

The Science of Healing & Quantum Faith

John G. Lake quotes on his knowledge of natural science and the 'science of healing':

Having formal acknowledgement as a student of science, it was my privilege to attend clinics, which I frequently did.....

At one time I submitted myself to a series of experiments. It was not sufficient to know that God healed; I had to know how God healed.

I visited one of the great experimental institutions and submitted myself for a series of experiments. First, an instrument was attached to my head. This instrument had an indicator that would register the vibrations of the brain. I began to repeat things like the 23rd Psalm to soothe the mind and reduce its vibrations to the lowest point. Then I repeated the 31st Psalm, the 35th chapter of Isaiah, the 91st Psalm, and Paul's address before Agrippa. After this, I went into secular literature and recited Tennyson's "Charge of the Light Brigade" and finally Poe's "The Raven" as I prayed in my heart that at the psychological moment, God would anoint my soul in the Holy Spirit.

My difficulty was that while reciting, I could not keep the Spirit from coming upon me. When I finished with "The Raven," those in charge of the experiment said,

"You are a phenomenon. You have a wider mental range than any human being we have ever seen!"

In reality, this was not so.

It was because the Spirit of God kept coming upon me to such degree that I could feel the moving of the Spirit within me. I prayed in my heart, "Lord God, if You will only let the Spirit of God come like the lightnings of God upon my soul for two seconds, I know something is going to happen that these men have never seen before.

As I recited the last lines of the poem, suddenly The Spirit of God struck me in a burst of praise and tongues. The indicator on that instrument bounded to the limit and I haven't the least idea how much further it would have gone if it had been possible. The professors said, "We have never seen anything like it!"

I replied, "Gentlemen, it is the Holy Ghost." (*You'll notice that the action of the spiritual was measurable in the natural.....think about that. Dr. Lake said one of the hardest things to do is to get people to believe that the Holy Spirit is a tangible substance - His touch upon the human body is measurable by scientific instruments.*)

In the second experiment, a powerful X-ray machine with microscopic attachments was connected to my head. The purpose was to see, if possible, what the action of the brain cells was. I proceeded just as in the former experiment. First, I repeated Scriptures that were soothing, those calculated to reduce the action of the cortex cells to their lowest possible register. Then I went to Scriptures which conveyed better and richer things until I reached the first chapter of John.

As I began to recite this, the fires of God began to burn in my heart. Suddenly, the Spirit of God came upon me as before, and the man who was behind me touched me. It was a signal to me to keep that poise of soul until one after another could look through the instrument.

Finally, when I let go, the Spirit subsided.

The professors said, "Why, man, we cannot understand this, but the cortex cells expanded amazingly."

I said to them, "Gentlemen, I want you to see one more thing. Go down in your hospital and bring back a man who has inflammation in the bone. Take your instrument and attach it to his leg. Leave enough space to get my hand on his leg. You can attach it to both sides."

When the instrument was ready, I put my hand on the man's shin and prayed like Mother Etter prays: no strange prayer, but the cry of my heart to God. I said, "God, kill the devilish disease by Your power. Let the Spirit move in him; let it live in him."

Then I asked, "Gentlemen, what is taking place?"

They replied, "Every cell is responding."

It is so simple: The life of God comes back into a part that is afflicted; immediately the blood flows; the closed, congested cells respond; and the work is done!

That is God's divine science.

Oh, beloved, when you pray, something is happening in you!

It is not a myth; it is the action of God.

The Almighty God, by the Spirit, comes into your soul, takes possession of your brain and manifests Himself in the cortex cells of your brain. When you wish and will, either consciously or unconsciously, the fire of God, the power of God, that life of God, that nature of God, is transmitted from the cortex cells of your brain and throbs through your nerves down through your person, into every cell of your being into every cell of your brain, your blood, your flesh, and your bone, into every square inch of your skin, until you are alive with God!

That is divine healing.

Taken from "Adventures in God" by John G. Lake

Divine Healing Is Scientific

Divine healing is **scientific**.

Atonement through the grace of God is **scientific** in its application.

Jesus used many methods of healing the sick. **All were scientific.**

Science is the discovery of how God does things.

Jesus laid His hands upon the sick in obedience to **the law of contract and transmission**. Contact of His hands with the sick one permitted the Spirit of God in Him to flow into the sick person. The sick woman who touched His clothes found that the Spirit emanated from his person. She touched the "hem of His garment" and the Spirit flashed into her. She was made whole. **This is a scientific process.**

Paul, **knowing this law**, laid his hands upon handkerchiefs and aprons. The Bible says that when they were laid upon the sick they were healed, and the demons went out of those possessed.

Materialists have said this was superstition. **It is entirely scientific**. The Spirit of God emanating from Paul transformed the handkerchiefs into "storage batteries" of the Holy Spirit power. When they were laid upon the sick they surcharged the body, and healing was the results. (Read Acts 19: 12)

This demonstrates **firstly** that the Spirit of God is a tangible substance, a heavenly materiality. **Secondly**, He is capable of being **stored** in the substance of cloth as demonstrated in the garments of Jesus or the handkerchiefs of Paul.

Thirdly, He will **transmit** power from the handkerchiefs to the sick person.

Fourthly, His action in the sick man was so powerful the disease departed. The demonised were also delivered.

Fifthly, both the sick and the insane were delivered and healed by this method.

God's Science of Salvation & Divine Healing

Throughout my life a spirit of investigation predominated. It has never been easy to accept truth readily, until my soul stepped out inch by inch and proved the ground. It was not sufficient to **know** God healed; I had to know **how** God healed.

(Dr. Lake then says that the ability to assimilate the Spirit of God/the Life of God works the same way that natural digestion does. Both are scientific in their operation. Think about this. We will look at this as its own subject later.)

'You must be born again' is a truly **scientific** statement. (Think of what is being said here. We think of the new birth in purely spiritual terms. Dr. Lake is saying that it is also **God's science** in operation.)

In these days, they are able to transmit by wireless from six to seven thousand miles, and even twelve thousand miles recently. They have been able to demonstrate that in 1/10th of a second they can transmit the first section of thought 12,000 miles. Think of it! There is practically no such thing as time; it is practically done instantaneously.

THIS EXPLAINS INSTANTANEOUS SALVATION AND INSTANTANEOUS HEALING.....

My soul has grown tired long ago of men treating the whole subject of Christianity as though it were child's play. We have our physical sciences, we have our psychological sciences, the action of the mind, taught in the great schools of the land, but there is something greater.

One of these days there is going to be a new chair.

It will be the **chair of pneumatology, the science of spirit**, by which men will undertake to discover the **laws of God**. And by the grace of God, men shall know that God is alive, and the living Spirit of God is no dream.

Why, there is more **science** in the mind of God in five minutes than the bloated scholarship of the world ever knew. "In HIM was LIFE, and the LIFE as the light of men." The LIFE of God is that which the mind of men, and the keenest of them, never knew, and never discovered.

(At the end of his sermon on "The Science of Healing", Dr. Lake mentions that electricity has always been in the world, but now men have learned the laws that govern it and how to apply it to the need of mankind.)

The power of God is the voltage of heaven. The lightnings of Jesus heal men by its flash; sin dissolves, disease flees when the power of God approaches.

Taken from: "Science of Healing"

In The Spirit of God There Is A Science

Remarks by Dr. Lake: "I want you to see that **in the Spirit of God there is a science far beyond** physical or psychological science, and the man or woman who enters into the spirit relation with God and exercises His power is **most scientific.**"

Taken from: 'Lake and Divine Healing Investigated'

Students have long since discovered **a new science**. This **new science** is known as pneumatology, the **science of the spirit**. Pneumatology is a recognition of the **laws of the Spirit**, a discerning of the **modus operandi of the Spirit's working its effects and powers**.

Quantum Faith

Annette Capps, daughter of Charles Capps, wrote a mini book several years ago that connects and expands on the 'science of the Spirit' that Dr. Lake shared about so many years ago, and proves the truth of it by looking at the field of science called, 'quantum mechanics'.

She opens with a prophecy given by her Dad many years before that she did not understand at the time, probably no one did:

Here are some excerpts from the first half of her book. As you read, please keep in mind Dr. Lake's comment that: "Divine healing is scientific." Quantum Physics shows how that science happens.

Please read Mark 11:23:

Looking at it from a surface level, it would seem a ridiculous statement that Jesus made. How is it possible that spoken words would send a mountain into the sea? For the past 27 years, it has required faith on my part to believe that words are that powerful. Recent study in the area of quantum physics, however, has convinced me that what Jesus spoke is absolute scientific fact! As I studied the theories of quantum physics, I was reminded of a prophecy given by my father, author and teacher Charles Capps, *"Some things which have required faith to believe will no longer require faith, for it will be proven to be scientific fact."*

MUSTARD SEED AND QUANTUM PHYSICS:

When Jesus said in Luke 17:6, **"If you have faith as a grain of mustard seed, you would say..."**, He was speaking of the smallest seed that could be seen in His time. If He were here today, He might say "If you had faith as an atom..." or even smaller, "If you had faith as a quark (which is a subatomic particle)..." The

point He was making was that small things that cannot be easily seen manifest themselves and affect things in this larger world where we live.

Quantum physics is the study of things so small that we cannot see them, yet everything we see is made of these subatomic particles. Remember, Hebrews 11:3 says: "Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear."

The chocolate cake you ate yesterday was made from things which do not appear. The recipe calls for water (H₂O). Before the hydrogen and oxygen combined into water, you could not see anything, yet the substance for water was there. Before God spoke and said "Let there be light", the substance for light was there. The sound vibration of His words caused the substance to manifest and appear.

Words are Energy:

Words are energy and energy affects matter. The energy of your microwave vibrates the water molecules and heats the water. The energy of electricity flows to your washing machine and powers the motor that spins the tub and cleans your clothes. So, we can rightfully say that energy affects matter. Your words are energy and they affect the matter in your life. When you speak the words, "This is the worst car I have ever had! You stupid piece of junk!" Those words are vibrations of energy that affect the atoms that make up that car. If you speak those words long enough, your car will obey you!

Scientists have performed experiments with atoms and their subatomic particles such as electrons. If you paid attention in school, you saw the diagram of an atom with the electron orbiting it like the earth orbits the sun.

The interesting thing is that scientists have discovered that the electron that is shown orbiting the nucleus is not always there in particle form. It exists in a wave state (like a cloud, everywhere at once) until someone looks at it. When the scientist observes it, it suddenly appears as a dot (particle). What we all want to know, is, "How does it know someone is looking at it?" It obviously is responding to the observer's interaction with it.

One of the difficulties in quantum physics is that the particles behave somewhat differently for each observer, which leads me to the question, "Does it behave according to what the scientist believes?" In any event, we can definitely conclude that Jesus was right when He taught that all matter responds to faith and words. The substance from which our world is made is influenced and manifested by words. The things that you desire are made up of atoms. They know what you believe, hear what you say and behave accordingly!

Beliefs Produce Energy:

The thoughts and beliefs that you carry also produce an energy around you. Have you ever noticed that when you are angry, things go wrong, and people are insulting and angry with you? Your thoughts and beliefs produce an energy that people can perceive and react to. If you believe that no one likes you, then you emit that rejecting type of energy, and people will be driven away from you.

Things Obey Words:

So the Lord said, "If you have faith as a mustard seed, you can say to this mulberry tree, 'Be pulled up by the roots and be planted in the sea,' and it would obey you." Luke 17:6

Being the daughter of Charles Capps, how many times do you think I have heard that "things obey words"? Many times, I can assure you! Well, bringing *things* down to their atomic level and learning that scientifically these particles respond to people has had a significant affect on my faith. When Jesus spoke to the fig tree and said, "No man eat fruit from thee hereafter forever", then that fig tree dried up from the atomic level because of His words. When He spoke to the winds and the waves, they obeyed Him. He was teaching us the undeniable Biblical principle that THINGS OBEY WORDS.

Jesus did not demonstrate this just to prove He was the Son of God. He demonstrated it and then told his disciples that they too can speak words of power. He wanted us to have the revelation that we are powerful spirit beings who can speak to the mountains in our life and they will obey us.

One of the reasons that some people have a hard time believing this principle is that sometimes it takes a long time for things to manifest from the unseen into this seen realm. It especially takes a long time when you dig up your seed every day to see if anything is happening yet! The seed will produce in its time if you leave it alone.

Do you believe that the words you speak come to pass? From this time on, listen to what you are saying to the things around you. Are you speaking curses to your checkbook? Are you telling it to dry up from the roots? How about your children? What are you telling them? They will obey your "prophecies" of failure and delinquency.

Things are responding to your words every day, so speak good things to all that surrounds your life. If you really believe Jesus' words, you will monitor your thoughts and conversations, because *you* are the one giving substance to your world through words!

Frequency and Vibration:

All "things" (matter) are made of atoms, including your children, your car, your computer, and your house. None of these "things" is solid, including your kitchen table even if it is made of oak. You may not see the space between the atoms in your table, but if you could see that small, you could also see movement. That's right! Your kitchen table is vibrating! Everything has a frequency of vibration. You vibrate, your car vibrates, and even the mountain behind your house vibrates. They all have a natural frequency.

Go back to our example of the microwave heating your cup of water. How does it do that? The frequency vibration of microwaves is much higher than that of water. When those high frequency waves begin to bombard the water molecules, the electrons in the atoms are excited and move more and more rapidly (a higher vibration). The result is that the substance (water) becomes hotter. The electrons have jumped to a higher orbit changing the behavior of your water into boiling.

When you introduce cold temperature to water, it slows down the vibrations of the atomic structure to such a degree that the water becomes more solid and freezes.

All "things" respond to the vibration of energy. What kind of energy are you producing? Do you want your water boiling or frozen? Are you introducing faith-energized high frequency words to your children, finances, and health? Or do you introduce low frequency, negative words that freeze your circumstances into a continual series of crises?

You have a choice to use the energy of your words to change matter. The things in your life will obey your words. By speaking to objects such as your computer, "Stupid computer! It's going to crash!" you will find that it obeys you. It doesn't care whether crashing is a good thing or bad thing, it just obeys you. Or you can make another choice when speaking to "things". "This is a good car. It always starts and runs well."

"But I would be lying. I have had problems with it," you say. Yes, but do you want to reinforce that which exists or change it? By acknowledging the good things about the car, you create a positive belief about it which will ultimately change it to what you desire.

Imagine taking the highest frequency of all, the vibrating creative words of God, and changing the vibration of those "things" you want changed!

Strange Quantum Behavior:

What is it that you desire? The bigger question is, "What are you choosing?" The possibilities for your life are unlimited!

Quantum physics is a realm where the known laws of physics (Newtonian physics) no longer apply. In classic (Newtonian) physics you can repeat experiments using the same formulas and get the answers and responses you expect. The experiments are repeatable. You can expect that this is the way things work. For instance, when Isaac Newton saw the apple fall from the tree to the ground, he discovered a natural law, gravity. You can experiment with gravity all you like and it will work every time. What goes up must come down! If you jump off the roof of your house, you will always go down, not up.

In the quantum, subatomic arena, there are only possibilities and probabilities. Things don't work like you think they should. Nothing is there until you look. All that exists is only an infinite number of possibilities. *(Remember Jesus said, "All things are possible to him that believeth." Mark 9:23)*

Whereas gravity works whether anyone is present or not (a tree falls down, not up, even if no one observes it), subatomic particles are not there unless someone (an observer) looks for them. We can't really know what they are doing, or even if they exist when we are not looking. It is possible that they "are not". I Corinthians 1:28 says that God has chosen the "things that are not to bring to nought things that are."

How can a thing not be? This scripture makes no sense at all until you bring it down to the atomic level. All things are made of atoms, which are made of subatomic particles. These particles are not really particles because they exist only in a state of possibilities until someone observes them at which point they appear as a thing (particle).

If that sounds crazy, read Hebrews 11:1 "Now faith is the substance of things hoped for, the evidence of things not seen."

When you hope for something, where does it exist?

Only in your mind and heart. It "is not", it is only a possibility.

"Through faith we understand the worlds were framed by the word of God, so that things which are seen were not made of things which do appear." Hebrews 11:3 The Concordant Literal New Testament says, "...so that what is being observed has not come out of what is appearing." (what is visible) This is a statement that could have been made by a physicist!

What makes it appear? You, the observer, with faith that gives substance to your hopes and dreams. Faith observes that which "is not", and gives it substance so that it may appear and become visible. The key to manifesting matter, is to interact with that which "is not" so that it becomes what you hope for.

Your expectations and beliefs (or what you observe) is of primary importance. If you observe and expect failure, sickness or disaster, that is exactly what will manifest.

There are an infinite number of possibilities that exist for your life. You alone have the power to choose which possibility becomes reality in your life. Choose wisely.

Annette's book is available as an ebook @ Amazon for \$1.99.

Also, on Youtube, you will find the programs she and her father did on his television broadcast by this same title: "Quantum Faith".

I would encourage you to investigate this line of thought.

I will be adding more articles along this line.
