WHY IS THIS FOR ME:

It is time to offer humanity a true healing blueprint, a rebalancing of the physical, mental, emotional, and spiritual body, at the cellular level. Using the exact energies to heal the body of which it is comprised of: (light, frequency, vibration, ozone), no longer masking deficiencies of the body or ignoring the factors which are causing the imbalances, but instead infusing and imprinting the energy back into the body for a full rebalance, a true physical enhancement, and full body rejuvenation, side-effect free. Join us and imagine the lives to be changed and a planet to be healed.

THE TECHNOLOGIES

An Amplified Superhuman Protocol

Bioresonance, Frequency, Biophotonic Light, O3

QUANTUM BIOFEEDBACK

This Quantum Biofeedback Device consists of hardware and software specially designed to scan the energetic field of the body and remove or help eliminate stress and toxins, and imprinting the body and cells with the necessary frequencies for rebalancing.

QUANTUM BIOFEEDBACK

- This bio-energetic screening machine will identify functional disturbances in the body and can often be the missing key after blood work and other diagnostic screening methods have fallen short to show matching indicators that relate to repeated complaints of the patient.
- This Quantum Biofeedback Device consists of hardware and software specially designed to scan the energetic field of the body and remove or help eliminate stress and toxins, and imprinting the body and cells with the necessary frequencies for rebalancing. Not only is it safe, but it has been shown to be very effective and easy to use. This type of bio-energetic testing has been proven scientifically after being researched and well documents in university studies where bio-energetic test results were compared and validated with other traditional diagnostic testing.

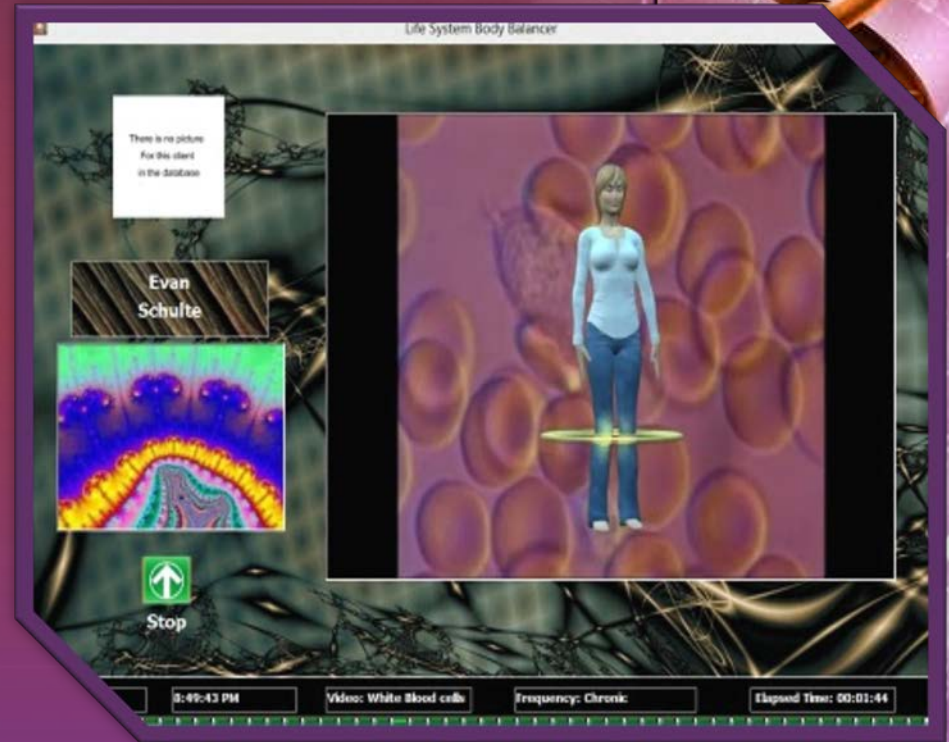

QUANTUM BIOFEEDBACK

- After analyzing thousands of stress related factors, the BIOFEEDBACK System then corrects any imbalances in the body/mind and helps to eliminate problematic symptoms and issues. The scanning takes very little time, is completely non-invasive, and results are provided in a User-friendly, visual format
- The BIOFEEDBACK System device identifies and records subtle, informational “stress potentials”, provided by the client during the assessment (“test”) procedure. The flow or blockage of this information reflects a profound system of communication that demonstrates the body-mind intelligence and inter-connection. The results are presented in the form of charts, numbers and text, making it easy for the technician and client to understand. The computer program evaluates each response and then challenges the individual with that information by feeding it back to them. The client uses this information as a self-regulating tool to re-define areas of stress and muscle tension in the body. This process assists the body’s self-corrective, natural defense mechanisms, by encouraging relaxation, balance and harmony.

QUANTUM BIOFEEDBACK

- A multiplicity of features are included within the System, such as those programs designed to evoke psychological and emotional stress responses. The 5-point harness system contains 8 LED's (Light Emitting Diodes) that provide the full spectrum of colors, (red, yellow, blue and green) used to assist in the release of stress and muscle tension.
- The Biofeedback System has recently introduced one of its most unique features in the form of Music Feedback. A technician may select from nearly 100 instruments, a unique, musical, multi-note tone which facilitates relaxation and stress management.

QUANTUM BIOFEEDBACK

MANAGE HEALTH IMMEDIATELY AND EFFECTIVELY:

- An evaluation can be done at any time a client may have alarming or worrisome symptoms – nights, weekends, holidays, even during a game or competition.
- Allows you to be intelligent about your or your client’s health

BIOPHOTONIC LIGHT

Using a high-photon output light that is directed through vials of herbal solutions and onto the body, resonant harmonic frequencies of plants are transferred and can immediately be put to use by the body. There are different vials for different ailments. It is used for anything you would visit your regular doctor for from a mild cold to advanced chronic diseases.

BIOPHOTONIC LIGHT

- Using a high-photon output light that is directed through vials of herbal solutions and onto the body, resonant harmonic frequencies of plants are transferred and can immediately be put to use by the body. There are different vials for different ailments. It is used for anything you would visit your regular doctor for from a mild cold to advanced chronic diseases.
- It is particularly useful for patients who are in a very fragile state or who are having difficulties with side-effects from treatments that they are currently undergoing. For example, if someone is prescribed a medicine for internal ingestion but their body is unable to process it correctly, the Biophotonic Light Therapy would be a viable alternative as it bypasses the digestive system altogether and does not produce side-effects. Alternatively, it could be used in combination with other prescribed treatments to mitigate side-effects; the Biophotonic Light Therapy does not have to be used as an independent therapy.

BIOPHOTONIC LIGHT

- The herbal healing elements are simply present with the ability to penetrate and migrate to places in the body where it is most needed. As the frequencies are absorbed an overall wellness effect is created with improved ATP production and increased intercellular communication. Uses include but are not limited to:
 - Reduction of various types of pain and inflammation
 - Anti-inflammatory, anti-bacterial, anti-fungal
 - Increased immune function
 - Relieves skin, digestive, and blood pressure conditions
 - Calms the nervous system and mood disorders

BIOPHOTONIC LIGHT

What is Biophotonic Therapy?

- It is the combination of 2 sciences: Physics and Chemistry
 - Physics: The invention of the Nobel Prize winning Blue Light LED Diodes made it possible to direct photons of a specific frequency that could carry harmonic information as a delivery system.
 - Chemistry: Mastery of advanced chemistry allowed 100's of botanical extracts, medicinal mushrooms, Chinese herbs and other natural compounds to be combined into long-lasting, stable solutions.
- Bio-Photonics allows for all the positive benefits of light therapy to be combined with the healing power of botanicals, herbs and other man made compounds to address many health conditions.

BIOPHOTONIC LIGHT

How Does HALO System Work?

- How does it work? The photon (light) passes through the vials or tubes that contain the botanical extracts and picks up the harmonic vibrations of the botanicals. It then transmits the photon with the botanical energies into the body (delivery system). The body then responds as if the botanicals were actually present.
- The body takes Bio-photonic Therapy energies in just like a plant takes in sunshine (a process similar to photosynthesis). These harmonic energies are then absorbed and imprinted into the body through quantum functions as the body initiates its self-healing responses

BIOPHOTONIC LIGHT

Biophotonics

- The science of generating and harnessing light (photons) to image, detect and manipulate biological materials. Biophotonics is an emerging area of scientific research that uses light and other forms of radiant energy to understand the inner workings of cells and tissues in living organisms.
- Photonic/botanical harmonic energies increase cellular communication. The body knows what to do with these energies and how to best distribute them to heal the body. Light and botanicals do not heal or cure. Rather, the self-healing ability of the body is the miracle; it utilizes supplied energies from every source it can to aid in its healing processes.

BIOPHOTONIC LIGHT

How Do You Use These Biophotonic Systems?

- Biophotonic Therapy harmonic energies can be received in multiple ways:
 - Sublingual: situated or applied under the tongue.
 - Auricular: of or relating to the ear or hearing.
 - Pressure points: on the palms of hands and/or soles of feet.
 - Locally: directly applied to the affected area of the body.
 - Water: Structure and then charge the water with the different combinations of botanicals and drink it as part of your daily routine.

RIFE & PLASMA THERAPY

The concept of using electric energy or electroporation to transform and destroy bacteria, virus, mold, and fungi is not new and has been tested and shown effective in many different experiments. Everything has its own resonant frequency. Frequencies can harmonize, activate, calm or destroy. Like the soprano can shatter a glass, so can frequency affect cells through electroporation.

RIFE AND PLASMA THERAPY

The Rife Frequency and Plasma Machine is utilized for exposing microbes to highly-modified variations of their own distinct frequency. Viruses and bacterium can be eradicated, normal healthy tissue is unaffected by these distinct frequencies, and in fact, programmable frequencies can be used for regenerating healthy cells and tissues.

The concept of using electric energy or electroporation to transform and destroy bacteria, virus, mold, and fungi is not new and has been tested and shown effective in many different experiments. Everything has its own resonant frequency. Frequencies can harmonize, activate, calm or destroy. Like the soprano can shatter a glass, so can frequency affect cells through electroporation.

If there is a match in frequency the permeability of the cell membrane is increased and the electrical charge change which leads to a change in shape and patterns. Due to this electroporation, the pathogen destabilizes and dies.

RIFE AND PLASMA THERAPY

RIFE Frequencies Are Used For:

- Anti-Viral: Kills most viruses inside and outside the cell
- Anti-Bacterial: Destroys bacteria and infected cells
- Anti-Cancer: Destroys many different cancer cells
- Anti-Parasite: Very effective to treat the body against parasites
- Anti-Inflammation: Reduces inflammation and activates re-differentiation
- Detoxification: Activates many different detox pathways
- Healing/Harmonizing: Many frequencies are used to harmonize and sleep
- Emotional Self-Regulation: Frequencies to address Addictions, Behavioral, and Emotional Imbalances and Disorders

RIFE AND PLASMA THERAPY

LARGEST RANGE OF WAVE TYPES:

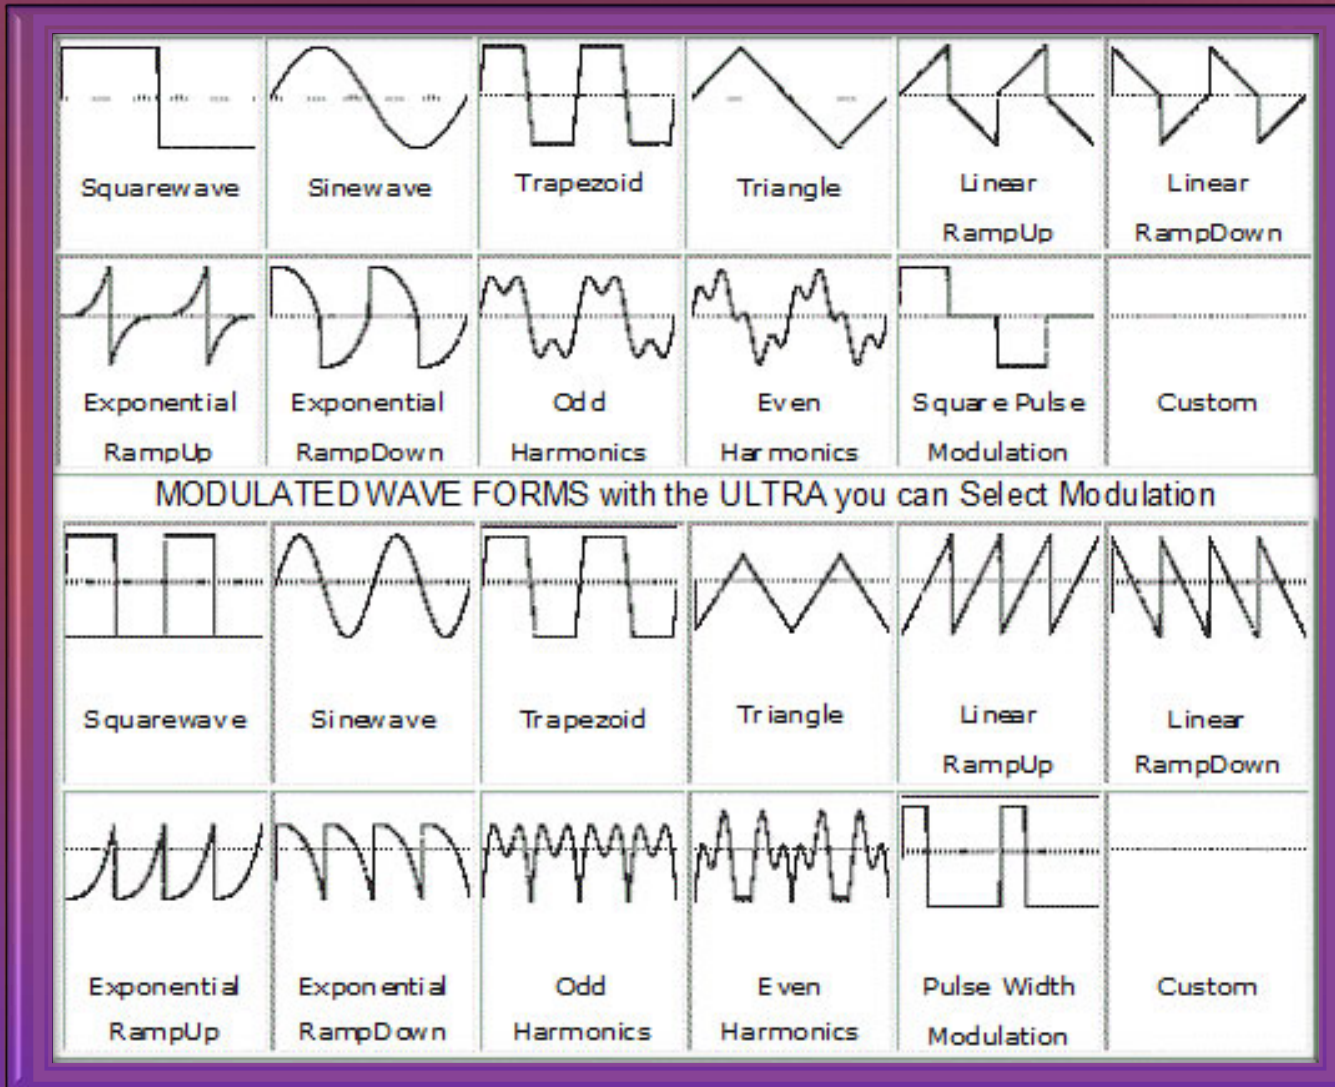

An exciting range of Wave Forms: These Rife System wave forms include square, sine, pulsating square, triangle & many more wave types for research. Square waves are used for killing pathogens, sine waves for regeneration/healing. This system has many other wave forms to choose from for experimentation (refer below) which are not offered by other manufacturers. Dr. Royal Rife stated that the more spikes in a frequency the more lethal to kill the virus. With the resonant peaks of the frequency there is an increase in the voltage, breaking down the cells of the virus wall.

The more spikes in a wave and less time on, the less chance the organism can adapt to the frequency. Dr. Rife stated, "Now the spikes that you see on the frequencies are the lethal part that kill and devitalize the virus. They are the resonant peaks of the frequencies which increase the voltage to a very high potential which the cells of the virus wall can not tolerate and they break up into many pieces and are destroyed." This statement is according to John Crane business partner of Dr. Royal Rife. The more spikes and less dwell time the less chance of microbes to adjust.

RIFE AND PLASMA THERAPY

LARGEST RANGE OF WAVE TYPES:

RIFE AND PLASMA THERAPY

COSMETIC FACIAL REJUVENATION ELECTROTHERAPY, HIGH POWERED LED AND FREQUENCY SYSTEM

Cosmetic electrotherapy is used in the spa industry and is a beauty treatment that outputs low electric currents, or micro-currents, penetrating the skin producing age defying results known as a "non-surgical facelift". The micro-current is delivered through hand held facelift electrodes which are applied directly to the face, neck or any other desired areas. The facelift wands produce skin sensations that are barely noticeable. The underuse of our facial muscles causes the skin to sag over time. The micro-electric currents trigger these facial muscles to fire increasing muscle tone, tightening and regenerates the skin. The Ultra facelift accessories also rejuvenates damaged skin due to sunburn, acne, stretch marks, cellulite and even scarring. Just after a few treatments, you will see improvements in:

- Facial circulation
- Skin exfoliation
- Lymphatic drainage
- Product penetration
- Smoother skin
- Improve sun damaged skin & pigmentation
- Increase the facial cellular health

RIFE AND PLASMA THERAPY

COSMETIC FACIAL REJUVENATION ELECTROTHERAPY, HIGH POWERED LED AND FREQUENCY SYSTEM

The Ultra facial accessories then increases the skin rejuvenating effects from the first level of treatment of micro-currents by combining it with high powered LED's. The healing benefits of the LED (light emitting diodes) have been proven to penetrate ~ one inch into soft tissue and can even move through the meridians. The compact & light weight high powered LED's, emit infrared light which is great for increases cellular metabolism, accelerating healing. The HP LEDs are available in 2 therapeutic colors which promote an array of skin enhancing benefits. Exclusively created for the BCX Ultra unit, these LEDs improve facial toning and reduces fine lines/wrinkles after just a few treatments. The anti-aging Red LED boosts collagen production resulting in skin plumping and recontouring of facial features and promotes the following:

- Diminished wrinkles
- Increased collagen and elastin production
- Smoother skin
- Rejuvenation of skin tone
- Reduction in redness

RIFE AND PLASMA THERAPY

COSMETIC FACIAL REJUVENATION ELECTROTHERAPY, HIGH POWERED LED AND FREQUENCY SYSTEM

The High Powered Blue LED is extremely effective in destroying acne bacteria that leads to acne break outs. After several treatments, there will be a dramatic improvement in the quality of skin. Blue LED helps with:

- Reduce blemishes & acne
- Minimize pore size
- Prevent future break outs
- Promote clearer skin

The flagship of our unique, innovative technology is the third level of the non-surgical facelift treatment which is the application of almost limitless, programmable frequencies that run through our unique facelift accessories, the hand-held micro-current electrodes & the high powered LED's. No other device on the market incorporates this technology. Frequencies that have been proven to be successful for a myriad of disorders or issues are incorporated in this treatment. The benefits of these frequencies have been proven efficacious and are perfectly safe for thousands of disorders. Unlike any other device on the market, this rife frequency system is world renowned for its capabilities in frequency output range (1Hz to 4 MHz.), frequency accuracy, and power. Superior results require superior technology. Only this system delivers unparalleled quality for non-invasive cosmetic facial rejuvenation & toning.

RIFE AND PLASMA THERAPY

HIGH POWERED LED AND FREQUENCY SYSTEM

Our High Powered LEDs are now available in three colors: red, green and blue. They can be applied in a variety of ways including: on the eyes, in the navel, and on the skin.

APPLICATION ON THE EYES

The green and red LEDs are applied alternately (green one day, red the next day, then green the following day, etc.). Hold the LED 1/4th inch away from an open eye, or directly on the lid of a closed eye. Start with 1 minute per frequency for each eye, working up to 5 minutes per frequency for each eye. This can be done twice a day.

APPLICATION IN THE NAVEL

Red LEDs are applied directly in the navel to stimulate regeneration, for tonification and blood cleansing.

PLASMA FUSION

A fusion of Plasma Therapy,
Nutrient-Enriched Liquid, and
Ultraviolet Frequency
Biophotonic Light

PLASMA FUSION

Plasma fusion is a concept and integration of Life Wave Stem Cell patches, plasma therapy, nutrient-enriched consumable liquids (Vitamin C, Vitamin B12, and Vitamin D, other nutrients may be integrated such as hydrogen peroxide, iodine, or baking soda, depending on conditions), and ultraviolet biophotonic light. You will read about these various process throughout this literature. The nutrient-enriched consumables will be discussed as precision protocols for each client's individual needs.

PLASMA FUSION - STEM CELLS

Imagine a product that can Activate Your Stem Cells, resetting those cells to a younger healthier state. This would represent a whole new level of vitality with improvements to your energy, sleep, reduction in pain, reduction in the appearance of lines and wrinkles and support of faster wound healing, just to name a few of the benefits.

Introducing the LifeWave X39 patch. The first product ever that is designed to Activate your body's own stem cells. How does X39 accomplish this? Using our proprietary and patented form of phototherapy, X39 elevates the peptide GHK-Cu. This is a naturally occurring peptide in your body that declines significantly with age. In fact, after the age of 60 your levels of GHK-Cu have dropped by more than 60%.

Independent third-party clinical studies on GHK-Cu have determined some remarkable benefits including support of the body's natural wound healing process. Perhaps even more remarkably, GHK-Cu resets the genes in the body to a younger healthier state. In initial clinical work performed by Dr. Loren Pickart, Dr. Pickart discovered that old liver cells, when exposed to GHK-Cu, started to function like younger healthier cells!

Over the past 10 years, David Schmidt and the research team at LifeWave in San Diego California have been investigating new methods for dramatically accelerating the way in which the human body heals after injury. The discoveries and inventions created by David and his team have led to more than 70 global patents in the field of regenerative science. Some of these inventions are so groundbreaking that in initial trials with flat worms (a biological stem cell model) they show a phenomenal 90% improvement in the speed of wound healing. Later studies with animals and humans showed that in fact specific applications of electromagnetic fields created by some of these devices that the activity of stem cells could indeed be enhanced, and both animals and humans could heal much faster as compared to no therapy being applied.

We have various Stem Cell Patches available, and can discuss needs individually.

using the general concept of quantum entanglement, the amino acid within proteins. The amino acid is a building block of DNA and is also a building block in a process called biophotonic.
While only DNA is considered a genetic code, it is called a biochemistry. There is a process called biophotonic that is used to create a protein. This process involves the use of hydrogen, sulfur, oxygen, and nitrogen. These elements, along with proteins, are used to create a protein. The amino acid is a building block of DNA and is also a building block in a process called biophotonic.
At the nucleus and some of these cells are called as mitochondria. These are the organelles that are used to create a protein. The amino acid is a building block of DNA and is also a building block in a process called biophotonic.
These complex processes are used to create a protein. The amino acid is a building block of DNA and is also a building block in a process called biophotonic.
Amino acids are the building blocks of life.

STRUCTURED WATER

To understand this necessary component to life, we must understand its chemical properties and how it works in and with our bodies. Ozone is a colorless gas made up of three oxygen atoms. It is used as an alternative therapy to improve the body's intake and use of oxygen and to activate the immune system.

In medicine, ozone therapy is used to disinfect and treat diseases by limiting the effects of bacteria, viruses, fungi, yeast, and protozoa. With the use of Ozone and nano-structured water through the integration of the botanical and light infused water, you can hydrate your body more quickly and effectively, enhance energy levels, improve your overall aerobic capacity and health and prevent premature aging.

Today it is used for treating the following:

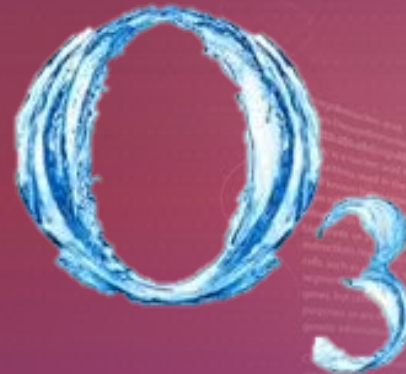

- infected wounds
- circulatory disorders
- geriatric disorders
- macular degeneration
- viral diseases
- rheumatism and arthritis
- cancer
- SARS
- AIDS

STRUCTURED WATER

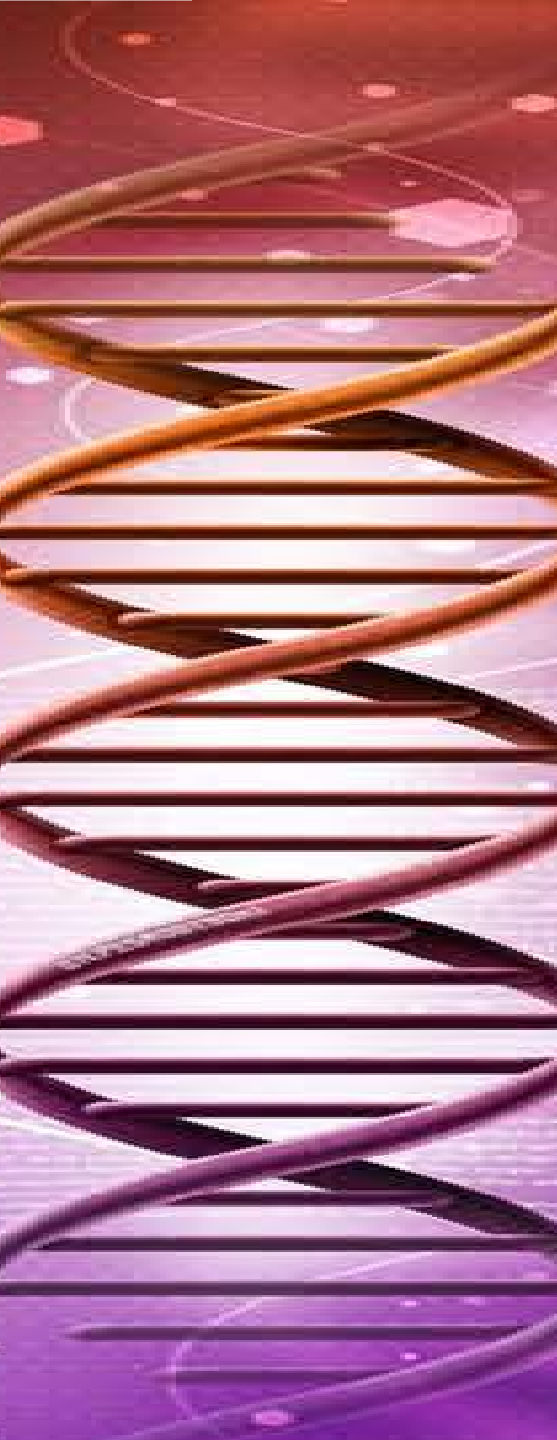

There have been some promising studies examining how ozone may be beneficial to health by:

- inactivating bacteria, viruses, fungi, parasites, yeast, and protozoa
- stimulating the immune system to speed up healing

Microclustered (Nano Enhanced) Water:

When drinking micro-clustered water, or water that contains only five or six molecule clusters, the water becomes much more hydrating, soluble and permeating for the cells and the body. In essence, it's a system that delivers wetter water so that more of the nutrients will be absorbed into the cells at a faster rate. This Structured Biophotonic Ozone Water will have limitless benefits as noted above and will hydrate the body more quickly and effectively, enhance energy levels, improve overall aerobic capacity and health and prevent premature aging.

O₃ OZONE CHAMBER

(ADD-ON - \$15,000)

An activated oxygen session is one of the most powerful methods to detoxify and oxygenate your body. The moist head in the steam sauna opens up your pores and dilates the capillaries, helping to “flood your body with oxygen”. The activated oxygen oxidizes toxins in fat, blood, and the lymph system.

OZONE CHAMBER

WHAT IS OZONE:

Ozone is a colorless gas made up of three oxygen atoms. It is used as an alternative therapies to improve the body's intake and use of oxygen and to activate the immune system. Ozone therapy can also be used to disinfect and treat diseases by limiting the effects of bacteria, viruses, fungi, yeast, and protozoa.

OZONE O3 BENEFITS OF INTERNAL BODY PROGRAMS:

- Ozone stimulates the production of white blood cells, which help fight and protect the body from viruses, bacteria, fungi and cancer. Cells that are deprived of oxygen malfunction and are unable to eliminate their invaders. Ozone therapy significantly raises the oxygen levels in the body.
- Interferon levels are increased through ozone. They are the heart of your immune system. Gamma interferon's can be elevated immensely by ozone. They are in charge of the phagocytic cells that engulf and kill pathogens.
- Ozone stimulates the secretion of Interleukin-2; which is another big part of the immune system.

OZONE CHAMBER

- Ozone kills all types of bacteria, viruses and fungi. Ozone therapy disrupts the integrity of the bacterial cell through oxidation. In fungi, O₃ inhibits the growth at certain stages. Lastly with viruses, O₃ damages the reproductive cycle by disrupting the virus/cell contact.
- Ozone is anti-neoplastic and therefore inhibits the growth of new abnormal tissue. Cancer cells are rapidly dividing cells and are inhibited by ozone.
- Ozone allows for better tissue oxygenation to deficient organs. Tumors thrive in areas where the average pO₂ (oxygen – partial pressure) is lower than normal tissues as the body is unable to create a reaction for reestablishing the healthy physiological oxygen levels. The results obtained in several studies have demonstrated that ozone has an effect in regulating oxygen metabolism and oxygenation. Improving tumor oxygenation by significantly and constantly increasing oxygen availability and microcirculation, which slows down tumor growth and inhibits tumor metastasizes.
- Ozone increases the flexibility and elasticity of red blood cells. A study on colorectally insufflated ozone on red blood cell deformity showed an increase in red blood cell (RBC) aggregation and changes in the fragility of the cells. This aids in the passage of RBC's through small capillaries and efficiency of gas exchange.

OZONE CHAMBER

- Ozonated water has anti-inflammatory properties and is a potential therapeutic option for acute inflammation.
- Ozone makes the anti-oxidant enzyme system more effective.
- Ozone assists with detoxing, as all detoxification pathways (liver) require oxygen.
- Ozone breaks down plastic toxicity of BPE, BPS, PaH, Phalates and many more. It is an ideal detox agent for xino estrogens.
- Ozone increases oxygen in hypoxic cancer cells. This also helps in preventing metastatic growth and angiogenesis.
- Ozone reduces inflammation.
- Ozone assists in detoxification, leaving the body less likely to have diseases.
- Ozone boosts the immune system.
- Ozone kills all types of bacteria, viruses and fungi.

OZONE SAUNA THERAPY:

Ozone (O₃) gas discovered in the mid-nineteenth century is a molecule consisting of three atoms of oxygen in a dynamically unstable structure due to the presence of mesomeric states. Ozone therapy has been utilized and heavily studied for more than a century. Its effects are proven, consistent, safe and with minimal and preventable side effects. Medical O₃ is used to disinfect and treat disease. Mechanism of actions is by inactivation of bacteria, viruses, fungi, yeast and protozoa, stimulating the metabolism's oxygen and activating the immune system.

OZONE SAUNA THERAPY BENEFITS:

An activated oxygen session is one of the most powerful methods to detoxify and oxygenate your body. The moist heat in the steam sauna opens up your pores and dilates the capillaries, helping to "flood your body with oxygen". The activated oxygen oxidizes toxins in fat, blood, and the lymph system. The majority of the toxins are sweated out in the sauna, which customers may be able to see the toxins after their sauna session.

A sauna session can burn as many as 600-1000 calories as your heart rate increases by 50-75% during a session. This increases circulation, metabolism, and energy. Enhanced cellular immunity with an overall feeling of having been "cleansed." Restoration of suppleness and elasticity with increased oxygen. Increased oxygen levels stimulate production of new skin cells. Toxins are removed from fat. This leaves the body to no longer need the fat to store the toxins and substantial weight loss is often realized.
