FASTENERS

GRIP-RITE®

Grip-Rite is the top selling brand of fasteners in the U.S. **Grip-Rite Fas'ners®** offers the widest selection of hand drive nails and screws under one brand, in a multitude of packaging options. Allow us to custom-design a 1# and 5# Grip-Rite Fas'ners packaged display for your store, tailored to you/your customer base. We have pioneered the use color-coded packaging and signage; the Grip-Rite nails and screws almost sell themselves!

Rite Collated Fasteners are designed to fit all major brands of pneumatic tools. This complete fastener line des: coil roofing nails, collated nails, construction staples, and finish nails and brads. Each Grip-Rite Collated ener is of the highest quality, and is guaranteed not to jam when used in the tool for which it is designed. r-coded packaging and signage takes the guesswork out of fastener selection. Eliminate the collated fastener ision in your store; stock Grip-Rite Collated Fasteners.

PRO-TWIST®

Pro-Twist Construction Fasteners are engineered for professional-grade use in commercial, industrial, and residential applications. Whether the job involves drywall, steel framing, mobile home construction, electrical or plumbing work, plastering, or metal roofing, Pro-Twist has the optimal fastener for every situation. Sturdy, color-coded packaging makes fastener selection easy and minimizes waste both in your yard and at the jobsite. Triple-tested and head-stamped for accountability, Pro-Twist is the brand you and your exacting professional customers can trust

MAZE NAILS

The Maze Nails "Group" is comprised of three well-known U.S. nail mills - with more than 400 years of combined experience in nail manufacturing. The Maze mills specialize in a wide assortment of double hot dipped galvanized hand drive and collated nails, cut nails, stainless steel nails, and other specialty fasteners. To learn more about Maze Nails, please visit www.mazenails.com

GYPSUM PRODUCTS

AMERICAN GYPSUM COMPANY

Offering a complete line of wallboard products, American Gypsum has focused on this specialty within the gypsum industry. With standard gypsum board, fire retardant boards, water and moisture resistant boards, sheathing, soffit boards, and more, American Gypsum's vertical integration supports innovation and flexibility and allows them to provide new and improved products to the marketplace. Building Products

LUMBER

TAMLYN & SONS, LP

Tamlyn & Sons manufactures an extensive line of high wind and seismic mitigation products including hurricane clips and straps, holdowns, stud plate ties, and floor tie straps. Other building products include joist/truss hangers, truss spacers, flashing, aluminum and steel ply clips, and masonry anchors such as corrugated wall ties and veneer anchors. Working closely with builders/installers, Tamlyn has developed a comprehensive line of patented vinyl accessories that compliment fiber cement. To learn more about R.H. Tamlyn, please visit www.tamlyn.com

SIMPSON STRONG-TIE

From its first year of operation, Simpson Strong-Tie has led the timber connector industry in hanger design and today holds more patents than all of other manufacturers in the structural timber industry combined. Along with a comprehensive assortment of lumber connectors, Simpson also offers bracing and tie down systems and mechanical and chemical anchoring products. To learn more about Simpson Strong-Tie, please visit www.strongtie.com

USP STRUCTURAL CONNECTORS

USP Structural Connectors is a metal fabricating manufacturer serving the residential and commercial building industries throughout the United States. USP's product line encompasses over 4,000 finished part numbers: standard construction hardware for the light construction and retail/do-it-yourselfer markets, as well as a complete line of connectors for the Engineered Lumber and Plated Truss industries. An in-house engineering staff, technical assistance team, and Customer Service back up this full-range product line. To learn more about USP structural connectors, please visit www.uspconnectors.com

VENTILATION PRODUCTS

AIR VENT - A GIBRALTAR COMPANY

Air Vent offers a full line of attic ventilation products including shingle-over ridge vents, aluminum ridge vents, roof-mount and gable-mount power attic ventilators, solar powered attic vents, soffit and undereave vents, as well as automatic and powered foundation vents. To learn more about Air Vent, please visit www.airvent.com

ELK PREMIUM BUILDING PRODUCTS

Elk RidgeCrest high profile ridge vents add dimension and versatility to any home. The flagship of the Elk line, patented RidgeCrest is easy to install because the Elk cap shingles are made are factory-applied to the vent. With a distinctive, high-profile, wood shake look, RidgeCrest provides consistent exposure and high-performance ventilation. For a lower profile, Elk's HighPoint Premier, Series 9, and Series 5 ridge vents all raise the roof edge less than one inch. All vents are coordinated with Elk shingle color blends, as well as many other popular shingle brands. Because Elk's vents are sealed by roof cap shingles, there is no need for connector straps or gasket material, and installation time is kept to a minimum. To learn more about Elk ridge vents, please visit www.elkcorp.com

HEADRICK BUILDING PRODUCTS

Headrick Building Products offers shingle over and aluminum ridge vents, continuous soffit vent and foundation vents, all sold under the Full Flow brand.
