10 Business Goals for Small and Midsize Companies and How to Achieve Them

Like all businesses, small and midsize companies are facing new challenges and opportunities as they transition to a digital economy.

To learn more about the journey that these companies are embarking on, SAP commissioned an IDC research study of **3,904 business professionals in 13 countries**. One of the questions we asked was: “Looking at your company’s business concerns in general, **what are the most immediate priorities for the next 12 months?**”

Here we explore the top 10 business goals identified by survey respondents and look at tips on how to achieve those goals.

Leverage insights from a variety of sources, including social media and even data from devices based on Internet of Things (IoT) technology. By getting a 360-degree view of your potential customers, you can deliver relevant, targeted offerings in the moment of opportunity.

Meet customer expectations to interact with you through their preferred method, whether online, offline, or using mobile devices – and to have a consistent experience across every interaction.

Provide business-to-business customers with the same ease of interaction they experience during business-to-consumer purchases.

Harness customer intelligence technology and streamline sales and marketing processes to generate leads in a cost-effective manner.

“ The journey we are on will allow us to connect our employees, suppliers, customers, and networks to our digital core. With SAP S/4HANA at the center, we are designing and building solutions that are mobile, intuitive, robust, and valuable, enabling our customers to be more autonomous and productive and to easily do business with us.”
