

## THE NEW HORSEMAN

Publication of the California State Horsemen's  
Association, Incorporated                      March 2010

Presidents message: The January Quarterly "Kick-Off" meeting went well. Thank you to everyone that attended. Updated information on Fundraising, Finances, Membership and Insurance were the highlights. Many question were answered in the forum setting, getting the year off to a good start. Asking questions of Insurance Representative Mark Fredrickson earned attendees some great prizes.

This will be a challenging year be we are gearing up to meet it head on. The financial picture will be closely monitored, making cost saving measures and improvements. The Website is becoming a source of promotion and fundraising to CSHA.  
*See the enclosed listing for more information.*

Our Programs are ready to roll for this year and we have many new ideas for fundraising and promotion of CSHA. We are the "best kept secret" in California and we are going to break those barriers with new ways to get the word out. We have so many great ways to enjoys our horses and horsemanship.

The CSHA booth at Equine Affair in Pomona was well located and visited by many equestrian patrons of the show. We supplied materials, local club information and answered questions. Carolyn & I enjoyed the visit with the members of the Southern area manning the booth. Miss Tracy Hinson and her mom were also there promoting CSHA and a very positive image for our youth. We were able to miss traveling over the Grapevine in the snow, didn't get caught in the mudslides while there so we didn't let the rain dampen our visit. Thank you to the Southern Regions for your hospitality & hosting the booth.

An item of lengthy debate is the Legislative Committee. I have developed a packet of information that will summarize where we are at in 2010. Since our change to a 501c3 in 2002 there have been many challenges of staying within the guidelines for non-profits and still be effective in equine issues Statewide. At the April Quarterly we will schedule a meeting an work through the framework. Jack Abraham is accepting names for viable Chairman candidates that he will submit to me. Anyone interested in structuring the committee is welcome to meet in April.

There are more highlights for the January Quarterly and great Program updates. It seems we will get a good dose of rain this winter but I'm certain we are thinking ahead to sunny days and lots of riding.....Stay safe in your travels..... Jim

## **Business Items from the Quarterly:**

### **The CSHA Website:**

Our Webmaster Ken Marple continues to work with the original CSHA website while building a new website side-by-side. Some information "jumps" to the newer site. The original site is fragmented, making it susceptible to crashing. This makes it difficult because old files cannot be easily located or updated, time has corrupted many files. I want to Thank Ken for the time he volunteers to us. Hopefully in the near future we can convert all our information and be running on the new site. I also want to thank everyone for their patience during "construction". *Jim Hendrickson*

## **Region 10**

The first meeting was a great Pot Luck at the Posse Club House shared and enjoyed by all. Guests were from the Western Star Equestrian Drill Team; their President Stacy Jenkins and Team Manager Heather Dagar about their Region 10 club and offered to be the entertainment at our shows & events. The January Schooling show was cancelled due to the rain; the next show is March 13 at Taylormade Farms. Our area is host to Cow Horse Clinics, Reining Working Cow Horse, Ranch Versatility & some Stock Horse Classes as well as our English/Western Shows and trails club rides.

## **Region 13**

Our region is in full swing for the season. We have managed to smooth out the bumps in the road and started a full Gymkhana schedule on February 20th, 2010 with the Winter Series in Ferndale. The Rating Shows will be April 10, 18, 24 and May 1st. The point shows will continue from May through September. Contact Gymkhana Chair-Sarah Rea, [region13gym@gmail.com](mailto:region13gym@gmail.com) For the detailed schedule and requirements to qualify for SOC.

## **Region 11**

One of our club's mottos "get the backyard horse out of the backyard" and they accomplish this by sponsoring about 12 rides a year including local Norco events. out of town rides, equestrian camping and parades. Saddle Sore Riders, Inc is active in our area and does a great job at promoting equine activities and local active participation.

## **Region 14**

We are moving right along !! Our First Annual " What the Heck is Gymkhana?" day was a big success with 42 combinations riding through 5 courses. At least half the rider's combinations were first timers! With a small snack bar we made a little extra profit. The first Annual Membership Drive/Ride/Drive-thru was also a success; with 30 riders from are Yucaipa arena to the McDonalds in Calimesa, where employees greeted the horses with bags of carrots after they were brave enough to place and pick-up their orders at the drive-thru! Quite a sight! We have our Gymkhana dates set and our State Benefit trail ride is tentative for May 23rd at Jeffries Heartland Stables in Redlands.

## Region 18

The year started with our January 27th meeting, signing up 19 riders for Gymkhana, passing out the State Show of Champions information for the 2009 show placements by division. Since the final binders were not complete, Julie went through all the times and reconstructed the results correctly. We are looking forward to a busy season we are just waiting out some of the rains.

## Programs

### Gymkhana:

**Welcome to the 2010 CSHA Gymkhana Program!** We have some new faces on our 2010 committee, including Rating Secretary Linda Hull (Reg 5) and Vice Chair Casey Raubach (Reg 3) We have been working hard to update, simplify and increase the efficiency of the program. Some changes this year include mailing hardcopies of the Rating changes to the Region Chairs every two weeks, instead of to individual riders; using technology will cut our costs. Fundraisers and another State-wide raffle is being worked on to ensure that we can continue to provide the same quality and quantity of awards at this year's Show of Champions. I am currently working with the approval process for the 2009 Award Saddles, this should soon be resolved.

Although we appreciate the generous Sponsors, we also learned we will have to be more self-supporting. There are several benefit shows in the works, including the Memorial Day Showdown in Dunnigan (May 29-30) a Region 5 Show in Martinez (June 5th), and a Rating show at Rancho Murieta (April 18th). The Rancho Murieta show will serve to test out the arena footing and make any needed adjustments. Plans are to run all 4 rating events & speed barrels. More information coming soon ! Our February walk-thru at the Murieta facility was well attended, the managers accommodating and the facility is very nice. See the pictures that are posted on the CSHA "Facebook" page

I want to Thank everyone for their patience and support. We are facing an unstable economic future, but if we keep working together we can have the best year yet !

**Thanking our Sponsors & donors:** Luan's Leathers, Travel N'Corrals, Off the Beaten Path Photography, Elk Grove Milling, Nutrena & Longaberger. **Award Sponsors:** Redding Rancheria, Wells Fargo Ag Division, Castle West Construction, Lucky 7 Casino, Bradley Wear, Painted Pony Tack, Castle companies & Castle Management, Cowboy Cadillac Saddlery, Michael Parona DDS, PM Dusters, Mallard Creek, Waterworks Park, Mowles Tehema Co. Glass, Avoca Farm, Michael T Agrella Chiropractic, DeSilva Gates Construction Company, **and the friends & families of our riders. THANK YOU !!**

### ON THE TRAIL.....

CSHA will be participating at the upcoming California Trails & Greenways conference at Cambria on April 21-23, 2010. I encourage you to attend the conference and become active in promoting trails in your local Region as well as statewide. Thank you for your support of the CSHA Trails & TRAP programs, allowing them to represent you at the Conference.

## **Trails (cont.)**

*For more information on the Conference see the Logo Link on the CSHA website*

Trails has provided information for Equine Affair in Pomona and will also be at the Western State Horse Expo in Sacramento June 11-13, 2010.

The CSHA Trails Program is attempting to inventory Equestrian Trails & Equestrian Access to Trails in each Region. The goal is to document all trails with equestrian access and post the information on the CSHA website. We need your help to accomplish this task. Each Region is also being asked to put on a Trail Event this year as a supporting fundraiser; a poker ride, trail ride campout, or co-sponsored event with other trails users. If you need assistance in setting up an event please contact me.

Each Region is also asked to put on a Trail Work Day event, this is an opportunity to show local land managers that equestrians are ready and willing to roll up their sleeves and work on trail building & trail maintenance in order to insure equestrian access to trails in California both now and in the future. Please document your efforts and report them to the CSHA State Trails Program Chairman. Only by being "at the table" in discussions on Trail Issues, Trail Planning & Design discussions, and interacting positively with public land managers will equestrians and horse owners insure future trail opportunities for equestrians and have input on issues that affect horse ownership in California.

As your CSHA State Trails Program Chairman for 2010, I am committed to CSHA members and will keep you informed on issues that affect you locally as well as state-wide. I need your help to accomplish this goal; keep me informed as to what is going on throughout the State of California. Together we can insure Equestrian Access to Trails now and in the future. Get active, communicate and enjoy the Trails.

***This is the program that documents the hours of time put in riding our Trails in California !***

This really adds up: 2009 our riders logged 13,455 ( and 1/4) hours on the Trails. We know we have allot of Trail clubs, independent riders and groups that do not yet participate in this data base collection system. Join us; let the Equine Trail use be documented, we contribute greatly to the systems and the tax dollars that build them.

**Other great stuff.....**

The CSHA Club "Penn Mine Posse" of the *Mokelum-- Coast to Crest Trails* has been working for two years with the US Forest Service to help map and then eventually place MCCT -trails markers--on a section of the trail around the Alpine Lake area. The Penn Mine Posse of MCCT will be working on this along with establishing a Kiosk for the *yet to be built-out* Public/horse camp at the trail-head. Consideration with the US Forest Service has been made to establish this "horse-friendly camp" --also open to the public, near Ebbetts Pass. One the design is fully approved, the CSHA State Patrol along with the Penn Mine Posse will be taking the lead supporting the Forest Service by providing the manpower to layout and establish this area, and to design and build the Kiosk for the camp.

**Newest Special Committee:**

*Sydney Cutting has been appointed by President Hendrickson to be the CSHA designated Representative for contact with the **California Farm Bureau** as well as developing a working relationship with like-organizations such as the 4-H and FFA groups. These segments of our communities contribute greatly to the lives of our children & families through their education in agricultural life style, care of animals and the future of the ranch and farming industry in California. **Equine Health News.....**What appears to be a virulent strain of horse flu is making its way through Cottonwood and Red Bluff and has claimed the lives of three horses. Dr. Bill Gray of Cottonwood said test results from UC Davis confirmed equine influenza was present in a north state horse about a month ago. That horse has since recovered. Equine Influenza has appeared in the county before but the rate of infection appears higher than in past years. There may be estimates of 80 horses infected in that area, per owner reports. Each year we get cases but this one's gotten to allot of places really quick. A vaccine for equine influenza is available, administered nasally, and takes effect in 24-36 hours. The vaccine however loses its effect after several months and needs to be re-administered over the course of the year.  
by Geoff Johnson-DN Staff Writer

A segment of the recent article by UC Davis... ***The Horse Report; African Horse Sickness in North America.....****Not only is the article presenting the health information about this virus but the impacts that it can have on this county, the animals and the economy.*

The most recent statistics of the financial and social impact on the US economy: from American Horse Council

- \* There are 9.2 million horses in the US
- \* 4.6 million Americans are involved in the industry as horse owners, service providers, employees and volunteers. Tens of millions more participate as spectators.
- \* 2 million people own horses
- \* The horse industry has a \$102 billion impact on the US economy when the multiplier effect of spending by industry suppliers and employers is taken into account. Including off-site spending of spectators would result in an even high figure.
- \* The industry directly provides 460,000 full-time jobs
- \* Spending by suppliers and employers generates additional jobs for a total employment impact of 1.4 million full-time jobs
- \* The horse industry pays \$1.9 billion in taxes
