Her daughters have sold for \$45,000 - \$30,000 half interest, \$30,000 - \$28,000 - \$25,500 - \$25,000 - \$22,000 and \$19,000 to list a few. If you have followed the Simmental breed for the last few years, no doubt you are familiar with the success of Barbie, both in the show ring as a National Champion and in the Tim Schaeffer program as a mainstay donor. Barbie half-blood daughters have ranged up to \$30,000 and purebred daughters have ranged in the mid \$30,000. A full sibling to this embryo package sold for \$22,500 half interest a couple years ago for the Schaeffer program. This is the last time female sexed embryos of this mating will be offered at public auction as her dam, "A9", is deceased. Her legacy is forever cemented, and this is your best chance to join those who have already had their programs elevated by these genetics.

I'm not really sure where to start with this rare offering other than this may be the very best daughter of the great Sara's Dream 1339 that has ever hit the ground! Her accolades in the show ring speak for themselves. 5116 was Supreme Female at the 2016 American Royal Jr. Show, Grand Champion at the 2017 National Western Stock Show, Grand Champion Owned Female at the 2016 NJAS, Grand Champion Female at the 2016 NAILE Jr. Show, Supreme Champion Female at the 2016 Indiana State Fair and Reserve Champion Female at the 2016 Atlantic National. This year 5116 continued her dominance selling daughters sired by S&R Roundtable J328 for \$155,000 – \$45,000 – \$13,000 and a daughter by Blue Chip for \$20,000. Her son by Insight, BNWZ Dignity 8017 has been Reserve Angus bull at FWSS, NAILE and Cattlemen's Congress! Last year at the Nowatzke fall sale an Insight X 5116 topped the sale at \$140,000 selling to the Ferree Family and later went on to be Reserve Grand in the NAILE Open Show. A pair of Roundtables sold for \$40,000 and \$27,500 respectively. 5116 started strong right out of the gate with a \$50,000 Insight heifer in 2017 as well as a \$60,000 Daughter by EXAR Syndicate. While the Insight and Roundtable matings are proven we think the new mating by the Reserve Champion NAILE bull Specialty will be extra high quality!

Where do you even start with one like this? 1339 is one of the most prolific cows in the Angus breed and you could probably argue that she's one of the most productive donor dams of any breed! Her females have been in high demand averaging near \$50,000 across the board through her career so far. Her daughters do not just sell high but they also win. A First Class X 1339 shown by the Nowatzke family won every show known to man and is now a high end producer for that firm. Winning daughters have also been shown by the Guyer, Wheeler, Smith & Welcher families. A Classen daughter rang the bell at \$90,000 this fall selling to the Ferree family. This female has stood the test of time producing high sellers that go out and win major shows!

The great ones don't always make it to the show ring! When we bought 339A, I had one thing in mind; American Classic! F3 is nothing short of what I expected when lining these two up. F3 is a maternal sister to the great Coco Crème female that the Jenson family was Reserve Grand Polled and Bred & Owned Heifer with at the 2017 JNHE. Since then, 339A has commanded everyone's attention with what she has done in the Hereford breed. With that being said, this one fits right into what we strive to offer around here. This Horned female is so unique, yet still so complete that we believe she will cater to both sectors of the industry. This cow's first calf has exceeded expectations. An incredible opportunity to get one of a kind embryos that are fresh to the entire breed!
