Passion for Detail

HENK

Travelling with style

You prefer to travel the simple, classical way?

If so, you will love the new HENK Wallstreet OverNighter –

Perfect for a short trip or as your daily companion.

Safe, soft & smart

With its compact dimensions (36 x 44 x 17 cm), the HENK Wallstreet OverNighter is perfect for traveling by plane, car or train. And, with its new, ergonomic shoulder strap, you can dive into the urban jungle also by bike.

Finest materials

The main body of the HENK Wallstreet OverNighter is made of soft and extremely supple nappa leather. Each bag is handmade in Germany and you have a maximum of choices to personalize it to your style. You can choose out of a range of 24 colors or your individual color. Also you can have your logo or monogram on it.

Perfection in the detail

The ergonomic shoulder strap, thanks to its padding, relieves the sensitive shoulder area. It guarantees a comfortable fit, even when carried over long distances with a fully loaded bag. In addition, the shoulder strap is lined with Alcantara® on the inner-side and thus prevents any slipping.

HENK

Tested by road warriors

Everything you need on the road has its place and is easily accessible. The bag has an integrated padded laptop compartment (up to 17" laptops), plenty of space for your changeover including a pair of shoes!

And since one always brings back more than expected, when travelling, we have integrated a removable garment bag. It is attached by velcro to the inner-bottom and can be used, for example to separate dirty from clean laundry, or removed and carried separately.

Finest materials also for the interior

The bottom and the padded laptop compartment are made of hand-woven horse hair. A natural material, which is made for us in traditional handwork. The lining is made of particularly durable and water-repellent fabric.

Padded laptop compartment

Integrated, removable garment bag

HENK

Ready for daily use in today's world

In the front pocket you can find, among other things, space for: charging cables, headphones, adapters, credit and business cards, passport, 2 pens, a key ring for your keys and much more. Since we know from our own experience that ergonomics and functionality are very important in a confined space, we have designed the card and pencil holder to be flexible. This is especially helpful when the bag is full.

Clever details, you won't miss

A compartment opening, which can be opened by means of a zipper, offers space for drinks bottles or a small umbrella.

The soft but highly stress-resistant underbody of knobbed leather protects against moisture and is particularly non-slip.

Solid carabiner withstand large loads.

And not to forget, all zippers are made by RiRi® from Switzerland – the best quality available!
