THE NEW FIAT 500e

The Fiat 500 has become an icon of Italian design and lifestyle, and the new Fiat 500e – the brand's first 100% electric car – provides a raft of best-in-class features. The new Fiat 500e is also the first city car to offer Level 2 Autonomous Driving.

Four trim levels are available – Action (Hatchback only), Passion, Icon and La Prima – each with its own distinctive character, and the 500Ce is the only convertible four-seat EV currently on the market.

The 500E Action, priced from just £19,995 on the road including the Government Plug-in Car Grant (PiCG), are fitted with a 93hp electric motor, enabling acceleration from 0-62mph in 9.5 seconds and a top

speed of 84mph. The lithium-ion battery has a 24kWh capacity giving a range of up to 115 miles# on the WLTP cycle.

Action models come with a 3kW Mode 2 cable as standard, and the Combo 2 socket, located on the rear right side panel of the car, enables fast charging in both AC and DC modes via the 50kW fast-charging system; charging to a range of around 30 miles takes less than 10 minutes.

For charging at home or in public, an on-board three-phase 11kW Mode 3 cable is optional on Action, Passion and Icon, (standard on La Prima), working in conjunction with a charging station or wallbox.

Combo 2 socket can accept both AC and DC charging

500e ELECTRIC: ADVANCED DRIVER ASSISTANCE SYSTEMS

A wide range of driver aids creates a safe driving environment

Attention Assist: detects driver fatigue and advises you to take a break

Autonomous Emergency Braking: with pedestrian and cyclist detection

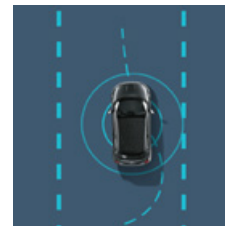

Blind Spot Monitoring: detects and alerts you of objects in blind spots

SOS Emergency Call: calls emergency services in the event of an accident

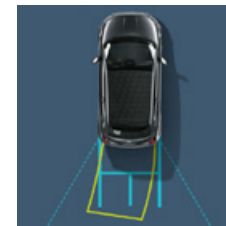

Adaptive Cruise Control: sets and keeps a safe distance vehicles in front

Lane Departure Warning: warns if you are about to deviate from your lane

360° Parking Sensors: to help achieve optimal parking in tight situations

Rear View Camera: with Dynamic Gridlines for clear reversing guidance

Lane Centering: helps you to keep travelling in your own lane

Use the menu bar above to navigate through the guide. Click ESC to exit

THE NEW FIAT 500e (continued)

Passion, Icon and La Prima models are powered by a 115hp electric motor giving a top speed of 93mph and 0-62mph time of 9.0 seconds. The 42kWh battery pack provides best-in-class range of up to 199 miles# on the WLTP cycle, increasing to 285 miles# in city driving.

With the standard-fit 85kW fast-charging capability in these models, recharging the battery to 80% range takes just 35 minutes, or to 30 miles in around five minutes.

Numerous ADAS features are fitted as standard in the new 500e. These include Drowsy Driver Detection to monitor driver concentration levels; Autonomous Emergency Braking (AEB) which can recognise cyclists and pedestrians along with other vehicles; Lane Keep Assist (LKA) alerts the driver if it detects any deviation from your lane; and Traffic Sign Recognition which reads road signs and recommends the correct speed at which to drive.

A 7" touchscreen is standard on Passion while Icon and La Prima come with a 10.25" screen

La Prima features a central armrest and covered centre console

The new Fiat 500Ce soft top is available in three shades depending on body colour

#The new Fiat 500e is a battery electric vehicle requiring mains electricity for charging. Range figures were obtained after the battery had been fully charged. Figures shown are for comparability purposes and may not reflect real-life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. For a full emission statement, please refer to the final page

THE NEW FIAT 500e: CHARGING SOLUTIONS

The new Fiat 500e includes ingenious technology and fast-charging options

Range Autonomy: the new Fiat 500e's range of up to 199 miles# covers most typical commuting journeys and more

Sherpa Mode: the energy saving mode that saves your car's energy by limiting speed and acceleration

Fast Charging: 42kWh models can be fast-charged at 85kW, giving 85% charge after just 35 minutes

One Pedal Driving: the right-hand pedal is used for both acceleration and braking, when energy is recovered

easyWallbox: optional charge solution that needs no professional installation. Uses Bluetooth® for setting and checks

Connected Wallbox: the advanced homecharge solution gives full control with remote operation via Bluetooth®

CHARGING THE NEW FIAT 500e

CHARGING EQUIPMENT

The new Fiat 500e is equipped with a CCS Combo 2 smart charging socket and Mode 2 charging cable as standard. The optional Mode 3 cable (standard on La Prima models) enables AC charging at 11kW, with DC fast-charging at a rate of 50kW or 85kW in dedicated public stations equipped with a Mode 4 charging cable

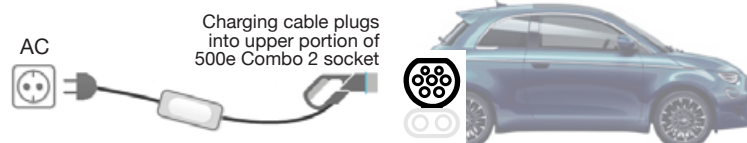

CHARGING MODE

MODE 2

Domestic charging is enabled by the Mode 2 charging cable that comes as standard on all new Fiat 500e models, stored in a compartment in the boot

CHARGING RATE

3kW DOMESTIC SOCKET

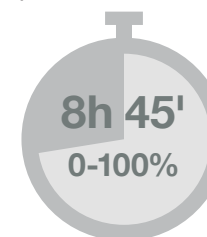

CHARGING CABLE

MODE 2

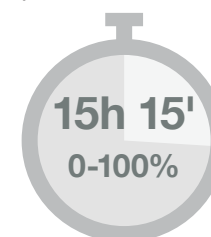

CHARGING TIMES

CITY RANGE: 24kWh
up to 115 miles (185km)[#]

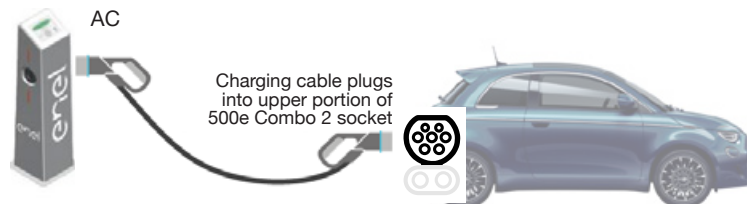

CITY RANGE: 42kWh
up to 199 miles (320km)[#]

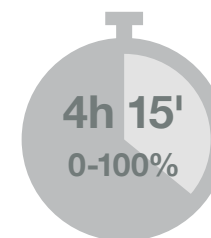

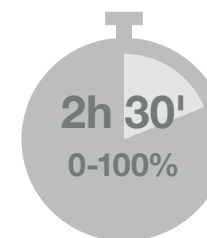

MODE 3

The Mode 3 charging cable is optional on Action, Passion and Icon models and standard on La Prima. It provides AC charging at a maximum rate of 11kW (3-phase) and up to 6.6kW (1-phase), and is stored in a convenient bag located in the boot

11kW CHARGING

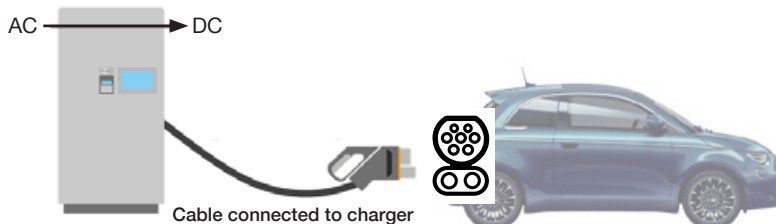

MODE 3

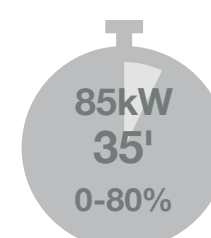

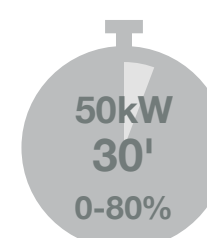

MODE 4

Public charging stations use DC fast-charging using the Mode 4 cable at 50kW for the low range battery (Action models) and 85kW for the high range battery (Passion, Icon and La Prima models)

500e ACTION

Action trim marks entry to the new Fiat 500e range. Packed with innovation and advanced technology for effortless zero-emission driving, power comes from a 70kW e-motor with a 24kWh battery giving a range of 115 miles (WLTP)[#] and a 0-62mph time of just 9.5 seconds.

Standard equipment includes 15" wheels, air conditioning, LED daytime running lights, LED brake lights and unique EV one pedal driving, where the right-hand pedal is used for both acceleration and braking.

500e ACTION KEY STANDARD EQUIPMENT

- 15" Style Wheels
- TFT 7" Digital Instrument Cluster
- Four-way manually adjustable front seats
- Air conditioning
- Centre console with storage space
- Steering wheel with audio controls
- EV mode selector
- EV One Pedal driving
- Electric windows (driver's one-touch up/down)
- Electrically adjustable body coloured door mirrors
- LED daytime running lights
- LED rear lights
- Front 12v point
- Front USB port (charging and data transfer)
- Front USB port (charging only)
- Heated rear window
- Height adjustable steering wheel
- Keyless Go
- Steering wheel with audio controls
- Airbags: driver, passenger, front side (x2), window (x2)
- Four speaker sound system
- Smartphone cradle with device integration
- Rear head restraints
- Rear parking sensors
- Attention Assist (drowsiness detection)
- Autonomous Emergency Braking (AEB)
- Dusk sensor
- E-call (SOS)
- ESC (Electronic Stability Programme) and MSR, ASR and hillholder
- Electronic parking brake
- Lane Keep Assist (LKA)
- Tyre Pressure Monitoring System (TPMS)
- 50kW AC or DC fast charging
- 24kWh battery
- 70kW e-Motor
- Mode 2 charging cable (3kW)
- Fix&Go puncture repair kit
