How We Selected the Number One Online Casino

There are a lot of really good online casinos. My publisher, Silverthorne Publications shares the experiences of its customers with many of these casinos in several of their publications. There is no question that there are many online casinos where you can play with great confidence that you will be treated fairly.

However, in picking the best online casino I wanted a casino that excelled in many different aspects of being an online casino. Here are the criteria I weighed the heaviest in determining which casino should be voted Number One:

1. The games must offer excellent odds. Our winner offers games with paybacks close to 100%. And, it uses Realtime Gaming Software, one of the strongest online software providers around.
2. The casino must offer the chance to try out the games in practice mode in a no-hassle and user friendly manner. Our winner bends over backwards to make playing in practice mode very easy – you don't even have to register or download any software – just click and start playing!
3. The casino must offer outstanding customer support. Have you ever had the experience of calling for customer support and then waiting for a long time to talk to a human being, only to find out the support tech doesn't know much more about solving the problem than you do and doesn't even speak a brand of English that you understand? Our online pick does all of its support inhouse and uses well trained knowledgeable persons that will do their best to help you.
4. The casino must still accept US players. US anti-online gaming laws have scared off a number of online casinos. Not our pick. You can play here and live in the US.

5. The casino must offer a realistic bonus. Too many casinos put so many conditions on earning a bonus that very few players ever earn them. How about a straightforward 100% Welcome Bonus that you can earn with normal play? Our pick offers that.

6. We feel that our number one pick should offer a variety of games. This casino offers a full variety of slot games as well as Blackjack, Face Up 21, Match Play 21, Pontoon, Super 21, Baccarat, Caribbean Stud, Caribbean Draw Poker, Pai Gow, War, Red Dog, Let 'em Ride, Tri-Card Poker, Vegas 3-Card Rummy, American Roulette, European Roulette, Craps, Sic Bo, Keno, Bonus Bingo

7. You should be able to pick up \$777 for playing there. Turns out you can in our number one pick. We'll tell you how.

And the winner is –

Club World Casino. Turn the page and find out why.

Club World Casino

Club World Casino is an online casino using RTG software licensed in Netherlands Antilles. It is one of 12 online gaming sites owned by Club World Group. The site's primary language is English. It supports both downloadable software and the ability to place a wager without a download
