FROM THE DESK OF ANDREW KAP:

So you've just finished reading "The Last Law of Attraction Book You'll Ever Need To Read." And it's now clear to you how important it really is to use the manifestation methods you just learned to attract everything you've ever truly wanted into your life. You finally understand the kind of miraculous experiences you can enjoy if you just begin in a smart and healthy way. There's only one question left:

"What now?"

Naturally, you're ready to dive in and start making this happen, but perhaps you're still not sure about what EXACTLY you should do next. In this extra bonus, I want to answer this for you and help you kick things off on the right foot with a very clear 10-day game plan to follow.

As you'll see, I've made this as simple as possible by only giving you ONE manifestation method to do each day. You're always free to do more, but it's important to realize that one is always going to be more than enough as long as you enjoy it and you're focused and engaged in the process each time.

And just so you don't feel stuck on only one option (since you're obviously looking for a sequence that works well for you personally), I'm giving you four different combinations of this calendar.

One (or more) of them will surely work as a great starting point for you, regardless of your individual preferences. After all, some people like to do a lot of scripting right away. Others prefer to stick mostly with gratitude exercises. And others like to mix it up a little more.

Whatever is best suited for you, you'll have it as an option.

Above all else, the whole point of this is that I want you to have enough clarity and ease to just dive in and start doing this. There's no guesswork needed here. And there's no perfect recipe you have to figure out first. All you need to do is choose from the options below, do the method designated for each day on that list, and begin to watch great things unfold in your life.

Remember, all of this is supposed to be fun. And it's supposed to be easy. So don't be fooled by how simple I've made it. This REALLY is all you really need. Trust me and try it. And you'll see for yourself. Thanks again for reading, and enjoy.

OPTION 2:

The Gratitude Sampler

For those who are excited by the idea of leveraging gratitude in a powerful way, this 10-day schedule mostly features methods rooted in that approach, but also includes a few other styles to make sure you're getting a little extra variety and giving yourself the experience of other types of methods.

OPTION 3:

The Scripting Sampler

For those who are ready to use scripting – one of the best-kept manifestation secrets out there -- this 10-day schedule mostly features methods rooted in that approach, but also includes a few other styles to make sure you're getting a little extra variety and giving yourself the experience of other types of methods.

OPTION 4:

The Free-For-All

I put this one together while in a very random stream of thought. The purpose of a more randomized list like this is to demonstrate that it doesn't matter which ones you do, which method styles you experience more than others, or what order anything goes in -- as long as you're doing something everyday and you're enjoying it, good things are on the way!

Day 1 - Advanced Reasons Into Reality Method

Day 2 - The Blitz Method

Day 3 - The "Ten Minutes Ago" Method

Day 4 - The Discount Trigger Method

Day 5 - The "Vibrating In Harmony" Method

Day 6 - The Walking Meditation Method

Day 7 - The "Protecting The Prize" Method

Day 8 - The Ultimate Money Meditation Method

Day 9 - The Time-Lapse Method

Day 10 - The Instant Replay Method

BONUS OPTION 5:

Make Your Own!

Day 1 - ???
Day 2 - ???
Day 3 - ???
Day 4 - ???
Day 5 - ???
Day 6 - ???
Day 7 - ???
Day 8 - ???
Day 9 - ???
Day 10 - ???

Maybe you'd like to try your own hand at doing this. If that's the case, feel free to randomly select options from the pool on the following page. Maybe even write them all down and throw them in a hat, and every day just fish around in the hat and see what you pull out.

As long as you're having fun, you can't go wrong. So enjoy!!
