# GENUINE LUK CLUTCH KITS

Exedy / DCT / DSG Dual Mass Flywheels

COMPETITIVE PRICES  
RING JOE FOR QUOTE

**AVAILABLE NOW**

OEM Dual Mass Flywheels (DMF)  
to suit a range of vehicles with  
wet or dry dual clutch transmissions

Should there be any doubt as to the serviceability of  
the DMF during the replacement of dual clutch assemblies  
the manufacturer recommends that the DMF be replaced.

*NOTE:*

*Due to the varied differences between DMF units fitted to  
similar vehicles the VIN number is essential to  
ensure the correct part is supplied.*

# AIR OPERATED SANDBLASTER

End Of Year Special Price \$99.00 + gst

Full elimination of rust, scale and corrosion is difficult.

Complete removal is best attained by the blasting of high-speed media particles at the small niches in the metal.

The gravity fed, safety-vented reservoir tank of *Speed Blaster* eliminates the need for tubes or siphon hoses that easily clog.

A variety of blast media not exceeding 14 grit can be used.

With correct media and moisture-free air *Speed Blaster* runs virtually clog free continuously.

Sand flow is metered precisely with the fully adjustable material control valve.

Gravity forces the particles into a hardened steel mixing chamber where they practically hit warp speed passing through a space-age ceramic nozzle.

Balance, performance and built to last, *Speed Blaster* is available in Red or Blue neon . . . We can't help it if they look great too.

## SPECIFICATIONS

Operating Pressure: 60 -100 PSI  
Consumption: 12 CFM - 125 PSI  
1/4 NPT

Working Pressure: 100 -125 PSI Air  
Minimum Air Compressor: 3 HP Fitting Size:  
Container Capacity: 26 oz (vol) Gun Material: ABS  
Empty Weight: 14 oz Maximum Particle Size: 14 Grit

# Do Your Customers Think REVERSING SENSORS

Are Too Expensive?  
**THINK AGAIN**  
Offer Them This  
Value-for Money Kit

**Sensor Installation drawing (Unit:cm)**

The position for sensor to install is depend on the quantity of the sensor (NOTE: There are four type to choose, four sensor, five sensors, six sensors and eight sensors.)

1. four Sensors

2. eight sensors

**The Way of sensor installation**

1. Installation position (angle)

2. The installation step

Define the position and make sure there is no obstacle by side-glance on a 90° angle, otherwise will affect the detectable effect.

**Alarm Mode**

| Stages | Distance  | Awareness      | Sound Alarm | Number  | color | Video            | LED/LCD | BAT     |
|--------|-----------|----------------|-------------|---------|-------|------------------|---------|---------|
