

POLAR[®]

TRAILERS AND CARTS

TOUGH **DURABLE** **UTILITY** **TRAILERS** **AND** **CARTS**

BACKED BY A FIVE YEAR WARRANTY

When it comes to yard, garden and farm projects, it pays to work smarter not harder. And POLAR® Utility Trailers and Carts let you do just that. Our complete line of trailers and carts have the features, engineering and durability to help you get work done quicker and easier.

With rigorous testing and a 5-Year Warranty, POLAR® Trailers and Carts are durable, dependable and simply built to last.

Our key features are a result of engineering that's designed to provide an invaluable tool for any project that requires hauling and dumping. They're also easy to assemble...our trailers and carts can be ready to get to work within 10 minutes.

And with a diverse line, we have the trailer or cart that fits your needs.

Take a look at the things that set us apart, and work smarter with POLAR.®

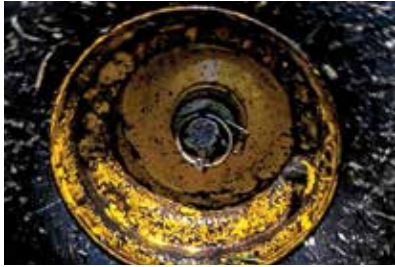

FIVE GREAT REASONS

To get a Polar Utility Trailer or Cart this year

There's an old saying... "Work smarter, not harder." And at Polar Trailer & Cart, we give you the tools to do exactly that. Here are 5 great ways that Polar Trailers can help you get your work done efficiently, and quickly...

- 1. TILT & SWIVEL** Unique to Polar Trailer, our tilt and swivel frames allows you to turn and pivot the trailer to dump your load where you want, without unhitching it.

- 2. SEALED BEARINGS** Premium wheels on our trailers and carts have sealed bearings, which mean they never need greasing and will last a VERY long time.

- 3. GROUND CLEARANCE** With a higher ground clearance, our trailers are made to be used in the roughest terrain with plenty of room to spare.

- 4. FIVE YEAR WARRANTY** Rigorously tested, our trailers are tough. Backed by a 5 -year warranty, Polar Trailers and Carts are built to last!

- 5. TANDEM ROCKING ARM** Our patented Tandem Rocking Arm enables the trailer to rock or "crawl" over uneven terrain like logs and rocks. This unique feature keeps your trailer stable and even the heaviest of loads from tipping over.

CUB & UTILITY CART

Perfect for home, yard and garden use, Polar Utility Carts are designed to easily haul and dump everything from rock, mulch, dirt, firewood, leaves, grass clippings, camping gear and more. Get your work done quicker and easier with a heavy-duty cart by Polar.

TANDEM WALKING ARM

Sometimes two wheels just aren't enough. Our TANDEM WALKING ARM™ lets you convert a single-axle POLAR® trailer into an extra-stable workhorse. Heavy-duty welded steel brackets straddle each end of the axle to distribute weight, even on top capacity loads resulting in a more stable load. Tandem Walking Arm™ kits are sold in pairs and are compatible with the 1200 and 1500 trailers.

Tandem Walking Arm Kit (Pair), ITEM #8251

COUPLER KIT

Add a two-inch coupler to any 1200/1500 Series trailer. Zinc coated coupler fits POLAR®'s two-inch channel tongue and features a lockable trigger release for quick, secure hitching.

Two-inch Coupler Kit, ITEM #8260
