

2009 A whole new range of fifth wheels

The New Breed

Here at Open Range RV Company, we have created our flagship product, the Open Range Fifth Wheel, to bring the future of leisure travel to your doorstep. It's a future you have helped to mold, with your many excellent suggestions and ideas, which we have added as features in the Open Range design.

The Open Range Fifth Wheel is a maverick in its category. We've developed new, advanced construction techniques and materials so that you don't have to give up space or luxury features to obtain lighter weight. Without sacrificing quality, the Open Range gives you extraordinary towing ease and aerodynamics engineered for a carefree road experience. We back our promises with a two-year transferable (limited) warranty.

From its silvery, high-gloss metallic-finished exterior to its 10-year warrantied cabinet doors, everything about the Open Range unveils a new era in the realm of Fifth Wheel RVs—This New Breed is surprisingly lightweight, easy to maintain, loaded with features, and built to last for years while remaining completely affordable at a mid-price point category.

You will notice that our floor plans are numbered in terms of square feet of living space, not in length. That is because our 100-inch wide-body chassis, along with slide-outs 6" deeper than most, create extra living space in each and every floor plan, regardless of length. This simply adds up to more living space with less length to tow!

I look forward to meeting you in the campgrounds of North America in your easy-towing, spacious, 2009 Open Range RV—May you be among the first to own the fifth wheel brand which has been designed to become a Classic.

Enjoy the Journey!

Randy Graber, President
Open Range RV Company

You Are Home Free

Just look at it! We've planned every interior detail of the Open Range Fifth Wheel to please you. Shown here is just one of three beautiful color schemes. This one is called "Lifelong" because that's how long you are going to find it classic and still in style, and how long you and your family will continue to enjoy it.

The 10-year warrantied cabinet doors, the King Stone™ solid contoured countertops in kitchen and bath, the flat-screen TV behind the etched glass doors of your corner hutch/desk, other residential accents like the grape-motif antiqued black metalwork spice rack below the sink and the matching wine rack above it, the quilted bedspreads, the sliding panelled wood door to the bath from the bedroom with another door outside the bedroom to the same bath, the extra-soft pillow-top mattress and residential quality upholstered furniture, the plushy carpeting, the oil-rubbed, bronze-toned faucet and drawer pulls, the wood-corniced, extra-deep slideouts, the classic drapery treatments with residential curtain rods, the extra-large windows...all this, inside the 2009 Open Range, waiting for you to claim it as your own.

Two Tones of Contemporary Wood Cabinetry contribute to the upscale look.

Shown here, the 337RLS Floor plan in "Lifelong" color scheme.
