RIDE IT YOUR WAY

# E-MOUNTAINBIKE

## THE MOUNTAIN IS CALLING YOU!

- ▶ Perfected E-MTB technology and sophisticated kinematics
- Completely new developed 29R Summit Impulse frames
- Climb-assist for a harmonic support in difficult terrain

### IMPULSE 2.0 OFF-ROAD DRIVE

- New Impulse 2.0 speed E-Bike with up to 45 km/h support
- Particularly powerful central motor with up to 70 Nm starting torque and 250 or 350 Watts
- Optimal weight distribution for perfect balance on the trail
- Extremely robust motor housing with maximum ground clearance

### SHIFT SENSOR TECHNOLOGY

The shift sensor recognises gear changes and interrupts motor support for fractions of a second to render gear change smooth and without jerking. The duration of the interruption is adjustable in 50 ms steps between 50 and 300 ms.
