Rembrandt's Drawing Studio, Amsterdam, NL.

Torino Classical Studio Sculptures

For centuries the Greatest Masters used these timeless sculpture pieces to recreate paintings, drawings, and studies of the human figure and to perfect their sketching, drawing, and painting skills. From the studios of Rembrandt to Michael Angelo, these pieces are used to perfect artist skills.

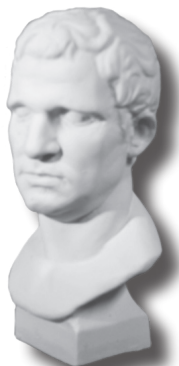

Farquar has been manufacturing these mold and works of art for 17 years and has supplied Museums, Art Stores, Studios around the World.

Learn to Draw by using Torino Sculptures

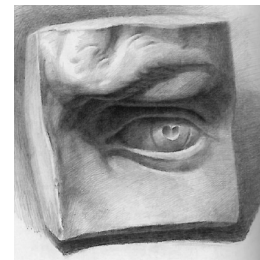

Use simple techniques to draw the basic image of a shape. Use different grades of pencils to further color in, shade and make more definite details of the shape.

Gradually move from Light to Dark lines for the backgrounds.

Feel the relations between three dimensional and the background shading along the shading junction to draw.

By drawing from observation, artists gain knowledge of drawing objects within space. This is the foundation that all great masters have learned through the ages. Learning how to draw simple shapes and objects helps lead artists towards a better understanding of how the world is geometrically composed. Farquar makes Torino Sculptures to hand down the traditions and knowledge of the Old Masters towards the next generation of artists.
