sure to click time and time again. Big time return on investment will be yours with this tremendous female!

AI bred April 6 to WHF Limitless B011. **Exposed** April 23 - June 5 to IPU Approval 101G. Preg tested safe to AI breeding.

WHF LIMITLESS B011 SERVICE SIRE TO LOTS 14-16

City View Diva 32G is an exceptionally long bodied daughter of the popular Bounty Hunter with a picture perfect udder coming into shape. We can't say enough about the job Bounty Hunter has done making females in our herd and his sons were well received in our bull sale as calving ease prospects. Diva's dam was purchased through the Simmsational event and has matured into an attractive, well uddered mother cow. Diva is safe to Limitless and the results, red or black, will be homozygous polled by parentage and exciting!

AI bred April 8 to WHF Limitless B011. **Exposed** April 10 - June 5 to City View Firestorm 115G. Preg tested safe to AI breeding.

Welcome to Transcon's Red and Black sale. We are very excited to be a part of this group for the first time. We've brought a small group of what we feel are a good representation of our purebred heifers in our herd and we are very proud of them. All heifers have been vaccinated with Express 5, Covexxin, and Presponse HM as well as their first dose of scour guard and dewormed with Bimectin.

Lot 17

Georgina is by far the thickest heifer in the pen and has been since she was a calf. This delightful female has the best disposition and goes back to a family of thick, deep, solid bodied females with great udders and longevity. Since she is a half sister to our purebred heifer bull she's bred to our polled fullblood heifer bull who we have used with great success for 3 years now.

Exposed Keato Pld Directors
 Cut 21D March 29-May 25. Preg checked safe likely to mid to late January calving.

One of our Swantewitt Cayenne daughters. We calved out our first set of these girls last winter and were very impressed with them. Consistent females with great udders and maternal instinct. Our Cayenne bull is loaded with thickness and calving ease coming from a cow line with perfect feet and udders. Gumdrops dam is also a very sound, moderate framed female who comes from a cow family known for longevity and fertility.

Exposed to Swantewitt 90 Proof 31F March 28-June 6. Observed bred April 5. Preg checked safe likely to breeding date.

Hello, and welcome back to Red and Black XXIII! First off I would like to send a big thank-you to everyone who has supported me and stopped by for a pasture tour this summer. This offering represents the very top of my small herd but, I can assure that you will be impressed when you lay eyes on this fine set of females I have on offer. If you have any questions please feel free to give me a call and I'd be glad to give you the answers. I look forward to seeing you on sale day!

CARPS LADY GRACKLE 845G is a big long bodied, wide topped, deep sided, big ribbed female. This heifer strides out smoothly and has four evenly sized teats. Her dam goes back to Kindred Spirit Ultra 10A who is a descendent of the great Grinalta's HP Ultra FF940 and her sire NUG Royal Red 324A needs no introduction. She is carrying service to TJSC Boone Pickens 46C who is the one of the most exciting black baldy bulls on the market. This red baldy female will make a great brood cow that everyone needs with her first calf destined to carry some chrome.

AI bred to TJSC Boone Pickens 46C on April 11. Vet certified safe to AI date on October 27.

Due January 19, 2020.

CARPS HAVANA 876H is about as smooth fronted as they can get. She has a long neck extension and body to match. Don't let that little bit of white on her underline throw your eye off. This heifer has balance and eye appeal and caught our attention all summer and to top it off she has loads of performance. Her dam came out of the South Holden Dispersal sale last fall. She is naturally docile and I was fortunate enough to get to show her at the only major show of this fall, Stockade Roundup. HAVANAH would make a great junior prospect

CARPS HOT LIPS HOULIHAN 890H has future potential written all over her. She is long spined and soft sided and loose hidied. When you get in behind her she is wide through her hooks and over her topline. She is full in the heart girth and carries the fullness through her rib. She is structurally correct on her feet and legs and strides out smooth. She is sired by the famous Mr HOC Broker. You'll appreciate this heifer more after you seen her in person. She is halterbroke but better suited for an experienced showperson with a soft hand.

A cherry red Missile daughter that is long bodied and smooth made with lots of size. This is the type that can crank out herd bulls. She is built very similarly to her dam BEE Luster who weaned off the heaviest bull this past year who continues to lead the pen in performance. Revolution descendants are extremely productive cows with strong maternal abilities. Afterglow's grand dam came out of a past Camrose Country sale as the high seller and has put lots of top sons into the bull sale. Carrying a service to the FarmFair Supreme Champion Harvie Red Summit for an exciting January calf.

APd April 4, 2020 to Harvie Red Summit 54B PG801201.

Exposed to PWK Cliffhanger 18C
PG1139389 April 11 to May 25. Ultra-sounded safe to AI.

BEE LUSTER 553C DAM OF LOT 29

Cali is a daughter of the great RF/Rust Stimulus bull whose genetics are some of the most proven and predictable in the breed. We jumped at the chance to purchase a semen package on this bull to incorporate the influence of his mother 404B and granddam 202Z into our program. Cali is a long lined angular female with an impressive top and hind end. She is dropping what looks to be a correct udder. Her dam is a pasture feature that continually gets pointed out with her tremendous mass and beautiful udder structure. A unique breeding to the Skor Challenger bull whose ability to mix calving ease with growth and muscle shape has made him popular.

AI'd March 27, 2020 to Skors Challenger 31E PG1219567.
Exposed to PWK Cliffhanger 18C PG1139389 April 11 to May 25. Ultra-sounded safe to AI.

KOP MS TRACKER 49X MATERNAL GRAND DAM OF LOT 31

This brood cow prospect is wide made with incredible rib shape and dimension. She is moderately built with a strong quarter and lots of hair. Her dam is an impressive young female tracing back to the great producing 49X cow who was the high selling lot out of the Kopp Farms Dispersal. Blue Chip was purchased to add maternal ability through the influence of the infamous Liner 56U and his first set of daughters did not disappoint with strong production this past year. She's bred to our proven calving ease specialist PWK Cliffhanger whose calves have proven to be popular year after year.

Bred March 27, 2020 to PWK Cliffhanger 18C PG1139389.
Exposed to same April 11 to May 25. Ultra-sounded safe to observed breeding.

Here is a sweetheart of a heifer who was my pick of the heifer calves last fall. She is big enough to notice and the more you look the more you appreciate her depth and thickness. She is a copy of her dam who we sold bull calf from and her heifers that have been retained in our herd. She is hard to part ways with but I expect this heifer to be very productive in any herd she joins.

This heifer comes from a cow that we selected from the Beagle Simmental Dispersal whose first bull calf was retained by us to use in our herd. This heifer has a lot of length to her and caught on her first service. Both of these red heifers are sired by Tymarc Digger who has really made his mark in our herd as well as the bull pen. He is a smooth made bull with a ton of length and calving ease.

Polled and color test pending

Our first female offering and we brought our best to town. Heather is a soft made, stout topped, big hipped female with an abundance of hair. She travels on a sound leg with excellent foot shape and enough flex through her hock and pastern. Heather's dam was purchased through this very sale from SIBL Simmentals and is a fault free female. Terrific udder quality, excellent feet and attractive made. Her sire was a \$15,000 bull that CRM Simmentals purchased from SIBL and we have been fortunate to utilize him in our breeding program as well. BLI Echelon 706E sires quality regardless of what females he has been used on, they are big middled, heavy muscled, sound structured cattle that perform well in the pasture and on feed. Heather patterns very similar to her dam at this age and we feel that with her sound structure and proven pedigree she will be an asset to her new owner.

I am so proud to consign the first ever Skyline Simmentals females in the Red and Black female sale. These females have put their time in and are ready to go into any herd. These are the top picks from the bred heifer pen, and I hope they meet your standards. I am very proud to be a part of such an amazing breed and cannot wait to see what the future holds for these Skyline Simmentals females! Check us out on Facebook for more pictures of the females!

Lot 36

Homo Polled Georgia has been as thick and stout as they come since she came out of the cow. She has the best temperament you could ask for. She's not only stout in her makeup, but she's also wide over the top, and long in her spine. I love the way this female moves when she walks. She is very clean in her build and fancy as you can get in her front end. It's hard to find a flaw with this one. It's going to be hard to see Georgia leave the farm but I know she will reach new levels at her new home.

Homo Polled Ginney is hard to pick apart. She has some size to her but you cant tell because she is so thick throughout her makeup. She is very deep and soggy in her middle and has the natural muscling in her hind quarters that you know she is going to pass on to her calves. This solid footed female is bred right, and built better. When you get in front of her you will realize the power she holds as she is wider than your coffee table. She has a great disposition and will produce bulls you will be proud to sell.

As our purebred herd continues to grow we have decided it's time to offer some of our female Simmental genetics. We AI our Simmental Cows to bulls that amplify correctness. We want to raise calves that are smooth shouldered, thick and have a foundation foot on them, all things we look for when selecting our own replacements. In 2019 we purchased a semen interest on LKCC Bold Venture 194F a bull we admired right away for the foot, structure and style he had to him. Bold Venture received a lot of attention in the show ring in 2019 and has made our job of marketing his first crop of calves easier. We are very excited to offer these two Bold Venture daughters for the choosing and look forward to showing off their brothers in March at the Red Deer County Bull Sale.

Hollie 7H is a high volume big bodied, good footed powerhouse heifer calf. This is the type of female that will follow in her dam's shadow of longevity and performance. She had an actual weaning weight of 828lbs at the beginning of September and hasn't stepped off the breaks. 7H will make a great female in any herd, she is sure to raise some herd bulls!

Harlee Quin 20H is more moderate heifer calf with a lot of style. She is long bodied, pretty fronted and very structurally correct. We bought her dam out of the Western Harvest Female sale in 2015 from Czech-Mate Livestock and she never disappoints. She raises us beautiful heifer calves and good bull calves every year. 20H's dam has an awesome udder and you can already see that 20H will develop the same way.

that over time has been built into a Purebred/Percentage Simmental herd. We heavily utilize embryo transplant and artificial insemination in order to progress our herd. We invite you to stop by the farm at any time to analyze these animals and many others for yourself. We look forward to seeing you and talking to you on sale day!

We are excited to be a part of the Red and Black sale this year! This is the first time we have consigned any of our animals to a sale, and we feel that this group is a really good representation of what we have to offer. Over the years, we have focused on our Maternal qualities as a way to produce good functional cattle that have the strength to compete within the industry in both the show ring and commercial herds. All our genetics go back to a purebred Black Angus base that has been crossed with Purebred Simmental Bulls,

HOMO POLLED. Here is a heifer that is a true powerhouse. Super round in her shape and deep bodied. Really high in her attachment from her shoulder into her neck. Her sire is a flush mate to the dam of SMRT 1H and looked a lot like his sister did. She's got super nice teat placement and is one that we are excited to see mature into a super nice cow. Her dam is a cow that we bought off of Russell Sevcik out of Harvie Bullseye. Bullseye is a full sib to Harvie Boondock, the bull that sold in FNL in 2012 for \$30,000. I would not be scared to have a halter and show this one either, she holds her head extremely proud and will turn heads.

Homo Black. Homo Polled.

An Alliance daughter out of a first calving Springcreek Lotto granddaughter that is truly earning her keep in just the first year of production. A pedigree that is backed by a exceptional Janssen cow family. Moderate framed female with some extra body and shape. Long sided, big ribbed and all the right pieces. Structurally sound and hits her track every time. One that has a lot of potential and future and is very hard to part with.

MAJESTIC CALL OF DUTY 115A
 MATERNAL GRAND SIRE TO LOT 44

Polled and Colour test pending. Our lead off female in Red and Black for 2020 is sired by none other than R Plus Uppercut 6103D. Uppercut has done a tremendous job for all that have used him and his semen has sold well when offered on the open market. 202H is extremely attractive made with an excellent shoulder angle; her neck comes high out of her shoulder, a big sweeping rib cage, long spine and tremendous flex through her hock and pastern. On the move, 202H is sound and commands attention with her look. 202H is mothered by a beautifully constructed black baldy female with an awesome foot and tremendous udder that was sired by our maternal brother to Lock and Load. 202H has the structural integrity to be a competitive female next year in the show ring and the genetic power to be a leading female in production. An Uppercut son was just recently named the Intermediate bull calf Champion at the Lloyd Stockade and had many friends at the show. Do not miss one of the top females available this fall sired by Uppercut.

Polled and colour test pending. BLI Black Cypress 204H is another Uppercut daughter that matches well with our lead off heifer. 204 is extremely long sided, wide topped and has tons of hair. A maternal sister to 204H sold in 2018 to Deeg Simmentals and her maternal sister from 2019 is one of our top bred heifers right now. 204H is what I would consider to be a power female with a touch more frame, length and bone. If you are looking to add some scale in your cow herd 204H would help contribute to that along with having the structural soundness and pedigree to allow her to perform for years to come. These Uppercut daughters continue to get better with age and I cannot wait to calve the first set of daughters in

the spring, do not miss one of the real good ones available for sale.

Welcome to the Ultimate Red & Black Simmental Sale. Sandi & I would like to thank Glenn and the Transcon Team for this opportunity. After building our herd for the last 10 years, we thought we would bring you an example of what we have been working at. Call or stop by for a visit anytime. Season Greetings to All!

HOMO POLLED/HETERO BLACK

Smooth fronted, long, deep, and wide are just a few words to describe this Embryo calf. The Profit x LFE 89A combination hit a home run here. FSCC 23H is packed full of great pedigree. She has been palpated and has been cycling.

HOMO POLLED. HOMO BLACK-pending

A stout thick heifer that has a good temperament, like her Dam. We purchased FSCC 37H's Grand Dam at the D Bar C Dispersal and mated her to a Topcut son that we purchased from the Maxwell's to get FSCC 822Z. We have retained and or sold all the offspring that FSCC 822Z produced, male or female. We purchased FSCC 37H's Sire who was one of the Pen of 3, first place Champions at the National Western Stock Show in Denver. She has been palpated and has been cycling.

If you are looking to build a herd based on strong, proven cow families then this one is for you. Stemming from our leading red donor this one was hard to part with and is viewed as the strongest red heifer calf on the farm. Cipher is a female we purchased out of the Lloyd Stockade Round Up All Breeds sale a few year back as the high seller. She went on to hang a few banners as a calf that fall, and in her first year of production for us last year she grossed over 55K in live animal and embryo sales. A few highlight calves were bulls that topped our bull sale in March and a female that sold in the annual FNL sale. 411H is no exception and is one we are real high on. She puts it all together carrying a deep bodied frame with thick muscle dimension, a strong foot, an attractive neck and skull that comes in a dark cherry red package. Being sired by Captain Scream this is one we have tons of confidence in and are excited to see what she can do for her new owners.

Homo Polled 23H is the first female being sold off our home raised herd sire Rafter 4T Redemption. Redemption was one of the

RAFTER 4T REDEMPTION 59F SIRE OF LOT 49

highlights for us in our 2019 bull sale that we were fortunate to keep a piece of. He had a very successful fall in 2018 where he was the Grand Champion Bull Calf at Farmfair. Her dam is a young, moderate framed, beautifully uddered producer that is starting to make a name for herself on the farm; her first calf sold in our bull calf last March. 23H is a larger framed female who walks on a strong foot who should drop a balanced udder. She is haired up real nice, with a docile personality and plenty of shape and muscle expression. If she is anything like her mother she is destined to be a strong producer for her new owners.

SATH Miss 35H is a heifer that has it all! She is thick and muscular all in a feminine package. Her dam has great feet and a perfect udder and did it once again bringing in one of the top heifer calves. You can buy with confidence as this girl has a lot of maternal strengths in her background. She is one that's extremely hard to let go. I'm extremely excited to see what she does in the future.

NUG EXCITER 221E SIRE OF LOTS 50-52

SATH Miss 34H is a full sister to a heifer we sold here last year to WJ Simmentals. She is long and extremely smooth in her build. Another "Exciter" heifer that is very easy to like, his daughters are getting ready to have their first calf and they continue to impress more and more each day. I can't wait to see what they do for us and everyone for years to come!

A daughter of the incredible Ankony Miss Candace U056. This powerful, sound heifer exudes eye appeal. The best heifer born at Rocky Coulee Ranch this year. To top it off, she is as docile as they come.

She is the natural-born daughter of Ankony Miss Candace U056. Candace is thirteen years old this year and looks amazing. She has incredible feet and legs and an ideal udder. She is a huge egg producer and will produce for years to come.

NCB Cobra 47Y bred cows naturally until he was 13 years old and is steadily becoming a top EPD sire.
