We provide these for you!

Nothing much has changed in the sale of insurance over the years. It was always a numbers game, along with a bit of the luck of the draw, and it still is today. The main difference today, for those that are in know, is you can now stack the odds in your favor dramatically by using technology to work with much bigger numbers.

Some might say that with the use of technology and an advanced marketing system, you can easily make your own luck!

The Targeted Marketing List!

You need to build or acquire a targeted qualified prospect list of prospects in your local area.

All of your Current Clients should be at the top of the list.

Add that to a targeted list of small businesses in your area (200 to 500 small businesses at a minimum).

We Help You Do This!

Targeted Marketing List!**

At the end of the day you or someone that works for you, will have to pick up that heavy telephone, to make the required calls, to gain access to these prospects, in order to turn them into suspects, and then into clients!

We help you determine who to call first and what to say when you contact them!

Telephone Marketing is certainly easier and initially more productive than knocking on doors but in many cases sooner or later you are going to have to meet with your new prospects.

We help you determine which doors to knock on first!
