Bonfire Night

You will need:

Black paper or card
Paint (bright colours)
Shallow trays or paper plates
Bendy drinking straws
Pipe cleaners
Sticky tape
Glitter

1. First, make your printing tool. To do this, gather a small bundle of about 8 straws or pipe cleaners.

2. Next, use sticky tape to tape the middle and (non-bendy) ends of the straws or pipe cleaners together to create a handle.

3. Next, bend the ends of the straws or pipe cleaners outwards to create several 'arms'.

4. Create a few firework printing tools for each different colour of paint you are going to use.

5. Next, squeeze a little paint into each tray or plate. Bright and neon colours work especially well! Then, press the 'arms' of the printing tools into the paint and press it onto your black paper.

6. Continue printing using several different colours, overlapping the colours as desired. Once the paint has dried, dab a little glue onto the fireworks and sprinkle on a little glitter.

You will need:

A paper plate Paint
A cardboard tube Glitter
A split pin/ paper fastener Ribbon
A pencil Sticky tape
Sticky tack
Scissors

1. First, paint the plate a black or dark blue colour and allow to dry.

2. Once dry, make a small hole in the centre of the plate. To do this, push a pencil through the plate, onto some sticky tack.

3. Next, make a hole near the top of the cardboard tube in the same way – it only needs to go through one side of the tube.

4. Now, push the split pin through the holes in the paper plate and the tube, then open the pin out to fasten the plate and tube together – the plate should be able to spin around!

5. Next, pour a little paint onto the centre of the plate in a few different colours and then begin slowly spinning the plate around to make the paint run around the plate! Repeat with a few different colours until the desired patterns are created.

6. Once the paint dries, sprinkle a little glitter and sequins onto some wet glue to create some sparkles.

7. Once dry, cut some lengths of ribbon and attach around the edge of the plate using sticky tape.
