Kubota UK Ltd

I have worked for Kubota UK for 17 years & based in Ireland full time.

Kubota UK have been supplying the Ireland market for over 40 years.

We have a Dealer Net Work around Ireland North and South of 7 dealers and 13 depots so we have Nation wide coverage.

I will give you an over view of the Kubota range and highlight the popular machines for Football clubs and some of the other options.

I will give you the list of dealers and contacts and the Kubota UK web site.

For Earth, For Life

3 Basic Types of mowing

- ✓ Flail mower
- ✓ This would generally be used for the rougher areas in the past but it has become more acceptable for Parks and areas like that the finish would not be high enough quality for sports fields.
- ✓ There is less daily adjusting needed once the HOC is set it needs greased regularly as do any of the mowers.
- ✓ Needs a bit more power drive it.
- ✓ Would be less prone to damage.

3 Basic Types of mowing

- ✓ Rotary mower.
- ✓ This would be the most popular option for most clubs as it gives a good quality of cut at a reasonable price level.
- ✓ There is less daily adjusting needed once the HOC is set and easy operation.
- ✓ It can be easily sharpened to keep cut quality.
- ✓ It needs greased regularly as do any of the mowers.
- ✓ Would be less prone to damage but easy to change a blade and sharpen to get cutting again.

A Few things to consider before buying.

- ✓ What Size of area is to be cut?
- ✓ What time do you have to cut it?
- ✓ What budget do you have?
- ✓ Do you need or want to collect grass? If collecting can we dispose of the grass?
- ✓ Who will operate the machine will it be multiple operators or 1 person?
- ✓ What is there ability?
- ✓ Who will maintain the machine if there is multiple operators the assumption can be that the last man greased it and checked it for Oil/Water but in my experience that is not the case and that's when costly damage is caused.
- ✓ Do we want to do other jobs like topdressing/Aeration
- ✓ Will you have a service contract to cover major servicing inc in the price?

The Kubota Range

An Roinn Turasóireachta, Cultúir,
Ealaíon, Gaeltachta, Spóirt agus Meán
Department of Tourism, Culture,
Arts, Gaeltacht, Sport and Media

- ✓ The Range breaks down into 4 types there are Ride-on mowers (ROM), Compact tractors (18hp – 60hp), Utility vehicles & M Series (60hp+)
- ✓ The ROM gives you a couple of options to consider Collection or Not? The answer to this then will take you to the next options, Mid deck, Out-front or Zero turn.
- ✓ With the Mid deck you have the option of collection with the G series and the options of Low dump or High Dump if collection is not needed then you can consider a Zero turn or out front option.
- ✓ You may have a 3G or 4G pitch to maintain so some of the B1 or B2 tractors are ideal for that as they have rear linkage and PTO
- ✓ If you have already a top dresser or a spiking machine or the club is considering them as a purchases then you need to be considering a compact tractor and Kubota are able to fit mid cutting decks with grass collection to the most of the compact range. You need to consider the size and HP needs of the attachment to make sure you have the power to drive/lift the attachment.
