Admission to the Major

ADMISSION REQUIREMENTS

Psychology as a Major

- **Psychology is a capped major.**
 - More students are interested in declaring the major than we have room to accommodate.
 - As a result, there are special requirements.

Guaranteed Admission Criteria

- Complete all 8 prerequisite courses.
- Eligibility Depends on Units & Semesters
- 3.2 GPA in prerequisites
- Must submit the online application by the posted deadline

Guaranteed Admission: Completion of the Prerequisites

- Combination of UC Berkeley courses, AP exams, and/or transferrable coursework.
- All coursework must be taken for a letter grade.
- Use assist.org website to check for articulation agreement with California Community colleges.
- Consult with a major adviser for courses taken from another 4-year institution or outside of California.

Guaranteed Admission: Window of Eligibility

- **STUDENTS ADMITTED AS A FRESHMAN**
 - Your eligibility to apply begins on your 3rd semester (traditionally, first semester of your sophomore year).
 - Semester through FPF program counts as one semester.
 - Your window for guaranteed admission ends on either:
 - Your 5th semester, regardless of how many units you have accumulated (traditionally, first semester of your junior year); **OR**
 - During the semester in which you earn 80 units IN PROGRESS
 - Your units for that semester are factored in the calculation
 - High school enrichment units and AP credits are not used for calculation
- **JUNIOR TRANSFER STUDENTS**
 - Your eligibility for guaranteed admission begins and ends during your first semester at UC Berkeley

Guaranteed Admission:

3.2 GPA in the Prerequisites

- ONLY in lower-division prerequisites & Psych 101
- Course grades transferred from community college or another institution are counted towards the calculation.
- AP scores satisfy the requirement, but are NOT used towards your GPA.
- GPA calculator is available in the Psychology website.

Guaranteed Admission: Submitting the Online Application

Admission to the University is independent from your admission to the major:

- You may submit your online application while you are enrolled in your last prerequisite course(s).
- There are three parts of the application: (1) student information; (2) courses and grades, and; (3) unofficial transcript.
- A scanned copy, downloaded file from your web browser, or a screenshot of your transcript are accepted.
- Mark "IP" as your grades for courses currently taking.
- Submission deadlines:
 - Fall application: First Friday of October
 - Spring application: First Friday of March
 - Summer application: First Friday of July
- *Students will receive an email notification regarding the status of their application.*
- *Admission will be determined after the completion of their remaining prerequisites.*

Psychology and Research Opportunities

“We are the only university to offer undergraduates the opportunity to conduct cutting-edge research as early as their freshman year and outside of their major.”

- Source: <http://admissions.berkeley.edu/academics>

Figuring out what interests you

- Check out the Psych department website and look into research options
- Talk to fellow students to find out what research they are working on/learn about their roles as RAs
- Be open minded! Find a handful of professors whose research sounds interesting and check out their lab websites
- Consider taking advantage of other, Psych-related department research, like Sociology or Haas Organizational Psychology
- Participate in RPP for a taste of the research conducted in the Psych department

Research Opportunities Through the Psychology Department

- Psych 199 - Research assistantship
 - Positions posted at the beginning of every semester on bulletin board and on the Weekly Opportunities page
 - May also contact lab at the end of preceding semester or summer to inquire.
 - The early bird gets the worm!
- You are allowed to receive up to 3 units of P/NP for being a research assistant.
 - 1 unit per each 3 hours of work.
- TONS of opportunities through the Weekly Opportunities page
 - Psychology website > Undergraduate > Weekly Opportunities
- A minimum of 2 units as a prerequisite for Honors.

Research Opportunities Through URAP

- The two main websites:
<http://urap.berkeley.edu/>
<http://uraprojects.berkeley.edu/projects/index.php>
- Check URAP website for project descriptions, info-sessions, and application deadlines.
- Consider working with a faculty member from other disciplines like Computer Science, Anthropology, etc.
- Questions? Email urap@Berkeley.edu
- A minimum of 2 units as a prerequisite for Honors.

Honors Thesis

The Psychology Honors Program

- Departmental distinction is independent from the college honors.
- A program for students who excel academically who are interested in being recognized as receiving **Departmental Honors**.
- Contingent upon having a **3.5 GPA** in the major and an overall **3.3 GPA** by graduation
- Contingent upon the completion and submission of a **senior thesis**

For detailed information about the honors program, please visit:

<http://psychology.berkeley.edu/students/undergraduate-program/honors>

Overall Honors Requirements

There are requirements to Honors:

- **Required to apply for Honors:**
 - 2 units of research prior to semester of Senior year
 - Must find faculty sponsorship affiliated with UC Berkeley
- **Required to be granted Honors:**
 - 3.5 GPA in the Psychology major by graduation
 - Prerequisites included in calculation
 - 3.3 GPA overall by graduation
 - Honors level will be determined by faculty members upon submission of the final thesis.
 - Completion of Honors courses for a letter-grade.

Honors Course Requirements

- At least 1 semester of research participation either through URAP or Psych 199
 - Enrolled with a minimum of 2 units
- Psych 102 - Fall only course
 - Psych 101 as prerequisite
- Courses for credit:
 - Psych H195A/B (REQUIRED): units for thesis
 - Psych H194A/B (REQUIRED): honors seminar

ALL courses listed above must be taken for a LETTER-GRADE, and they DO NOT satisfy your Psychology major requirements.

Advice from Current Honors Students

- Start developing your ideas over summer, and consider beginning to learn R through resources like DataCamp
- Asking someone to be your mentor is not as intimidating as it seems at first!
- Don't settle for working on a project you're not interested in, because you'll be spending a year on the project.
- Consider taking Psychology 102 prior to your senior year
- Make sure your faculty sponsor (or mentor) has time for you and can be appropriately attentive to your needs
