Two people were taken to the hospital by helicopter following a crash in Caldwell County Sunday morning

According to the Missouri State Highway Patrol, two vehicles collided on state Route 116 east of Cowgill just after 11:00 a.m. The crash happened as a 2004 Ford Explorer was driving southbound on Route B and failed to stop at a stop sign while making a wide right turn to go west on Route 116. The Ford Explorer then collided with a 2016 Ford F150 that was driving eastbound. The passen-

ger in the Ford Explorer was ejected from the vehicle.

Justin Blakley, 18, the driver of the Ford Explorer, was seriously injured and taken by life-flight helicopter to Truman Medical Center. The passenger in the Ford Explorer, 18-year-old Riley Coon, was also seriously injured and taken by life-flight helicopter to Liberty Hospital.

The driver of the Ford F150, 25-year-old Michael Clark, sustained minor injuries and refused medical treatment at the scene.

No one involved in the crash was wearing a seat belt.

Secretary Perdue Announces New Dairy Margin Coverage Signup Begins June 17

WASHINGTON, June 13, 2019 — U.S. Secretary of Agriculture Sonny Perdue today announces that sign-up begins June 17 for the new Dairy Margin Coverage (DMC) program, the cornerstone program of the dairy safety net that helps dairy producers manage the volatility of milk and feed prices, operated by the U.S. Department of Agriculture’s Farm Service Agency (FSA).

The 2018 Farm Bill allowed USDA to construct the new DMC, which replaces the Margin Protection Program for Dairy (MPP-Dairy). This new program offers protection to dairy producers when the difference between the all-milk price and the average feed cost (the margin) falls below a certain dollar amount selected by the producer.

“In February I committed to opening signup of the new Dairy Margin Coverage program by June 17, I am proud to say that our FSA staff worked hard to meet that challenge as one of the Department’s top Farm Bill implementation priorities since President Trump signed it last December.” said Secretary Perdue. “With an environment of low milk prices, high economic stress, and a new safety net program with higher coverage levels and lower premiums, it is the right time for dairy producers to seriously consider enrolling when signup opens. For many smaller dairies, the choice is probably a no-brainer as the retroactive coverage through January has already assured them that the 2019 payments will exceed the required premiums.”

The program provides coverage retroactive to January 1, 2019, with applicable payments following soon after enrollment. At the time of signup, dairy producers can choose between the \$4.00 to \$9.50 coverage levels.

Cameron Regional Medical Center awards 2019 scholarships

Officials at Cameron Regional Medical Center have announced results of the organization's high school scholarship program for 2019. Warren McElwain, Board President and Chairman of Cameron Regional Medical Center's Scholarship and Education Committee, has indicated the CRMC Board of Directors awarded a total of \$10,000 in renewable scholarships to 20 area high school seniors. These 20 graduates represent 11 different school districts in a five-county area. McElwain emphasized this is the 30th year for the Medical Center's high school scholarship program.

Recipients of CRMC scholarships have made a commitment to pursuing a health care field of study on a full-time basis beginning this fall. Final selection of recipients is based on such criteria as high school GPA, ACT score, goals, school/community involvement, and need. Candidates must live in Clinton, Caldwell, DeKalb, Daviess, or Harrison Counties in order to be eligible.

Joe Abrutz, CRMC Administrator, stated, "These scholarships are renewable for an additional three years, provided the student stays in health care and maintains a cumulative GPA of 3.0 or better. The CRMC Board of Directors implemented this scholarship program with the hope it would serve as a recruitment tool for bringing our area students back to us when they are ready to begin their professional lives."

Scholarships in the amount of \$500 were awarded to the following 2019 graduating seniors:

DAVIESS COUNTY

Zoe E. Bradford	Gallatin

CALDWELL COUNTY

EMPLOYEE'S CHILD

Emily K. Spencer	Cameron
------------------	---------

"The CRMC Board of Directors is very pleased to play a role in supporting our area youth and their edu-

cational goals," stated McElwain. "In addition to these renewable high school scholarships, the Medical Center provides \$10,000 in awards to second-year students at North Central Missouri College in Trenton who are enrolled in health care studies. In aggregate, CRMC awards approximately \$35,000 in scholarships each year as part of its charitable mission."

The Farm Bill also allows producers who participated in MPP-Dairy from 2014-2017 to receive a repayment or credit for part of the premiums paid into the program. FSA has been providing premium reimbursements to producers since last month and those that elect the 75 percent credit option will now have that credit applied toward 2019 DMC premiums.

The Department has built in a 50 percent blend of premium and supreme alfalfa hay prices with the alfalfa hay price used under the prior dairy program to provide a total feed cost that more closely aligns with hay rations used by many producers. At a milk margin minus feed cost of \$9.50 or less, payments are possible. With the 50 percent hay blend, FSA's revised April 2019 income over feed cost margin is \$8.82 per hundredweight (cwt). The revised margins for January, February and March are, respectively, \$7.71, \$7.91 and \$8.66 – triggering DMC payments for each month.

DMC payments will be reduced by 6.2 percent in 2019 because of a sequester order required by Congress and issued in accordance with the Balanced Budget and Emergency Deficit Control Act of 1985.

DMC offers catastrophic coverage at no cost to the producer, other than an annual \$100 administrative fee. Producers can opt for greater coverage levels for a premium in addition to the administrative fee. Operations owned by limited resource, beginning, socially disadvantaged or veteran farmers and ranchers may be eligible for a waiver on administrative fees. Producers have the choice to lock

in coverage levels until 2023 and receive a 25-percent discount on their DMC premiums.

To assist producers in making coverage elections, USDA partnered with the University of Wisconsin to develop a DMC decision support tool, which can be used to evaluate various scenarios using different coverage levels through DMC.

More Information

All dairy operations in the United States are eligible for the DMC program. An operation can be run either by a single producer or multiple producers who commercially produce and market cows' milk.

Eligible dairy operations must have a production history determined by FSA. For most operations, production history is based on the highest milk production in 2011, 2012 and 2013. Newer dairy operations have other options for determining production history. Producers may contact their local FSA office to get their verified production history.

Dairy producers also are reminded that 2018 Farm Bill provisions allow for dairy operation to participate in both FSA's DMC program and the

Former publisher co-author of book that will help families of missing persons

Personal Chapters LLC, a book publishing firm owned by Anne Spry, former Caldwell County News publisher, is launching a true-crime memoir this week aimed at helping the families of missing persons in the U. S.

"Searching for Summer: A Solved but Unresolved Missing Persons Case," by Anne Spry and Brandy Shipp Rogge, will be released on the first day of summer. It follows the high-profile missing persons case of Summer Shipp, a vivacious Kansas City woman who once owned the Bijou Theater in Westport. Summer disappeared in December of 2004 while doing door-to-door marketing in Independence, and her remains were not found until October of 2007. In those three years her grieving daughter, Brandy, became an advocate for families of missing persons.

At any given moment in the U. S. some 90,000 people are missing, with 50,000 of them adults. The families of those missing persons usually endure a prolonged and agonizing time of uncertainty and grief. Sometimes

that grieving never ends because a body is not found.

Only 10% of Summer Shipp's body was found by fishermen on the banks of the Little Blue River near Independence. It wasn't enough for a 2016 jury to be convinced that her alleged killer was connected to the death. Today, almost 15 years after the disappearance, Brandy Shipp hopes to etch her mother's story onto the hearts of her many friends and family members. But even more, Brandy wants to provide a guide for other families of missing persons. In her tireless advocacy efforts she has reached out to many of these families, including the families of Kara Kopetsky and Jessica Runions, some of the most recent high profile Kansas City cases. In addition, a portion of the proceeds from the sale of Searching for Summer will be donated to the CUE Center for Missing Persons.

Personal Chapters LLC, is a memoir mentoring and publishing company based in Kansas City, MO and

Wakarusa, KS. Searching for Summer details the massive search efforts by volunteers in the first two years of her disappearance. It includes touching stories of this effervescent woman by the many whose lives she touched. It also includes partial transcripts of the trial of Summer's accused killer in the 1998 murder of an Independence man, for which he was convicted and received a life sentence without parole. In the subsequent trial for the murder of Summer Shipp, the suspect was acquitted.

The book will be available at Amazon.com, Barnes & Noble, Amazon and other retail outlets in Kansas City, both paperback and hardcover editions, as well as a Kindle version. A public book launch is scheduled for Saturday, June 22 at 1 pm at The Neighborhood Cafe on Wornall Road in Waldo.
