About The Event

The Toronto Tech Summit is an event focused on Customer Experience, Innovation, Internet of Things, Virtual Reality, Augmented Reality, Artificial Intelligence and Machine Learning.

Embracing ideas that give us the ability to craft incredible experience through technology, we bring thought leaders and industry influencers to an audience filled with technology professionals and enthusiasts.

Our goal is to deliver an informative, memorable and inspirational event for all attendees.

**Panel: The Future of Customer Experience in AI
2019 Summit at MaRS Discovery District, Toronto**

Our Story

In 2013, we started with employee-organized meetups and tech talks at the Genesys Toronto offices. As enthusiasm and interest increased, the meetups eventually outgrew our offices and evolved into something much larger.

In 2015, the Toronto Tech Summit has grown up to be an event with high attendance, an amazing speaker list, and exciting giveaways. We're featured on prestigious tech blogs and TV and we've been enthusiastically received by the community and social media.

We're passionate about making the event bigger and better and would love for you to join us and contribute to the success.

Some statistics from our 2019 Summit:

600
sold-out tickets

12+3

The panels and speakers moved at a good pace, offered great insight, and sparked lots of creative thought.
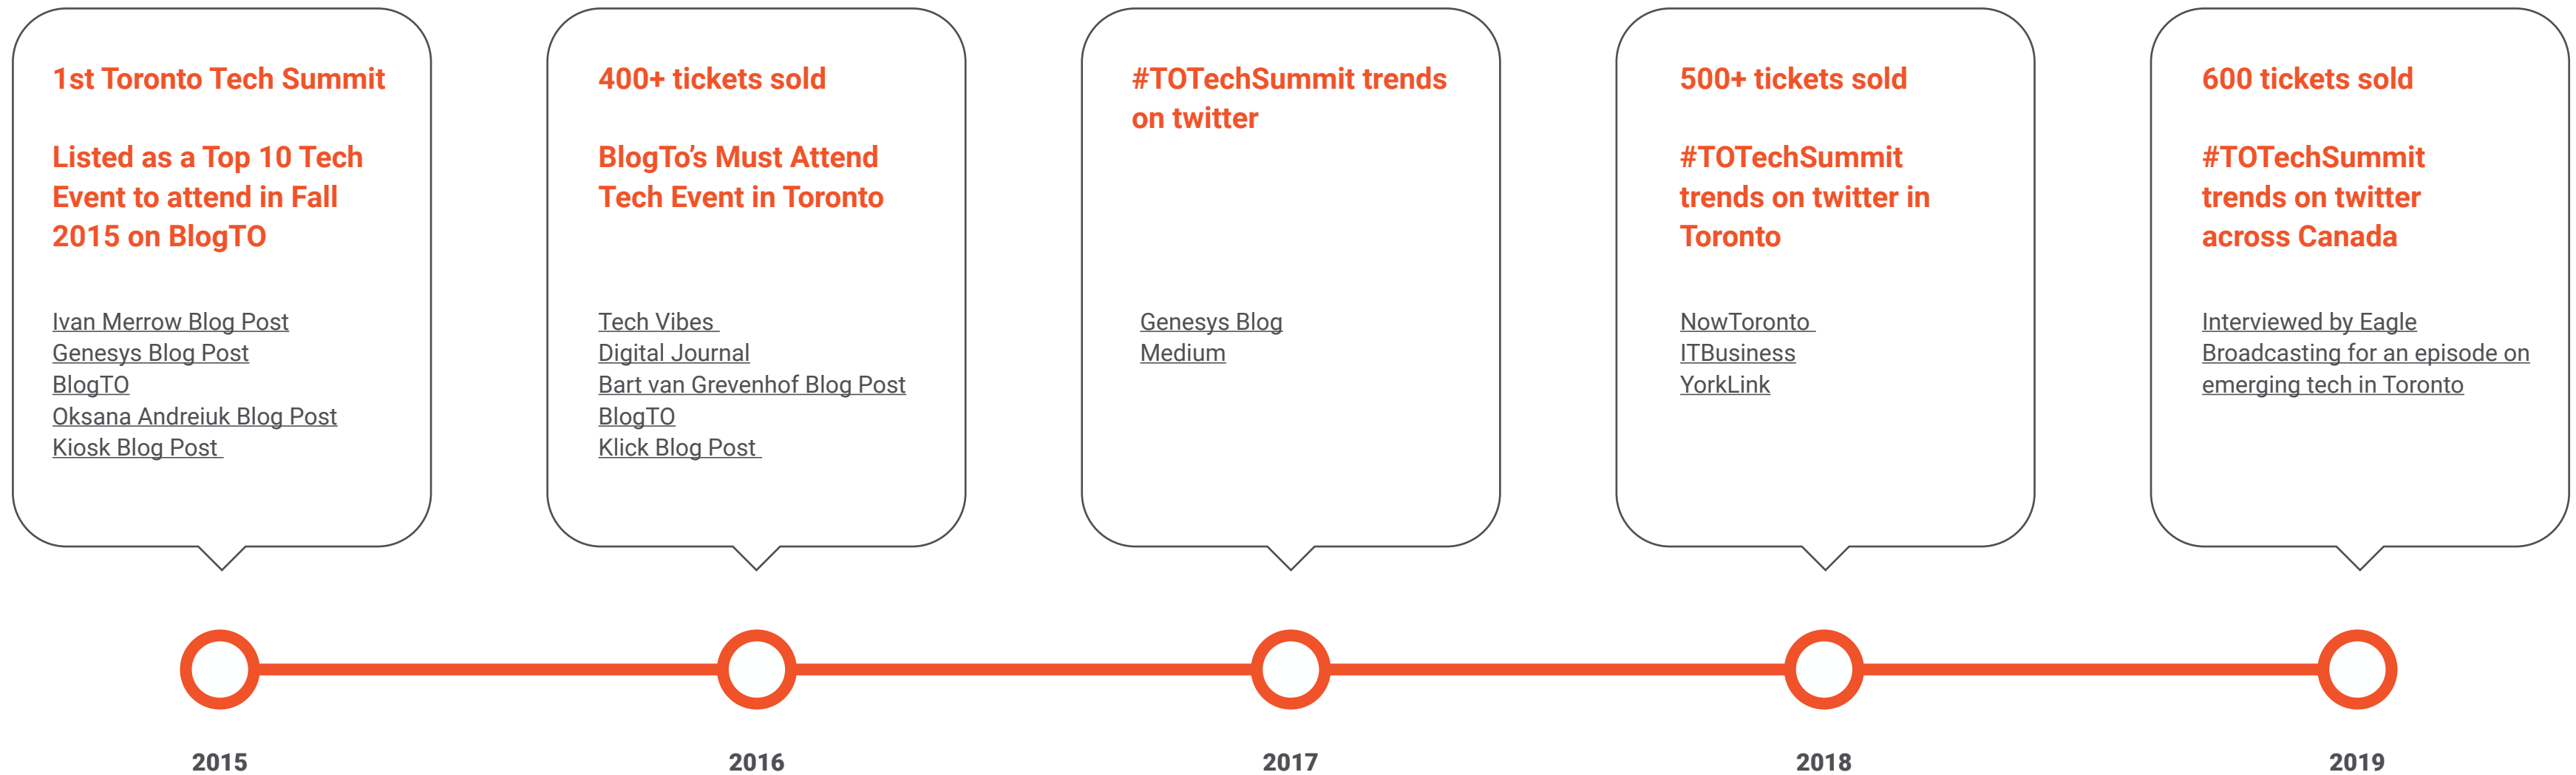

One day, packed full.

Great brain food.
