Bull Sale

Welcome from Transcon

On behalf of all the consignors, I'd like to welcome you to the Red Deer Bull Sale. I'd like to take the opportunity to welcome a new consignor, Pieschel Farms. Gary Pieschel and family will be bringing 3 Simmental and 6 Angus. The Pieschels have been showcasing these bulls this winter, most recently at the Stettler Heartland Classic. They are bringing top championship bulls that have placed at many shows including Medicine Hat Pen show and Olds Fall Classic. These bulls will fit in nicely and offer the buyers some more choices. A couple have my favourite color, chrome!

SkyWest...what can I say about them? A lot. Talk about ringing the bell! Last year they sold three bulls for an average of more than \$19,000!! From two different herd sires. With half their bulls being from different herd sires last year it tells me the cows at SkyWest are working. We will see more brothers to last years high seller in this year's sale. Skywest have a couple that will knock your socks off.

For many farms you can say, year after year they bring cattle to a sale. But at Oh Kay Farms you can say generation after generation after generation. With three generations working on the farm, the one thing that stays the same is quality animals from great people. When buying a bull, I would think that Oh Kay would be top of the list with its warranty and customer service.

Applecross are bringing bulls with a moderate birth weight without giving up any performance. Most of their cows incorporate the very popular polled genetics. I think other Simmental breeders are buying into the Applecross genetics more than ever, this is very apparent in their female sales and is becoming more evident in their bull sales as well.

This year Keato Meadow Simmentals have been bringing their bulls to maturity very slowly and methodically with the purpose of giving them longevity. The Kittlitz family has been bringing 100% Fleckvieh and spend many hours studying bloodlines to keep top genetics in their herd.

When you visit Red Top Livestock in the summer, their bulls are building muscle by roaming the big hills out west of Lousana. Once weaned, Ben and Cassandra move the bulls into a large paddock to keep the muscle on and keep the bulls fresh. For such a young couple, they do so many things right. Better buy into this program fast, its one that breeders and great commercial cattlemen are asking about often.

Last year was the first year for Chestermere Stock Farm to sell bulls in this sale and it was no surprise to us that they did well. We have been selling their bulls for several years. In my opinion this is the strongest set they have ever brought to town. These bulls come from big bodied sound cows that push down the scales. This 4th and 5th generation cattle operation farm south west of Didsbury and specialize in Polled Hereford.

Looking forward to seeing you sale day at the Agri-Centre at Westerner Park, Red Deer on Thursday March 26th. If you can't attend, please call our cell phones and utilize our highly trusted order buying service.

Homo Polled Out of a calving ease sire and a first calf heifer. He has the highest calving ease numbers in our pen and he ranked 3rd in our pen for yearling weight. His dam is a red cow out of High Roller and has a beautiful udder under her. He should make for trouble free calving and add performance as will.

This is a calf that we should be keeping to use ourselves. He is an embryo that we purchased from the Harvie Crest program and he has become one of the top performers in our pen. If you are a numbers guy this calf hits a lot of boxes. He is in the top 15% for calving ease and the top 10% for both weaning and yearling weight.

An embryo calf out of our Penny cow. Penny has 15 daughters in our herd and has sold numerous bulls through this sale. She has worked with any sire we put with her and her progeny have been some of our top producers. This bulls calving ease numbers aren't the best but I have my doubts that he will be a very hard calver and he will definitely add pounds to his calves.

	80	749			11	-0.2	65.3	95.3	31.1	5.2	63.8

This calf is related on the dam side to lot 4. He is almost a month younger than the rest of the bulls in our offering yet he fits right in. He has one of the lowest birth weights in our offering and should be a calving specialist. He does have a little bit smaller frame so he could be used in the heifer pen or use him on cows and reap the benefits of not having any size issues at birth.

Welcome to the 2020 Red Deer bull sale! We are thrilled to be part of this sale once again and pleased with this group of bulls on offer for you. Whether you're looking for performance bulls or calving ease, we hope we have something here you are looking for. We would also like to take this opportunity to thank all of our previous bidders and buyers! If you have any questions, or would like a tour please feel free to contact us and stop by!

Full Fleck Skywest Gridiron is one of our feature bulls this year! He has been my favorite bull right from a young age and has had that herd bull look all summer long. Gridiron's full brother sold to Northern Light Simmentals, of Manitoba for \$18,000 in this sale last spring. If you're wanting a bull to give you some good big steers or bulls, than you'll want to have a good look at this guy!

Full Fleck Skywest Gangster is our youngest bull in our offering. We usually don't keep bull calves born in March, but this time he looked too assuring not to keep! He's not going to be the biggest bull, but he is built very correct. Good feet, good color, smooth made with a nice square butt and wide top line. If he was two months older, he could very well be our lead off bull! A full sister sold to Applecross Cattle for \$11,000 this past fall, so this family will produce!

Full Fleck Skywest Goldberg is just a tank of a bull! If you're wanting a bull that will raise you some market topping steers, then have a serious look at Goldberg. He's big and soggy with lots of muscle and a great foot. His dam is one of our top cows in my opinion. She has raised us 3 bulls, all of which have been in the bull pen! Her first bull calf we kept for our own herd and her second sold last spring to great repeat buyers, Jason & Jenna Packer from Sundre. I think you will want to keep every heifer from Goldberg, so don't pass this opportunity up!

Full Fleck Skywest Gambler is another bull that should calve pretty good coming from a first calver. He has a moderate frame, smooth shoulders and a nice small head paired with good hair and is structurally sound.

Red Top Livestock

Ben & Kassandra Farrant RR#2 Lousana, AB T0M 1K0 • Ben: 403-896-4331

Welcome to the Red Deer Bull Sale! We would like to thank everyone that has supported our program in the past. Our 2020 offering is highlighted by the largest sire group we have ever offered off Skors Bootlegger 102D. We lost 102D after one breeding season but luckily had semen in our tank and have been able to continue utilizing him in our program. You are more than welcome to come through the pen any time. If you have any questions don't hesitate to give a shout as we want to make sure that you get a bull that best compliments your herd. We look forward to seeing you sale day!

Homo Polled Listen up, the Governor is at the podium. From an early age this bull has had the herd bull look and led the way as the heavy weight all year. He is extremely long bodied but even with this stretch he has the middle and softness to complete the package. Governor's dam, WFL Red Sage 506C needs little introduction with being a high seller through FNL and then is racking up a truly impressive production record as a young donor female. Combining Sage with Liner 56U the maternal power in this pedigree will pay dividends in the daughters Governor will leave you.

Homo Polled 41G is arguably the most complete bull we have ever raised and as the name suggests we think he is a "Great One". Gretzky is a thick made, deep sided with huge spring of rib and only started with an 88 lbs birthweight. Speaking of numbers have a look at the spread between birthweight, weaning and yearling in both the actual weights and is backed by the epds. He is out of a big middle moderate framed Rampage daughter who has been highly productive with putting multiple bulls through the sale including one to Westgold Farms and also a daughter in herd that raised one of the heaviest heifer calves last fall. Come sale day add Gretzky to your starting lineup.

The first of 3 full brothers. Gibson is a long, thick made individual that has a superb disposition. He is sired by ETZ 102D who was selected for his extra length of body while still having above average thickness, muscles shape, and middle. Whether it has been bull calves or heifer calves he has stamped them just the way we like Also 102D is out of one of the highest producing red females ETZ 176Y who has raised multiple herd bulls. A full brother to Gibson, RTL Fireball 28F was our high selling bull last year selling to Oh Kay Farms.

Going to sound like that broken record here but Goldshalger is a thick made individual, with a little extra middle and has the same disposition as his brothers. His dam is none other than KOP 221Z who is our highest producing female on the farm. She has now has produced 8 herd bulls and with the embryo program we felt like we won the lottery when a heifer calf hit the ground. We can't say enough good things about KOP 221Z. She seems to click any way we have bred her and we are excited to see what we will get to offer in the future with all the different flushes from this past year.

Homo Polled Gangster is out of our Janzen Ranches 106D, a Cobra grandson whose bulls were very well received at last year's bull sale. 106D is an impressive big bodied bull that has excellent feet and has also been siring some of the top end steers in our commercial program. Gangster is dark red, hairy, long bodied with ample amount of natural muscling and thickness. There is a full sister that has a calf on the ground now and a Gangster's dam laid down and gave us another impressive full sibling heifer calf that will be exciting to watch develop. A bull that is better than his picture come check this guy out sale day.

Homo Polled Guinness is our youngest bull in the offering but he sure is an interesting one and was actually many peoples pick of the 3 full brothers this summer on pasture. He is strong topped and heavy muscled with it carrying down into his lower quarter. Guinness is clean fronted, smooth in his lines and dark cherry red to top it off. The combination of 2 maternal greats of KOP 221Z and ETZ 176Y will add some strong predictability in this guy's future. KOP 221Z has been one of our top producing cows and we are excited for more like Guinness to come around.

We are pleased to once again be part of the 2020 Red Deer Simmental Bull Sale. Now a decade in to being consignors, we are proud to be part of the strong offering that is always presented by this progressive group of breeders.

Our selections this year continue to showcase our breeding philosophy - you will find bulls with moderate birth weights that incorporate polled genetics, while still maintaining the strong

performance and mothering ability the Simmental breed is known for. The bulls are wintered in a 5 acre paddock to ensure lots of exercise, and have been developed on a ration of free-choice quality first cut hay, combined with a forage based pellet from Country Junction. All seven bulls are quiet and are used to having people move around them. If you have any questions about our bulls or our program, please do not hesitate to contact us. We look forward to visiting with you on March 26th.

Polled. Full Fleckvieh. Dodger is a polled NUG Delmonte son by Brock Waterloo, who we selected as one of the high selling open heifers way back at the 2009 Fleckvieh Equation Sale. Over the past decade, Waterloo has developed into that prototypical Fleckvieh cow, combining power and volume while maintaining a tight udder even at age eleven. Maternal brothers to Dodger have sold in past Red Deer Bull Sales to Barney Beechinor and Diamond M Stock Farms. It has been exciting to watch Dodger keep up and shine with his much older pen-mates, as he's developed into a nicely balanced, moderate framed, and heavily pigmented young herd bull prospect.

Polled. Full Fleckvieh. Delgado is another of our 'youngsters' that has worked his way into the conversation despite his mid-February birthday. We selected his dam, Wolfe's Dawn, from the 2017 Fleckvieh Equation Sale, as we were drawn to her great combination of capacity and style. With her first daughter being sold at Equation 2019 to Skywest Farms, and her 2nd calf selected for Red Deer 2020, we are excited to see what the future holds for this young cow. The youngest bull in our string, Delgado could be a bit of a sleeper on sale day, but we really like his balanced profile that complements strong maternal and performance traits.

Polled. Full Fleckvieh.

Our resident heavyweight, Dynamo combines a moderate frame with immense volume. Dynamo is the first bull visitors pick out of the pen, thanks to his intriguing combination of length, capacity, pigment and heavy muscling. He is backed by our popular 'P' cow family, with Spruceburn Pauline leaving quite the legacy here at APLX. As a direct son of Jeane's favourite cow, Applecross Paula, Dynamo is always looking for a scratch whenever we are out visiting. A real head turner, Dynamo showcases top tier performance, maternal and carcass traits, all in a smooth polled package.

Polled. Full Fleckvieh. Durango is probably the most versatile bull in our offering, combining tremendous length of spine with a smooth shoulder. Consistent is a good word to use when describing the cow family that spawned him. We have worked closely with 10 generations of this "E" line, and his mother, Applecross Ella, consistently sell out within a 5 lb range for birth weight (85-90 lbs). She has had daughters calve to some notable herds, including Labatte Simmentals in 2019 and Beechinor Bros in 2014. He is definitely worth a long look on sale day!

Polled. Full Fleckvieh. Diego is a moderate framed bull that will provide plenty of flexibility with his well balanced profile. He is backed by a unique pedigree on his dam's side, including Dora Lee Equinox and Dora Lee Eclipse. He also traces back to one of our founding four cows, Dora Lee Jewel, a rare Rangemore Carousel daughter. As you'll notice, the Delmonte sons are all stamped with similar characteristics, with the final touches shaped by their respective dams. In Diego's case, this suggests an interesting combination of strong calving ease, maternal and carcass traits.

Scurred. Full Fleckvieh.

Carrying a super square build, with a strong top and a massive hip, Mayhem may be one of the more unique polled herd bulls on offer this spring. An FSS Maximus son, we were drawn to this sire's balance of calving ease with old school Fleckvieh genetics. Stacked with many generations of maternal strength on his dam's side, including Eclipse, Viper, Antonius and King Arthur, APLX Mayhem is a pretty cool dude – all chromed up and proudly Simmental!

Scurred. Full Fleckvieh.

Dark red, with partial goggles on each eye, Rockton represents a little different genetic twist. We selected his dam as our pick from the Big Sky string back in the 2015 Equation Sale. We were intrigued by the combination of Anchor T Krystall, Gibbons Jeremiah and 3 R's Hannable in her genetic makeup. While Rockton is out of our 'heifer bull,' APLX Rambo, his physical appearance and the performance in his pedigree would suggest he is suited more for cows. Look for top end replacement heifers out of this deep sided herd bull prospect.

Scurred Polled. 100% Fleckvieh. Supernova is the first GAMUT 39E son we are offering for sale. He impressed us so much, with being a pasture pick all summer, and never missed a beat after weaning, continuing to remain a bull pen favorite. His Dam Bridgett 7B has been a good producer for us, with a daughter here at home, one in Pennsylvania working for Duanne Andrews. His paternal Grandmother Big Hills MS. Steinadler 637Y, one of my personal favorites

and is still producing for us at 10 years of age. You wont find a cow with a more beautiful udder. Of course you will recognize Sanmar Pina Collada 76P in his pedigree, she produced well in her time here with us. SUPERNOVA is structurally flawless and sound, with great thickness and should be very easy keeping. I would expect him to leave hard working daughters with phenomenal udders and sons with depth and muscle.
Dilutor Free.

Polled. 100% Fleckvieh. Grounder is a well balanced Kaptain 19C son with a wide pin set, lots of lower quarter, and good length. This fella is built right for today's industry, easy fleshing, wide muzzled and sound foot. I do believe he should be able to be used on heifers. His Dam, Darby 4D is a hard working Classified daughter that is feminine, with a nice tidy udder and is setting up to be a reliable producing cow. This cow family is one of my favorites and has earned its place in

our herd, SIENNA 131S has become a donor cow for us and still produces her own offspring today at 14 years. Grounders full sister is producing for Langer Fleckvieh.

100% Fleckvieh. I believe Fierce will be a good heifer bull. He is smooth made from front to back, carries his meat down low in his hind quarter, along with a wide top. Fierce was born at 76lbs from a first calf heifer, Electra 559E. She was our selection from the Pasture Treasures Female Sale 2018. The conglomeration of productive cow families in Electra's pedigree made for a very exciting breeding piece to add to our breeding program. Fierce appears to have followed in his sires footsteps with similar attributes and good growth. He should be of great value to his new owners.

PIESCHEL FARMS

Rocky View County, Alberta
 Devon 1-403-586-4047 • Rae-Lee 1-587-223-2331
 raeleepieschel@gmail.com or on Facebook @Pieschel Farms

Located east of Balzac Alberta, Pieschel Farms is operated by Gary Pieschel along with his son Jay, son in-law Devon and daughter Rae-Lee Erickson.

At Pieschel Farms we run approximately 150 Simmental x Angus commercial cattle and over the past 10 years have continued to build on our purebred Black Angus, Simmental and registered SimmAngus herd.

The Angus herd was started around 2 main cow families Cheetah and Licorice. These cows both carry the same traits of earlier gestation and big performance, depth of body, udder perfection, docility and size. We have raised herd females out of these cows and most recently have bought a few females with new genetics from top Angus breeders. In 2020 we will calve out 20 Black Angus cows. Breeding Simmental started when we decided to AI our favorite commercial cows to top end Simmental bulls to raise half-blood bulls and females for ourselves so we could keep more accurate data on them, since then we have purchased purebred females from select breeders and register about 10 calves a year.

All the cows are AI'd on first attempt to sires we select, we want them to have the same qualities as the cows but bring in that little extra that will always help improve the next generation.

We could not be more proud of the offering of bull calves we have on offer for our first year at the Red Deer bull sale. All the bulls carry a lot of the same qualities yet some small different qualities to match different herds. We have 3 guaranteed Angus heifer bulls and 4 performance Angus bulls. Our 3 Simmentals are all black white faced powerhouses.

We do not creep feed, all calves are out on grass with their mother until September long weekend when they are brought home and weighed off the trailer. From there they are hand fed on a super oats feed and free choice hay. Any bull that was shown was introduced to a show ration in August while still on pasture and milk. All bulls are halter broke and have been worked on throughout the fall and winter. Please give us a call or text before the sale if you would like to come out to the farm to see the bulls and their dams. Videos are also available on our Facebook page @Pieschel Farms.

We cannot say enough good things about 8G, We are so proud to offer this bull as a representation of the Angus cattle we have on our farm. 8G is big, powerful, correct and was fancy enough to be our spotlight in the show string this past year. "Ovi" made a lot of miles and made a lot of friends on the show road, he won numerous banners and titles such as Reserve Grand Champion Purebred bull calf at the IPE in Armstrong. He was Grand Champion Purebred Bull Calf at the Olds Fall Classic jackpot and part of the Grand Champion Pen of Purebred Bulls at the Medicine Hat Pen Show. On top of that he was reserve intermediate division champion Angus bull calf at Armstrong and champion intermediate division winner at the Olds Fall Classic. 8G is out of a picture perfect cow we continue to raise tremendous calves out of every year. What we have noticed in using Brooking Bank Note is udder quality and good feet. We would be very interested in continuing help the new owners promote this bull in the future.

Purebred Simmental Bull. Powerful, deep and full of muscle describes 14G. Like his sire this calf will add shape and style to his calves. We purchased his dam out

Harvie JDF Splash 108B Sire of Lot 56

of the Harvie Ranching dispersal sale in 2019 in calf with 14G and we couldn't be happier how her first calf turned out in our program. His dam is a big broody cow with a nice udder and lots of milk. He is good and correct on his feet.

Looking for an Angus herd sire to put some size into your calves, this is the bull for you! IG is going to mature into a big framed mature bull. He is nice fronted, he's thick topped with a good quarter, his structure is very correct and he has an excellent foot under him. IG's dam 2C is a never miss producing cow who can get bred to any sire and produce a ripper of a calf. IG's maternal sister sold in the 2018 Angus Collection sale for \$10,000. Musgrave Sky High prodigy has been very docile in our herd.

HEIFER BULL 7G is a bomb proof heifer bull, with a low birthweight of 74lbs. He has a nice small head and smooth shoulder, you could sleep soundly at night knowing your first time calving heifers are bred to this guy. 7G was a part of our show string at the Olds Fall Classic in 2019. He caught a lot of attention in the stall for his eye appeal and structure.

HEIFER BULL 20G is a typical Crossfire son who carries the same traits of his sire, low birthweight, unbelievable length of body, smooth shoulders, pretty fronted and big testicular development. 20G is out of a big powerhouse SAV International cow. This is again another bull you can feel safe breeding your first time heifers too.

It is our pleasure to be able to offer bulls again this year in the Red Deer Bull Sale. As usual, we have a group of yearling Polled Hereford bulls we feel fit well industry today and into the future. We are a fourth and fifth generation pedigreed beef cattle operation. The pedigreed Polled Hereford herd has been in continuous operation since 1917 and most of the bulls on offer this year trace back to one of those original Polled Hereford females. We continue to strive to raise functional, problem-free cattle that work for our commercial customers.

Over the years, our Polled Hereford herd sires have tended to be home-raised bulls from cow families we have owned for generations. We do use AI to some of the breed's top sires to add new genetics to our herd. This year we are featuring the first sons of Everest. He was the Grand Champion at the 2017 Hardisty Show and we were able to step out and purchase him, along with Durbin Creek that fall.

We pay close attention to the data we collect on our herd and are also early to try new tools that may aid us in our production practices become available. We have maintained and have used annual

performance records in our herd for more than fifty years to its start in Alberta. Today, in addition to performance records, we utilize ultrasound and other genomics tools. Our entire Hereford cow herd has been DNA tested and our EPD's are genomically-enhanced to improve their accuracy and usefulness.

This year, our calves were weaned in early November, have been reared over the winter in 5 to 10 acre fields where they can get plenty of exercise. Our bulls are developed on a strictly oat and hay ration.

From all our family, we would like to thank all of the buyers and bidders of our cattle in the past. We appreciate their support and wish them continued success.

If you have any questions, please do not hesitate to call us at: (403) 815-9038

Heterozygous Polled Accelerator is our largest framed bull and one of our heaviest on offer this year. He is out of a feminine young high-performance dam from the Brittany family. As a two-year old, she produced our highest indexing heifer at weaning and yearling last year. His weaning and yearling growth EPDs are in the top 1%, and milk in the top 15% for the breed. Accelerator is smooth-made and easy to look at and more than one visitor has pointed him out this year.

Homozygous Polled (Both parents have been tested Homozygous Polled)

Heritage is the first son we have offered sired by our home-raised Dynasty 3E bull. He is easy to look at and should make a very good sire for use with either heifer or the main cow herd. His two-year old mother is a moderate-framed cow that did a nice job with her first calf. Heritage's grandmother, Keepsake 4Z, showed successfully for Alexa at both the 4-H shows and at the World Hereford show.

Terms & Conditions

TERMS The terms of the sale are cash or cheque payable at par at sale location. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

SALES TAXES Applicable sales taxes will be charged on semen, embryos and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INFORMATION SUPPLIED The information contained in this catalogue is believed to be true and accurate. However, the information has been supplied by the seller and neither Transcon Livestock Corp. or Keltey Whelan Designs assume any responsibility if the information supplied is not accurate.

ANNOUNCEMENTS from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDER'S GUARANTEE As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

EXCEPTION TO GUARANTEE In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

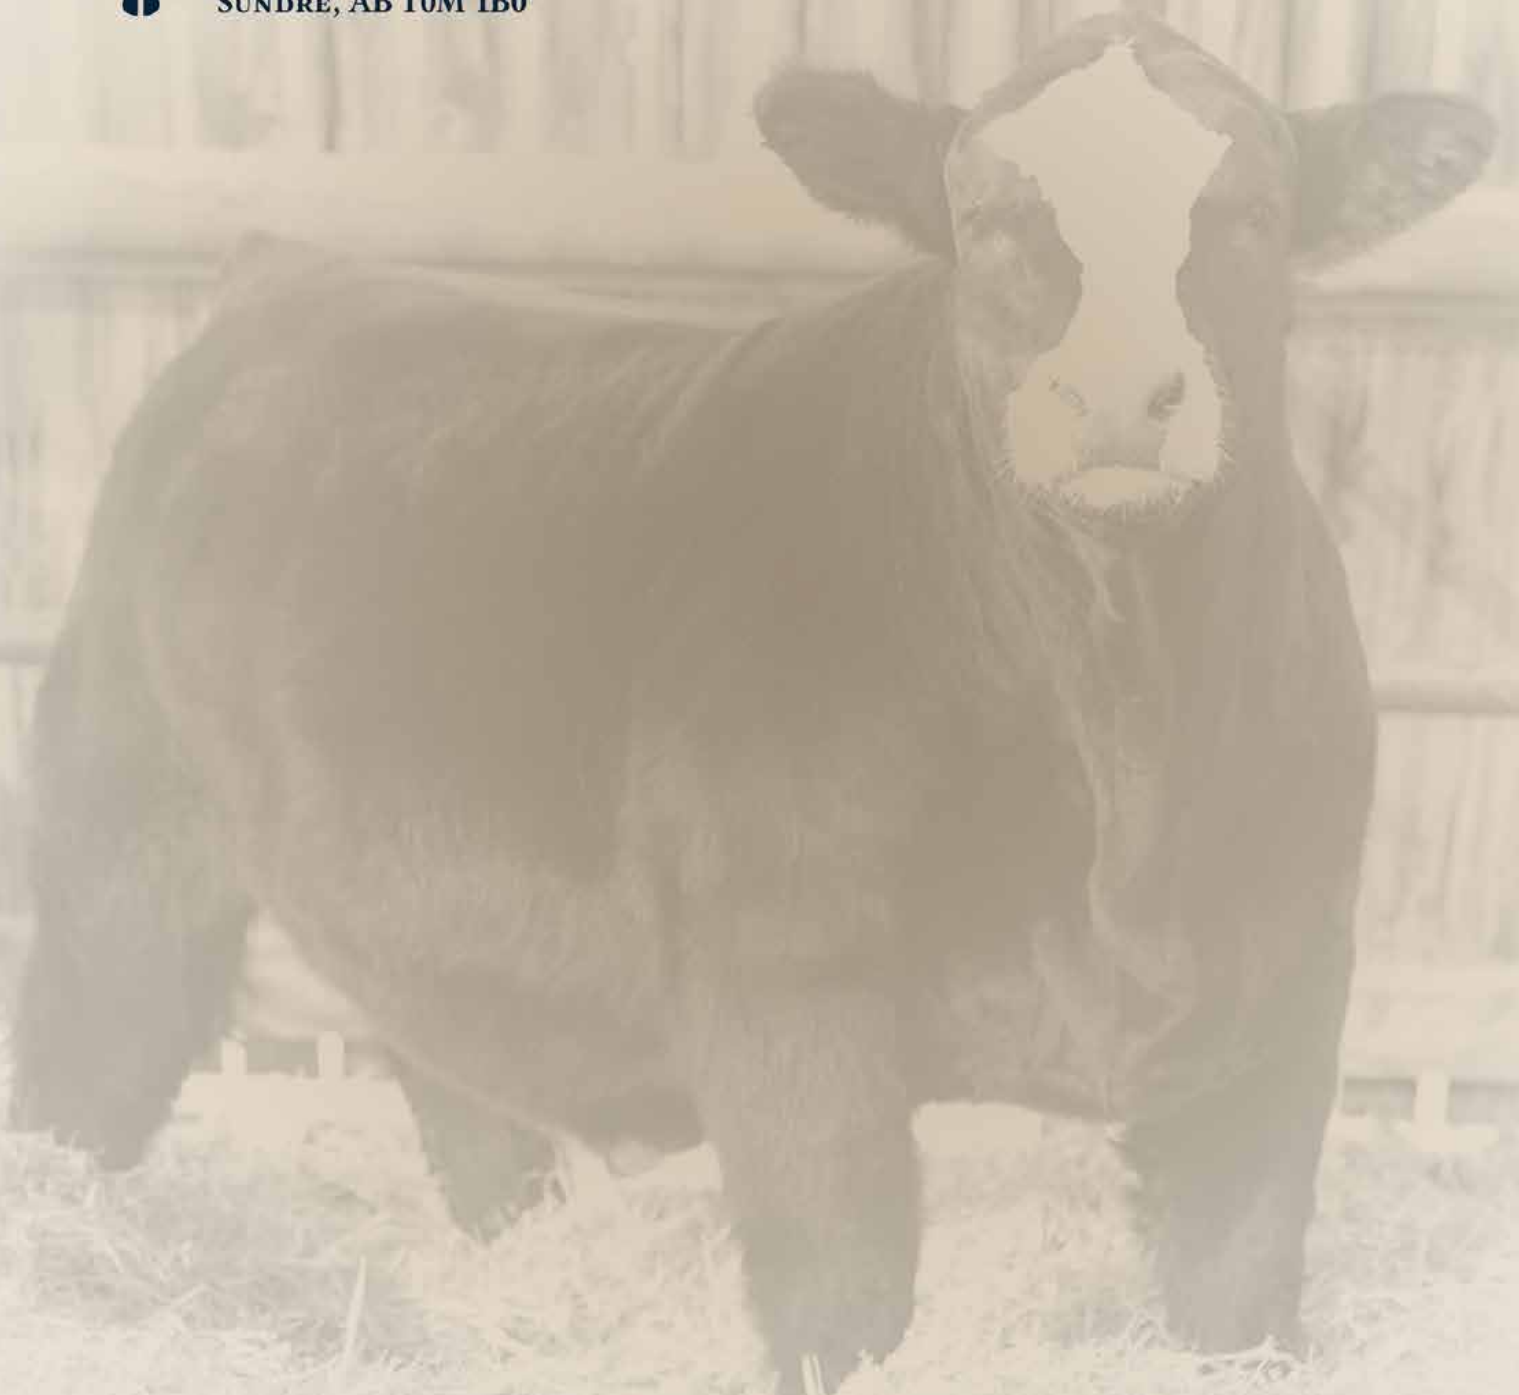

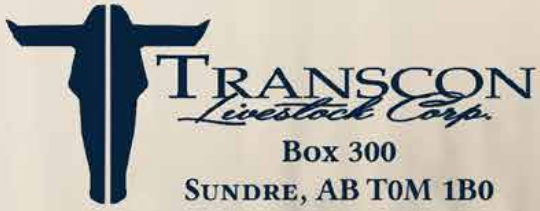

HEALTH It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

ACCIDENTS Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations, neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties, and any legal action that may, in exceptional cases, be taken, must be between buyer and seller. The Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.
