Receiver Hitch Types

Custom Fit 1 Piece

Custom fit hitches are the easiest to install. These application specific hitches are available in Class II, Class III, Class IV, and Heavy Duty.

Multi-Fit 3 Piece

Designed to fit a wider range of vehicles than Custom Fit hitches, the Multi-Fit units require some assembly. Popular for retail and when stocking a limited line of hitches, the Multi-Fit units are available in Class II, Class III, and Class IV.

Choose the right hitch to handle the load

Gross Trailer Weight is the total weight of the trailer as it is towed. This includes the weight of the trailer and all of its contents.

Tongue Weight is the load supported by the hitch when the trailer is connected to the trailer ball. Excess tongue weight will cause unstable towing as weight is shifted from the vehicle's front suspension to the rear suspension.

TOWING ACCESSORIES

Locking & Non-Locking Aluminum Ball Mounts

DT Aluminum Ball Mounts are precision machined and polished from only the highest quality aluminum available. O-Ring sealed, overlapping stainless steel slide pins have been shear tested to 20,000 lbs. These pins offer reliable corrosion resistance and super high strength operation. Rated at 14,000 lbs. trailer and 2,000 lbs. tongue capacity.

Locking Ball Mounts provide maximum security, with a pick resistant lock cylinder and dust cover; no need for a separate receiver lock or pin & clip.

Swift Hitch™ Wireless Hitching Camera System

- Portable, wireless camera system shows a realtime display of your hitch ball, no more guessing where the trailer tongue is!
- Attach the camera to your tailgate with the magnetic base on camera unit & remove it afterward.
- Big 2.5" LCD 960 x 240 resolution full color display ensures accurate hitching.
- With the fully automatic night vision camera, you can accurately hitch your trailer in complete darkness.
- Transmission distance between camera and hand-held display is 300 ft. in daylight and 15 ft. in darkness.
- The water-resistant camera and display are charged by vehicle's 12v accessory port, with a 10-hour battery run time.
- 1 year warranty

TOWING ACCESSORIES

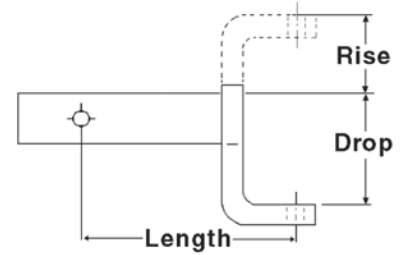

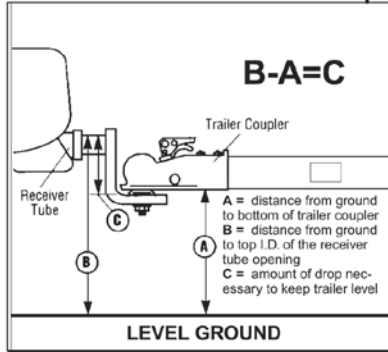

Selecting a Ball Mount with the Correct Rise or Drop

Follow the simple steps illustrated below to determine the ball mount with enough rise or drop to keep the trailer in a level position.

To Measure Ball Mount Rise:

To Measure Ball Mount Drop:

Multi-Ball Adjustable Receiver Hitch

With a pull of a pin, easily rotate the ball to the desired size. Stows underneath when not in use.

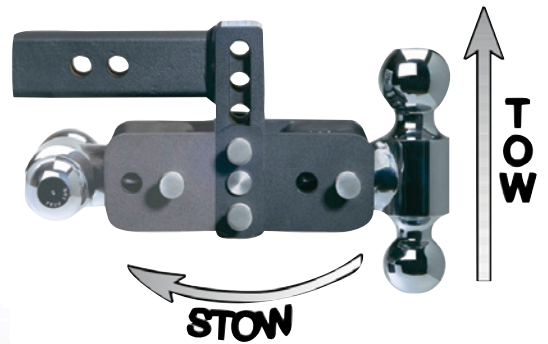

- Class IV Rating
- Adjusts to multiple heights
- Available in several ball configurations

Weight Distribution Hitches

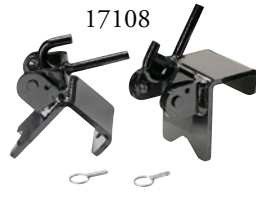

Ideal for use when towing trailers with heavier tongue weights. A Weight Distribution Hitch applies leverage between the tow vehicle and trailer resulting in a more level ride with less stress on the rear of the tow vehicle. Use with a 2" receiver hitch. Rated at 10,000 lbs. towing capacity.

FW6000	296600	5TH WHL, 22" DIA.	SINGLE	MTD ON TOW VEHICLE

King Pins

2" SAE King Pins are the standard of the industry and are suitable for use in all over-the-road applications. The Holland Retractable King Pin disappears into the truck bed when not in use and is to be used with inverted 5th wheel trailers equipped with FW0001 or FW0002-45.

Hijacker RV 5th Wheels & Gooseneck Hitches

Hijacker offers the most complete line of Fifth Wheel Hitches in the Industry. The two different series of hitches have rails that install either “along the bed” (sliders) or “across the bed” (ultras) and both series have Gooseneck hitches, as well. Enjoy smooth towing with the strongest and most durable Fifth Wheel Hitches on the market. The following features are common to both the Slider Series and the Ultra Series:

- Black powder coat finish
- Jaw bolt adjustment
- Multi position jaw handle
- All 5th wheels have 4” of height adjustment
- Sliding 5th wheels have 8” of adjustment
- Modular concept permits upgrade from 16K single to 16K double pivot to 21K double pivot
- 5 Year warranty
- UPS shippable

Slider Series

- Rails install *along* the truck bed
- Rails permit easier use of truck bed

Hijacker Installation Brackets & Mounting Rails

Different frame brackets are offered for specific types of vehicles, dramatically reducing installation time of the Hijacker systems. The application chart at the bottom of this page shows how many of each type of bracket are used for each vehicle. The chart below lists the Part No. & Ref. No. for each type of bracket.
