Mission Statement: To provide excellence in customer service, airport facilities and airport security.

The Clark County Department of Aviation is the largest department within the government of Clark County, Nevada and is operated as an enterprise fund. McCarran International Airport

McCarran International Airport (LAS) is the primary commercial airport serving the Las Vegas Valley and Clark County. The airport is about five miles south of downtown Las Vegas. It covers roughly 2,800 acres with four runways and two terminals. The airport is named after former United States Senator and native Nevadan Pat McCarran (1876–1954).

The airport is the largest operating base for Allegiant Air and Southwest Airlines. In February 2012, McCarran also became a crew and maintenance base for Spirit Airlines.

McCarran is ranked the 26th busiest airport in the world by passenger traffic, with 47.4 million passengers transiting through the airport in 2016. In terms of aircraft movements, the airport ranks 17th in the world with 448,458 takeoffs and landings annually.

In 2016, the busiest scheduled airlines flying out of McCarran were Southwest Airlines (38%), American Airlines (10%) Delta Air Lines (8%), United Airlines (7.5%), and Spirit Airlines (7%). Canadian airline WestJet is McCarran's largest international carrier, transporting more than 936,000 passengers in 2016.

There are 1,400 employees at the airport. The operational budget for the 2017-18 fiscal year is projected to be \$550 million.

"I wanted to work at McCarran due to the sheer scope of the environment—you are basically supporting a small city. The variety of projects is tremendous; almost every field of work you can think of is involved. It is extremely exciting and challenging."

Clark County has invested more than \$30 million to create a premier corporate aviation airport that caters to the aircraft owner's needs, their passengers and their aircraft.

North Las Vegas Airport

Located just minutes from downtown Las Vegas and the world famous Strip, North Las Vegas Airport is a convenient and economical alternative to McCarran International Airport. North Las Vegas Airport is

designed to meet the needs of general aviation pilots and their passengers. The friendly and experienced staff will take good care of aircraft owners and their aircraft from the moment they taxi onto the ramp.
