for domestic students

THE UNIVERSITY OF
SYDNEY

“Brilliant careers start with a transformational education at the University of Sydney.”

Professor Mark Scott AO
Vice-Chancellor and Principal

We acknowledge the tradition of custodianship and law of the Country on which the University of Sydney campuses stand. We pay our respects to those who have cared and continue to care for Country.

**Leadership
for good

Why choose Sydney?

Start your leadership journey and create a future with impact. Our flexible degree structures allow you to follow your interests while preparing you for a career full of opportunities.

1st

in Australia and 4th in the world for graduate employability*

top 40

in world university rankings**

1st

in Australia and 2nd in the world for making a positive impact on society***

100+

majors and minors to combine your interests across disciplines

250+

clubs and societies to make your uni experience unique

400+

study areas to design the right degree for you

60+

partner organisations to collaborate on real-world projects

\$135 million

in scholarships and prizes available for offer every year

250+

international partners and Australia's largest study abroad and exchange program

380,000

alumni to connect you with a worldwide network

The Sydney *undergraduate experience*

The University of Sydney experience is like no other in Australia. Our flexible degrees prepare you for a future full of possibilities.

Design your own degree to create the study path that's right for you

You can gain expertise in more than one field by choosing from our range of professional, specialist or liberal studies, and combined and double degrees.

Prepare for your future career by working with industry leaders

No matter what you choose to study, you'll have opportunities to undertake supported internships and work placements with industry leaders, so you'll graduate ready to start your career.

Extend your skills and expertise to gain a competitive edge

You can tackle advanced course and project work through our combined Bachelor of Advanced Studies degrees, and boost your personal and professional skills with units from our Open Learning Environment.

Challenge your academic and leadership abilities and build your networks

Our unique Dalyell Scholars stream allows high-achieving students to access enrichment opportunities and exclusive units of study and work alongside other talented peer leaders.

Gain international experience to increase your future employability

We offer the largest study abroad and exchange program in Australia, so you can take advantage of opportunities all around the world.

sydney.edu.au/ug-experience

“The learning isn’t confined to the classroom. Through internships and hands-on experiences, I’ve been able to apply my knowledge through innovative solutions to industry problems.”

Darren Zheng
Bachelor of Engineering Honours and
Bachelor of Project Management

“At the University of Sydney, I had complete control over how I completed my degree. The ultimate flexibility and wide range of career opportunities offered through world-class industry partnerships were the drawcards for me.”

Daniel Kim
Bachelor of Commerce and
Bachelor of Advanced Studies

“The strong student life on campus really appealed to me. I have made lifelong friendships both in and out of my course – the people really make this place what it is!”

Ruby Williamson
Bachelor of Design in Architecture

Diversify your studies

COMBINED BACHELOR OF ADVANCED STUDIES

Set yourself apart when you enter the job market with specialist skills and experience.

You can combine any eligible bachelor's degree with our Bachelor of Advanced Studies, and graduate from two degrees with just one extra year of study.

You can tailor the Bachelor of Advanced Studies to your interests and goals by choosing a second major from the extensive range of subject areas in the shared pool. Then in your final year of study, you can extend your knowledge and critical thinking in one of two ways:

- **Advanced Coursework:** Undertake challenging, advanced units of study to deepen and apply your expertise. You will also build your professional networks and your problem-solving skills by working with one of our industry or community partners on a real-world project.
- **Honours*:** Develop your analytical skills and take the next step towards further research opportunities, such as a PhD. You'll complete an independent research project on a topic of your choosing, alongside related coursework to boost your research and discipline skills.

“I have multiple interests, and kept this in mind when designing my degree. The flexibility that a combined degree with the Bachelor of Advanced Studies offered was the perfect solution. I could satisfy multiple interests by undertaking a major and various OLE's that are separate to my main degree.”

Sydney Haddad
Bachelor of Design Computing and Bachelor of Advanced Studies

In the combined Bachelor of Advanced Studies, you will have the opportunity to ...

Customise your path with a flexible structure

Acquire novel skill combinations and explore other fields of study

Develop solutions to complex, real-world problems

Gain specialised knowledge in two fields

Consider an honours pathway for further study and research opportunities

Engage with industry and community partners

* Admission into the honours pathway is subject to meeting the required academic standards and entry criteria for honours. For honours study options outside those available in the Bachelor of Advanced Studies, see sydney.edu.au/courses

Follow your interests. *All of them.*

With more than 100 options to choose from, our shared pool of majors and minors allows you to explore a wide range of study areas.

If your course allows access to our shared pool of majors and minors, you could study a couple of units or even an entire major or minor in a field that would usually sit outside your degree.

For example, you could enjoy learning Korean while studying science, or complement a major in marketing with the study of design.

You can pursue all your interests, acquire expertise in a second field of study and build interdisciplinary knowledge and skills, preparing you for your future career.

The courses that allow access to the shared pool are shown in the course tables on pages 39-71.

“This degree has really been a dream come true for me because I get the best of both worlds. I never thought I would be able to do both psychology and media studies, but I’m so grateful that I can now pursue both of my core passions at the same time.”

Adeline Chai
Bachelor of Arts and Bachelor of Advanced Studies

SHARED POOL OF MAJORS AND MINORS

Combine your primary major with a major or minor in one of the areas below.

Architecture, design and planning

- Design
- Urban Studies

Arts and social sciences

Collaborate with industry and *community partners*

Work with leading business, government and community organisations on projects that will kickstart your professional experience and get you job ready.

Usually completed in your third or fourth year, this unique learning environment mirrors the realities of the workplace by partnering you with other students from across the University to address an authentic real-world issue, with the support of an academic lead.

Working alongside and learning from experts in your chosen field, you'll develop highly sought-after skills such as professional communication, teamwork, complex problem solving and stakeholder management.

Many of our students have been offered employment opportunities as a direct result of their experience in these industry and community projects.

“I was lucky enough to be offered an internship with Randstad because of this unit. In the industry and community project units, you'll learn how to work beyond a university setting and in a professional one. For me, personally, I discovered the career course I want to take in the future.”

Emma Peake
Bachelor of Arts

sydney.edu.au/interdisciplinary-projects

Previous projects have included:

- Closing the digital skills gap, for Adobe
- Data privacy and ethical design, for ANZ
- Reframing the museum for impact, for the Chau Chak Wing Museum
- Artificial intelligence and ethics in law and order, for IBM
- Reimagining university admissions for wider access to higher education, for the Universities Admissions Centre (UAC).

“I've been exposed to many new perspectives. The Dalyell Scholars stream has been one of the most rewarding aspects of my time at University. It's been great to interact with a variety of students on interdisciplinary projects, from different backgrounds and degrees.”

Ben Nguyen
Bachelor of Education (Secondary: Mathematics)** and Bachelor of Science

Become a *Dalyell scholar*

Our unique Dalyell Scholars stream gives high-achieving students access to a range of enrichment opportunities and exclusive units of study that will challenge you alongside your talented peers.

As a Dalyell Scholar, in addition to completing exclusive units of study as part of your degree, you'll have access to enrichment opportunities including:

- accelerated learning options, such as early access to advanced units of study
- peer, academic and professional mentoring programs
- professional skills development
- optional international experiences to develop your global perspective, with access to a global mobility scholarship (subject to availability).

If you achieve the required ATAR* and receive an offer to an eligible course, you can become a University of Sydney Dalyell Scholar. Full details are available at:

- sydney.edu.au/dalyell-scholars

* The ATAR requirement for the Dalyell Scholars stream is 90+ for Aboriginal and/or Torres Strait Islander students admitted through the Gadigal Program; 95+ for students admitted through the Early Offer Year 12 (E12) Scheme, Future Leaders Scheme or Broadway Scheme; and 98+ for all other students. You can also be invited to the Dalyell Scholars Stream if you do well in your first year at uni.

**B Education (Secondary: Mathematics) has been replaced by Bachelor of Education (Secondary)

The world is *your campus*

We have one of the largest global mobility programs in Australia*, opening up a world of experiences for you. We partner with more than 250 leading universities in over 40 countries, giving you access to global opportunities that will broaden your horizons and skills.

Our global opportunities offer a new perspective to your academic experience and enable you to develop the cultural competence and confidence for a truly global career.

Develop a global perspective

Opportunities include:

- 130 partner universities that are ranked in the top 200 worldwide**
- short-term (2-6 weeks), semester-long and year-long international study options, both in-person and virtual
- overseas field schools to tackle real-world problems
- intensive in-country units that allow you to study language and culture at a partner university
- short-term summer programs at prestigious universities, including Harvard, Yale and the London School of Economics
- professional placements that give you an opportunity to work and study in cities around the world during semester breaks.

We also offer financial support for international experiences, including a range of scholarships and grants to help cover your living and travel costs while you're overseas. There are also government-funded OS-HELP loans.

And you can make the most of your time abroad with the Global Citizenship Award (GCA) – an extracurricular, internationally focused leadership development program that will help you transform your overseas experiences into tangible skills and graduate opportunities.

- sydney.edu.au/sydney-abroad

“Definitely do it! Making the decision to study overseas is one of those life-changing moments you won’t ever forget. It’s quite nerve-wracking to leave the comforts of home – but take the plunge and go be the person you know you want to be!”

Open learning *environment*

Support your career aspirations and interests by developing a unique skill set.

Our Open Learning Environment is designed to help you build novel skill combinations and extend your knowledge by exploring fields of study outside your course.

It's made up of a diverse collection of units of study that are each worth zero, two or six credit points.

The zero-credit-point units are completed entirely online, at your own pace, and can be taken any time throughout the year. They are free, and don't count towards your degree.

The for-credit units combine independent online learning with workshops. Many courses allow you to count for-credit OLE units towards your degree. In many cases you can even try the zero-credit-point OLE unit first, to ensure it's the right fit for you before upgrading to the for-credit version.

Some of the OLEs offered in 2022

- Boutique Brewing
- The Science of Health and Wellbeing
- Writing for the Digital World
- Cryptocurrency Markets and Investments
- The Apocalypse in Science and Culture
- Experience Korea

sydney.edu.au/students/ole-units

Which career is *right for me?*

Our advice is to start by doing what you enjoy and what inspires you. You can refine your study journey as you discover what you love.

We offer a wide range of courses, categorised into broad areas of interest. Use this table to ask yourself some key questions, and then match the subjects you enjoy and your aspirations with the subjects we teach.

Specific course details and admission criteria are available at:

[- sydney.edu.au/courses](https://sydney.edu.au/courses)

Scholarships

More than \$135 million in scholarships available.

Chancellor's Award

The Chancellor's Award recognises domestic students who have achieved an outstanding result in their Year 12 studies. The award is worth \$10,000 per year, for the duration of an undergraduate degree (some exclusions apply). It is awarded automatically to students who achieve an ATAR of 99.90+ (or equivalent).

– sydney.edu.au/scholarships/chancellors-award

Sydney Scholars Award

The Sydney Scholars Award is awarded to Year 12 students who demonstrate the skills and attributes to thrive at university, and who achieve excellent results in the final year of their studies. It is valued at \$6,000 for the first year of an undergraduate course.

– sydney.edu.au/scholarships-ssp

Early Offer Year 12 (E12) Scheme Scholarship

This scholarship is available to students who are eligible for the Early Offer Year 12 (E12) admission scheme. In addition to receiving an early conditional offer, successful E12 applicants will receive a first-year \$5,950 scholarship.

See page 30 or visit our website for more information on E12 entry.

– sydney.edu.au/e12

Other Scholarships

Our extensive range of scholarships also includes:

- equity scholarships
- scholarships for Aboriginal and Torres Strait Islander students
- global mobility scholarships
- Dalzell Scholars global mobility scholarships
- Elite Athlete Program scholarships
- accommodation scholarships
- faculty-based scholarships, and more.

More information, including eligibility and application requirements, is available at

– sydney.edu.au/scholarships

“The E12 scholarship allowed me to get a better footing during my studies. I’ve made so many great connections, which has been amazing for my personal growth and development.”

Skala Hamawandy
Bachelor of Science and Master of Nursing

Student accommodation

Experience uni life at your doorstep

As a student with us, you'll have a range of accommodation options to choose from, including:

- University residences
- residential colleges
- independently run student housing.

Our Accommodation Services website is a great place to get started. It's full of helpful advice on where to live, expected costs, and all your accommodation options both on and off campus. It also allows you to register for University-owned housing.

– sydney.edu.au/accommodation

“It's truly the easiest way to meet people and feel supported and safe as you transition to uni life. I absolutely recommend spending your first year at university in on-campus accommodation! There are so many ways to get involved in and outside the halls – through events such as Intramural Arts and Sport, or Welcome Week activities like the harbour cruise.”

Ethan Christ
Bachelor of Science and Bachelor of Advanced Studies

Student *support* services

University *life*

University is so much more than just what happens in the classroom – so make the most of it!

Expand your uni experience with our 250+ student-run clubs and societies, 30+ cafes, bars and food outlets, live performance spaces, museums and art galleries, 24-hour libraries, Olympic-size swimming pool, fully equipped gym and sports facilities, climbing wall and heritage-listed graffiti tunnel – to name just a few of the things that make up life at Sydney!

@sydney_uni

#USYDlife

sydney.edu.au/student-life

“I’ve formed lifelong friendships with the most kind-hearted and welcoming people. The enormous number of clubs and societies means you’ll definitely be able to find something that best suits your personal interests or hobbies!”

Olivia Le Khac
Bachelor of Science and
Doctor of Dental Medicine

When you join us at the University of Sydney, you’ll have plenty of help. Here are just a few of the ways we support your health, wellbeing and academic achievement.

Orientation and arrival

- Welcome to university
- Settling into Sydney
- Adjusting to student life
- Opportunities to meet fellow students and staff
- Information about available support services

Accommodation

- On-campus student housing
- Residential colleges
- Off-campus living
- Supportive communities

Financial wellbeing

- Bursaries and interest-free loans
- Help with essential living costs and study-related expenses

Language and learning

- Intensive preparation programs
- English language programs
- One-to-one coaching
- Online learning resources

Health and physical wellbeing

- Doctors
- Dentists
- Optometrists
- Physiotherapists
- Pharmacists
- Childcare information

Aboriginal and Torres Strait Islander students

- Academic enrichment and orientation program
- Tutorial assistance
- Peer mentoring
- Cultural support and safe spaces
- Rent subsidy

Academic enrichment

- Bridging courses
- Academic workshops
- Mathematics learning support
- One-to-one consultations
- Online learning resources

Mental health

- Clinical psychologists and counsellors
- Mental health support services
- Workshops for success
- Resilience training

Disability

- Assistive technologies
- Alternative formatting
- Lecture support
- Accessible buildings and facilities
- Academic adjustments

Careers

- Career advice and development
- Employability skills workshops
- Careers fairs and events where you can meet employers
- Sydney CareerHub online jobs database

Faith

- On-campus multifaith chaplaincy, with chaplains from 12 faith groups available for consultations
- Dedicated prayer rooms

sydney.edu.au/student-life

“There can be a lot of pressure and expectations other people have for you when graduating high school. My advice would be to try and work out the things you love, the path you wish to take, and to focus on your personal achievements and goals.”

Kawana Crowe
Bachelor of Science and Bachelor of Advanced Studies (Advanced)

How to *Apply*

2023

Uni terminology 101

Excited about going to uni but don't know what to expect? We've got you covered. Here are some of the key terms you'll find throughout this guide.

Bachelor's degree

When you start university after high school, you'll apply for a bachelor's degree – such as a Bachelor of Arts or a Bachelor of Science – in your chosen subject area. A bachelor's degree is an undergraduate degree (see next page), and takes at least three years to complete.

Credit points

Each unit of study (see next page) is worth a certain number of credit points. Each course requires the completion of a particular number of credit points made up of specified units of study.

Faculty

A faculty is a part of the University that offers a particular subject area for teaching and research, such as the Faculty of Engineering, or the Faculty of Arts and Social Sciences. Each faculty is further organised into more specific parts, such as schools, departments or disciplines.

Major

A major is a particular sequence of units of study (see next page) designed to develop your expertise in a particular field of study. For example, within your bachelor's degree, you might choose to complete a major in criminology, marketing or microbiology. A major is usually made up of eight units of study.

Minor

Similar to a major, a minor is a particular sequence of units of study designed to develop your expertise in a particular field of study. A minor is usually made up of six units of study.

A full list of all the available majors and minors for each course is provided on our website at:

– sydney.edu.au/courses

Part-time or full-time study

Each unit of study requires a certain number of contact hours, so you will be considered a part-time or a full-time student depending on how many units of study you take each semester. Not all courses are available part time.

Undergraduate and Postgraduate

An undergraduate degree, also known as a bachelor's degree, is the first study you'll undertake at uni. These courses don't require previous university study to apply.

A postgraduate degree usually requires previous completion of a relevant undergraduate degree or diploma. Types of postgraduate degrees include graduate certificate, graduate diploma, master's degree or doctorate.

Unit of study

Each individual subject you take each semester is referred to as a 'unit of study', or just a 'unit'. Each unit of study requires a certain number of contact hours, and has assessments and/or exams.

A full glossary of terms is available on – sydney.edu.au/students/glossary

Prerequisites	US	Assumed knowledge
Some of our courses have prerequisites. These are subjects that you need to have completed usually at high school to a specified standard, in order to be eligible for admission to that course. E.g. a mathematics prerequisite applies to many of our courses. You will not be able to receive an offer of admission if you have not met the course prerequisites. Additionally, there are prerequisites at subject (or unit of study) level that need to be met in order to enrol in a particular unit of study.		For some courses, we expect you to already have a certain level of knowledge in a particular subject area through your high school studies, in order to successfully study that subject at university level. Unlike a prerequisite, not having the required assumed knowledge will not prevent you from receiving an offer of admission if you meet all other admission criteria, but you might struggle with the course content if you do not already have the assumed knowledge. In some cases, by meeting the course prerequisite, you may also meet the assumed knowledge for the course.

Our course prerequisites and assumed knowledge are listed under the relevant course at:

sydney.edu.au/courses

Advice on how to choose the right high school subjects for the university course you'd like to apply for are available at:

sydney.edu.au/hsc-subject-selection

Detailed information about our mathematics prerequisites is available at:

sydney.edu.au/study/maths

Important *dates*

2023 ENTRY

April 2022	UAC applications open
	Start exploring scholarships, admission pathways and accommodation. Application closing dates vary, so do your research early and make a note of important deadlines!
	Start researching your preferred courses, and remember to check for any additional selection criteria like prerequisites or auditions
August 2022	Join us for Open Day on Saturday 27 August sydney.edu.au/open-day

	Semester 1 begins!

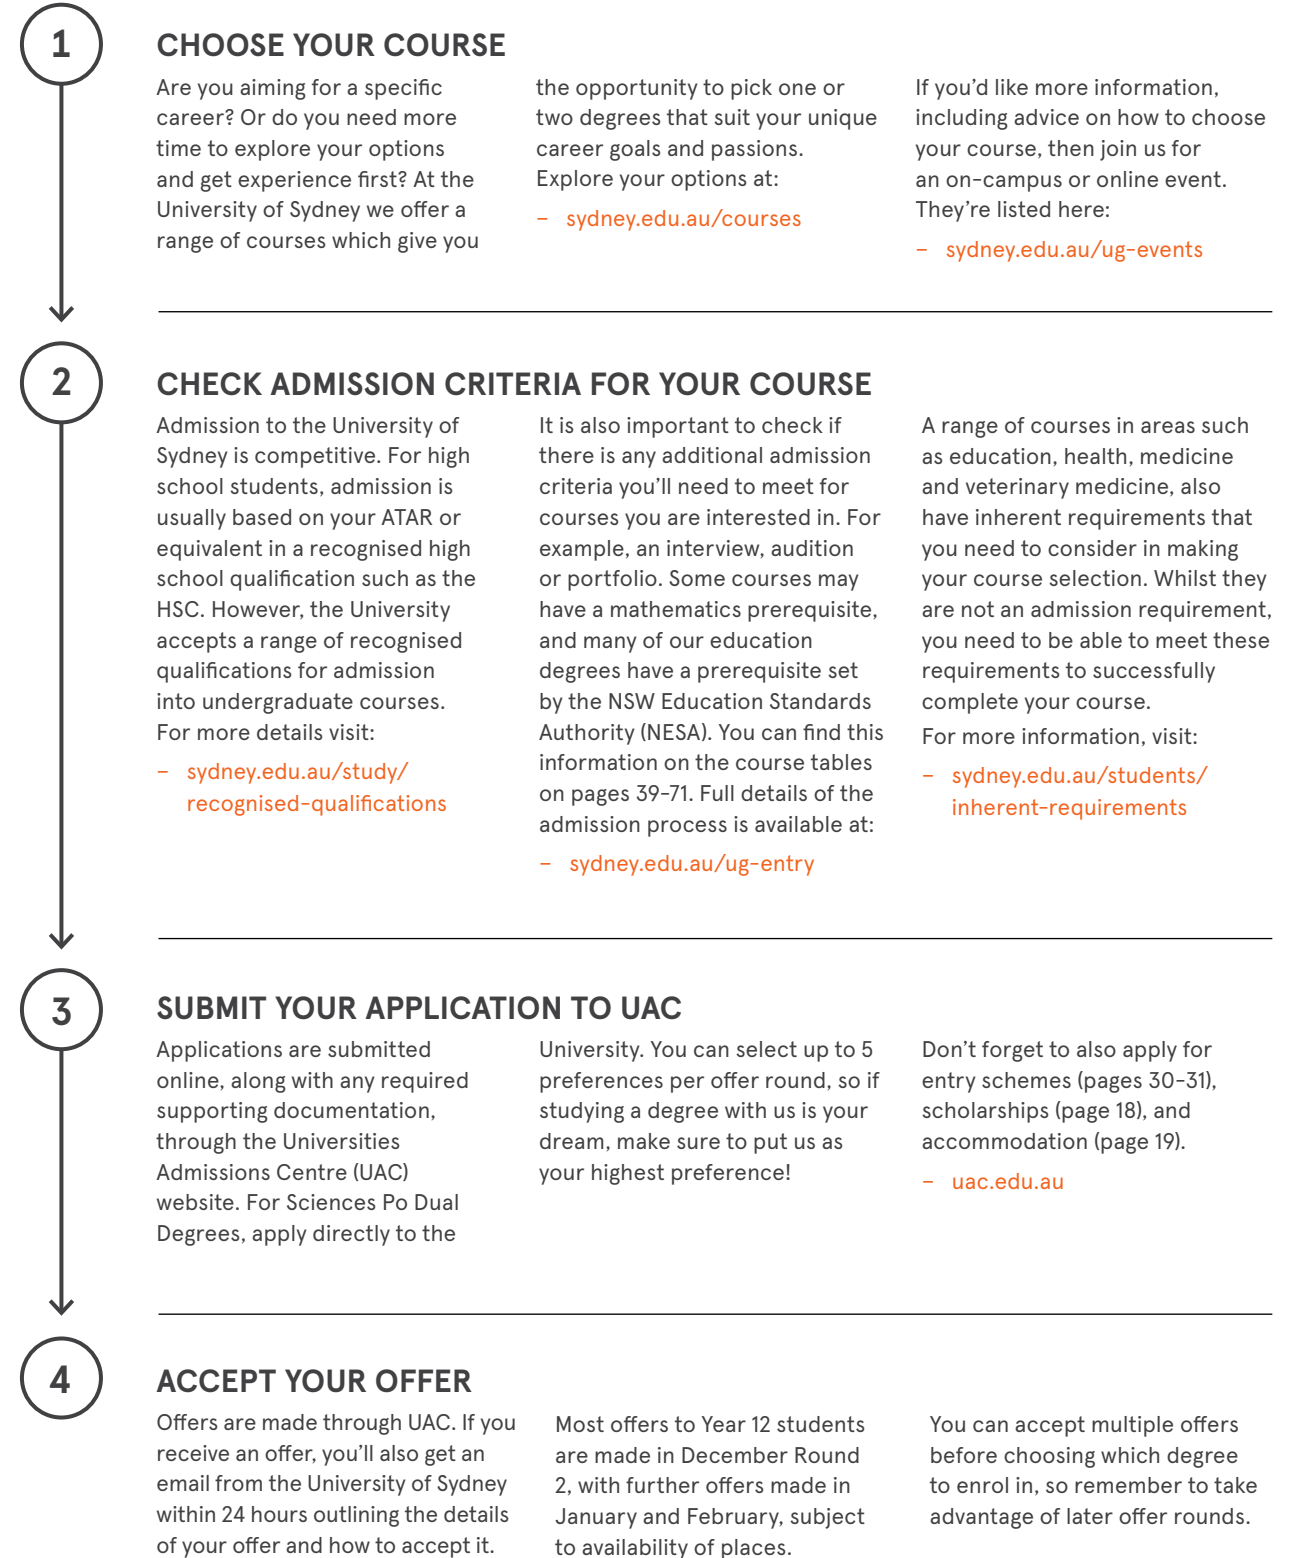

Applying as an international student?

Depending on the high school qualification you're completing, some international students may be eligible to lodge their application through the Universities Admissions Centre (UAC). Detailed information for international students is available at: sydney.edu.au/international

How to *apply*

FOR DOMESTIC STUDENTS*

*You are a domestic student if you are an Australian or New Zealand citizen (including dual citizens), or an Australian permanent resident, or permanent humanitarian visa holder.

Aboriginal *and* Torres Strait Islander *students*

Discover our range of programs dedicated to supporting Indigenous students to study at the University of Sydney.

Scholarships

We offer a wide range of scholarships. Search from hundreds of offerings for Indigenous students:

- sydney.edu.au/scholarships-search

Aboriginal and Torres Strait Islander Entry Scholarship

Valued at \$10,000, this scholarship supports academically gifted Australian Indigenous students, who have obtained an ATAR in the HSC (or equivalent) of 85 or above.

Gadigal Accommodation Scholarship

This scholarship subsidises rent during your first year at available University-owned student accommodation. It is open to school leavers who are commencing full-time undergraduate study. Places are limited and priority is given to regional and remote students.

Gadigal Program

We look at more than your ATAR. Through our Gadigal Program admissions pathway, you will have access to:

- lower minimum ATAR requirements
- the opportunity to apply for a Gadigal Early Conditional Offer
- participation in an intensive two-week Academic Skills Program
- gadigal.sydney.edu.au

Extended Bachelor's Programs

A dedicated pathway for Aboriginal and Torres Strait Islander students with built-in cultural support.

These extended degrees include an additional foundation year, with culturally relevant literacy and mathematics studies. These studies will equip you with excellent communication, critical and analytical skills, that will prepare you for university studies and beyond.

The available courses are:

- Bachelor of Arts (Extended)
- Bachelor of Liberal Arts and Science (Extended)
- Bachelor of Science (Extended)
- Bachelor of Science (Health) (Extended).

These courses are open to eligible students who can demonstrate potential for tertiary study to a standard sufficient to undertake the course, as defined in the course admission criteria.

“I take pride in the fact that I am studying at the University of Sydney. The team was in contact with me through the entire enrolment process and I’ve met many supportive friends through the Gadigal program.”

Thomas Harrington

Gadigal Program participant
Bachelor of Science and Doctor of Medicine

The Gadigal Centre

Our dedicated student centre that supports Aboriginal and Torres Strait Islander students.

We are deeply committed to supporting our Aboriginal and Torres Strait Islander students with their academic, cultural, economic, and social and emotional needs to ensure that your student experience is positive and impactful.

The Gadigal Centre aspires to provide a culturally safe space which embodies high professionalism, integrity and understanding and seeks to uphold these values in all aspects of its service delivery to the University of Sydney’s Aboriginal and Torres Strait Islander students and their development.

We want to empower you throughout your studies and careers. Think of us as your family at the University – we will work with you to make sure that your journey here is as fun and successful as possible.

Our aim is to help you achieve your full potential and graduate from the University, job-ready.

Through the Gadigal Centre you’ll have access to:

- Mentoring Our Brothers and Sisters (MOBS) Program delivered by senior Indigenous students
- Free tutoring and group sessions through our Indigenous Tutorial Assistance Scheme
- Culturally safe spaces for Indigenous students
- You’ll also have access to the broader range of student support services such as careers support, disability services, financial support and academic support and enrichment programs.
- sydney.edu.au/indigenous-support

Accommodation

Living on campus is a great way to meet people, build friendships and develop networks that will stay with you for life. You’ll join a supportive community and be immersed in the full university experience from day one.

There are plenty of accommodation options to choose from, including:

- University-owned (independent living, self-catered)
- University colleges (fully inclusive of meals and programs)
- Off-campus accommodation.

Adjustment factors, entry schemes *and* other admission pathways

We also offer targeted entry schemes and other admission pathways that can help you reach your dream degree.

ENTRY SCHEMES

Academic Excellence Scheme

The Academic Excellence Scheme recognises high performance in advanced levels of English and mathematics by applying adjustment factors to boost your selection rank for eligible courses. If you are a domestic student completing an Australian Year 12 qualification or the IB, you may be eligible for an adjustment of up to 5 points added to your ATAR or equivalent IB score*, depending on the course you apply for and whether you have achieved a Band 5 or 6 (or equivalent) in high-level English or mathematics.

– sydney.edu.au/study/aes

Early Offer Year 12 (E12) Scheme

The E12 Scheme, offered via UAC's Schools Recommendation Schemes (SRS), is for domestic high school students in NSW who have been assessed by UAC's Educational Access Scheme as:

- attending a NSW rural or regional high school or,
- experiencing E12 eligible financial hardship or,
- residing in an area identified by the Australian Bureau of Statistics as being in the lowest 25 percent of socioeconomic disadvantage in Australia.

Successful E12 applicants have the opportunity to receive an early conditional offer to eligible courses with a lower minimum ATAR requirement, and a \$5950 scholarship in their first year.

– sydney.edu.au/e12

Broadway Scheme

The Broadway Scheme is our Educational Access Scheme (EAS) for domestic high school students who have experienced significant educational disadvantage during Year 11 and/or Year 12. You may be eligible for up to 10 adjustment factors depending on the course you apply for, and the severity of your educational disadvantage.

– sydney.edu.au/admission-pathways

Future Leaders Scheme

The Future Leaders Scheme is for Year 12 school captains and dux students who have recently completed high school in Australia and who apply through UAC. The scheme offers admission to eligible courses with a lower ATAR requirement in recognition of leadership and academic achievements.

– sydney.edu.au/study/future-leaders-scheme

Elite Athletes and Performers Scheme

The Elite Athletes and Performers Scheme recognises domestic students who are elite athletes or performers and whose training, rehearsal and/or competitive commitments have significantly affected their Year 12 studies. You may be eligible to receive adjustment factors to increase your selection rank when applying to eligible degrees at the University.

– sydney.edu.au/study/admission-pathways

Creative Arts Special Admission Scheme

The Creative Arts Special Admission Scheme allows domestic high school students who apply through UAC to be eligible for an early offer of admission prior to the release of ATARs (or equivalent). Eligible applicants are assessed on a combination of academic performance and audition/portfolio requirements.

– sydney.edu.au/arts/creative-arts-portfolio
– sydney.edu.au/music/casas

Portfolio Admissions Pathway

The Portfolio Admissions Pathway is a potential entry pathway for students who wish to apply for an architecture or design course and who expect to receive an ATAR of up to five points lower than the required ATAR for their chosen course. In conjunction with the HSC and other formal assessment systems, it assists us in identifying students with the potential to excel in architecture or design computing.

– sydney.edu.au/architecture/portfolio-entry

*ATAR Adjustment Factors are added to a student's ATAR equivalent rank, and not their IB score.

OTHER ADMISSION PATHWAYS

Transferring

If you do not get into your preferred course, or if your interests have changed, you may be eligible to reapply for your preferred course after completing one year of full-time study in another bachelor's degree. Transferring requirements vary between faculties, and you may need to achieve certain grades to be eligible.

– sydney.edu.au/study/transfer-course

Mature-age entry

Our Mature-age Entry Scheme is an entry pathway for eligible domestic applicants aged 21 years or older who do not hold high school results that meet entry requirements and who have not previously completed any study at a tertiary institution.

– sydney.edu.au/admission-pathways

Special Consideration for Admission Scheme

If you have already started some tertiary study but have experienced disruptions to your secondary or tertiary studies due to circumstances beyond your control, you may be eligible to apply for entry through our Special Consideration for Admission Scheme.

– sydney.edu.au/admission-pathways

Fees *and* costs

FOR DOMESTIC STUDENTS

Tuition fees

All domestic students who receive an offer to enrol in an undergraduate course at the University of Sydney are eligible for a Commonwealth-supported place. You are considered a domestic student if you are a citizen of Australia or New Zealand (including dual citizens), or hold an Australian permanent resident visa, or an Australian permanent humanitarian visa.

When you are offered a Commonwealth-supported place in one of our courses, your tuition fees will be subsidised by the Australian Government. You will pay the remainder, called a 'Student Contribution Amount'.

Student Contribution Amounts are defined by the University, within limits set by the Australian Government each year. Check the tuition fees for your specific course at:

– sydney.edu.au/courses

Exact Student Contribution Amounts for your course will depend on your calendar year of study and the specific units of study in which you enrol. Costs can vary depending on the discipline of study, and study load of each unit. Not all units of study in a course are in the same student contribution band.

Student Contribution Amounts are confirmed each year, at the census date. Depending on your citizenship or residency status, you will be able to either pay up-front with a 10 percent discount, if eligible, or take out a HECS-HELP loan from the Australian Government.

Student Contribution Amounts are reviewed annually by the University and will increase based on the Australian Government specified caps. More information about the Australian Government's role in financing your university studies is available at:

– studyassist.gov.au

More information about our tuition fees and other costs is available at:

– sydney.edu.au/study/tuition-fees

HECS-HELP loans

Australian citizens, Australian permanent humanitarian visa holders and New Zealand Special Category Visa holders who meet the long-term residency requirements can either pay their Student Contribution Amount up-front with a 10 percent discount or obtain a full or partial HECS-HELP loan.

If you obtain a HECS-HELP loan, you will have to start repaying it when your income exceeds a certain amount. More information, including eligibility requirements, is available at:

– studyassist.gov.au

Australian permanent resident visa holders (excluding Australian permanent humanitarian visa holders) and most New Zealand citizens are required to pay their Student Contribution Amount up-front, and are not eligible for the 10 percent discount or for a HECS-HELP loan.

Other costs

In addition to tuition fees, you should budget for:

- course materials, textbooks, tools, protective clothing and other equipment sydney.edu.au/additional-course-costs
- the Student Services and Amenities Fee (SSAF), which is an Australian Government initiative, designed to fund non-academic university services and support programs; it is payable each semester and indexed annually for the duration of your course. In 2022 the SSAF is \$157.50 for full-time students and \$118.12 for part-time students. sydney.edu.au/ssa-fee
- living expenses such as rent, travel and food if living away from home sydney.edu.au/study/living-costs

Graduate entry

Our graduate entry courses allow you to gain a professional qualification in a competitive area such as law, medicine, dentistry, physiotherapy or veterinary medicine, after completing an eligible undergraduate degree. Graduate entry options are available on our courses website.

– sydney.edu.au/courses

“There are many pathways available, and there is no one right way to achieve your goals! Follow your passion and put yourself out there. Don't discount your skills and abilities – apply for the course you really want to study.”

Grace Faulder
Bachelor of Applied Science

“I decided on my degree by finding the overlap between what I love, what I’m good at and what the world needs.”

Daniel Kim
Bachelor of Commerce and
Bachelor of Advanced Studies

University study isn’t just about gaining credentials – it’s about investing your time to discover what you really love doing.

Start by thinking about which subjects interest you, as well as how you like to learn and what you want from your university experience.

2023 Admissions Guide

FOR DOMESTIC STUDENTS

We offer Guaranteed Entry for most courses and list a guaranteed selection rank - ATAR + adjustment factors. Guaranteed Entry to a course is subject to meeting all the admission criteria and the availability of places. Selection ranks listed with an asterisk (*) are indicative and are not Guaranteed Entry ranks. These courses have additional admission criteria and/or limited places.

All published scores are correct at the time of printing, and are subject to change. The most up-to-date information on ATARs is available at:

– sydney.edu.au/courses

Discover our entry schemes on pages 30–31 to see if you're eligible for adjustment factors or a lower ATAR.

Architecture, Design and Planning

Design the future. When you study at Sydney, you'll combine creative flair with finely tuned technical skills to shape the spaces, services and experiences – both physical and digital – in which we live, work and play.

Combining creativity and technology

By studying with us, you'll develop big-picture thinking and work towards addressing global challenges. You'll graduate ready for a career that's creatively driven and technically challenging.

“I was encouraged to apply for an internship at Google and I’m now a user experience designer in the Android Google Maps team. We work with researchers and engineers to design new products and features. It’s heaps of fun.”

Sophie Gardner
UX Designer
Bachelor of Design Computing (Honours)**

1st in Australia for Architecture/Built Environment*

The Wilkinson Building has one of the best-equipped design, modelling and fabrication labs in Australia and provides dedicated studio space for students

1st Our Bachelor of Design is one of the first courses of its kind in the world, combining creativity and coding

* QS World University Rankings by Subject 2021

Architecture, design and planning courses

B Architecture and Environments

Selection Rank: 85 Guaranteed
Entry: Feb
Duration (full time): 3 years
Assumed knowledge: English Advanced and Mathematics Advanced or higher

Programs, majors and minors

Core areas of study include architectural and environmental design, architectural history and theory, architectural sciences and technologies, property and sustainability, urban design and planning. The University of Sydney School of Architecture, Design and Planning electives may include acoustics, lighting, structures and design computing.

Career possibilities

Architect (with additional study), property and real estate, construction, project manager, urban designer, urban planner.

B Design (Interaction Design) B Design/B Advanced studies (Interaction Design)

Selection Rank: 80 Guaranteed
Entry: Feb/Jul
Duration (full time): 3 years (single)/ 4 years (combined)
Dalyell by invitation
Assumed knowledge: Mathematics Advanced or higher

Programs, majors and minors

Core areas of study include app design, creative technology, design thinking, graphic design, information architecture, physical computing, sound design, user experience (UX) and user-centred design. The four design studios focus on user experience design, interaction design, information visualisation, and interactive product design. Related units may be taken from arts and social sciences, business, engineering, computer science, music and visual arts. In the combined Design (Interaction Design)/B Advanced Studies, you will also take a major from the shared pool.

In the final year of the combined degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

Career possibilities

Interaction designer, UX designer, creative director, business development, marketing consultant, communications adviser, project manager, design manager, web and multimedia designer, multimedia strategist, creative technologist.

B Design in Architecture

Selection Rank: 95 Guaranteed
Entry: Feb
Duration (full time): 3 years
Assumed knowledge: English Advanced and Mathematics Advanced or higher

Programs, majors and minors

Core areas of study include architectural design, architectural history and theory, architectural technologies, architecture workshops, environment and sustainability, professional practice and architectural communications. You can take electives from the University of Sydney School of Architecture, Design and Planning, as well as from other faculties and schools.

Career possibilities

Architect (with additional study), architectural technologist, interior and spatial designer, urban designer, project manager, property developer.

Combine this degree with
B Engineering Honours (Civil).

B Design in Architecture (Honours)/M Architecture

Selection Rank: 97 Guaranteed
Entry: Feb
Duration (full time): 5 years
Assumed knowledge: English Advanced and Mathematics Advanced or higher

Programs, majors and minors

Core areas of study include architectural design, history and theory, technologies, architecture workshops, environment and sustainability, professional practice and architectural communications. You can take electives from the University of Sydney School of Architecture, Design and Planning, as well as from other faculties and schools.

Career possibilities

Architect, design manager, academic.

Arts and Social Sciences

We'll teach you to think through problems effectively and find solutions. Study with us and you'll develop the skills to rigorously assess assumptions, develop strategies and test ideas against evidence. In the classroom, on an industry placement or on overseas exchange, you'll bring your intellectual curiosity to bear on some of the most complex issues of the 21st century.

Real-world experience before graduation

Take up an Industry and Community Project Unit during your course and test your problem-solving skills alongside professionals. Under the direction of our industry partners, you'll work with other students to form solutions to real-world issues – like the future of health care, the war on waste, or tech and mental health – and gain valuable career experience before you graduate.

45+ Learn from leading experts across more than 45 subject areas

1st The University of Sydney is ranked #1 in Australia and #4 in the world for graduate employability*

* QS Graduate Employability Rankings 2022

“Studying philosophy gave me the tools and mindset to build and manage a business effectively. I don't think I'd have the competence or wisdom to do what I'm doing now without my learning experience at the University of Sydney.”

Adam Jacobs
Co-founder and Managing Director, THE ICONIC
Bachelor of Arts and Bachelor of Commerce

Arts and social sciences courses

B Arts B Arts/B Advanced Studies

Selection Rank: 80 Guaranteed
Entry: Feb/Jul
Duration (full time): 3 years (single)/4 years (combined)
Dalyell by invitation
Assumed knowledge: Depends on majors or units of study chosen.

Programs, majors and minors
In the B Arts, you will choose one major from the options below and a minor or second major from these options or from the shared pool. In the B Arts/B Advanced Studies, you will choose one major from the list below, and a second major from the shared pool or from the following: American Studies; Ancient Greek; Ancient History; Anthropology; Arabic Language and Cultures; Archaeology; Art History; Asian Studies; Biblical Studies and Classical Hebrew; Chinese Studies; Criminology; Cultural Studies; Digital Cultures; Diversity Studies

(minor only); Econometrics; Economics; Economic Policy; Education Studies; English; Environmental, Agricultural and Resource Economics; European Studies; Film Studies; Financial Economics; French and Francophone Studies; Gender Studies; Germanic Studies; Hebrew (Modern); History; Indigenous Studies; Indonesian Studies; International Comparative Literary Studies; International Relations; Italian Studies; Japanese Studies; Jewish Civilisation, Thought and Culture; Korean Studies; Latin; Linguistics; Modern Greek Studies; Music; Philosophy; Political Economy; Politics; Sanskrit (minor only); Social Policy (minor only); Socio-legal Studies; Sociology; Spanish and Latin American Studies; Studies in Religion; Theatre and Performance Studies; Visual Arts; Writing Studies (minor only). In the final year of the combined degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

Career possibilities
Anthropologist, archaeologist, archivist, art historian, business administrator or manager, historian, heritage specialist, foreign affairs and trade officer, government policy officer, information specialist, journalist, museum or gallery curator, language specialist, media and communications officer, editor or publisher, researcher, sociologist. This degree equips you with the breadth and depth of knowledge and the critical and analytical skills to pursue an extensive range of established and emerging careers. It prepares you for the jobs of the future.

Combine B Arts with
B Engineering Honours, B Laws, B Social Work, D Medicine, M Nursing.

B Arts/B Advanced Studies (Dalyell Scholars)

Selection Rank: 98 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Dalyell by application
Assumed knowledge: Depends on majors or units of study chosen.

Programs, majors and minors
Refer to B Arts/B Advanced Studies for degree requirements. As a Dalyell Scholar, you will undertake 12 credit points of distinctive Dalyell units complemented by a suite of additional enrichment opportunities including mentoring, professional skill development, co-curricular activities, and the option for a global mobility experience. You'll also complete units from the Open Learning Environment.

Career possibilities
Anthropologist, archaeologist, business administrator or manager, economist, editor or publisher, foreign affairs and trade officer, government policy officer, historian, language specialist, journalist, museum or gallery curator, public relations manager. This degree equips you with the breadth and depth of knowledge and the critical and analytical skills to pursue an extensive range of established and emerging careers. It prepares you for the jobs of the future.

B Arts/B Advanced Studies (International and Global Studies)

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Dalyell by invitation
Assumed knowledge: Refer to B Arts/B Advanced Studies

Programs, majors and minors
This stream requires completion of a program in international and global studies which includes a major in Global Studies, a minor in a language from the School of Languages and Cultures, and a minimum of 12 credit points of study abroad/exchange. A second major, which may be an extension of the language minor, must be taken from those available in the B Arts or from the shared pool. You'll also have access to the Open Learning Environment. In the final year of the combined degree, you

will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

Career possibilities
Community development program manager, diplomat, foreign aid worker, foreign correspondent, human rights advocate, international business consultant, policy adviser, trade negotiator.

B Arts/B Advanced Studies (Languages)

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Dalyell by invitation
Assumed knowledge: Refer to B Arts/B Advanced Studies

Programs, majors and minors
This stream requires completion of a program in Languages. You will complete two language majors as well as translation-focused units, and have the opportunity to complete electives from the shared pool. You'll also have access to the Open Learning Environment. In the final year of the combined degree, you will undertake an honours option, or complete advanced coursework units in languages, multilingual projects and translation in up to three languages.

Career possibilities
Language localisation specialist, public relations officer, public policy officer, foreign affairs and trade officer, researcher, translator. This degree equips you with global capability plus the breadth and depth of knowledge and the critical and analytical skills to pursue an extensive range of established and emerging careers. It prepares you for the jobs of the future with an international focus.

Professional recognition
This degree is endorsed by the National Accreditation Authority for Translators and Interpreters (NAATI).

Business courses

B Commerce B Commerce/B Advanced Studies

Selection Rank: 96 Guaranteed
Entry: Feb/Jul
Duration (full time): 3 years (single)/4 years (combined)
Dalyell by invitation
Mathematics prerequisite[†]: Yes
Assumed knowledge: Mathematics Advanced or higher

Programs, majors and minors

You will choose one major from the options below and a second major (mandatory for B Commerce/B Advanced Studies) or a minor either from the shared pool or from these options: Accounting; Banking (major only); Business Analytics; Business Information Systems; Business Law; Finance (major only); Industrial Relations and Human Resource Management; Innovation and Entrepreneurship; International Business; Management and Leadership; Marketing; Professional Accounting (program). In the final year of the combined degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

Career possibilities

Accountant, business analyst, entrepreneur, enterprise architect, financial dealer and broker, human resources specialist, international business consultant, investment banker, management consultant, marketing executive, policy adviser, project manager.

Combine B Commerce with
B Advanced Computing, B Engineering Honours, B Laws.

B Commerce/B Advanced Studies (Dalyell Scholars)

Selection Rank: 98 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Dalyell by application
Mathematics prerequisite[†]: Yes
Assumed knowledge: Mathematics Advanced or higher

Programs, majors and minors

Refer to B Commerce/B Advanced Studies. As a Dalyell Scholar, you will undertake 12 credit points of distinctive Dalyell units complemented by a suite of additional enrichment opportunities, including mentoring, professional skill development, co-curricular activities, and the option for a global mobility experience. You'll also complete units from the Open Learning Environment.

Career possibilities

Accountant, business analyst, entrepreneur, enterprise architect, financial dealer and broker, human resources specialist, international business consultant, investment banker, management consultant, marketing executive, policy adviser, project manager.

Economics

Economics is a fascinating and diverse discipline. The field addresses a range of issues that we face in modern life, playing a central role in shaping our society at every level.

Join the ranks of Australia's most employable

Economics is crucial to understanding and solving the major problems and unique challenges the world faces today. Our courses will equip you with the skills, knowledge, flexibility and industry expertise to address these issues, make real-world impact and succeed in your career – wherever it takes you. You'll graduate with a global and highly sought-after qualification.

“The Bachelor of Economics taught me the fundamental principles of economics, as well as how to critique them. This helped me to interpret anything from financial news to human behaviour. My education saw me move from a part-time call centre job to head of commercial property research at the same company. The interdisciplinary approach and analytical thinking encouraged within the degree make it applicable to a wide range of industries.”

Eliza Owen
Commercial Property Research Analyst, CoreLogic
Bachelor of Economics (Honours)

top 5 Ranked in the top five universities in Australia for Economics*

1st The University of Sydney is ranked #1 in Australia and #4 in the world for graduate employability**

 Australia's most popular economics program

Economics courses

B Economics B Economics/B Advanced Studies

Selection Rank: 91 Guaranteed
Entry: Feb/Jul
Duration (full time): 3 years (single)/4 years (combined)
Dalyell by invitation
Mathematics prerequisite[‡]: Yes
Assumed knowledge: Mathematics Advanced or higher

Programs, majors and minors
You will complete a program in Economics which includes a major from the list below, and a second major (mandatory for B Economics/B Advanced Studies) or a minor from the shared pool or from the following: Economics; Econometrics; Financial Economics; Environmental, Agricultural and Resource Economics. You'll also complete units from the Open Learning Environment. In the final year of the combined degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

Career possibilities
Accountant, banker, business consultant, business information systems analyst, economic analyst, economist, financial manager, government or NGO worker, human resource manager, industrial relations specialist, researcher, social policy adviser. This degree will equip you with the capabilities to develop economic and social policy and to work in fields such as business, banking, financial markets and consulting in both the private and public sectors.

Combine B Economics with B Laws.

B Economics (Dual Degree, Sciences Po, France)**

Selection Rank: 91* + other admission criteria
Entry: Jul (in France)
Duration (full time): 2 + 2 years
Dalyell by application
Mathematics prerequisite[‡]: Yes
Assumed knowledge: Mathematics Advanced or higher

Programs, majors and minors
Refer to B Economics for University of Sydney based-majors. For further information on studies in France, including units of study, please refer to the Sciences Po website: www.sciencespo.fr/en/home

Additional admission criteria
See B Arts (Dual Degree, Sciences Po, France) on page 43.

Career possibilities
Accountant, banker, business consultant, business information systems analyst, economic analyst, economist, financial manager, human resource manager, industrial relations specialist, researcher, social policy adviser.

Education and Social Work

Do what you love and make a world of difference through teaching or social work. At Sydney, you'll be challenged to explore complex ideas and issues in your chosen field and graduate an informed, effective practitioner.

Become a confident practitioner

With strong connections in both the education and social work sectors, our advanced placement program encourages meaningful practical experiences. Throughout your course, you'll apply your theoretical knowledge in real-world settings and develop the professional skills to graduate with confidence.

25th in the world
for education*

Our teacher education degrees are accredited by the NSW Education Standards Authority (NESA)

Our social work degrees are accredited by the Australian Association of Social Workers (AASW)

* QS World University Rankings 2021 by subject

“As a student, I loved being part of a community that dedicated itself to considering the big issues that our society and culture face. Since then, I’ve always sought to be the kind of teacher who cares about students first and subjects second.”

Eddie Woo

Leader of Mathematics Growth, NSW Department of Education; Founder of Wootube Bachelor of Education (Secondary: Mathematics)** (Honours)

**B Education (Secondary: Mathematics) has been replaced by Bachelor of Education (Secondary)

Education and social work courses

B Education (Early Childhood)

Selection Rank: 77 Guaranteed
Entry: Feb
Duration (full time): 4 years

Programs, majors and minors

You'll study specialist units in early childhood education, development, and professional practice, complemented by generalist units in an Education Studies major, offered by the Faculty of Arts and Social Sciences.

Career possibilities

Teacher in a range of early learning centres and preschools (birth–5 years). Qualified early childhood teachers are in high demand and early childhood education is a high priority for both federal and state governments in Australia.

Professional recognition

Australian Children's Education and Care Quality Authority (ACECQA).

B Education (Health and Physical Education)^

Selection Rank: 80 Guaranteed + statement
Entry: Feb
Duration (full time): 4 years
Prerequisites: NSW Education Standards Authority (NESA) requirement of a Band 5 in three HSC subjects, one of which needs to be English (Standard or Advanced or ESL/EALD) or equivalent.

Programs, majors and minors

You'll take core units of study in education and professional studies along with discipline study in Health and Physical Education. You'll also need to select a second teaching area from: Aboriginal studies, biology, chemistry, drama, English, history (ancient and modern), languages and mathematics. Professional experience placements (totalling 80 days) begin in the first year of the course and progressively increase until the final placement, when you will be competent to teach under minimal supervision.

Career possibilities

Teacher in secondary schools or careers in training and human resource settings, community health, coaching, recreation and sport.

Professional recognition

NSW Education Standards Authority (NESA).

B Education (Primary)^

Selection Rank: 85 Guaranteed + statement
Entry: Feb
Duration (full time): 4 years
Prerequisites: NSW Education Standards Authority (NESA) requirement of a Band 5 in three HSC subjects (or equivalent) one of which must be English (Standard or Advanced or ESL/EALD); and Band 4 in Mathematics Standard (or equivalent) or higher
Assumed knowledge:
For the Mathematics specialisation: Mathematics Standard or higher
For the Science Specialisation: any HSC Science subject (or equivalent).

Programs, majors and minors

Throughout this degree you'll take generalist units of study in education and professional studies, along with an interdisciplinary unit offered by the Faculty of Arts and Social Sciences. The program provides an AITSL recognised Primary Teaching Specialisation in English and the option for advanced students to complete a Primary Teaching Specialisation in Mathematics, Science and Technology, or Primary Languages. This degree covers all the key learning areas (primary subject areas), with special attention to the mandatory areas of Aboriginal education, teaching English to speakers of other languages (TESOL) and special education. Professional experience placements (totalling 80 days) begin in the second year of the course and progressively increase until the final placement, when you will be competent to teach under minimal supervision.

Career possibilities

Teacher in primary schools, curriculum consultant, educational administrator, educational researcher, government policy adviser.

Professional recognition

NSW Education Standards Authority (NESA).

Education and social work courses

B Education (Secondary)

B Education/B Advanced Studies (Secondary)

Selection Rank: 80 Guaranteed + statement

Entry: Feb

Duration (full time): 4 years (single)/5 years (combined)

Programs, majors and minors

In this new, revitalised degree, you'll take core units of study in education, along with intensive study and professional experience in two teaching areas and units from the Open Learning Environment. Your two teaching areas can be selected from either Arts or Science, in areas including: Aboriginal Studies, Biology, Business Studies, Chemistry, Drama, Economics, English, Geography, History, Judaic Studies, Languages, Mathematics, Physics, and Teaching English to Speakers of Other Languages (TESOL). You will need to complete at least a minor in your first teaching area. Professional experience placements (totalling 80 days) begin in the third year of the course and progressively increase until the final placement, when you will be competent to teach under minimal supervision. The

B Education/B Advanced Studies (Secondary) also offers you the opportunity to undertake advanced coursework, an honours research project or a third teaching area in either TESOL or Aboriginal Studies.

Career possibilities

Teacher in secondary schools in areas including Aboriginal Studies, biology, chemistry, drama, English, history, languages, mathematics, physics, and TESOL; curriculum consultant, educational administrator, educational researcher, government policy adviser, human resource manager.

Professional recognition

NSW Education Standards Authority (NESA).

B Social Work

Selection Rank: 80 Guaranteed

Entry: Feb

Duration (full time): 4 years

Assumed knowledge: Depends on majors or units of study chosen.

Programs, majors and minors

The Social Work program includes studies in mental health, social justice practice, work with children and families, social policy, human service systems, domestic violence, disability, disasters and climate change, impacts of poverty, First Nations studies and social research. You will learn to work alongside diverse groups and communities in Australia and overseas addressing critical social issues.

Career possibilities

Aged care worker, children and families support worker, community worker in programs for people with disabilities, migrant and refugee liaison officer, international development worker, social policy adviser.

Professional recognition

Australian Association of Social Workers

B Arts/B Social Work

Selection Rank: 80 Guaranteed

Entry: Feb

Duration (full time): 5 years

Assumed knowledge: Refer to B Arts and B Social Work

Dalyell by invitation

Programs, majors and minors

You will choose a major from the B Arts, and a second major or a minor either from those options or from the shared pool. You must complete a major in Sociology, or a minor in either Sociology or Social Policy. You will also complete the Social Work professional program alongside your BA for four years. Social work includes mental health, social justice practice, work with children and families, social policy, human service systems, domestic violence and research.

Career possibilities

Social worker in health, community services, ageing, disability, mental health, community development, social policy, disasters and climate change, leadership and work with non-government organisations in Australia and overseas. Career opportunities also available related to the major chosen from the B Arts degree. See B Arts for more career possibilities.

Professional recognition

Australian Association of Social Workers

Additional admission criteria

Applicants for all Bachelor of Education degrees (except Early Childhood) are required to complete a brief personal statement as part of the application for admission. This requirement also applies to the Bachelor of Music (Music Education). For more information, visit sydney.edu.au/teacher-education-personal-statement

^ NESA prerequisites for teaching degrees:

The New South Wales Education Standards Authority (NESA) requires students entering the following teaching degrees to achieve a minimum of three Band 5s in their NSW HSC, one of which needs to be English (Standard or Advanced or English as a Second Language (ESL) or English as an Additional Language or Dialect (EALD) or equivalent):

- Bachelor of Education (Health and Physical Education)
- Bachelor of Education (Primary)
- Bachelor of Music (Music Education)

Additionally, the Bachelor of Education (Primary) requires students to achieve Band 4 in Mathematics Standard (or equivalent) or higher.

For equivalent requirements for other Australian Year 12 qualifications, refer to the UAC website: uac.edu.au/future-applicants/admission-criteria/year-12-qualifications

For other non-Australian secondary education (high school) qualifications, the University will assess whether you have achieved an equivalent standard through your high school studies. If you need to meet English proficiency requirements through a test such as IELTS, you will complete those requirements separately.

Engineering and Computer Science

Our fantastic new multimillion-dollar engineering and technology precinct includes unique student learning spaces.

Choose from our broad range of engineering, project management and advanced computing degrees and you will have the opportunity to make a positive and lasting impact on society. Our students graduate job-ready and study a digitally focused curriculum designed for the jobs of the future.

We produce job-ready graduates

You'll gain real-world work experience and have the opportunity to forge connections with our network of more than 1200 industry, not-for-profit and government organisations across engineering, computing and project management. The variety of specialisations, majors and cross-disciplinary units available ensure you're able to pursue your passion and interests and stand out in the job market.

“The best part of my placement at Cochlear was knowing that my work contributed to providing the gift of hearing to people who receive these life-changing devices.”

Bethany O'Neill
Engineering Sydney Industry Placement Scholarship (ESIPS) recipient
Bachelor of Engineering Honours and Bachelor of Science (Medical Science)

\$200M

We've invested over \$200m into our new engineering and technology precinct to support leading research and student learning

20+

Our new engineering digital curriculum allows you to select from more than 20 specialisations

1200+

We have access to more than 1200 industry, not-for-profit and government partners, so you gain real-world work experience before you graduate

Engineering and computer science courses

B Advanced Computing

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Dalyell by invitation
Mathematics prerequisite[†]: Yes
Assumed knowledge: Mathematics Extension 1

Majors

You'll choose one computing major from the list below, with the option of also choosing either a second major or a minor from this list or from the shared pool: Computer Science, Computational Data Science, Cybersecurity, Software Development. You'll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

Career possibilities

Computer programmer, computer system administrator, consultant, entrepreneur,

information services manager, systems analyst, software engineer, user experience designer, web developer and manager.

Professional recognition

This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

Combine this degree with

B Commerce, B Science, B Science (Health), B Science (Medical Science).

B Advanced Computing/B Commerce

Selection Rank: 96 Guaranteed
Entry: Feb/Jul
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite[†]: Yes
Assumed knowledge: Mathematics Extension 1.
For B Commerce: depends on majors or units of study chosen.

Majors

Refer to B Advanced Computing and B Commerce. You'll choose one major from each degree. You'll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

Career possibilities

Accountant, business systems analyst, computer programmer, computer system administrator, economist, financial specialist,

information services manager, management consultant, project manager, software engineer, web developer and manager.

Professional recognition

This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

B Advanced Computing/B Science

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite[†]: Yes
Assumed knowledge: Mathematics Extension 1.
For B Science: depends on majors or units of study chosen.

Majors

Refer to B Advanced Computing and B Science. You'll choose one major from each degree. You'll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

Career possibilities

Computer programmer, consultant, geophysicist, information services manager,

mathematician, microbiologist, software engineer, systems analyst, web developer and manager.

Professional recognition

This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

B Advanced Computing/B Science (Health)

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite[†]: Yes
Assumed knowledge: Mathematics Extension 1.
Also see B Science (Health)

Programs and majors

Refer to B Advanced Computing and B Science (Health). You'll complete a major from the options available in the B Advanced Computing and the Health major. You'll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

Career possibilities

Roles in computer programming, consultancy, corporate health, disability and ageing management and research,

global health research and policy analysis, hospital management, information services management, mental health and safety, software engineering, web development and management.

Professional recognition

This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

B Advanced Computing/B Science (Medical Science)

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite[†]: Yes
Assumed knowledge: Mathematics Extension 1, Chemistry and either Physics or Biology

Majors

Refer to B Advanced Computing and B Science (Medical Science). You'll choose one major from the options available in the B Advanced Computing; and complete the stream in Medical Science, which requires a program in Medical Science, including a Medical Science major.

Career possibilities

Computer programmer, consultant, doctor (after further study in medicine), geneticist,

infectious diseases researcher, information services manager, microbiologist, pathologist, software engineer, systems analyst, web developer and manager.

Professional recognition

This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

Engineering and computer science courses

B Engineering Honours with Space Engineering

Selection Rank: 99 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Dalyell by invitation
Mathematics prerequisite¹: Yes
Assumed knowledge: Mathematics Extension 1 and Physics

Programs and majors

Space Engineering is available to students in Aeronautical, Mechanical and Mechatronic streams – refer to the relevant stream. Space Engineering covers studies in aerospace systems, electronic devices and circuits, orbital mechanics, space vehicle design, and systems engineering.

Career possibilities

Along with career options from your chosen stream, you can apply your specialised knowledge of the space environment to careers in the aerospace, defence, environmental and research sectors.

Professional recognition

Space Engineering is completed within an Engineering stream accredited by Engineers Australia. Our graduates are also recognised internationally through the Washington Accord of the International Engineering Alliance.

Combine this degree with

B Arts, B Commerce, B Laws, B Project Management, B Science.

B Engineering Honours/B Arts

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 5.5 years
Dalyell by invitation
Mathematics prerequisite¹: Yes
Assumed knowledge: Mathematics Extension 1 and either Physics or Chemistry, depending on the engineering stream (please refer to the relevant stream). For B Arts: depends on majors or units of study chosen.

Specialisations and majors

In addition to the relevant B Engineering Honours stream requirements, you will take a major from B Arts.

Career possibilities

Refer to relevant B Engineering Honours stream and B Arts.

Professional recognition

This engineering degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

B Engineering Honours/B Commerce

Selection Rank: 96 Guaranteed
Entry: Feb/Jul
Duration (full time): 5.5 years
Dalyell by invitation
Mathematics prerequisite¹: Yes
Assumed knowledge: Mathematics Extension 1 and either Physics or Chemistry, depending on the engineering stream (please refer to the relevant stream). For B Commerce: depends on majors or units of study chosen.

Specialisations and majors

In addition to the relevant B Engineering Honours stream requirements, you will take a major from B Commerce.

Career possibilities

Refer to relevant B Engineering Honours stream and B Commerce.

Professional recognition

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

B Engineering Honours (Civil)/B Design in Architecture

Selection Rank: 95 Guaranteed
Entry: Feb
Duration (full time): 5 years
Mathematics prerequisite¹: Yes
Assumed knowledge: Mathematics Extension 1 and Physics; for Architecture: English Advanced

Specialisations and majors

Refer to the B Engineering Honours (Civil) stream and B Design in Architecture for requirements.

Career possibilities

Aid worker, airport and harbour authorities, architect (with further study), architectural technology, banking, construction and mining, engineering and infrastructure consultants, humanitarian engineer,

interior and spatial design, municipal councils, project management, property development, public works and urban design, sustainability specialist.

Professional recognition

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

B Engineering Honours/B Project Management

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 5 years
Mathematics prerequisite¹: Yes
Assumed knowledge: Mathematics Extension 1 and either Physics or Chemistry, depending on the engineering stream; refer to the relevant stream.

Specialisations and majors

In addition to the B Engineering stream requirements, you will undertake a selection of core and elective project management units of study.

Career possibilities

Refer to the relevant B Engineering Honours stream and B Project Management.

Professional recognition

This combined degree is accredited by Engineers Australia and the Project Management Institute Global Accreditation Centre. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

B Engineering Honours/B Science

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite¹: Yes
Assumed knowledge: Mathematics Extension 1 and either Physics or Chemistry, depending on the Engineering stream (please refer to the relevant stream). For B Science: depends on majors or units of study chosen.

Specialisations and majors

In addition to the relevant B Engineering Honours stream requirements, you will take a major from B Science.

Career possibilities

Refer to the relevant B Engineering Honours stream and B Science.

Professional recognition

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

B Engineering Honours (Biomedical)/B Science (Health)

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite¹: Yes
Assumed knowledge: Mathematics Extension 1, Chemistry.

Programs and majors

In addition to the B Engineering Honours (Biomedical) stream requirements, you will complete a Health major in B Science (Health).

Career possibilities

Refer to B Engineering Honours (Biomedical) stream and B Science (Health).

Professional recognition

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

B Engineering Honours (Biomedical)/B Science (Medical Science)

Selection Rank: 90 Guaranteed
Entry: Feb/Jul
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite¹: Yes
Assumed knowledge: Mathematics Extension 1, Chemistry, Physics and/or Biology (depending on B Science (Medical Science) units of study chosen).

Specialisations and majors

In addition to the relevant B Engineering Honours stream requirements, you will complete a program in Medical Science, including a Medical Science major in B Science (Medical Science).

Career possibilities

Refer to the relevant B Engineering Honours stream and B Science (Medical Science).

Professional recognition

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.

B Project Management

Selection Rank: 86 Guaranteed
Entry: Feb/Jul
Duration (full time): 3 years
Mathematics prerequisite¹: Yes
Assumed knowledge: Mathematics Extension 1

Programs and majors

Choose one major either from the project management options in Construction or Built Environment, or from the shared pool of majors. Built Environment major units are held within the University of Sydney School of Architecture, Design and Planning. You can also take a project management minor in People and Change, or Project Controls.

Career possibilities

Professional and management roles in property development, construction, mining, events, IT, banking and finance, state or federal government or in consultancy roles in engineering, water health or energy sectors.

Professional recognition

This degree is accredited by the Project Management Institute Global Accreditation Centre for Project Management Education programs.

Combine this degree with

B Engineering Honours.

Law

With more than 150 years of research-led education, we're ranked 14th in the world for law. Together with another degree of your choosing, develop highly sought-after skills to become a leader in your chosen career and create change in a global environment.

14th in the world* for law, we are one of the world's leading law schools

 Apply classroom knowledge to real-world cases with social justice and law reform activities

 Strategic partnerships with world-leading universities provide global opportunities to study abroad

* QS World Rankings by Subject 2021

Learn from the best legal minds

At Sydney Law School, you will learn from globally recognised legal educators and highly respected professional practitioners, gain an internationally relevant legal education with overseas opportunities, and be equipped with skills that will prepare you for the global marketplace.

“The University of Sydney has an outstanding reputation for law and an engaged student body with a huge range of clubs and societies. The flexible degree structure with the Bachelor of Arts also opened up a lot of opportunities.”

Mitchell Cleaver
Bachelor of Arts and Bachelor of Laws

Law courses

B Arts/B Laws

Selection Rank: 99.5 Guaranteed
Entry: Feb
Duration (full time): 5 years
Dalyell by invitation
Assumed knowledge: Refer to B Arts; for B Laws: none

Programs, majors and minors
Refer to B Arts. Units of study for B Laws: **First year:** Foundations of Law, Legal Research, Torts. **Second year:** Civil and Criminal Procedure, Contracts, Criminal Law. **Third year:** Torts and Contracts II, Public International Law, Public Law, Legal Research II. **Fourth year:** Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property

and the Legal Profession. **Fifth year:** Private International Law A and seven elective units of study.

Career possibilities
Refer to B Arts. For B Laws: solicitor, barrister, magistrate, judge, diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy, public policy.

B Commerce/B Laws

Selection Rank: 99.5 Guaranteed
Entry: Feb
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite[‡]: Yes
Assumed knowledge: Mathematics Advanced or higher; other assumed knowledge depends on majors and units of study chosen; for B Laws: none

Programs, majors and minors
Refer to B Commerce. **Units of study for B Laws:** **First year:** Foundations of Law, Legal Research, Torts. **Second year:** Civil and Criminal Procedure, Contracts, Criminal Law. **Third year:** Torts and Contracts II, Public International Law, Public Law, Legal Research II. **Fourth year:** Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property

and the Legal Profession. **Fifth year:** Private International Law A and seven elective units of study.

Career possibilities
Refer to B Commerce. For B Laws: solicitor, barrister, magistrate, judge, diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy, public policy.

B Economics/B Laws

Selection Rank: 99.5 Guaranteed
Entry: Feb
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite[‡]: Yes
Assumed knowledge: Mathematics Advanced or higher; for B Laws: none

Programs, majors and minors
Refer to B Economics. Units of study for B Laws: **First year:** Foundations of Law, Legal Research, Torts. **Second year:** Civil and Criminal Procedure, Contracts, Criminal Law. **Third year:** Torts and Contracts II, Public International Law, Public Law, Legal Research II. **Fourth year:** Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property

and the Legal Profession. **Fifth year:** Private International Law A and seven elective units of study.

Career possibilities
Refer to B Economics. For B Laws: solicitor, barrister, magistrate, judge, diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy, public policy.

B Engineering Honours/B Laws

Selection Rank: 99.5 Guaranteed
Entry: Feb
Duration (full time): 6.5 years
Mathematics prerequisite[‡]: Yes
Assumed knowledge: Mathematics Extension 1 and either Physics or Chemistry, depending on the engineering stream; refer to the relevant stream; for B Laws: none

Programs, majors and minors
In addition to the relevant B Engineering stream requirements, you will undertake law units of study. Units of study for B Laws: **First year:** Foundations of Law, Legal Research, Torts. **Second year:** Civil and Criminal Procedure, Contracts, Criminal Law. **Third year:** Torts and Contracts II, Public International Law, Public Law, Legal Research II. **Fourth year:** Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property

Property and Commercial Law, Real Property and the Legal Profession. **Fifth year:** Private International Law A and seven elective units of study.

Career possibilities
Refer to the relevant B Engineering Honours stream. For B Laws: solicitor, barrister, magistrate, judge, diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy, public policy.

B Science/B Laws

Selection Rank: 99.5 Guaranteed
Entry: Feb
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite[‡]: Yes
Assumed knowledge: Mathematics Advanced or higher; other assumed knowledge depends on majors and units of study chosen; for B Laws: none

Programs, majors and minors
Refer to B Science. Please note that the only stream available in this combined degree is the Dalyell stream. Units of study for B Laws: **First year:** Foundations of Law, Legal Research, Torts. **Second year:** Civil and Criminal Procedure, Contracts, Criminal Law. **Third year:** Torts and Contracts II, Public International Law, Public Law, Legal Research II. **Fourth year:** Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property and the Legal Profession. **Fifth year:** Private International Law A and seven elective units of study.

Career possibilities
Refer to B Science and options below for science-specific careers: environmental lawyer, urban and regional planner, occupational health and safety specialist, forensic science technician, science policy specialist, technical specialist or associate undertaking intellectual property cases in science patents, copyright and trademark disputes. For B Laws: solicitor, barrister, magistrate, judge, diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy, public policy.

Medicine and Health

There has never been a better time to study medicine and health. With healthcare professionals in high demand across the world, we are empowering future leaders in the field. Choose from the largest range of health degrees of any Australian university and graduate ready to enter the health workforce.

Our degrees will kickstart your career in health

Health care is one of the fastest growing industries around the world. At Sydney, you'll learn with academic experts and students in many health disciplines to develop a range of invaluable skills, from patient interaction to teamwork, leadership and research.

“I applied for diagnostic radiography after working in an emergency department and seeing the amazing work that can be done with medical imaging. My highlight so far was the clinical placement in Darwin and working with Indigenous communities.”

Tom Readford
Bachelor of Applied Science (Diagnostic Radiography)

top 20 worldwide for exercise and sport, medicine, pharmacy and nursing*

 You will learn in our new state-of-the-art Susan Wakil Health Building

 Gain hands-on experience in our network of clinical placements across 8 major health districts

* QS World University Rankings by Subject 2021

Medicine and health courses

B Applied Science (Diagnostic Radiography)

Selection Rank: 96*
Entry: Feb
Duration (full time): 4 years

Programs, majors and minors
You will cover studies in anatomy, biological sciences, equipment and imaging techniques, image processing, pathology, physics, psychology and radiation biology.

to work in a range of settings, such as small regional clinics, large metropolitan imaging departments, and hospital emergency departments.

Career possibilities
Diagnostic radiographer, with the opportunity

Professional recognition
Medical Radiation Practice Board of Australia.

B Applied Science (Exercise and Sport Science) B Applied Science/B Advanced Studies (Exercise and Sport Science)

Selection Rank: 82*
Entry: Feb
Duration (full time): 3 years (single)/4 years (combined)
Assumed knowledge: Chemistry and Mathematics Advanced or higher

Programs, majors and minors
You will complete a major in Exercise Science, and a minor or major in Physical Activity and Health. You can also take electives or an optional major or minor from the shared pool, or access to the Open Learning Environment to broaden your learning. You will complete two practicum experiences in the final year. For the combined degree you must complete a second major from the shared pool. In the final year of the combined degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

Career possibilities
Accredited exercise scientist, coach, personal trainer, strength and conditioning specialist. Our graduates find careers in the sport, fitness and health industries; work health and safety; injury prevention; public health; exercise rehabilitation; research and technology; education and health; and medical insurance.

Professional Recognition
Exercise and Sport Science Australia (ESSA).

B Applied Science (Exercise Physiology)

Selection Rank: 91*
Entry: Feb
Duration (full time): 4 years
Assumed knowledge: Chemistry and Mathematics Advanced or higher

Programs, majors and minors
You will cover studies in biomechanics, clinical exercise practice, ergonomics, exercise physiology, functional anatomy, motor control and behaviour.

health care, including cardiac rehabilitation, musculoskeletal rehabilitation, mental health, long-term rehabilitation following spinal cord injury, ageing, occupational rehabilitation and programs for people with an intellectual disability.

Career possibilities
Exercise physiologist. As an accredited exercise physiologist, you will have the opportunity to work across all sectors of

Professional recognition
Exercise and Sport Science Australia (ESSA).

B Applied Science (Occupational Therapy)

Selection Rank: 93*
Entry: Feb
Duration (full time): 4 years

Programs, majors and minors
You will complete a major or minor in Disability, Participation and Health and cover studies in Physical and Psychosocial capacity, as well as human anatomy, medical sciences, neuroscience, occupational therapy theory and practice, psychology and social sciences. You will also undertake a placement to gain valuable practical experience.

your career while staying within the same profession. For example, you could work one-on-one in rehabilitation with stroke or cancer survivors, then work with babies in a neonatal intensive care unit or young adults in a community mental health program.

Career possibilities
Occupational therapist. The breadth of occupational therapy means you can diversify

Professional recognition
Occupational Therapy Board of Australia, Australian Health Practitioner Regulation Agency, Occupational Therapy Australia and the World Federation of Occupational Therapists.

B Applied Science (Physiotherapy)

Selection Rank: 99.5*
Entry: Feb
Duration (full time): 4 years
Assumed knowledge: Chemistry and Physics

Programs, majors and minors
You will cover studies in biomedical sciences, behavioural and social sciences, exercise science, human anatomy, human movement, neuroscience as well as theory and practice of musculoskeletal, neurological and cardiopulmonary physiotherapy across the lifespan. You will also undertake a placement to gain valuable practical experience.

Career possibilities
Physiotherapist. You can choose from a diverse range of physiotherapy and health promotion career options in both the public and private sectors, in settings such as healthcare organisations as well as sports, schools and community, and private practice.

Professional recognition
Australian Physiotherapy Council and Australian Health Practitioner Regulation Agency (AHPRA).

Medicine and health courses

B Applied Science (Speech Pathology)		
<p>Selection Rank: 94*</p> <p>Entry: Feb</p> <p>Duration (full time): 4 years</p>	<p>Programs, majors and minors</p> <p>You will cover studies in anatomy, audiology, linguistics and language development, neurobiology, phonetics, psychology, research methods and speech pathology specialist areas (eg, aphasia, cleft palate, dysarthria, dysphagia, stuttering). You will also undertake a placement to gain valuable practical experience.</p>	<p>Career possibilities</p> <p>Speech pathologist, with the opportunity to work in diverse settings, including public and private hospitals, community health, mental health services, aged care facilities, schools and disability services. As a speech pathology graduate, you may also work in private practice, with the potential to operate your own business as a private practitioner.</p> <p>Professional recognition</p> <p>Speech Pathology Australia.</p>
B Arts/D Medicine		
<p>Selection Rank: 99.95* + other admission criteria</p> <p>Entry: Feb</p> <p>Duration (full time): 7 years</p> <p>Dalyell by invitation</p> <p>Mathematics prerequisite[‡]: Yes</p> <p>Assumed knowledge: Mathematics Advanced or higher; For B Arts: depends on majors or units of study chosen.</p>	<p>Programs, majors and minors</p> <p>Refer to B Arts. You will choose a major from the options available in the B Arts, and either a second major or a minor from these options or the shared pool. During the B Arts, you will also complete foundational knowledge units for medicine (in science), a zero-credit-point subject in medicine, and Open Learning Environment units. If you become a Dalyell Scholar, you will complete 12 credit points of distinctive Dalyell units designed to cultivate high-level graduate attributes. You will also have access to a suite of additional enrichment opportunities. In the Doctor of Medicine component, practical experience – including</p>	<p>contact with patients and observation of the physical aspects of disease – commences in the first year and continues to the final year.</p> <p>Career possibilities</p> <p>General practice, surgery or other specialities, research, pharmaceutical industry, forensic anthropologist, government policy officer, medical journalism, aid work, management consultancy, teaching, medical administration, medical communication.</p> <p>Professional recognition</p> <p>Australian Medical Council (AMC).</p>
B Arts/M Nursing		
<p>Selection Rank: 80 Guaranteed</p> <p>Entry: Feb</p> <p>Duration (full time): 4 years</p> <p>Assumed knowledge: For B Arts: Depends on the majors or units of study chosen; For M Nursing: none</p>	<p>Programs, majors and minors</p> <p>Refer to B Arts. You will choose a major from the B Arts and electives from those available in the B Arts or the shared pool. You'll also have access to the Open Learning Environment. Focus areas for nursing include: acute care, aged care, chronic illness, clinical practice, Indigenous health, mental health care and management, pharmacology, physiology, professional practice, social and health policy.</p>	<p>Career possibilities</p> <p>Registered nurse in a range of healthcare settings and highly employable in a range of non-clinical settings that include government, non-government organisations, business, education and research.</p> <p>Professional recognition</p> <p>Nursing and Midwifery Board of Australia.</p>
B Nursing (Advanced Studies)		
<p>Selection Rank: 84 Guaranteed</p> <p>Entry: Feb</p> <p>Duration (full time): 3 years</p>	<p>Programs, majors and minors</p> <p>Focus areas for nursing: acute care, aged care, child and adolescent health, chronic illness, clinical practice, Indigenous health, mental health care and management, pharmacology, physiology, primary health care, professional practice, social and health policy.</p>	<p>Career possibilities</p> <p>Registered nurse with a career in a range of healthcare settings, including emergency, intensive care, mental health, cancer and palliative care, aged care, child and adolescent health, international health, education and research.</p> <p>Professional recognition</p> <p>Nursing and Midwifery Board of Australia.</p>
B Oral Health		
<p>Selection Rank: 83*</p> <p>Entry: Feb</p> <p>Duration (full time): 3 years</p>	<p>Programs, majors and minors</p> <p>Your studies will include dental hygiene and dental therapy service as well as oral health promotion.</p>	<p>Career possibilities</p> <p>Oral health therapist, dental hygienist, dental therapist, community oral health educator/consultant/advocate.</p> <p>Professional recognition</p> <p>Australian Dental Council, Dental Board of Australia.</p>

B Pharmacy (Honours)/M Pharmacy Practice		
<p>Selection Rank: 90 Guaranteed</p> <p>Entry: Feb</p> <p>Duration (full time): 5 years</p> <p>Mathematics prerequisite[‡]: Yes</p> <p>Assumed knowledge: Mathematics Advanced or higher, Biology and Chemistry</p>	<p>practice. In the fourth year, you will undertake your honours research project, which could be based overseas in pharmacy-related settings or in the pharmaceutical industry. The work integrated learning component of this course, in the fifth year (Master of Pharmacy Practice), has been developed to satisfy the Australian Pharmacy Council pre-registration training requirements to become a registered pharmacist and includes the requirement to complete 1,824 hours (one year) of supervised practice training.</p>	<p>Career possibilities</p> <p>Pharmacist. Registered pharmacists in community pharmacy (community practice), hospital pharmacy, research positions within universities or research institutes, or positions in the pharmaceutical industry in drug production, marketing or drug development.</p> <p>Professional recognition</p> <p>The degree is accredited by the Australian Pharmacy Council and the supervised practice component is approved by the Pharmacy Board of Australia.</p>
B Pharmacy and Management (Honours)/M Pharmacy Practice		
<p>Selection Rank: 90 Guaranteed</p> <p>Entry: Feb</p> <p>Duration (full time): 6 years</p> <p>Mathematics prerequisite[‡]: Yes</p> <p>Assumed knowledge: Mathematics Advanced or higher, Biology and Chemistry</p>	<p>In the fifth year, you will undertake your honours research project, which could be based overseas in pharmacy-related settings or in the pharmaceutical industry. The work integrated learning component of this course, in the sixth year (Master of Pharmacy Practice), has been developed to satisfy the Australian Pharmacy Council pre-registration training requirements to become a registered pharmacist and includes the requirement to complete 1,824 hours (one year) of supervised practice training.</p>	<p>Career possibilities</p> <p>Pharmacist. Medicine and health courses

B Science/M Nursing

Selection Rank: 80 Guaranteed
Entry: Feb
Duration (full time): 4 years
Dalyell by invitation
Mathematics prerequisite*: Yes
Assumed knowledge: For B Science: Mathematics Advanced and/or higher (depending on units of study selected), other assumed knowledge depends on majors or units of study chosen; For M Nursing: None

Programs, majors and minors
 You will choose one major from those available in B Science (refer to B Science) and Open Learning Environment units. Focus areas for nursing include: acute care, aged care, child and adolescent health, chronic illness, clinical practice, Indigenous health, mental health care and management, pharmacology, physiology, professional practice, social and health policy.

Career possibilities
 Registered nurse in a range of healthcare settings with the ability to use your knowledge of science in health issues such as infectious and non-communicable diseases, infection control, anatomy, physiology and biomedical science, pharmacology and research.

Professional recognition
 Nursing and Midwifery Board of Australia.

B Science (Health)/M Nursing

Selection Rank: 80 Guaranteed
Entry: Feb
Duration (full time): 4 years
Dalyell by invitation
Mathematics prerequisite*: Yes
Assumed knowledge: For B Science (Health): Mathematics Advanced or higher, other assumed knowledge depends on majors or units of study chosen.

Programs, majors and minors
 You will complete a major in Health within the Health stream, a second major and Open Learning Environment units – refer to B Science (Health). Focus areas for nursing include: acute care, aged care, child and adolescent health, chronic illness, clinical practice, Indigenous health, mental health care and management, pharmacology, physiology, professional practice, social and health policy.

Career possibilities
 Registered nurse in a range of healthcare settings. You can apply your knowledge of health systems in industries supporting health care, including e-health, mental health, industrial relations and management.

Professional recognition
 Nursing and Midwifery Board of Australia.

B Science/M Nutrition and Dietetics

Selection Rank: 97.5*
Entry: Feb
Duration (full time): 5 years
Dalyell by invitation
Mathematics prerequisite*: Yes
Assumed knowledge: Mathematics Advanced or higher, Chemistry and Biology; Other assumed knowledge depends on major or units of study chosen for the B Science.

a major in Nutrition Science, a minor or a second major and units of study from the Open Learning Environment. Candidates need to successfully complete the Bachelor of Science to proceed to the Master of Nutrition and Dietetics.

Career possibilities
 Hospital dietitian, dietitian-nutritionist in private practice, hospitals or primary care, community and public health, in government or industry.

Professional recognition
 A graduate of this program is eligible to become a full member of the Dietitians Association of Australia and to join the Accredited Practising Dietitian Program.

Programs, majors and minors
 For the B Science, you will need to complete a program in Nutrition and Dietetics, including

For M Nutrition and Dietetics, your studies will include nutritional science, nutritional assessment, professional studies, methods in research, medical nutrition therapy, public health nutrition food service management and 20 weeks of dietetics training placements and a semester of nutrition research.

Additional admission criteria

DENTISTRY

Bachelor of Science/Doctor of Dental Medicine

Admission is based on: ATAR or equivalent and satisfactory performance in an assessment process comprised of a written assessment and a panel discussion.

Applicants are only eligible for admission to the first available course intake following receipt of final results. Find out more about eligibility and how to apply at sydney.edu.au/dentistry/dddp

There are separate requirements for progression to the Doctor of Dental Medicine component of the double degree. For details, visit the course page: sydney.edu.au/courses/courses/uc/bachelor-of-science-and-doctor-of-dental-medicine.html

Our graduate entry option is available if you already have a bachelor's degree. You should start the application process at least 12 months in advance. sydney.edu.au/courses/courses/pc/doctor-of-dental-medicine.html

MEDICINE

Bachelor of Arts/Doctor of Medicine

Bachelor of Science/Doctor of Medicine

Admission to the double degree medicine pathway is based on: ATAR or equivalent and satisfactory performance in an assessment process that includes a written assessment and a panel discussion.

Applicants are only eligible for admission to the first available course intake following receipt of final results. Find out more about eligibility and how to apply at sydney.edu.au/medicine/ddmp

There are separate requirements for progression to the Doctor of Medicine component of the double degree. For details, visit the course page: sydney.edu.au/courses

Music

The Sydney Conservatorium of Music has been at the forefront of Sydney's musical and cultural life for more than 100 years. Explore a diverse range of programs to develop your unique musical voice, including classical performance, jazz, music composition for creative industries or the concert hall, digital music and media, contemporary music, Indigenous music, Asian music, music theatre, musicology and music education.

Make the music you want to hear

Sydney Conservatorium offers some of the best facilities for studying music in the Asia-Pacific region. You will have plenty of opportunities to perform or have your work recorded or performed. As part of your musical studies, you will have extensive opportunities to rehearse and perform with some of our ensembles lead by industry experts, including Symphony Orchestra, Wind Band, Choir, Jazz Big Band, Modern Music Ensemble and our Early Music Ensemble.

“The Con is one of the most prestigious music institutions in Australia, with a wide range of facilities. My advice to any prospective student is to simply go for it, work hard and support your peers whenever you possibly can. I believe the opportunities we gain from studying are what we make of them.”

Anna Da Silva Chen
Violinist

Music courses

B Music ϕ

Selection Rank: 70* + audition
Entry: Feb
Duration (full time): 4 years
Assumed knowledge: Music 1

Programs, majors and minors

You will choose from the following programs: Contemporary Music Practice; Composition for Creative Industries; Digital Music and Media; or a major in Musicology. You may also take an optional major, minor or electives from the shared pool and the Open Learning Environment.

Career possibilities

These depend on the areas of study and could include: arts administrator, music producer, singer/songwriter, contemporary musician, festival or venue manager, composer, music arranger, sound installation designer, interactive music designer, music journalist, music researcher, event producer.

B Music (Composition) ϕ

B Music/B Advanced Studies (Composition)

Selection Rank: 70* + audition
Entry: Feb
Duration (full time): 4 years (single)/5 years (combined)
Assumed knowledge: Music 2

Programs, majors and minors

You will have the opportunity to study in both traditional and electroacoustic composition areas, including computer music, digital music and sound art. Core studies are taken in compositional techniques and analysis, instrumentation and orchestration, music theory and aural training, and historical and cultural studies. In the combined B Music/B Advanced Studies (Composition) you will complete a major from the shared pool and

units from the Open Learning Environment. In the fifth year, you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship project, or an honours project.

Career possibilities

Composer, music arranger, concert entrepreneur, artistic curator, music researcher.

B Music (Music Education)

Selection Rank: 70* + other admission criteria
Entry: Feb/Jul
Duration (full time): 4 years
Assumed knowledge: Music 2
Prerequisites: NSW Education Standards Authority (NESA) requirement of Band 5 in three HSC subjects, one of which needs to be English (Standard or Advanced or ESL/EALD) or equivalent. See page 50.

Programs, majors and minors

You will undertake core Music Education studies, plus a principal study in either a classical instrument, voice, jazz studies, drum set, historical performance, non-Western instruments, composition, contemporary music practice, or musicology. Studies are also undertaken in analysis, history and cultural studies, and music skills (aural perception, harmony and analysis).

Career possibilities

Classroom music teacher, private music teacher.

Professional recognition

The NSW Education Standards Authority, NSW Department of Education and Communities, Association of Independent Schools of NSW, Catholic Education Office.

B Music (Performance) ϕ

B Music/B Advanced Studies (Performance)

Selection Rank: 70* + audition
Entry: Feb/Jul
Duration (full time): 4 years (single)/5 years (combined)
Assumed knowledge: Music 2

Programs, majors and minors

You will take an instrumental or vocal principal study from either classical music, jazz, historical performance, music theatre, non-Western Music or drum set. In addition, you will complete core studies in music skills and analysis, history, culture, performance, ensemble studies and pedagogy. In the combined B Music/B Advanced Studies (Performance), you will complete a major from the shared pool and units from the

Open Learning Environment. In the fifth year, you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship project, or an honours project.

Career possibilities

Concert soloist, musician, private music teacher, orchestral musician, chamber musician, jazz musician, conductor, concert entrepreneur, arts manager.

Additional admission criteria

For admission to the Sydney Conservatorium of Music, you will also be assessed based on an audition (or portfolio) and interview. An audition fee applies.

For more on requirements and deadlines, visit sydney.edu.au/music/audition

For the Bachelor of Music (Music Education), also see requirements under Education (see page 50).

ϕ Creative Arts Special Admission Scheme (CASAS)
Domestic applicants undertaking a current recognised high school (Year 12) qualification and applying via UAC, may be eligible for an early offer of admission prior to the release of ATARs or equivalent

score under the University's Creative Arts Special Admission Scheme. Eligible applicants will be assessed based on a combination of academic performance and audition/portfolio requirements.

For details, visit sydney.edu.au/music/audition

Science

Studying science opens up a world of opportunities. Whether you dream of joining the forefront of scientific research, learning how to analyse and think critically, or want to make the planet a better place, studying science will give you highly sought-after skills for a huge range of careers.

Learn from world-leading scientists

With over 40 science majors to choose from, you can build a degree around your interests. You'll be taught by dedicated scientific thinkers, including members of the Australian Academy of Science, Australian Research Council Fellows and other prestigious prize winners. You will study in world-class facilities, including the multimillion-dollar Life, Earth and Environmental Sciences (LEES) Building, the Sydney Nanoscience Hub and the Charles Perkins Centre.

1st in Australia and
16th in the world for
veterinary science*

 Learn from experts at the University of Sydney Nano Institute, the Charles Perkins Centre and Taronga Conservation Society Australia

 Choose from flexible science degrees or professionally accredited courses, including psychology and veterinary medicine

“I’ve had opportunities to volunteer with multiple structural biology research groups on structure-based drug design, including creating antibiotics that target FtsY – a bacterial protein. These experiences have been priceless and enhance what I learn in the classroom.”

Belinda Zhang
Bachelor of Science and Bachelor of Advanced Studies (Advanced)

* QS World University Rankings by Subject 2021

Science courses

B Liberal Arts and Science

Selection Rank: 70 Guaranteed
Entry: Feb/Jul
Duration (full time): 3 years
Dalyell by invitation
Assumed knowledge: Depends on the major or units of study chosen.

Programs, majors and minors
You will complete one major in either science or arts and a sequence in the other. A 'sequence' is similar to the structure of a minor and includes six units of study.

Arts and social sciences majors include: American Studies; Ancient Greek; Ancient History; Anthropology; Arabic Language and Cultures; Archaeology; Art History; Asian Studies; Biblical Studies and Classical Hebrew; Chinese Studies; Criminology; Cultural Studies; Digital Cultures; Economics; Economic Policy; Econometrics; English; Environmental, Agricultural and Resource Economics; European

Studies; Film Studies; French and Francophone Studies; Gender Studies; Germanic Studies; Hebrew (Modern); History; Indigenous Studies; Indonesian Studies; International Comparative Literary Studies; International Relations; Italian Studies; Japanese Studies; Jewish Civilisation, Thought and Culture; Korean Studies; Latin; Linguistics; Modern Greek Studies; Music; Philosophy; Political Economy; Politics; Socio-legal Studies; Sociology; Spanish and Latin American Studies; Studies in Religion; Theatre and Performance Studies.

Science majors include: Anatomy and Histology; Animal Health, Disease and Welfare; Animal Production; Applied Medical Science; Biochemistry and Molecular Biology; Biology; Cell and Developmental Biology; Chemistry; Computer Science; Data Science; Ecology and Evolutionary Biology; Environmental Studies; Financial Mathematics and Statistics; Food Science; Genetics and Genomics; Geography; Geology and Geophysics; Health; History and Philosophy of Science; Immunology

and Pathology; Infectious Diseases; Marine Science; Mathematics; Medicinal Chemistry; Microbiology; Nutrition Science; Pharmacology; Physics; Physiology; Plant Production; Psychological Science; Psychology (program); Software Development; Soil Science and Hydrology; Statistics.

Career possibilities
Anthropologist, archaeologist, archivist, art or science historian, business administrator or manager, biosecurity researcher, documentary maker, editor or publisher, ecologist, environmental policymaker, food chemistry analyst, foreign affairs and trade officer, geologist, government policy officer, historian, heritage specialist, human resources manager, hydrologist, information specialist, journalist, language specialist, media and communications adviser, museum or gallery curator, plant geneticist, researcher, scientist, sociologist.

B Psychology

Selection Rank: 85 Guaranteed
Entry: Feb
Duration (full time): 3 years
Dalyell by invitation
Mathematics prerequisite[‡]: Yes
Assumed knowledge: Mathematics Advanced or higher, other assumed knowledge depends on minors or units of study chosen.

Programs, majors and minors
You will complete a program in Psychology, a minor from the shared pool and electives from either B Science, the shared pool or the Open Learning Environment.

Career possibilities
Clinical psychologist (with additional study), neuroscientist, organisational psychologist, market researcher, advertising executive.

social psychology researcher, learning and attention researcher.

Professional recognition
At the time of print, accreditation as a Level 1 (Foundational Competencies) undergraduate psychology sequence is pending with the Australian Psychology Accreditation Council (APAC). For updates, visit the course page on sydney.edu.au/courses.

B Psychology Honours

Selection Rank: 96 Guaranteed
Entry: Feb
Duration (full time): 4 years
Dalyell by invitation
Mathematics prerequisite[‡]: Yes
Assumed knowledge: Mathematics Advanced or higher, other assumed knowledge depends on minors or units of study chosen.

Programs, majors and minors
You will complete a program in Psychology, a minor from the shared pool and electives from either B Science, the shared pool or the Open Learning Environment. You will then undertake honours units in psychology.

Career possibilities
Clinical psychologist (with additional study), neuroscientist, organisational psychologist, market researcher, advertising executive.

social psychology researcher, learning and attention researcher.

Professional recognition
Completion of the accredited Level 1 and 2 programs (Pre-Professional Competencies) with the Australian Psychologists Accreditation Council (APAC), that will allow provisional registration with the Australian Psychological Society.

B Science B Science/B Advanced Studies

Selection Rank: 80 Guaranteed
Entry: Feb/Jul
Duration (full time): 3 years (single)/4 year (combined)
Dalyell by invitation
Mathematics prerequisite[‡]: Yes
Assumed knowledge: Mathematics Advanced and/or higher (depending on units of study selected), other assumed knowledge depends on majors or units of study chosen.

Programs, majors and minors
You will choose Open Learning Environment units, one major from the options below and either a second major (mandatory for the B Science/B Advanced Studies) or a minor from these options, or from the shared pool: Agroecosystems (program); Anatomy and Histology; Animal Health, Disease and Welfare; Animal Production; Applied

Medical Science; Astrophysics (program); Biochemistry and Molecular Biology; Biology; Cell and Developmental Biology; Chemistry; Computer Science; Data Science; Ecology and Evolutionary Biology; Environmental Science (program); Environmental Studies; Financial Mathematics and Statistics; Food Science; Genetics and Genomics; Geography; Geology and Geophysics; History and Philosophy of Science; Immunology (minor); Immunology and Pathology; Infectious Diseases; Life Sciences (program); Marine Science; Mathematical Sciences (program – available for ATAR 98+ or equivalent); Mathematics; Medicinal Chemistry; Microbiology; Neuroscience (program); Nutrition Science; Pathology (minor); Pharmacology; Physics; Physiology; Plant Production; Plant Science (minor only); Psychological Science; Psychology (program); Software Development; Soil Science and Hydrology; Statistics; Virology (minor only). In the final year of the combined

degree, you will undertake advanced coursework units and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

Career possibilities
Agricultural scientist, astronomer, biosecurity researcher, conservation biologist, ecologist, environmental policymaker, food chemistry analyst, hydrologist, mathematician, medical scientist, nanoscientist, nutritionist (after further study), psychologist (after further study), plant geneticist, soil scientist.

Combine B Science with
B Advanced Computing, B Engineering Honours, B Laws, D Dental Medicine, D Medicine, M Mathematical Sciences, M Nursing, M Nutrition and Dietetics.

* Selection ranks with an asterisk are indicative and not Guaranteed Entry.

Table notes

The admission criteria published in the course tables and 2023 Admissions Guide are a guide and will not necessarily result in an offer of a place for all courses. All scores listed are correct at the time of print and may be subject to change.

Selection ranks and Guaranteed Entry

For all eligible courses, we list a selection rank (ATAR + adjustment factors) with Guaranteed Entry for admission in the specified year for most courses. Admission to all courses is subject to meeting the selection rank plus other essential admission criteria (e.g. prerequisites) and availability of places. Selection ranks marked with an asterisk (*) are indicative and not Guaranteed Entry as these courses have additional admission criteria and/or may have a limited number of places.

Adjustment factors are used to increase your selection rank based on factors such as your performance in HSC subjects, the location of your school, or your eligibility for Educational Access Schemes. Selection rank adjustments don't change your ATAR, they change your selection rank for a particular course at a particular institution. If you are not eligible for adjustment factors, your selection rank is your ATAR.

For a full list of secondary education (Year 12 or high school) qualifications accepted by the University, visit:

– sydney.edu.au/study/secondary-qualifications

Programs, majors, minors or specialisations

The programs, majors, minors or specialisations listed are indicative and are subject to change. Unless specified as a major or a minor only, majors are also available as minors. For the latest information, visit

– sydney.edu.au/handbooks

Assumed knowledge and prerequisites

The assumed knowledge and prerequisites listed in our course tables refer to subjects in the NSW Higher School Certificate (HSC) curriculum. For example, Mathematics Advanced refers to the two unit HSC subject or an equivalent subject for other qualifications. Refer to the HSC syllabus to understand the required subjects and standards.

– www.educationstandards.nsw.edu.au/wps/portal/nesa/11-12/Understanding-the-curriculum/syllabuses-a-z

Recommended studies

Some courses may also have recommended studies. For details, check the relevant course at

– sydney.edu.au/courses

Key to the tables

▲ Additional admission criteria

Combination of selection rank (or equivalent score) plus additional admission criteria (eg, portfolio, audition, interview). Check the details for your specific course in the area of study section of this guide or at
