1. **AIMS, GOALS AND OBJECTIVES OF THE COLLEGE**

A. **AIMS**

"The College has a definite brief to encourage veterinarians in practice, in industry, in government employment, and in other fields to seek to improve themselves and to provide additional post-graduate qualification as a goal."

The College has amongst its aims -

- (a) To advance the study of veterinary science and to bring together members of the veterinary profession for their common benefit.
- (b) To hold, conduct or arrange examinations of professional proficiency for the purpose of determining qualification for membership of the College and fellowship of the College.

B. **GOALS**

Professional Development

- To conduct a membership examination system that is recognised in Australia and New Zealand as indicating that a member of the College has advanced skills and knowledge in a particular area of veterinary science.
- To conduct a fellowship examination system that is recognised internationally as certifying the fellows as experts and/or specialists in a particular area of veterinary science.
- To provide members with services and forums that encourage and facilitate ongoing education and professional development.
- To support the establishment and functions of Chapters of members with common interests to further their professional development.

Management

- To professionally manage the affairs of the College at reasonable cost to members.
- To ensure accountability for collection and expenditure of members' funds.
- To hold regular, minuted meetings of the College, the Council and the Board of Examiners.
- To provide media for publication and promotion of College and Chapter policies.

C. OBJECTIVES

Examinations

- To work towards international recognition of the Fellowship qualification.

Members Services

- To encourage the new younger demographic of membership to become involved in the running of the College, as office bearers.
- To introduce more multimedia based information.
- To consider alternatives in content of the awards dinner and other college-based activities.
- To actively pursue ways to communicate and integrate with other organisations (such as AVA, NZVA, AVBC, Universities, Industry, CVE, Government, Overseas Colleges and Media) looking for win/win situations where there could otherwise be potential competition/ threats to the College.

Chapters

- To strengthen Chapters to ensure their continued support of College objectives.
- To emphasise the role of the Chapters in establishing and running Science Week programs.
- To encourage more interaction between Chapters, especially at College Science Week.
- To facilitate communication between Chapters and Council.
- To ensure Chapter Office bearers are aware of the importance of their role.

Management

- To ensure that examinations are appropriately organised and managed.
- To review College guidelines on privacy.
- To promote the roles of Council/Chapter Office Bearers and the BoE so that they are better understood and appreciated by new members.

2. ADMINISTRATION OF THE COLLEGE

The College is a Company limited by guarantee. Copies of the Constitution are available on the website <https://ripehosting.blob.core.windows.net/anzcvs-prod-media/27046/constitution-2017v2.pdf>.

Council

The College is administered by an elected Council comprising six members, two being elected each year by Members of the College for a three year term. Councillors are obliged to retire after three full terms.

Council each year elects the College office bearers, namely the President, Honorary Secretary and Treasurer. Council shall appoint the Chief Examiner who, if not an elected Councillor, is automatically a member of Council. Council may appoint additional officers such as an Honorary Assistant Secretary (New Zealand), Honorary Public Relations Officer, Returning Officer, Honorary College Historian and Chair of the Awards Committee.

Council has appointed a Chief Executive Officer to assist the elected office bearers in the administration of the College. The Chief Executive Officer is assisted by the College Manager. Council meets 5-6 times per year including a joint meeting of the old and new Councils at the time of the Annual General Meeting.

Board of Examiners

Council appoints the Board of Examiners at its first meeting each year. The Chief Examiner chairs the Board which meets at least three times each year. He/she is assisted by two Assistant Chief Examiners who are responsible for either Examinations in Australia and New Zealand or Training and Credentials.

The Chief Examiner shall annually recommend to Council, Fellows or Members for appointment to the Board of Examiners. The membership of the Board is listed in the Fellowship Candidate Handbook and the Membership Candidate Handbook and on the website.

Annual Fees

The costs of administration of the College are met by the Members of the College, an annual fee being set by the Members in general meeting. The present policy of Council is that the cost of College examinations should as far as possible be met by revenue from the examination fees which are also set by Members in general meeting.

Appeals Procedure

Council has adopted a document which outlines the procedure to be followed by appellants and by officers and Council when an appeal is lodged against a decision by an officer or Council. <https://ripehosting.blob.core.windows.net/anzcvs-prod-media/21722/appeal-policy-2018.pdf>

3. MEMBERSHIP

Veterinarians wishing to undertake the membership examinations should consult the College Membership Candidate Handbook which provides advice to membership candidates. <https://ripehosting.blob.core.windows.net/anzcvs-prod-media/28089/membership-candidate-handbook-2020.pdf> It outlines the eligibility criteria and describes in detail the examination process. It also lists the subjects in which the examination may be taken. Not all examination subjects may be available every year. The Membership Candidates Handbook is available from the College web site <https://ripehosting.blob.core.windows.net/anzcvs-prod-media/28089/membership-candidate-handbook-2020.pdf>.

Associate Membership

Associate Members will be restricted to veterinarians who are eligible to register to practice as a specialist in Australia or New Zealand by virtue of qualifications obtained overseas.

Life Membership/Fellowship

There is provision in the Articles for Council to grant Life Membership to retired members. Members/Fellows are eligible for Life Membership/Fellowship if they are no longer engaged in veterinary activity, AND have EITHER:

- a. Reached the age of 60 years OR
- b. Been a College member for 30 continuous years or more

4. FELLOWSHIP

Members wishing to undertake the fellowship examinations should consult the College Fellowship Candidates Handbook which provides advice to fellowship candidates. This details both the eligibility criteria and the examination process. It also lists the subjects in which the examination may be taken. This publication is available from the College web site <https://ripehosting.blob.core.windows.net/anzcvs-prod-media/28102/fellowship-candidate-handbook-2020.pdf>.

Non-members who believe they meet the eligibility criteria for fellowship may apply to the Chief Examiner to proceed directly to the fellowship examination. Any such application must be approved by the College Council.

Honorary Fellows

The Articles provide for Council to elect persons who have rendered exceptional service to veterinary science or veterinarians who have been actively involved in the affairs of the College as Honorary Fellows of the College. Members of the College may nominate candidates for such election, the nominations to include a curriculum vitae and supporting statements. <https://ripehosting.blob.core.windows.net/anzcvs-prod-media/17689/honorary-fellowship-policy-29118-final.pdf>

5. ADVISORY COMMITTEE ON REGISTRATION OF VETERINARY SPECIALISTS (ACRVS)

In order to achieve uniform standards for the registration of veterinary specialists and to establish relationships between Fellowship and specialist registration, the College established this committee with representation by the College, the Veterinary Associations, the Veterinary Boards and the University Veterinary Schools. The ACRVS is now a standing committee of the Australasian Veterinary Boards Council Inc.

Veterinarians wishing to register as a specialist should apply to the appropriate Veterinary Board. Applications are referred to the ACRVS for assessment. The various Boards have adopted the ACRVS criteria for specialist registration and these are set out in the Fellowship Candidate Handbook available from the College website or on request from the College office.

6. CHAPTERS

The College is made up of Chapters of expertise which are as autonomous as possible in the conduct of their own affairs, within the framework of the College administration. Chapters may conduct courses of instruction for veterinarians who are candidates for College examinations. They are also encouraged to conduct continuing education events for members of the Chapter, members of the College generally and non-member veterinarians.

Chapter Membership is available to all members who have gained entry to the College by examination in the Chapter's field of expertise, or who have been invited to join due to an interest in the field of expertise.

Chapters provide a consulting service to the Council, Chief Examiner and Board of Examiners on course guidelines, training criteria and examination issues.

ANAESTHESIA AND ANALGESIA CHAPTER

The Veterinary Anaesthesia and Analgesia Chapter of the ANZCVS exists to promote excellence in veterinary anaesthesia and analgesia across all species of animals in veterinary clinical practice, teaching and research environments.

Specifically, we aim to:

- advance the science and art of veterinary anaesthesia and analgesia
- further the professional education and training, and facilitate the exchange of knowledge, of veterinarians with a special interest in veterinary anaesthesia and analgesia.
- encourage exchange of knowledge and collaborative work with other scientists working in the field of veterinary anaesthesia and analgesia
- encourage research and publication in veterinary anaesthesia and analgesia

AQUATIC ANIMAL HEALTH CHAPTER

The Chapter of Aquatic Animal Health is a very diverse interactive group of veterinarians as this Chapter covers all aquatic animals (apart from reptiles, amphibians, birds and mammals), with particular emphasis on those species which are kept for aquaculture or otherwise commercially exploited, including but not limited to teleost fish, bivalve molluscs, marine shrimps (prawns), freshwater crayfish and abalone. Disciplines include medicine and management, pathobiology and epidemiology of aquatic animal diseases. Members of this Chapter aim to exchange knowledge

and promote excellence in the diagnosis, treatment and prevention of diseases of aquatic animals, to advance the science and art of veterinary science as it relates to aquatic animals, and to further the professional education and training of veterinarians with a special interest in aquatic animal health. The Chapter also aims to encourage research in aquatic animal health, and to encourage exchange of knowledge with and collaborative work with other scientists working in the field of aquatic animal health.

VETERINARY BEHAVIOUR CHAPTER

Mission:

To advance the understanding and application of animal behaviour principles. This is both a science and an art. The Animal Behaviour Chapter aims to foster the interest of veterinarians in the understanding of animal behaviour. This aim is met by working within the College to provide an examination process that allows recognition of further study in the field of animal behaviour.

The Chapter:

- Actively seeks mentors for candidates and supports the formation of mentor groups to provide support and guidance for prospective members.
- Prepares examinations and organises examiners for Membership candidates.
- Provides a means of accreditation for veterinarians interested in animal behaviour.
- Provides a means by which veterinarians can show that they have the skills, knowledge and attitude to be deemed competent in this field.
- Produces regular newsletters to disseminate relevant information to members and other interested parties.
- Encourages and provides support for members in preparation of material for publication or presentation.
- Provides a forum for presentation of material to peers at regular scientific meetings.
- Facilitates the exchange of knowledge between veterinarians interested in animal behaviour and animal welfare.
- Provides an advice service to media, dog trainers, veterinarians, veterinary nurses, universities and other interested groups.
- Encourages exchange of knowledge with and collaborative work with other groups involved in animal behaviour and animal welfare.
- Encourages further investigation in the area of animal behaviour using scientific research methods to further knowledge in this field.
- To increase the profile of animal behaviour as part of veterinary medicine.
- Aims to acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

In addition the Chapter is responsible for the organisation of Fellowship examinations. Success at these rigorous examinations allows eligibility for specialist registration.

ANIMAL REPRODUCTION CHAPTER

The Chapter is a special interest group that aims to bring together veterinary graduates who have an active interest in reproduction across all species. The Chapter is relatively new having formed in 1998. The membership level examination expects knowledge of reproductive processes in all domestic species. Fellowship level examination is available within an individual species. An annual meeting to coincide with the College Science week is planned each year. Presentation of clinical case material, current research or topical issues at the meeting is encouraged. The meeting

provides an opportunity to present and actively discuss all aspects of comparative reproduction. Members of the Chapter usually have an individual species that is of particular interest to them, but discussing reproductive processes across a range of species in a more biological context is very useful in an attempt to understand the many factors that may influence reproduction. Membership of the Chapter is open to all members of the College that have a fascination with reproduction.

ANIMAL WELFARE CHAPTER

The Animal Welfare Chapter has been established to provide a forum for the training of veterinarians to a detailed knowledge and above average competence in animal welfare in all species. This capability will be drawn from a broad base of knowledge across all body systems. Course content includes, The Ethics of Animal Use, Physiological and Psychological Aspects of Adverse States, Animal Environments, The Veterinary Profession's Role in Animal Welfare, Veterinary Aspects of Animal Welfare, Specific Welfare Issues, Legislation and Animal Welfare and Human - Animal Relationships. Membership in this subject equips veterinarians to understand the scientific basis for optimum animal welfare and to be able to reason and debate coherently the legal and ethical aspects of animal welfare.

AVIAN HEALTH CHAPTER

The objects of the Chapter are:

To provide the means of entry to the College for those specialising in Avian Health.

To provide a means of accreditation for avian health veterinarians

To advance the science and art of avian health

To facilitate the exchange of knowledge between avian health veterinarians

To encourage exchange of knowledge with and collaborative work with other biological scientists in the field of avian health

To encourage publication in the sphere of avian health

To acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

CATTLE CHAPTER

The Cattle Chapter aims to foster the interests and aspirations of veterinarians whose careers embrace disciplines concerned with dairy and beef cattle medicine and management.

The Chapter assists candidates for Membership examination through the mentor system and may also, in the future, provide short workshops to assist candidates in their preparation for Membership examinations.

The Chapter is managed by an Executive whose activities include organisation of scientific meetings, circulation of newsletters and nominations of examiners for membership and fellowship examinations.

The Cattle Chapter has a strong educational role and actively encourages veterinarians to sit the Membership and Fellowship examinations.

VETERINARY DENTISTRY CHAPTER

The aims of this chapter are to:

- Encourage scientific investigation and research in the field of Veterinary Dentistry, and a contribution to published professional literature.
- To encourage individuals to undertake examination at both membership and fellowship levels in Veterinary Dentistry via continuing postgraduate education and self-assessment; and the utilisation of training programs provided by the chapter.
- To provide continual improvement in practice standards and knowledge of Veterinary Dentistry. These objectives are to be attained in part by offering continuing education, comprising the most recent advances in Veterinary Dentistry, including the aetiology, diagnosis and treatment of oral diseases.
- To work closely with the Australian Veterinary Dental Society, other chapters of the Australian College and the Australian and New Zealand Veterinary Associations so as to further our knowledge in the field of Veterinary Dentistry.
- To encourage the veterinary teaching institutions to develop appropriate, professional teaching programs in order to produce graduates with a higher standard of competency and training in this field.
- Lastly, to endow its members with a sense of camaraderie, purpose and pride.

VETERINARY DERMATOLOGY CHAPTER

The aims of the Chapter are to:

- Advance the science and art of veterinary science as it relates specifically to Veterinary Dermatology and in particular to encourage and aid recruitment to the College and the Chapter.
- Provide continual improvement in practice standards and knowledge of Veterinary Dermatology and to further the professional education and training of veterinarians with a special interest in dermatology.
- Encourage scientific investigation and research in the field of Veterinary Dermatology, and a contribution to published professional literature.
- Encourage individuals to undertake examination at the Fellowship levels in Veterinary Dermatology
- Facilitate the exchange of knowledge between veterinarians with a special interest in dermatology.
- Encourage the veterinary teaching institutions to develop appropriate, professional teaching programs in order to produce graduates with a higher standard of competency and training in this field.
- Encourage exchange of knowledge with and collaborative work with other scientists working in the field of dermatology.
- Endow its members with a sense of camaraderie and purpose.

EMERGENCY AND CRITICAL CARE CHAPTER

The Emergency and Critical Care Chapter will promote excellence in the treatment of sick animals in the Emergent Period and for the duration, during which a disease remains life threatening

The objectives of the Chapter shall be:

- To advance the science and art of veterinary science as it relates specifically to Emergency and Critical Care and in particular to encourage and aid recruitment to the discipline, College and the Chapter.

- To further the professional education and training of veterinarians with a special interest in Emergency and Critical Care. Providing mentorship and support as required
- To encourage research in Emergency and Critical Care
- To facilitate the exchange of knowledge between veterinarians with a special interest in Emergency and Critical Care both locally and overseas.
- To encourage exchange of knowledge with and collaborative work with other scientists working in the field of Emergency and Critical Care
- To encourage publications in the sphere of Emergency and Critical Care
- To acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

EPIDEMIOLOGY CHAPTER

The objectives of the Chapter are to:

- Provide a means of entry to the College for those with a particular interest in veterinary epidemiology;
- Provide a means of accreditation of veterinary epidemiologists;
- Encourage research in, and application of, veterinary epidemiology;
- Facilitate the exchange of knowledge between veterinary epidemiologists;
- Further the professional education and training of veterinary epidemiologists; and to
- Encourage publications in the sphere of veterinary epidemiology.

The Chapter achieves these objectives by:

- Assisting candidates for Membership examination through the mentor system;
- Providing examiners for Membership and Fellowship exams;
- Conducting workshops as a means of continuing education for its members;
- Publishing newsletters;
- Awarding a medal to a final year veterinary student at each veterinary school in Australia and New Zealand for excellence in veterinary epidemiology; and
- Organising an annual conference on veterinary epidemiology.

EQUINE CHAPTER

Under Article 4 of the Chapter Constitutions the objectives are listed as follows:

To advance the science and art of equine practice

To further the professional education and training of veterinarians in all aspects of equine diseases

To facilitate the exchange of knowledge between equine veterinarians

To encourage original research and publication on all matters of equine diseases

To establish a set of standards and guidelines for post-graduate training to assist members in attaining qualification consistent with current international standards of the profession.

To encourage exchange of knowledge with and collaborative work with other disciplines and other Chapters, and with other medical biological scientists.

To acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

Membership of the Chapter is open to all Members and Fellows of the College with interest in Equine Medicine, Surgery, Reproduction, Anaesthesia, Radiology etc.

FELINE CHAPTER

The objects of the Chapter:

To advance the science and art of veterinary science as it relates specifically to Feline Medicine.
To further the professional education and training of veterinarians with a special interest in Feline Medicine.

To encourage research in disease of the Feline.

To facilitate the exchange of knowledge between veterinarians with a special interest in Feline Medicine.

To encourage exchange of knowledge with and collaborative work with other scientists working in the field of Feline Medicine.

To encourage publications in the sphere of Feline Medicine.

To acquire, maintain, employ and dispose of such real and personal property and to organise such services as will further the above aims.

MEDICINE AND MANAGEMENT OF LABORATORY ANIMALS CHAPTER

The Medicine and Management of Laboratory Animals Chapter will promote excellence in the medicine, management, care, wellbeing and use in research and teaching of Laboratory Animals

The objects of the Chapter:

- to advance the science and art of veterinary science as it relates specifically to Laboratory Animals and in particular to encourage and aid recruitment to the discipline, College and the Chapter.
- to further the professional education and training of veterinarians with a special interest in Laboratory Animals
- to facilitate the exchange of knowledge between veterinarians with a special interest in Laboratory Animals used in the research, teaching, testing and production.
- to promote exchange of knowledge with and collaborative work with other scientists working in the field of Laboratory Animal Medicine and Management.
- to encourage research publications in the sphere of medicine, management, production, care and use of Laboratory Animals.

VETERINARY ONCOLOGY CHAPTER

The Chapter aims to foster the professional interest, and high-level education and training of veterinarians in Veterinary Oncology. These aims are met by working within the College:

- To provide a training and examination process that allows recognition of further study in the field of companion animal oncology.
- To encourage cross-disciplinary exchange of knowledge and collaborative work with other College chapters, and clinical or basic biomedical scientists.

The Chapter:

- Helps support and guide prospective Fellowship candidates by means of a mentoring system
- Prepares examinations and organises examiners for rigorous Fellowship examinations.

- Provides support for members in preparation of material for publication or presentation
- Provides a forum for presentation of material to peers at regular scientific meetings
- Provides an email list to members for networking and professional support

Success at the Fellowship examinations allows eligibility for specialist registration.

VETERINARY OPHTHALMOLOGY CHAPTER

The Chapter comprises a group of veterinarians unified in an aim of solving and improving the treatment of eye problems in animals. It provides a forum for discussion, debate and furthering the understanding of eye diseases through regular meetings. The Chapter is a voice by which information can be disseminated to interested chapters, veterinarians and non-veterinarians. The Chapter would seek to provide expertise through its fellows in assisting in the training and examination of fellowship candidates.

PATHOBIOLOGY CHAPTER

The Chapter of Pathobiology aims to foster the interests and aspirations of individuals whose careers are in a group of veterinary disciplines concerned with the causes, pathogenesis and diagnosis of disease. As such, the Chapter embraces the veterinary disciplines of pathology, clinical pathology, parasitology, microbiology (including virology), and immunology. Membership and Fellowship of the Chapter is achieved by undertaking a training programme and successfully completing examinations which accredit the member or fellow with substantial accomplishments in one of the above areas. A membership would be based on a sound grasp of the tenets of general pathology. A Fellow of the Chapter would be eligible to apply for specialist registration. The requirements for a fellowship training programme are currently under review by the Fellowship Training and Credentials Committee of the College but would include documentation of case reports, scholarly publications and a diary of supervision.

In addition, the Chapter promotes contact and the dissemination of information between members and maintains contact with the other organisations.

VETERINARY PHARMACOLOGY CHAPTER

The objectives of the Chapter are:

- The advancement of the study and understanding of veterinary pharmacology so that the discipline can be applied more effectively for the welfare of animals and man. “Veterinary Pharmacology” embraces chemotherapy, product research and development, pharmacokinetics and pharmacodynamics, drug legislation, clinical pharmacology, toxicology and applied immunology.
- The provision of advice on veterinary pharmacology to the College, other organisations and individual veterinarians and to act as a conduit for the exchange of knowledge between works in the field.
- The support of continuing education and post-graduate training in veterinary pharmacology.
- The encouragement and assistance of prospective members in their preparation for examination by the College.

The Chapter's activities include organising Scientific Meetings, encouraging publication of veterinary pharmacology articles, and conducting the Veterinary Pharmacology Study course for examination preparation by membership candidates.

PIG HEALTH and PRODUCTION CHAPTER

VETERINARY PUBLIC HEALTH CHAPTER

Veterinary Public Health (VPH) is that discipline of veterinary science dedicated to improving the physical, mental and social well-being of humans.

VPH draws upon the following areas of knowledge: diagnosis, surveillance, epidemiology, control, prevention and elimination of zoonoses; protection of food (including meat and milk) for human consumption; food and meat science; environmental protection; animal welfare; and the social and behavioural aspects of inter-human and human-animal.

RADIOLOGY CHAPTER

The Chapter of Radiology is a special interest group whose purpose is to foster an interest in diagnostic imaging procedures in veterinary practice. Membership level examinations are designed to encourage interested veterinary practitioners to improve the base level of their radiographic skills, theoretical knowledge and film reading ability. After successful completion of the membership examination they may be eligible to prepare for fellowship examination. A fellow in radiology is eligible to apply for Board registration to practice as a specialist veterinary radiologist. An executive committee meets regularly to oversee the activities of the Chapter.

SMALL ANIMAL MEDICINE CHAPTER

The Chapter aims to foster the interest of veterinarians in the understanding of small animal diseases. This aim is met by working within the College to provide an examination process that allows recognition of further study in the field of small animal medicine. Members should be familiar with pathophysiological mechanisms, aetiology, diagnosis, and case management of small animal disease.

The Chapter:

- Actively seeks mentors for candidates and supports the formation of mentor groups to provide support and guidance for prospective members.
- Prepares examinations and organises examiners for Membership candidates.
- Provides a forum for presentation of material to peers at regular scientific meetings.
- Organises VIN (Veterinary Information Network) rounds, which are internet-based chat sessions focussing on the latest in diagnostics and treatment of canine and feline problems.
- Provides support for members in preparation of material for publication or presentation.

In addition the Chapter is responsible for the organisation of Fellowship examinations. Success at these rigorous examinations allows eligibility for specialist registration.

Intending candidates may be examined in either canine medicine or small animal medicine to gain entry to the Chapter.

SMALL RUMINANT CHAPTER

The Small Ruminant will promote excellence in the medicine, surgery and production of sheep or goats or deer and has the following objectives:

- To advance the science and art of veterinary science as it relates specifically to Small Ruminants and in particular to encourage and aid recruitment to the discipline, College and the Chapter
- To further the professional education and training of veterinarians with a special interest in Small Ruminants
- To encourage research in Small Ruminants
- To facilitate the exchange of knowledge between veterinarians with a special interest in Small Ruminants
- To encourage exchange of knowledge with and collaborative work with other scientists working in the field of Small Ruminants
- To encourage publications in the sphere of Small Ruminants

SURGERY CHAPTER

The objectives of the Chapter are:

- To advance the science and art of veterinary surgery.
- To further the professional education and training of veterinary surgeons.
- To facilitate the exchange of knowledge between veterinary surgeons.
- To encourage original research and publication in veterinary surgery.
- To encourage the establishment of training programmes in surgery, e.g. residency, internships, etc.
- To establish guidelines for surgical training towards specialist qualifications.
- To encourage exchange of knowledge, and collaborative work, with other College chapters, human surgeons and other medical and biological scientists.
- These aims are met by working within the College to provide:
- Support and guidance for prospective members by the mentor system.
- Examinations and examiners for Membership and Fellowship candidates
- Newsletters to disseminate relevant information to members
- Support for members in preparation of material for publication or presentation.
- A forum for presentation of material to peers at regular scientific meetings

UNUSUAL PETS CHAPTER

The Unusual Pets Chapter will promote excellence in medicine and surgery of unusual pets, with emphasis on helping candidates prepare for the membership in unusual pet medicine and surgery. The chapter aims to eventually work towards providing a fellowship level qualification.

The objectives of the Chapter shall be:

- Provides a means of accreditation for veterinarians with a professional interest in unusual pet medicine and surgery
- Provides a forum for presentation of material to peers at regular scientific meetings

- Facilitates the exchange of knowledge between veterinarians interested in unusual pet medicine and surgery
- Encourages exchange of knowledge with and collaborative work with other groups involved in unusual pet health and welfare
- Encourages further investigation and scientific publication in the area of unusual pet medicine and surgery
- To increase the profile of unusual pet medicine and surgery as part of veterinary medicine

ZOO AND WILDLIFE MEDICINE CHAPTER

The Zoo and Wildlife Medicine Chapter aims to advance the science and art of zoo and wildlife medicine, promoting excellence in the diagnosis, management and prevention of diseases of free-ranging and captive zoo and wildlife species. We encourage collaborative exchange of expertise across disciplines, both within and beyond the veterinary profession; the College's annual Science Week conference is an invaluable vehicle by which to advance such an aim. Membership level examinations in Medicine of Australasian Wildlife and Medicine of Zoo Animals are offered biennially. These examinations provide a formal mechanism for veterinarians employed in, undertaking post-graduate training in, or otherwise interested in the field of zoological medicine to improve their knowledge and obtain formal qualification recognising their skillset. Chapter activities are overseen by an Executive Committee and the Chapter Examinations Committee.

NEW ZEALAND NETWORK

7. SCIENCE WEEK

The first object of the College "to advance the study of veterinary science and to bring together members of the veterinary profession for their common benefit" challenges the College to provide on-going continuing education. The Council with the co-operation of the Chapters has established an annual scientific meeting in conjunction with the College examinations in the annual Science Week.

The scientific meeting aims to provide up to date information and technology to participants in the specialist disciplines and practice areas covered by the College and its Chapters.

8. COLLEGE AWARDS

The College presents annual awards at an Awards Ceremony during Science Week. Applications for these awards are called for annually and close on 28 February. Criteria for any of the awards can be obtained from the website or the College office.

The Kesteven Medal is awarded by the College in conjunction with the Australian Veterinary Association to Australian veterinarians, nominations being considered by a committee representing the two organisations. All other awards are open to New Zealand and Australian veterinarians.

The College Prize

Inaugurated in 1975 this prize is awarded by the College Council to a veterinarian (generally less than 10 years since graduation) who makes an outstanding practical contribution to veterinary science or practice in Australia or New Zealand, especially during the preceding five years

without the support of an academic environment, The successful candidate will have worked mainly in practice as a clinician, as an official veterinarian or in the area of applied research, rather than as an academic or in basic (other than applied) research.

College Prize Winners

1975 D. P. J. Marshall (NZ)	1995 No Award
1976 R. S. Morris (A)	1996 M. McGowan (A)
1977 D. Mossman (NZ)	1997 J. Morton (A)
1978 P. Hopkins (A)	2001 K. Seksel (A)
1979 L. G. McNicoll (A)	2002 P. Hughes (A)
1980 No Award	2003 R. J. Doneley (A)
1981 G. M. Robins (A)	2004 G. J. Wilson (A)
1982 D. J. Kennedy (A)	2005 No Award
1983 T. K. Bell (A)	2006 No. Award
1984 R. B. Richards (A)	2007 A. J. Toyer (A)
1985 P. R. Wilson (NZ)	2008 R.J. Baral and M. J. Catt (A)
1986 P. Brightling (A)	2009 No Award
1987 T. M. Ellis (A)	2010 No Award
1988 K. V. Mason (A)	2011 No Award
1989 N. Chesterton (NZ)	2012 R. E. Davis
1990 I. J. Lean (A)	2013 A.C. Bayvel (NZ)
1991 R. I. Miller (A)	2014 D. Monks (A)
1992 E. Davis (A)	2015 No Award
1993 W. Tranter (A)	2016 No Award
1994 R. Norris (A)	2017 A. Seavers (A)
1998 A. R. Cameron (A)	2018 K. Dawson (A)
1999 D. G. Black (A)	2019 No Award
2000 No Award	2020 No Award

The Ian Clunies Ross Memorial Award

Inaugurated in 1979, this award has high academic and/or research accomplishment as its primary requisite, and is awarded to a veterinarian making an outstanding contribution to veterinary science in Australia and New Zealand especially during the preceding five years.

1980 I. Caple (A)	2000 S. Raidal (A)
1981 J. G. Allen (A)	2001 R. A. Read (A)
1982 P. A. Jennings (A)	2002 R. Whittington (A)
1983 A. K. Wood (A)	2003 S. M. Jaensch (A)
1984 R. B. Atwell (A)	2004 M. B. Krockenberger (A)
1985 K. C. Richardson (A)	2005 P. C. Mills (A)
1986 R. J. Rose (A)	2006 C. C. Pollitt (A)
1987 K. A. Johnson (A)	2007 L. Berger (A)
1988 R. K. Munro (A)	2008 I. D. Robertson (A)

College Oration

The College Oration was established in 1977 to give recognition to a veterinarian in Australia or New Zealand who has made a major contribution to veterinary science. The College Oration may be held every year. It will take the form of a short resume of the recipient's work, the presentation of a medallion to the recipient and orator, followed by a suitable address by a guest speaker on a topic preferably related to the recipient's field of work.

College Orations have been given as follows:

- 1978 Lionel Rose Oration – delivered by Dr. D. H. Mossman
- 1980 Keith Meldrum Oration – delivered by Professor W. I. B. Beveridge
- 1982 Marshall Irving Oration – delivered by Dr. W. Stephen Smith
- 1984 John Legg Oration – delivered by Dr A. K. Sutherland
- 1986 Ted Moodie Oration – delivered by Professor M. A. E. Rex
- 1988 Hugh McL. Gordon Oration – delivered by Dr J. C. Boray
- 1991 Lewis Fitch Oration – delivered by Dr B. S. Cooper
- 1992 Douglas Blood Oration – delivered by Dr Jack Arundel
- 1994 Arthur Webster Oration – delivered by Dr Alan Donald
- 1995 A. K. Sutherland Oration – delivered by Professor K. L. Hughes
- 1996 D. K. Blackmore Oration – delivered by Professor B. W. Manktelow
- 1997 R. S. F. Campbell Oration – delivered by Professor P. W. Ladds
- 1998 T. G. Hungerford Oration – delivered by Dr D. I. Bryden
- 1999 Trevor Heath Oration – delivered by Professor I. Caple
- 2000 Bryan Woolcock Oration – delivered by Dr D. Mahoney
- 2001 R. I. Taylor Oration – delivered by Dr. J. Malmo
- 2002 H. F. Dewes Oration – delivered by Dr. W. J. Pryor
- 2003 Douglas I. Bryden Oration – delivered by Dr. R. Malik
- 2004 Reginald R.R. Pascoe Oration – delivered by Dr. K. F. Dowsett
- 2007 Francis C. Baldock Oration – delivered by Dr. G. M. Robins
- 2010 Victor Menrath Oration – delivered by Dr. M. Gunew
- 2019 Boyd Jones – delivered by Professor C. Mansfield

Kesteven Medal

This award inaugurated in 1979 is given to recognise the work of the late Dr K. V. L. Kesteven, O.B.E. and commemorates his activities with the Food and Agriculture Organisation over many years.

The Medal is awarded to Australian veterinarians in recognition of distinguished contributions to international veterinary science in the fields of technical aid or scientific assurance to developing countries.

A bronze medal is provided by the Australian Veterinary Association and the Australian College of Veterinary Scientists.

Nominations are considered by a selection committee comprising representatives of the Australian Veterinary Association, the Australian College of Veterinary Scientists and an independent nominee such as a previous awardee.

The Medal may be presented at the Annual General Meeting of the Australian Veterinary Association or the Australian College of Veterinary Scientists at which the recipient may be invited to speak about his work and its general field. The venue of the presentation shall be decided by the Association and the College.

The frequency of the award shall be determined by the Committee providing that the award shall not be given more frequently than once in each year.

Kesteven Medal Winner

1980 R. V. S. Bain	2001 B. Copeman
1981 H. T. Carroll	2002 R. Alders
1982 L. L. Callow	2003 R. F. Webb
1983 S. J. Miller	2004 D. Hoffman
1984 No award	2005 A. A. Baker
1985 R. W. Gee	2006 W.J. Pryor
1986 D. N. Sutherland	2007 K.W. Entwistle
1987 No Award	2008 S. Routledge
1988 R. S. F. Campbell	2009 R. Morris
1989 P. McCosker	2010 L. Gleeson
1990 D. A. Little	2011 P. Windsor
1991 W. A. Geering	2012 No award
1992 J. A. Roberts	2013 A. Cameron
1993 T. D. St George	2014 M. Young
1994 R. Swan	2015 A. Foreman

1996 R. Dalgliesh	2017 R. Speare (posthumous)
1997 T. Bagust	2018 J. Edwards
1998 P. B. Spradbrow	2019 No Award
1999 No Award	
2000 J. R. Egerton	

Fellowship Training Scholarship

A Fellowship Training Scholarship was established in 1992 to encourage and assist members of the College to proceed to Fellowship. The value of the scholarship is adjusted annually according to the CPI for the 12 months to 31 March. It is possible that one or several scholarships may be awarded in each year.

To be eligible for the scholarship the applicant must be a member of the College who has successfully applied for fellowship examination or is seeking approval at the time of application and has submitted a training program likely to be approved by the Fellowship Training and Credentials Committee.

In selecting the awardee the selection committee considers the academic record of the applicant, his/her publications and presentations (at conferences, continuing education courses etc.), as well as the motivation, achievements and enthusiasm of the applicant. Applicants are not asked to name referees and letters of recommendation are not necessarily sought, however the committee may seek opinions from supervisors or other specialists familiar with the applicant's work.

Although award of the scholarship is primarily based on merit, due consideration is also given to the financial needs of the applicant and to how the scholarship might assist those candidates making a financial sacrifice in order to pursue fellowship. The Scholarship may not be used to supplement another scholarship or training award.

The scholarship is normally awarded to applicants who intend attempting fellowship within 12 months of the award. However depending on individual circumstances the scholarship may be used to support worthy candidates at any stage of their training.

Applications will be invited in the College Courier and close on 28 February.

Research Grant

The inaugural Australian College of Veterinary Scientists Research Grant was offered in 2003. Seed money for the grant was made available by Dr Geoff Robins, who waived Science Week Organising Fees for 2001 and 2002, and proposed that the money be used to support a research project undertaken as part of a Fellowship Training Program. In 2002 the College Council voted to offer an ACVSc Research Grant of \$1,000 annually, commencing in 2003.

Most Commendable Paper In An International Journal

Purpose of the award: To highlight the scientific contribution members of the College make to the veterinary community internationally. This award will be specifically aimed at journal articles that provide insight to the pathogenesis of a disease condition, or substantially alter the treatment or prevention of disease.

The applicant must:

- a. Be a financially current member, associate member or fellow of the College
- b. Not have received the award in the previous five (5) years
- c. Must be first named or senior author for the paper under consideration

Previous Awardees

- 2013 Verkerk, K, Fleeman L, Morton J, Rand J.
- 2014 Whitton C.
- 2015 Hall, D. Snelling, S. R. Ackland, D. C. Wu, W. Morton, J. M.
- 2016 Khor, K.H., Campbell, F.E., Owen, H., Shiels, I.A., Mills, P.C.
- 2017 Bamford NJ, Potter SJ, Baskerville CL, Harris PA, Bailey SR.
- 2018 Chan, C.M., Frimberger, A.E., Moore, A.S.
- 2019 Dandrieux, J. Martinez Lopez, LM. Stent, A. Jergens, A. Allenspach, K. Nowell, CJ. Firestone, SM. Kimpton, W. Mansfield, CS.
- 2020 Wilkes, E.J.A. Heller, J. Raidal, S.L. Woodgate, R.G. and Hughes, K.J.

Meritorious Service Award

Purpose of award: to reward a member or fellow of the College, who has consistently and tirelessly contributed to the College through voluntary service at chapter or higher level.

The applicant must

- a. Be a financially current member of the chapter that nominates them, or a Life Member/Fellow
- b. Must have served the College and/or chapter in some official capacity for at least five (5) years. These roles include serving on the chapter executive, chapter exam or credentials liaison committee; being an active mentor, examiner or Science Week coordinator; serving on Council or the Board of Examiners.

Previous Awardees

- 2013 N. R. Perkins
- 2014 M. Burgemeister
- 2015 B. Doneley
- 2016 T. Barnes
- 2017 P. Bennett
- 2018 T. Muurlink and S. Raidal
- 2019 G. Versluis and L. Hambrook
- 2020 K. Briscoe and G. Musk

Membership Travel Grant

Purpose of award: to reward a newly active member of the College, who is not in training in a fellowship program, attend an international veterinary event that will be of benefit to the individual professionally, as well as be of benefit to the chapter to which they belong.

The applicant must

- a. Be a financially current member of the chapter that they nominate
- b. Must have served their chapter in some official capacity for at least three (3) years. These roles include chapter executive, chapter exam or credentials liaison, mentor, examiner or Science Week coordinator.
- c. Not be in a fellowship (or alternative specialist College) training program
- d. Must apply for the travel grant on line by 28 February of each year.

Previous Awardees

2014	M. Thompson
2015	G. Poli
2016	M. Westman
2017	No Award
2018	A. Tipler and R. Weight
2019	No Award
2020	No Award

9. BEQUESTS

Bequests are traditionally a lasting way to say thank you to an establishment or organisation that does work that people respect and value. Individuals are invited to bequeath to the Australian College of Veterinary Scientists when preparing a will. Bequests can be as small or large as liked, and are easy to arrange.

It is recommended that the following suggested bequest wording be adopted for the purpose of making a bequest to the College. It is a generic form of wording which will need to be modified in each particular circumstance.

SUGGESTED BEQUEST WORDING

I give to the Australian and New Zealand College of Veterinary Scientists ABN 50 000 894 208 (the whole of my estate) or (a specific sum or piece of property) or (a percentage of my estate) or (the residue of my estate) free of all duties for its general purposes. A receipt from the Treasurer or other authorised person shall be a complete and sufficient discharge for the Executor.

APPENDIX I

HISTORY OF THE COLLEGE

A resolution from the Annual General Meeting of the Australian Veterinary Association held in Melbourne during May 1967 approved in principal the establishment of a Veterinary College. A committee was elected to explore the possibility and scheduling of such an undertaking. Under the chairmanship of Professor D. C. Blood of the University of Melbourne, the committee reported to the Annual General Meeting of the Australian Veterinary Association in 1968 and again in 1969 on the aims of the proposed College and the criteria for entrance to membership of the proposed College.

Support for, and participation in the proposed College was also shown by resolutions passed at the Annual General Meeting of the New Zealand Veterinary Association in 1969.

The first report of the Committee recommended that:

1. The College would exist primarily to provide specialist professional qualifications to veterinarians of superior competence.
2. The College would be a national institution and membership (with the exception of Foundation Membership) would be gained primarily by examination.
3. Entry examinations could be oriented towards one of a number of field of competence; but membership of the College must be open to all veterinarians registrable in Australia and New Zealand.

An important step towards the achievement of these recommendations occurred in 1969 when the Annual General Meeting of the Australian Veterinary Association passed a resolution directing the Council of the Association "To appoint a provisional governing body to take preliminary steps in setting up an autonomous Veterinary College for the purpose of developing a corps of veterinary specialists."

Following this directive, the Council of the Australian Veterinary Association conducted a ballot to elect an Interim Council which would be representative of the different areas of activity of the veterinary profession. Professor R. M. Butterfield was elected convenor. With the establishment of the Interim Council, the College became an autonomous body, independent of the veterinary associations of Australia and New Zealand.

In an extremely busy year of activity, the Interim Council commissioned the drafting of a Memorandum and Articles of Association, and the Australian College of Veterinary Scientists was registered under the companies Act of New South Wales.

At the same time, the Interim Council appointed working parties in each State of Australia, the Northern Territory and New Zealand, to recommend nominations for Foundation Membership of the College. To qualify for nomination, or rather for an invitation to Foundation Membership, veterinarians had to fulfil certain criteria, amongst which were being a graduate of at least eight years standing, engaged in practice or some aspect of veterinary science for the past five consecutive years, and having displayed a competent level of professional skill and proficiency, and being of good standing within the profession.

Of the 505 veterinarians who accepted the invitation to Foundation Membership of the Australian College of Veterinary Scientists, 139 were practitioners, 100 were departmental officers, 71 held university appointments, 21 held SCIRO, CSL OR OTHER Commonwealth positions, 24 were from industry and the remainder were engaged in a variety of professional activities.

The final act of the Interim Council was to call for nominations and to hold a ballot for the election of 22 councillors to direct the affairs of the College following its inauguration.

The inauguration ceremony took place at the Australian Academy of Science in Canberra on 16 May 1971 – a ceremony which marked a milestone in the history of veterinary profession in Australasia, as it marked the establishment of a College.

Speaking at the Annual General Meeting of the College a year after its inauguration, the President, Dr D. F. Stewart, put the position of the College in perspective as it relates to veterinary science in this region, as follows:

“I consider that, with the establishment of the Australian College of Veterinary Scientists, the veterinary profession in this part of the world has reach maturity. Undergraduates and post-graduate training is of a high order in our Faculties of Veterinary Science within our universities. Provision is made for the attainment of higher academic degrees. Continuing education is now provided by the post-graduate committees in veterinary science in several universities, and in the University of Sydney it is supported by the Post-graduate Foundation in Veterinary Science. Diploma courses have been introduced in several specialties in some faculties”.

“The establishment of the College now provides the opportunity for the recognition of advanced professional skills and proficiency for those members of the profession who are not in a position to devote the time to acquire higher academic qualifications, or who do not have the desire to, but who aspire to a higher standard of proficiency in their chosen field. The means by which they can obtain an additional qualification in recognition of their superiority are now established by this College”.

The College has a definite brief to encourage veterinarians in practice, in industry, in government employment, and in other fields to seek to improve themselves and to provide additional post-graduate qualifications as a goal.

THE AUSTRALIAN COLLEGE OF VETERINARY SCIENTISTS COAT OF ARMS

Heraldic Blazon:

Coats of arms are described in heraldic terms and this description is called the blazon. For the Coats of Arms of the Australian College of Veterinary Scientists, the blazon reads:

Azure a saltire gules, in chief fire mullets argent representing the constellation of the Southern Cross, in base a book argent and a pen or, dexter a Pasteur flask argent, sinister a calibrated candle argent and sable enflamed argent.

For a crest, a wreath argent and gules, Chiron salient argent holding in the dexter hand a chapel or laurel or.

Supports, dexter an Egyptian dog and sinister an aurochs both or

Translation:

This can be translated by replacing the heraldic terms with common ones and made intelligible by explaining how the symbols were chosen.

The colour of the background of the shield is blue (azure) on which is placed a cross (saltire) which is red (gules); it is in fact the traditional veterinary colour garnet. The charges (representational objects) are, at the top (chief), five silver stars (mulletts) in the form of the Southern Cross to identify the locality; at the bottom (base) there is a silver book and a gold pen signifying the recording of data; on the right (dexter) there is a silver Pasteur flask, the apparatus used by Pasteur to demonstrate that broth that had been boiled would stay clear until the side-arm was broken allowing organisms to enter, a demonstration that destroyed the “spontaneous generation” theory: on the left (sinister) of the shield there is a silver and black (sable) lighted calibrated candle, the earliest means for comparing intervals of time.

The crest, that part above the shield, consists of a silver and red torse (wreath), the rope-like symbol and Chiron, the chief centaur, is silver in the ready (salient) position holding a gold laurel wreath (chaplet) in his right hand.

The supporter on the right is an ancient Egyptian dog, that species being regarded as the earliest companion of man. That on the left is an aurochs. This was an early ancestor of modern-day cattle which roamed Europe. It was a big deep chested animal with large horns projecting forwards.
