

Two-Step Word Problems

24 Task Cards

Suggestions for Using Task Cards

There are MANY different ways that task cards can be used in your classroom to increase student engagement. Here are a few suggestions:

- ◆ Use in a small group.
- ◆ Use in a math center.
- ◆ Use as a whole group scoot activity. Place the cards around the room and have students get up and move around to find the cards and answer the questions.
- ◆ Use task cards with a familiar children's game such as Candy Land, Connect Four or Tic Tac Toe. In order to take their turn in the game, they must first correctly answer the question on the task card.
- ◆ Use the cards to play a whole group game of jeopardy. This is especially fun with several sets of task cards. Each set can be a different category with five or six cards under it with money amounts. Students choose a category and a money amount. Flip the card over and have them answer. If they are correct, they earn the money amount for their team.
- ◆ Give students a task card to glue in their journal. Have them answer the question and provide evidence in a journal entry.
- ◆ Display a card on your board with a document camera as a warm-up. Increase the engagement by having students work in teams. Give each team a buzzer or bell!

Two-Step Word Problems

Sandy baked two dozen cookies. She gave ten cookies to the neighbors and ate three cookies. How many cookies are left?

1

Two-Step Word Problems

A touchdown is worth seven points and a field goal is worth three points. The team scored three touchdowns and two field goals. What was the team's score?

2

Diary of a Not So Wimpy Teacher
