“Without continual growth and progress, such words as *improvement, achievement, and success* have no meaning.”

~ Benjamin Franklin

**6,500
Volunteer
Hours!**

LETTER FROM THE EXECUTIVE DIRECTOR

Dear McKee Garden Member,

Growth and progress... summarize the past year. In 2018-2019, we celebrated several milestones...we set a new visitation record since reopening in 2001, with 66,623 members and visitors entering our gates. Our membership grew to over 3,500 for the first time ever and the daily progress of the new Children's Garden at McKee was amazing to witness. Our continued growth and progress can be directly attributed to:

- **Strong leadership and support from our Board of Directors** Our Board members developed strategic initiatives to help strengthen our governance through education, a new recruitment program, and more communication. They meet monthly to assure the fiscal health and sustainability of the organization. We continue to maintain a strong financial position and are poised to continue as a premier destination.

- **Staff Teamwork and Enthusiasm** Our dedicated staff members take pride in every aspect of McKee and they love what they do. The longevity of our management team, which spans over twenty years and growing, speaks to their ownership and responsibility for the Garden's success and that the day-to-day operations of the Garden are always at the forefront.

- **Volunteer Dedication and Commitment** Our Volunteer Coordinator is stellar in recruiting and maintaining a strong and meaningful relationship with hundreds of volunteers by providing them with countless opportunities to help the Garden. In 2018-2019, 120 McKee volunteers donated almost **6,500 hours** helping with maintenance of the Garden, processing mailings to our members, labeling newsletters, stuffing backpacks, decorating during our holiday events, and assisting during all of our annual events and more!

- **Member and Visitor Loyalty** Our members support all of our events and exhibitions through attendance and generous sponsorships. In 2019, McKee Botanical Garden received the Trip Advisor Certificate of Excellence Hall of Fame Award. McKee qualified for this award by receiving a certificate of excellence for each of the past five years. This award was a result of positive reviews posted on TripAdvisor.com from our members and visitors.

- **Generosity of our Donors and Sponsors** We made the call and you answered it! What began as a vision years ago is now becoming a reality...thanks to the incredible generosity of our donors. Together we raised over \$5 million to construct the new Children's Garden. Thank you all for believing in the vision, joining us on the journey and helping us reach our goal! When the new Children's Garden at McKee opens in 2019, *it will be a fun and whimsical outdoor destination that inspires imagination and curiosity in children through interaction, education, and exploration.* We cannot thank you enough for your philanthropic support and hope you enjoy being a part of the legacy of commitment to children and nature in our community.

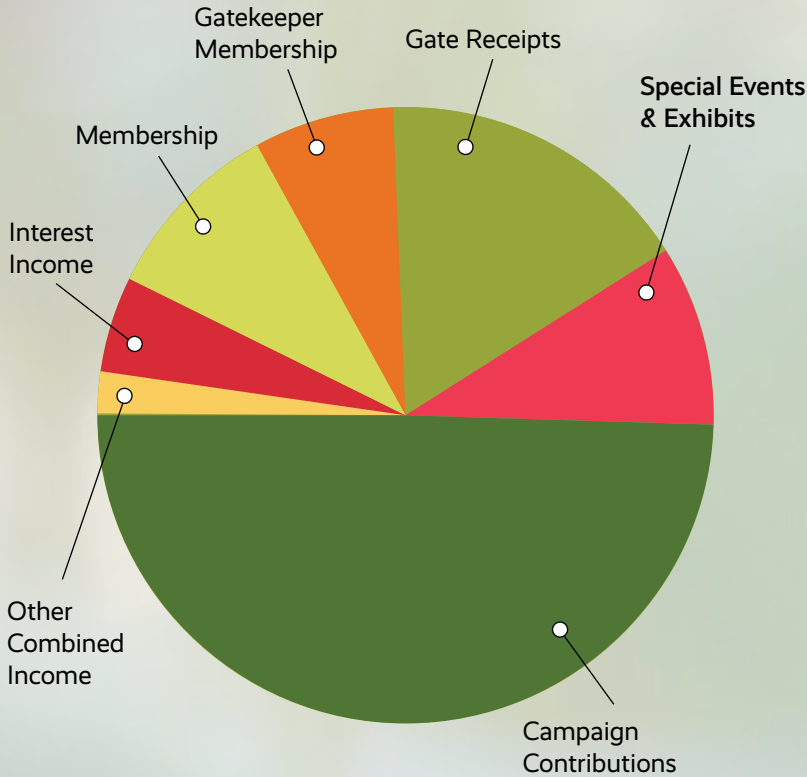

Lastly, McKee is committed to our role as a strong partner and exceptional asset to our community. We will continue to assess, maintain, and improve our existing programs while adding new opportunities for engagement. We vow to uphold the Garden's legacy and mission of education, enjoyment and enrichment for all.

Sincerely,

Christine Hobart
Executive Director

HORTICULTURE

Going and Growing Green

Our Horticulture Team has been very busy during this past fiscal year enhancing and maintaining the Garden's plant collection, growing and planting trees and plants in the new Children's Garden at McKee, growing vegetables, maintaining the Garden's facilities and parking areas, and attending educational classes.

In the main Garden, our entire collection of waterlilies has been replaced with new "named" plants. The growing procedure/materials and repotting technique has been revised to reflect information gained over the past few years. Four new species of waterlilies have been added to the collection, for example, *N. prolifera*. In addition, 45 non-native *Ficus* seedlings in palm trees were removed that would eventually strangle and shade out the host trees. (*Ficus* tree shade is much denser than native trees and reduces the ability to plant understory plants). We also completed some buffer plantings. Over time, as plants grow up or die, the buffer becomes sparse in some areas and no longer provides the separation from the outside world. We planted over 300 native understory plants with a few exotic surprises woven in: Allspice tree, Shampoo ginger, Bingabing, Wax Jambon, *Orianopsis appendiculata* palm and 12 *Archontophoenix maxima*, just to name a few. In addition, we also traded some waterlily and aquatic plants with the Naples Botanical Garden and Cedar Lakes Garden and Preserve in an effort to increase our plant diversity and protect our plant collection.

In the Children's Garden, we have been working on in-house plant propagation by growing some more exotic and hard to find plants such as *Bravisia berlandieriana*, *Dracaena thaliodes*, and *Woodveitchia* palms, thus saving the Garden \$30,000 in plant costs. For the Fairy Forest area, we have prepared over 30 staghorn ferns of three different species to adorn the trees. The typical use for these plants is to see one or two mounted on a tree or ball and chain. Here we will have a forest of staghorn ferns.

Since 2014, our hort team has been growing vegetables in small areas on the property. A team of McKee volunteers created a beautiful garden design with raised beds made from discarded metal hurricane shutters. Sealantro at the Garden Café has used some of the harvest for their menu offerings. During 2018-2019, approximately 50 pounds of produce grown at McKee has been utilized in the café and also eaten by McKee staff and volunteers. All of the vegetables have been raised utilizing organic techniques, with the exception of inorganic fertilizer. Some of the more popular vegetables grown at McKee are kale, eggplant and various herbs. During the summer months, we grew a wide assortment of vegetables including Seminole pumpkin, three varieties of sweet potatoes, one variety of heirloom peanuts, Shiso greens, eggplant, peppers, sage, rosemary, garlic, chives, parsley, basil, Mexican tarragon, gourds, yard-long string beans, cucumbers, marigolds, and Cuban oregano. In addition to the wonderful health benefits and homegrown taste, the vegetable garden areas have been utilized as a habitat for the endangered Atala butterfly, as well as creating a habitat for other pollinators and beneficial insects. In January, McKee Horticulture Staff Member, Rebeca Siplak, instructed a class on “Growing Vegetables and Herbs” during the winter months. Participants learned about the steps to consider in edible gardening, including: site location, garden planning, soil amendments, water, pests and diseases, and resources.

Our horticulture staff members don’t only grow vegetables and plants. We have also been very busy growing our knowledge about garden related topics by attending educational classes including the Redlands Show IFAS Orchid Diseases, Orchid Pest, Selby Garden Orchid Repotting and Cultivation, Roy Takanuga’s How to Grow Monster Orchids, IFAS Alternatives to Glyphosate, Bees of Florida and Beekeeping, Transforming Landscape for Sustainable Futures, as well as ISA Palm Identification, ISA Palm Leather Bronzing I.D. and Management, and IFAS: Protecting Florida’s Resources Best Management Practices Training. We also attended several safety courses including IFAS Ladder Safety and Hand-Held Tools and Agriculture Safety (ladders, chemical use, and personal protective equipment), and a very informative recycling presentation given by Sue Flak, Recycling Coordinator from the Indian River County Solid Waste Disposal District about the Single-Stream “Blue Bin” Recycling Program and what can and cannot be recycled.

All of our horticulture staff members are GIBMP certified (Green Industries Best Management Practices), which is attained by attending an educational program for people working in lawn-care and landscape management that teaches environmentally safe landscaping practices that help conserve and protect Florida’s ground and surface waters. Among our staff we have a Certified Arborist, a Certified Wildlife Specialist, and a LCLM (Limited Commercial Landscape Maintenance Operator).

Maintenance of the grounds included replacing all of the overhead lights in the south parking area with LED lights and rejuvenating the north and south parking lots with a product that rehydrates the asphalt and binds it into a more solid surface increasing its longevity.

In June of 2019, we welcomed **Amy Shoemaker** to McKee's staff.

Amy is the new Education Coordinator and will be responsible for all of the educational courses, workshops, and lectures for adults and children.

Amy will also be responsible for ongoing activities and programs for the new Children's Garden at McKee.
