LETTERS TO THE SPEAKER OF THE HOUSE

A. LETTER FROM THE DEMOCRATIC MEMBERS OF
THE RULES COMMITTEE

HOUSE OF REPRESENTATIVES,
COMMITTEE ON RULES,
Washington, DC, May 22, 2018.

Hon. Paul Ryan
Speaker,
United States House of Representatives
H-232, United States Capitol
Washington, D.C. 20515

DEAR SPEAKER RYAN,

After taking the Speaker's gavel you said, "I wanted to have a process that is more open, more inclusive, more deliberative, more participatory – and that's what we're trying to do." As your attention turns toward the legacy you will leave as Speaker of the House, we urge you not to forget that laudable ideal.

To that end, we are enclosing a copy of a report prepared by our staff that lays out a troubling pattern of Members being shut out of the deliberative process. You are the first Speaker in history to have never allowed a truly open rule, which would permit all Members to offer their ideas on the floor of the House. Closed rules, on the other hand, don't even allow an amendment to fix a typo – and under your leadership, the Majority just broke the record for the most closed rules in a Congress. It is important to note that this is not a problem that impacts only Democrats. This Congress alone, 190 members of your own Republican Conference have had their amendments blocked. In fact, the Rules Committee has shut out all Member input – Democratic and Republican – more than half the time, and blocked nearly 1,800 amendments.

While you cannot erase the record of the last year and a half, you still have time to make improvements. You can work towards the "inclusive," "deliberative," "participatory" process that you aspired to when you took the gavel. We urge you to abandon the restrictive process that has characterized your Speakership, welcome input from all Members, and trust the House to work its will.

By taking a bird's eye view of the Rules Committee's work in the 115th Congress, the enclosed report should help you understand the changes you need to make in order to live up to the commendable goal of presiding over a more open Congress. We hope that you find it helpful in the coming months as you work to bolster your legacy as Speaker of the House.

Sincerely,

JAMES P. MCGOVERN, *Ranking Member*

B. LETTER FROM GIFFORDS, COURAGE TO FIGHT GUN VIOLENCE

Hon. Paul Ryan
Speaker,
United States House of Representatives
H-232, United States Capitol
Washington, D.C. 20515

May 22, 2018

DEAR SPEAKER RYAN,

I write to you on behalf of Giffords, the gun safety organization founded by former Congresswoman Gabrielle Giffords and Captain Mark Kelly. Under your leadership, the 115th Congress now holds the dubious record of being the most closed Congress in history. Since January 2017, 84 bills and resolutions have been considered under completely closed rules, thereby prohibiting members from both sides of the aisle from offering any amendments on the floor of the House of Representatives. Because of this closed process, nearly 1,800 amendments have been blocked during this Congress. Preventing debate on important public policy issues has a tremendously negative impact on our country, particularly as it relates to gun safety.

During the 115th Congress alone, this country has faced tragic shootings in Alexandria, Las Vegas, Sutherland Springs, Parkland, and Santa Fe, to name just a few. More than 250,000 people are shot every year, and that number is rising. The number of gun deaths and gun injuries has increased during the past several years – by 8% from 2014 to 2015 and 6% from 2015 to 2016, making 2016 the deadliest year since 1993. Nonfatal firearm injuries are also on the rise, increasing nearly 40% from 2015 to 2016. This is the largest increase in more than a decade.

The public recognizes that these levels of gun violence are unacceptable; [7 in 10 Americans want stronger gun laws](#), and an overwhelming number of Americans, [97% are in favor of universal](#)

[background checks](#). Support for gun safety measures is also high among gun owners. In a [May 2018 Public Policy Polling survey](#), 81% of gun owners support preventing abusive dating partners and stalkers from buying firearms, and 70% support banning the sale of bump stocks, the device used in the Las Vegas shooting.

It is critical that the House of Representatives consider amendments that have such broad support, particularly on an issue as important to public safety as gun violence. The fact that many of these bipartisan proposals are not even given an opportunity to be considered in today's Congress ignores the millions of voices demanding action, including the [2 million people in 763 cities and towns](#) nationwide who marched for gun safety on March 24th of this year. By closing down debate and preventing the House from working its will, Congress is failing the American people and putting lives at risk.

With the months remaining in the 115th Congress, we urge you to allow debate and consideration of gun safety policies supported by the American public.

Sincerely,
Peter Ambler
Executive Director

C. LETTER FROM DREAMERS

May 22, 2018

The Honorable Paul Ryan
Speaker of the House
H-232 The Capitol
Washington, D.C. 20515

The Honorable Pete Sessions
Chairman, Rules Committee
2233 Rayburn House Office Building
Washington, D.C. 20515

DEAR SPEAKER RYAN AND CHAIRMAN SESSIONS,

In the nine months since the termination of the DACA program, the House of Representatives has yet to vote on a permanent legislative solution for the nearly 800,000 DREAMers. We, the undersigned organizations, write to express our concern that at least twenty amendments that would have protected these young people have been proposed, then subsequently blocked. As a result of your closed process, Dreamers are in limbo and our businesses and schools suffer wondering about the future of our employees, students and teachers. Not only are Dreamers facing extreme uncertainty, but 300,000 TPS workers are also at risk of future deportation after President Trump's decision to terminate their protected status. Like Dreamers, they've lived in the United States for decades, worked legally, paid taxes and begun to raise families here. We respectfully urge you to bring the DREAM Act or another bipartisan solution that does not jeopardize immigrant communities to the House floor for consideration as soon as possible to address the uncertainty facing our nation.

As you are aware, in September of 2017, President Trump terminated the DACA program. Since then, CEOs, university presidents and Americans of every creed have rallied behind DREAMers. At least 80% of Americans believe DREAMers should be allowed to stay in the United States. However, unless Congress acts, these DACA recipients will no longer have a future in the country they call home. Likewise, in the last year, President Trump termi-

nated TPS for 300,000 individuals and therefore, cancelled their ability to work legally and continue raising families in the United States. Americans of every creed, national security experts and businesses again responded by rallying behind TPS workers. As legislators, it is your duty and responsibility to act, yet you have failed to have a single vote on legislation or an amendment to protect them.

The court injunctions issued in California and New York allow certain DACA recipients to renew their status, but the injunctions provide only limited and temporary relief. Those who are able and eligible to renew now live their life in two-year increments, unable to invest in their future. The youngest DREAMers, those who just celebrated their 15th birthday, are locked out of any chance to work, go to school and contribute to the country where they've grown up. As the litigation continues, there is a very real possibility that even this small remedy will close. The legislative branch is the only branch of government that can respond to the will of the American people and provide DREAMers and TPS workers with a permanent solution that does not harm their families or other immigrants.

Over the past nine months, there have been multiple opportunities to act. Democrats and Republicans have put forward at least twenty amendments on six different bills to protect DACA recipients wishing to serve in the armed forces, to prohibit federal funds from deporting DACA recipients, to safeguard the private information DACA recipients shared with the Department of Homeland Security and to establish a path to citizenship. All of these amendments have been blocked by Republican leaders. President Trump himself has said we should "deal with DACA with heart" and that he believes DACA recipients are "incredible kids." Yet, House leadership and the Rules Committee continues to block debate on the DREAM Act or other similar, bipartisan, and permanent solutions from coming to the House floor. It is beyond time to end the months of inaction and failed attempts.

As leaders of the People's House, we are calling on you to hold a full and open debate to the address the uncertainty facing the nation and to create a shared future where the youngest and newest Americans can be welcomed and not at the cost of their families or other immigrants.

SHUTDOWN: How the Republican Leadership rigs the rules
to shut out ideas they oppose.

May 22, 2018. — A staff report on the impact of closed and restrictive rules in the
United States House of Representatives.

REP. JIM MCGOVERN, *Ranking Member*

COMMITTEE ON RULES

I. EXECUTIVE SUMMARY

In the current 115th Congress, the Republican Majority broke their own record for the most closed Congress in history. So far this Congress, Republicans have reported 84 closed rules, surpassing their previous record of 83 closed rules set in 2014 during the 113th Congress.¹

Through the use of closed rules, Democratic and Republican Members alike have been shut out of the legislative process and open and deliberative debate has been stifled. Under a closed rule, Members cannot even offer an amendment to fix a typo, let alone an amendment to make a difference in someone's life and under Republican control, no Member is allowed to offer an amendment on the House floor to *most* major bills considered. This Congress, more than half of the rules reported for debate, fifty-six percent, have been completely closed and there have been zero open or modified-open rules.

¹ Survey of Activities of the House Committee on Rules for the 113th Congress

This inauspicious record – the most closed rules, and no open rules – suppresses the voices of millions of Americans and runs counter to the Speaker Ryan’s own promise of returning to regular order when he said,

“I wanted to have a process that is more open, more inclusive, more deliberative, more participatory – and that’s what we’re trying to do.”

Despite this promise of openness, Speaker Ryan has consistently shut Members out of the deliberative process and is the only Speaker in modern history to have never allowed a truly open rule during his entire speakership.

This closed process has real-world implications and has left a devastating impact on Congress and the work this body has accomplished, or, in many cases, failed to accomplish. Through an overwhelming majority of closed and restrictive rules, the consideration and enactment of many important and often bipartisan ideas has been stifled. Amendments on many bipartisan topics have been blocked from even being debated on the House floor, including amendments: preventing the shipping of jobs overseas, helping disabled veterans, promoting small business disaster recovery, ensuring health benefits for children, improving maternity care, banning bump stocks, protecting students, allowing commonsense gun safety research, protecting DREAMers, voting on whether or not to send troops to war, preserving our clean air and water, ensuring Presidential ethics, defending our National Security, and promoting community policing.

With this rebuke of regular order, the Republican Majority has already blocked 1,797² amendments this Congress alone, submitted by 380³ Members. These blocked amendments represent significant policy proposals from 190 Democratic Members and 190 Republican Members, who collectively represent 270 million Americans. Many blocked amendments have broad public support, and would pass on the House floor if allowed the opportunity for a vote. At the end of this report is a comprehensive list of every single amendment that

² Democratic amendments: 1248, Republican amendments: 392, Bipartisan amendments: 157 [See Appendix B]

³ Democratic Members with blocked amendments: 190, Republican Members with blocked amendments: 190

was blocked from consideration on the House floor by the Republican Leadership.

This report was put together to shed light on the stunningly closed process that exists in the House under Speaker Ryan and the Republican Majority, and shows how this erosion of our democracy has contributed to Congress's dysfunction and inaction. With a more accommodating process that welcomed input from all Members, we would have stronger, more bipartisan bills, and this Congress would function as our Founders intended.

II. THE MOST CLOSED CONGRESS IN AMERICAN HISTORY

A. BROKEN PROMISES

When Speaker Ryan took the gavel for the 115th Congress he promised to return to regular order and to open up the legislative process. In his own words, Speaker Ryan said:

“When I came into this job, I pledged to restore regular order. Hold regular House and Senate conferences—because only a fully functioning House can do the people’s business...as your Speaker, I promise to uphold the rights of the minority. I promise to hear you out, and let you have your say.”

*– Opening Day Address to the House of Representatives,
January 3, 2017*

In contrast to this promise, Speaker Ryan has presided over the most closed Congress in history. This Congress alone, more than half of the rules reported have been completely closed, and there have been zero open or modified-open rules. Each closed rule reported by the Republican Majority represents yet another broken promise, and provides further evidence that this Republican Leadership is making a mockery of the People's House by stifling the deliberative process and silencing members of both parties.

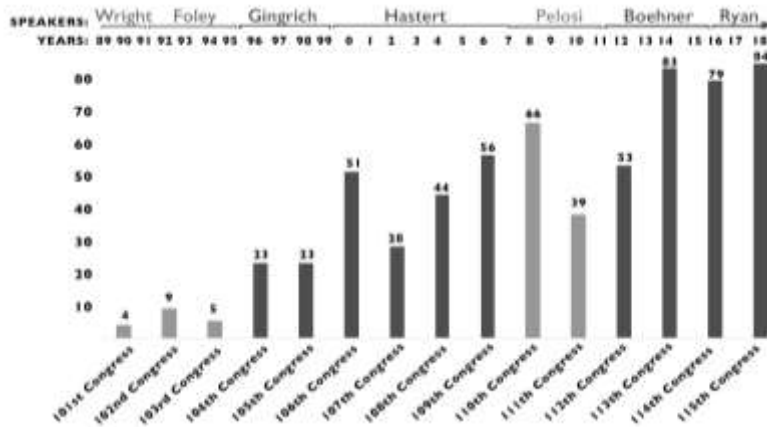

This historic level of dysfunction is even clearer when you consider the history of the Rules Committee and the record of rules reported throughout history. When Democrats last controlled the House, then-Speaker Pelosi reported twelve open rules, twelve modified open rules throughout her entire speakership. In contrast,

under Speaker Ryan’s leadership, the Rules Committee has reported zero open rules and only two modified open rules – and there are still seven more months of his speakership.

Not only has this Republican Majority set the record for the most closed Congress in history, but they have broken their own record, set in the 113th Congress. Since Republicans took control of the House of Representatives in 2011 they have consistently broken their promises of regular order, closed down the process, shut Members out of deliberative debate, and created a dysfunctional Congress that has gravely affected American democracy and the work this body accomplishes.

The below chart shines light on the alarming rate at which Republicans have increased the use of closed rules – twice breaking the record for the most closed Congress in history – after promising openness and a return to regular order.

Closed Rules by Congress:
101st Congress – 115th Congress

B. CLOSED RULES EXPLAINED

The Rules Committee’s main responsibility is to report out resolutions that govern each major bill’s consideration on the House Floor. These special rules (typically referred to as a “rule”) specify time allowed for general debate and whether amendments will be permitted, and in what capacity. There are four main types of spe-

cial rules reported out of the Committee: open, modified open, structured, and closed.

Open rules allow any Member to offer an amendment to a bill on the floor, provided the amendment complies with the rules of the House and the Budget Act. The use of open rules has declined in recent decades – the most recent open rule was in the 113th Congress.

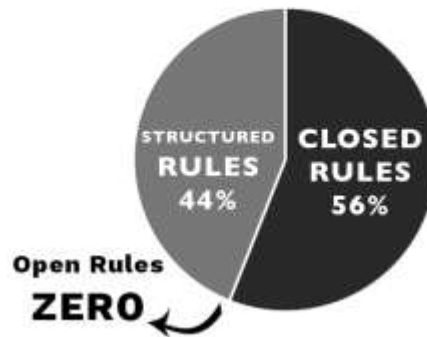

Modified open rules allow any Member to offer an amendment on the floor, provided the amendment was pre-printed in the Congressional Record and it complies with the rules of the House and the Budget Act. The most recent modified open rule was on May 23, 2016.

Structured rules limit the amendments that may be offered on the House floor to those designated in the rule or the Rules Committee report to accompany the rule. The majority party, therefore, chooses which amendments are allowed to be offered and which will be blocked.

Closed rules, the most restrictive type of rule, do not allow *any* amendments to be offered on the floor. The majority of rules the Rules Committee has reported out this Congress have been closed rules.

III. THE IMPACT OF A CLOSED PROCESS ON THE POLICIES AMERICANS CARE ABOUT

A. INTRODUCTION: BAD PROCESS LEADS TO BAD POLICY

Shutting down amendments and preventing debate is bad for the Congress as an institution, but is even worse for the country. The inevitable result is partisan legislation written by a small number of Members, staff and lobbyists, with many bipartisan priorities left out in the cold. The dozens of examples below illustrate how this closed process holds back debate and progress on a number of issues that the American people – regardless of political affiliation – care about.

From jobs and the economy, to gun safety and the social safety net, Republican Leadership has blocked important, thoughtful amendments that could have substantively improved the underlying legislation. Instead, these amendments and hundreds like them were blocked by the Republican majority without so much as a floor debate, let alone an up-or-down vote.

B. BLOCKED AMENDMENTS ON *JOBS AND THE ECONOMY*

Good-paying jobs are the building block of the American Dream, and our economy depends on a strong workforce. We should be doing all we can to create job opportunities and provide workers with access to the skills and tools they need to fill those jobs. But in the 115th Congress we have seen this Republican Leadership completely fail American workers, blocking amendments that would have created jobs and provided hardworking Americans with the chance to succeed. For example:

Preventing the Outsourcing of Jobs: Republican Leaders blocked an amendment by Representative *David Cicilline* (D-RI) that would have ended the tax incentive for shipping American jobs overseas, even though studies show a quarter of American jobs could be offshored in the coming years.⁴

⁴ Amendment #80 by Representative Cicilline to H.R. 1, the Tax Cut and Jobs Act.

Hiring Veterans: An amendment by Representative *Jacky Rosen* (D-NV) would have saved incentives to hire our veterans and the disabled by preventing the repeal of the Work Opportunity Tax Credit, but the Republican-controlled Rules Committee blocked her from even offering it.⁵

Disaster Relief: Representative *Sheila Jackson Lee* (D-TX), whose Houston district was devastated by Hurricane Harvey, tried to establish a grant program to compensate small businesses in rural and urban areas for substantial economic losses from natural disasters.⁶ Her attempt to keep local employers afloat after their communities were hit by massive natural disasters was blocked by Republicans. Members of Congress were not even allowed to vote on this commonsense proposal.

C. BLOCKED AMENDMENTS ON *THE SOCIAL SAFETY NET*

Every day in this country, the federal social safety net helps millions of Americans put food on the table, sleep with a roof over their heads, and pay for visits to the doctor. Yet with this Republican Majority, the war on poverty has become a war on the poor – and their crusade is plainly visible as they block amendment after amendment that would protect our most vulnerable citizens. For example:

Preserving Social Security, Medicare, and Medicaid: Republicans blocked an amendment sponsored by Representative *Mark Pocan* (D-WI) and *fifty* other Members to protect Social Security, Medicare, and other benefits that countless Americans rely upon.⁷ This important amendment would have made it against House rules to consider legislation that would: reduce guaranteed benefits for Social Security; increase the retirement age; privatize Social Security; reduce guaranteed benefits for Medicare recipients; or reduce benefits or eligibility for individuals who depend on a State Medicaid plan. Congress would have to vote to waive the rule before taking any of these steps. This amendment would have cre-

⁵ Amendment #89 by Representative Rosen to H.R. 1, the Tax Cut and Jobs Act.

⁶ Amendment #245 by Representative Jackson Lee to H.R. 4, the Federal Aviation Administration Reauthorization Act.

⁷ Amendment #5 by Representative Pocan (D-WI) to S. Con. Res. 3 – A concurrent resolution setting forth the congressional budget for the United States government for fiscal year 2017.

ated a vital legislative speedbump, causing Representatives to really consider the consequences of their actions on the safety net before voting to implement it.

Protecting Veterans' Healthcare: A bipartisan amendment by Representatives *Sam Johnson* (R-TX) and *Tim Walz* (D-MN) would have allowed veterans returning to work to opt out of Medicare Part B when Disability Income payments ceased, but remain on TRICARE for life.⁸ Unfortunately for veterans, this bipartisan amendment to protect their healthcare was blocked from consideration and a vote.

Decreasing Maternal Mortality: Republican Leadership also blocked an amendment by Representative *Beto O'Rourke* (D-TX) that would have helped address the dangerous rise of maternal mortality in the United States. The amendment would have allowed funds for projects related to maternal and child health to be used for the study of maternal mortality in the U.S. to identify solutions to improve maternity care for high-risk populations.⁹ This amendment is especially important at a time when the maternal death rate in the U.S. is the highest among all developed nations and is actually rising. Even worse, due to inadequate funding for the collection of data on maternal mortality, states are slower to respond to this alarming trend.¹⁰

D. BLOCKED AMENDMENTS ON *PRESCRIPTION DRUGS*

Prescription drug prices are rising at an unprecedented and unsustainable rate, with Americans paying more than twice as much as other nations for the same drugs. Unfortunately, high prescription drug prices often put these lifesaving medications out of reach for countless patients. No one should have to choose between treating an illness and paying a utility bill, or between purchasing a child's medicine and paying the rent. For example:

⁸ Amendment #351 by Representatives Johnson (R-TX) and Walz (D-MN) to H.R. 2810 – The National Defense Authorization Act.

⁹ Amendment #148 by Representative O'Rourke (D-TX) to H.R. 3354 – The Make America Secure and Prosperous Appropriations Act.

¹⁰ Report. "Is the United States Maternal Mortality Rate Increasing? Disentangling trends from measurement issues Short title: U.S. Maternal Mortality Trends" *Journal of Obstetrics Gynecology*. McDorman, Declercq, et al. 2016 September. <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5001799/pdf/nihms810951.pdf>

Reasonable Pricing for Drugs Subsidized by the Federal Government: Republican Leadership blocked an amendment by Representative *Peter DeFazio* (D-OR) that would have required persons carrying out federally funded research and development of drugs to enter into reasonable pricing agreements with the Secretary of Health and Human Services.¹¹ If taxpayers are funding the research, why shouldn't they get a discount on the drugs they helped pay to develop?

Allowing Importation of Cheaper Drugs from Canada: Representative *Peter Welch* (D-VT) submitted an amendment that would have allowed American families access to cheaper prescription drugs from Canada.¹² His amendment was blocked by the Republican Majority, even though it could have led to lower prescription drug prices in the market.

Limiting Out-of-Pocket Expenses: Representative *Tom O'Halleran* (D-AZ) sponsored an amendment that would have prevented any bill from being enacted using so-called "fast-track procedures" if it increased premiums or out-of-pocket expenses for seniors' prescription drugs.¹³ This amendment would have prevented new legislation from re-opening the donut hole, but it was blocked by the Republican Leadership, leaving our senior citizens vulnerable.

E. BLOCKED AMENDMENTS ON *EDUCATION AND WORKFORCE DEVELOPMENT*

In the pursuit of education and job training, millions of Americans across the country have been saddled with a collective \$1.5 trillion in college debt. This unprecedented crisis burdens families and puts a drag on the economy. Through amendments, Democrats have sought to advance legislation to help students pay for college as well as access training opportunities to prepare them for the workforce. However, as with many other commonsense ideas, Re-

¹¹ Amendment #36 by Representative DeFazio (D-OR) to H.R. 3354 – Make America Secure and Prosperous Appropriations Act.

¹² Amendment #117 by Representative Welch (D-VT) to H.R. 3354 – Make America Secure and Prosperous Appropriations Act

¹³ Amendment #19 by Representative O'Halleran (D-AZ) to S. Con. Res. 3 – The concurrent resolution setting forth the congressional budget for the United States government for fiscal year 2017.

publican Leadership has blocked these amendments from ever making it to the House floor for a vote. For example:

A Modest Increase for Pell Grants: Representatives *Mark Pocan* (D-WI), *Bobby Scott* (D-VA), *Barbara Lee* (D-CA), *David Cicilline* (D-RI), *Derek Kilmer* (D-WA), and *Raúl Grijalva* (D-AZ) submitted an amendment that would have increased the maximum Pell Grant by just \$135.¹⁴ This amount may seem modest to Congressional Republicans, who have given away billions of dollars to the wealthy and corporations, but it could make a huge difference to students struggling make ends meet while they receive an education. Unfortunately, Republican Leadership blocked it from even being debated.

Investing in Career and Technical Training: Amendments to help provide students and workers with job training were also silenced. Representative *Anthony Brown* (D-MD) had an amendment to give companies a tax credit for investments in workforce training.¹⁵ Representative *Bill Keating's* (D-MA) amendment would have provided funds for state career and technical education grants.¹⁶ Both were blocked, despite being commonsense ideas that encourage vocational training and empower states and corporations to help build a strong workforce.

F. BLOCKED AMENDMENTS ON *GOVERNMENT REFORM*

It is hard to imagine a greater need for government oversight than at a time like this, when the President and his Administration have been embroiled in a nonstop series of scandals – even being investigated for possible collusion with a foreign power. In order to conduct effective oversight and bring accountability to government, Republicans must be willing to put country above party. Unfortunately, they refuse to do so. The House Oversight Committee does virtually nothing, and Republican Leaders have blocked a number of amendments that would increase transparency and provide much-needed oversight over this out-of-control Executive Branch. For example:

¹⁴ Amendment #143 by Representatives Pocan (D-WI), Scott (D-VA), Lee (D-CA), Cicilline (D-RI), Kilmer (D-WA), Grijalva (D-AZ) to H.R. 3354, Make America Secure and Prosperous Appropriations Act.

¹⁵ Amendment #68 by Representative Brown (D-MD) to H.R. 1, the Tax Cuts and Jobs Act.

¹⁶ Amendment #92 by Representative Keating to H.R. 3354, Make America Secure and Prosperous Appropriations Act.

Transparency in Federal Spending: Representatives *Tom O'Halleran* (D-AZ), *Walter Jones* (R-NC), and *Carol Shea-Porter* (D-NH) submitted a bipartisan amendment that would have required the Secretary of Defense provide a report to Congress every 90 days detailing the costs of Presidential travel, including costs incurred to properties owned by the President and his family.¹⁷ With news report after news report detailing the enormous costs to the taxpayer of the President's frequent trips to Mar-a-Lago, this amendment deserved to be debated on the floor.

Preventing Profiteering on the Presidency: Representative *Ted Lieu* (D-CA) sponsored another important proposal to protect taxpayer dollars. His amendment would have prohibited funds from being used to reimburse costs incurred by the government at properties in the Trump real estate empire. In other words, it would have stopped the flow of taxpayer dollars to the many Trump properties where the President and his large staff have stayed over the past year and a half.¹⁸ No one should profit off of the Presidency, but Republicans looked the other way by blocking this amendment.

Protecting National Security: In addition to those amendments, Republican Leadership blocked Representatives *Ruben Gallego* (D-AZ) and *Carol Shea-Porter's* (D-NH) amendment that would have required the Office of Government Ethics to review security clearance applications submitted by the President's family members to determine if they have substantial commercial relationships with foreign enterprises or financial institutions.¹⁹ This commonsense amendment would have ensured that no one with significant foreign entanglements could access sensitive national security information, but it never even got a debate on the House floor.

G. BLOCKED AMENDMENTS ON *GUN VIOLENCE PREVENTION*

¹⁷ Amendment #114 by Representatives O'Halleran (D-AZ), Jones (D-NC), and Shea-Porter (D-NH) to H.R. 2810, National Defense Authorization Act FY2018.

¹⁸ Amendment #116 by Representative Lieu (D-CA) to H.R. 3354, Make America Secure and Prosperous Appropriations Act.

¹⁹ Amendment #269 by Representatives Gallego (D-AZ) and Shea Porter (D-NH) to H.R. 2810, National Defense Authorization Act FY18.

So far during the 115th Congress, there have been 546 mass shootings in the United States. Every day, 96 Americans are killed with guns, and we average nearly 13,000 gun homicides a year. Simply put, there is an epidemic of gun violence in our country. We witnessed massive protests demanding action on gun violence following the mass shooting at a Las Vegas concert that left 58 dead, and the mass shooting at Marjory Stoneman Douglas High School, which killed seventeen students and staff. In overwhelming numbers and on a bipartisan basis, the American people have said that when it comes to the scourge of gun violence in this nation, enough is enough. In spite of the carnage, and the outcry for the Congress to do something about it, this Congress has only blocked solutions from even getting a fair debate. For example:

Banning Bump Stocks: Representatives *Seth Moulton* (D-MA) and *Carlos Curbelo* (R-FL) sponsored a bipartisan amendment that would have banned the manufacture, possession, and transfer of devices that are used to convert lawful semi-automatic weapons into illegal automatic weapons like the one used by the Las Vegas shooter.²⁰ Banning bump stocks is a bipartisan priority nationwide and deserves an up-or-down vote on the House floor.

Protecting States' Rights to Ban Guns from Schools: Similarly, Republicans blocked an amendment by Representative *Val Demings* (D-FL) – a former Police Chief – that would have prevented persons from other states from carrying concealed weapons in school zones.²¹ Given the alarming increase in school shootings in this country, it is stunning that this amendment was blocked without so much as a floor debate.

Prioritizing Gun Violence Prevention in the U.S. Congress: Representative *Mike Thompson* (D-CA), a sportsman and longtime leader on gun safety issues, attempted to establish a select committee on gun violence.²² The bipartisan committee would have simply studied the impacts of gun violence, causes of mass shootings, and solutions to this epidemic.

²⁰ Amendment #16 by Representatives Moulton (D-MA) and Curbelo (R-FL) to H.R. 38, the Concealed Carry Reciprocity Act.

²¹ Amendment #20 by Representative Demings (D-FL) to H.R. 38, the Concealed Carry Reciprocity Act.

²² Amendment #3 to H.R. 38, the Concealed Carry Reciprocity Act.

Allowing Research on Gun Safety: Representative *Mark DeSaulnier* (D-CA) sponsored an amendment clarifying that smart gun research and development is an allowable use of Defense Advanced Research Projects Agency funds.²³ For far too long, Congress has stood idly by as thousands of our citizens have died from gun violence each year. It's time for solutions stemming from credible scientific research, but Republicans blocked both of this amendment.

H. BLOCKED AMENDMENTS ON *DREAMERS*

On September 5, 2017, President Donald Trump announced the end of the Deferred Action for Childhood Arrivals (DACA) program, leaving it to Congress to find a solution to keep DREAMers in the country. Unfortunately, Republican Leadership has taken no action to protect these hardworking young people, who are productive members of our society and American in every way except on paper. The canceling of this program and the ensuing legal wrangling has left hundreds of thousands of DREAMers in limbo, fearing that they will be deported from the only home they have ever known. And again and again, despite the best efforts of Members on both sides of the aisle, Republican Leadership has prevented even a debate on how to protect these young people. For example:

Allowing DREAMers to Work: A bipartisan amendment by Representatives *Carlos Curbelo* (R-FL), *David Valadao* (R-CA), *Pete Aguilar* (D-CA), and *Nanette Barragan* (D-CA) would have made DACA recipients eligible for employment by the U.S. government.²⁴ Republicans blocked their amendment from being debated.

Protecting People Who Only Know America as their Home: Likewise, a blocked amendment sponsored by Representatives *Adam Schiff* (D-CA) and *Lou Correa* (D-CA) would have prohibited funding from being used to deport individuals granted deferred action under DACA.²⁵

²³ Amendment #7 by Representative DeSaulnier (D-CA) to H.R. 2810, the National Defense Authorization Act Fiscal Year 2018.

²⁴ Amendment #121 by Representatives Curbelo (R-FL), Valadao (R-CA), Aguilar (D-CA), and Barragan (D-CA) to H.R. 3354, Make America Secure and Prosperous Appropriations Act, 2018.

²⁵ Amendment #41 by Representatives Schiff (D-CA) and Correa (D-CA) to H.R. 3354, the Make American Secure and Prosperous Appropriations Act, 2018.

Finding a Permanent Solution for DREAMers: In yet another instance of this closed process shutting out debate on proposals to protect DREAMers, Republican Leadership blocked an amendment by Representative *Michelle Lujan Grisham* (D-NM) that would have added the DREAM Act (H.R. 3440) to the underlying bill.²⁶ This bipartisan piece of legislation would pass if it received a vote on the House floor, but thanks to the Rules Committee Republicans, the system has been rigged against it.

I. BLOCKED AMENDMENTS ON THE *ENVIRONMENT*

This Republican Congress has passed bill after bill rolling back important environmental protections. We know the harm pollutants can do to our health, and there is widespread scientific agreement on the devastating consequences of climate change – but the Majority has prevented debate on a number of thoughtful Democratic amendments to protect our clean air, our drinking water, and the planet we live on. For example:

Protecting the Great Lakes: Representative *Gwen Moore* (D-WI) submitted an amendment that would deny permits for energy projects in the Great Lakes region that adversely affect water quality, native species, or the environment.²⁷ The Great Lakes contain 90% of the U.S.’s supply of surface fresh water. Rep. Moore’s amendment would have ensured the health of that ecosystem – both for the 40 million Americans who rely on it for clean drinking water today, and for future generations.

Protecting Water for Indian Tribes: Republicans even blocked an amendment sponsored by Representatives *Norma Torres* (D-CA) and *Jared Huffman* (D-CA) that would have protected water quality and water availability for Indian tribes’ fishing and water rights.²⁸ Republicans and Democrats should be able to agree that this government’s treatment of Indian tribes has been

²⁶ Amendment #4 by Representative Lujan Grisham (D-NM) to the Senate Amendment to H.R. 1370, Further Continuing Resolution.

²⁷ Amendment #2 by Representative Moore (D-WI) to H.R. 2883, Promoting Cross-Border Energy Infrastructure Act.

²⁸ Amendment #22 by Representatives Torres (D-CA) and Huffman (D-CA) to H.R. 23, Gaining Responsibility on Water Act.

beyond shameful, and that we have done far too little to rectify it. So why not allow at least a debate on protecting their water rights?

Data Collection on Climate Change: Representative *Gerry Connolly* (D-VA) submitted a commonsense amendment that would have ensured we had adequate resources to collect data on displaced persons due to climate change.²⁹ This amendment – which again, was just to collect data – was blocked by the Republican Majority. Perhaps if they had allowed a floor debate, they would have learned that some of our citizens have already been displaced due to climate change, and two communities in Alaska and Louisiana are in the process of relocating completely. Without adequate data, we may not be able to get a complete picture of the problem.

J. BLOCKED AMENDMENTS ON *PREVENTING DISCRIMINATION*

It is the government’s duty to ensure that our laws protect Americans from discrimination – especially discrimination in the workplace, which impacts people’s livelihoods. All workers should have a fair chance to earn a living without being passed over for promotions and paid less because of their race, gender, nationality, religion, age, disability, sexual orientation, or family status. Yet amendments have regularly been blocked: For example:

Protections for VA Employees: Representative *Elijah Cummings* (D-MD), the ranking member of the Oversight and Government Reform Committee, sponsored an amendment that would have expanded protections for employees who suffer retaliation and discrimination in the Department of Veterans Affairs by establishing a more transparent and streamlined system for tracking complaints.³⁰ Unfortunately, Republicans did not prioritize defending the workers who serve our veterans, and blocked his amendment.

LGBTQ+ Protections: A blocked amendment by Representative *Lisa Blunt Rochester* (D-DE) would have protected regulations

²⁹ Amendment #76 by Representative Connolly (D-VA) to H.R. 3354, Make America Secure and Prosperous Appropriations Act, 2018.

³⁰ Amendment #3 by Representative Cummings (D-MD) to H.R. 1291, Dr. Chris Kirkpatrick Whistleblower Protection Act.

that prevent workplace discrimination against LGBTQ+ individuals.³¹

These amendments would have shielded Americans from workplace bigotry and unfair treatment, and deserved to be debated on the House floor.

K. BLOCKED AMENDMENTS ON *CRIMINAL JUSTICE REFORM*

The United States criminal justice system desperately needs meaningful reform. Republicans and Democrats alike agree that we need to pass a bipartisan, comprehensive criminal justice reform package that safeguards individuals' rights while protecting the safety of our communities. Several amendments sponsored by Democrats have sought to improve police-community relations, improve accountability, and modernize the justice system, but they were blocked by the Republican Majority. For example:

De-Escalation Training for Law Enforcement Officers: Republicans blocked an amendment by Representative *Sheila Jackson Lee* (D-TX) that would have allowed the Attorney General to make grants for de-escalation training of law enforcement officers in an effort to improve community relations and public safety.³²

Body Cameras for Law Enforcement Officers: Representatives *Bobby Scott* (D-VA) sponsored an amendment that would have required Customs and Border Protection and ICE agents to wear body cameras when they are engaged in official operations.³³ These amendments improve law enforcement training and restore accountability at a time when the public's trust in law enforcement is perilously low, following a number of publicized excessive force cases.

Advancing Forensic Science: There is much we can do to modernize our justice system outside of police training and accountability. Representative *David Cicilline* (D-RI) submitted an

³¹ Amendment #25 by Representative Blunt Rochester (D-DE) to H.R. 5, the Regulatory Accountability Act of 2017.

³² Amendment #4 by Representative Jackson Lee (D-TX) to H.R. 115, Thin Blue Line.

³³ Amendment #14 by Representatives Bobby Scott (D-VA) and Conyers (D-MI) to H.R. 3354, Make America Secure and Prosperous Appropriations Act.

amendment that would have required the Attorney General to establish a commission to provide recommendations and advice to the Department of Justice for standards in the application and advancement of forensic science, and report back to Congress.³⁴ Forensic science allows our law enforcement officials to effectively catch criminals, and also helps to prevent innocent people from being sent to prison. But this amendment – which simply sought information – was blocked.

L. BLOCKED AMENDMENTS ON *VETERANS*

Our veterans have made unimaginable sacrifices for this country, and we owe it to them to advance policies that protect their interests. Congress has a long, bipartisan history of trying to help the brave individuals who have defended our nation, but this Republican Leadership has blocked many attempts by Democratic members to do just that. For example:

Preventing Consumer Fraud Against Veterans: Representative *Suzanne Bonamici* (D-OR) sponsored an amendment that would have protected seniors, veterans, and individuals with disabilities from consumer fraud.³⁵ Her amendment was blocked, leaving veterans who may be suffering from mental illnesses or otherwise having trouble readjusting to civilian life vulnerable to scammers.

Ensuring Fair Taxation of Service Members and Veterans: Republicans also blocked a narrow, thoughtful amendment by Representative *Ruben Gallego* (D-AZ) that would have amended the Internal Revenue Code to ensure that disabled veterans, deceased veterans, or deceased members of the Armed Forces are not subject to unfair taxation on lawfully discharged student loan debts.³⁶

Protecting Veterans Who Were Deported After Serving Honorably: In a blow to veterans who have sacrificed for this country despite not being born here, Republicans blocked an

³⁴ Amendment #1 by Representative Cicilline (D-RI) to H.R. 115, Thin Blue Line Act.

³⁵ Amendment #19 by Representative Bonamici (D-OR) to H.R. 5, the Regulatory Accountability Act of 2017.

³⁶ Amendment #61 by Representative Gallego (D-AZ) to H.R. 1, Tax Cuts and Jobs Act.

amendment by Representative *Vicente Gonzalez* (D-TX) that would have repatriated, naturalized, and reinstated benefits for veterans who were deported after serving honorably and given honorable discharge, and had clean records prior to service.³⁷ At a minimum, this amendment deserved to be debated on the House floor. We owe that to men and women who have served our country.

M. BLOCKED AMENDMENTS ON *CHILD HEALTH*

Our children are our future, and their health and well-being is our responsibility. Yet this Congress has failed them time and time again by not protecting their drinking water, underinvesting in their education, and failing to provide them with nutritious food and affordable visits to the doctor. Democrats have sponsored numerous amendments to protect children's health, only to be blocked by Republican Leadership. For example:

In the wake of the Flint water crisis, legislation protecting the quality of our drinking water is essential. It has been four years, and many Flint families continue to use bottled water to this day to protect their children from the devastating consequences of lead poisoning. Flint is not alone. Communities all across the nation need the resources to ensure that their drinking water is safe. Several Democratic amendments – blocked by the Majority – would have ensured that. For example:

Preventing another Flint-like Water Crisis: An amendment sponsored by Representative *Dan Kildee* (D-MI), who represents the city of Flint, would have increased funding by \$5 million for the Drinking Water State Revolving Fund. This funding would go directly to repairing water infrastructure in places like Flint around the country. The EPA estimates that we have a more than \$400 billion backlog of investment in water infrastructure.³⁸

Testing Drinking Water for Lead: Another lead-related amendment was submitted by Representative *Mark DeSaulnier* (D-CA). This amendment would have added funding to allow schools

³⁷ Amendment #2 by Representative Gonzalez (D-TX) to S. 2372, VA MISSION Act of 2018.

³⁸ Amendment #124 by Representative Kildee (D-MI) to H.R. 3354, Make America Secure and Prosperous Appropriations Act, 2018.

and child care centers to test their drinking water for lead to allow them to be in compliance with current regulation.³⁹

Preventing Cuts to Our Signature Nutrition Program: Another amendment blocked by Republicans would have protected benefits that children and their families rely on to survive. Representatives *Jim McGovern* (D-MA) and *Michelle Lujan Grisham* (D-NM) sponsored an amendment that would have prevented cuts to the Supplemental Nutrition Assistance Program (SNAP) by exempting SNAP from reconciliation instructions. Their amendment would have also prevented stricter time limits and more onerous work requirements in SNAP, and prevented the program from being converted into a block grant.⁴⁰ Millions rely on SNAP to put food on the table, improving children’s health and school performance.

Preserving Access to Doctors: A blocked amendment by Representatives *Sheila Jackson Lee* (D-TX) and *Val Demings* (D-FL) would have protected benefits and access to health providers for children under Medicaid.⁴¹ Republicans blocked this amendment, leaving low-income children vulnerable to losing their health care.

N. BLOCKED AMENDMENTS ON *WAR AND PEACE*

Perhaps no decisions for a nation are more serious than questions of war and peace. Before sending our brave men and women into harm’s way, the People’s representatives owe it to them to have an open and honest debate on the justification for and ramifications of military action, and to regularly revisit the issue as the situation on the ground changes. Instead, we have witnessed a stunningly closed process that has stalled any substantive debate on this critically important issue. For example:

³⁹ Amendment #12 by Representative DeSaulnier (D-CA) to H.R. 3354, Make America Secure and Prosperous Appropriations Act, 2018.

⁴⁰ Amendment #1 by Representatives McGovern (D-MA) and Lujan Grisham (D-NM) to H. Con. Res. 71, Establishing the congressional budget for the United States Government for fiscal year 2018 and setting forth the appropriate budgetary levels for fiscal years 2019 through 2027.

⁴¹ Amendment #159 by Representatives Jackson Lee (D-TX) and Demings (D-FL) to H.R. 3354, Make America Secure and Prosperous Appropriations Act, 2018.

Authorization for Use of Military Force (AUMF) for Afghanistan: Republican Leadership blocked a bipartisan amendment sponsored by Representatives *Jim McGovern* (D-MA), *Walter Jones* (R-NC), *Barbara Lee* (D-CA), *Thomas Massie* (R-KY), *John Garamendi* (D-CA), *Peter Welch* (D-VT), and *Dan Kildee* (D-MI) which would have required Presidential determination and Congressional action to increase levels of U.S. troops deployed in Afghanistan after September 30, 2017.⁴²

A Bipartisan AUMF Repeal: Republican Leaders also blocked a bipartisan amendment submitted by Representatives *Barbara Lee* (D-CA), *Jim McGovern* (D-MA), *Walter Jones* (R-NC), *Justin Amash* (R-MI), *Keith Ellison* (D-MI), *Peter Welch* (D-VT), *Adam Schiff* (D-CA), *Mark Sanford* (R-NC), and *Colleen Hanabusa* (D-HI) which would have repealed the 2001 Authorization for the Use of Military Force 240 days after enactment of the legislation.⁴³

Undoing Congressional Action on an AUMF, and then Blocking Debate on it: Incredibly, a similar amendment to the bipartisan amendment listed above passed in the Appropriations Committee without any opposition, but it was stripped out of the bill by the Rules Committee. Even worse, the Committee then denied Representative *Barbara Lee* the opportunity to offer it on the floor so the entire House could debate and vote on it.

Preventing Unlawful Use of Force in Iran: An amendment by Representatives *Keith Ellison* (D-MI), *Barbara Lee* (D-CA), and *John Conyers* (D-MI) that would have prevented funds from being used in contravention of the War Powers Resolution in Iran was also blocked.⁴⁴ This is an abdication of responsibility by the Republican Majority, plain and simple.

O. BLOCKED AMENDMENTS ON *WAGES*

⁴² Amendment #165 by Representatives McGovern (D-MA), Jones (R-NC), Lee (D-CA), Massie (R-KY), Garamendi (D-CA), Welch (D-VT), and Kildee (D-MI) to H.R. 2810, the National Defense Authorization Act for FY2018.

⁴³ Amendment #95 by Representatives Lee (D-CA), McGovern (D-MA), Jones (R-NC), Amash (R-MI), Ellison (D-MI), Welch (D-VT), Schiff (D-CA), Sanford (R-NC), and Hanabusa (D-HI) to H.R. 3219, the Make American Secure Appropriations Act.

⁴⁴ Amendment #89 by Representatives Ellison (D-MI), Lee (D-CA), and Conyers (D-MI) to H.R. 3219, Make America Secure Appropriations Act, 2018.

In the richest country in the world, everyone deserves a chance to earn a livable wage for an honest day's work regardless of gender or background. Parents working sixteen hour days shouldn't struggle to put food on the table, and women shouldn't have to worry that they're being paid less than their male coworkers for doing the same work. Republican Leadership is failing our families by blocking amendments that help hardworking Americans earn the wages they deserve. For example:

Equal Pay for Equal Work: Republicans blocked an amendment by Representative *Rosa DeLauro* (D-CT) that would have helped to close the gender pay gap and ensure equal pay for equal work by including the Paycheck Fairness Act in the underlying legislation.⁴⁵ The Equal Pay Act passed in 1963, but has been unsuccessful at closing the pay gap because it lacks effective tools and enforcement mechanisms, which the Paycheck Fairness Act provides. This legislation could change the lives of millions of women across the country and finally accomplish what Congress set out to do over fifty years ago, but it can't even get an up-or-down vote.

A Livable Wage: An amendment sponsored by Representatives *Ruben Kihuen* (D-NV) and *Carol Shea-Porter* (D-NH) would have ensured that no federal funds are distributed to federal contractors unless they pay their hourly employees a minimum of \$15 per hour.⁴⁶ Of the world's wealthiest nations, we have one of the lowest minimum wages. Democrats and Republicans can disagree on what constitutes a livable wage, but we should at least be able to debate the issue on the House floor.

P. BLOCKED AMENDMENTS ON *TAXES*

The tax code should not pick winners and losers. It should ensure we have the resources we need to defend our country and serve our citizens. It should – at the very least – ensure that the wealthiest among us pay their fair share. But during this Congress, the American people have been confronted with a GOP-controlled House that has taken every opportunity to stack the deck for the

⁴⁵ Amendment #1 by Representative DeLauro to H.R. 5645, the SMARTER Act.

⁴⁶ Amendment #23 by Representative Kihuen (D-NV) and Shea Porter (D-NH) to H.R. 3219, the Making America Secure Appropriations Act.

wealthy and well-connected at the expense of hardworking Americans. At the same time this Republican Congress jammed through their tax breaks for the wealthy and big corporations, Republican Leadership used a closed rule to completely prevent amendments seeking to protect middle class taxpayers from being debated on the floor. For example:

Preventing a Tax Hike on the Middle Class: Republicans blocked an amendment sponsored by Representative *John Larson* (D-CT) to guarantee the tax bill would not take effect until the Joint Committee on Taxation certified that it would not cause any middle class taxpayer's taxes to increase.⁴⁷ Republicans promised that their bill would decrease taxes for everyone – not just the wealthy and corporations. If that were true, why not stand by their claim and allow a vote on Rep. Larson's amendment?

Protecting Charitable Giving: Representatives *John Lewis* (D-GA) and *Danny Davis* (D-IL) submitted an amendment that would have delayed the bill's implementation until the Joint Committee on Taxation determined that there would not be a decline in charitable giving over the next 10 years due to the tax bill's provisions.⁴⁸ That amendment – an amendment to defend charitable giving – was blocked. If the tax bill actually delivered what the Republicans claim it does, then they should have allowed the experts to perform a complete analysis and prove it.

Allowing Teachers to Deduct School Supply Expenses: To make matters worse, Republican Leadership blocked several amendments that sought to protect important tax deductions that help working Americans and middle class families. For example, Representatives *Elizabeth Esty* (D-CT), *John Larson* (D-CT), *Rosa DeLauro* (D-CT), and *Joe Courtney* (D-CT) submitted an amendment that would have saved a deduction allowing teachers to deduct personal money spent on classroom supplies from their taxable income.⁴⁹ That's right – Republicans passed enormous corporate tax cuts while blocking a vote to spare a modest deduction for school-teachers. Luckily for teachers, the deduction was ultimately saved by the Senate.

⁴⁷ Amendment #100 by Representative Larson (D-CT) to H.R. 1, the Tax Cut and Jobs Act.

⁴⁸ Amendment #7 by Representatives Lewis (D-GA) and Danny Davis (D-IL) to H.R. 1, the Tax Cut and Jobs Act.

⁴⁹ Amendment #73 by Representatives Esty (D-CT), Larson (D-CT), DeLauro (D-CT), and Courtney (D-CT) to H.R. 1, the Tax Cut and Jobs Act.

Preserving the SALT Deduction: Finally, an amendment sponsored by Representative *Bill Pascrell* (D-NJ) and 15 other members would have restored the deduction for State and Local Taxes (SALT) in full.⁵⁰ That amendment – which would have prevented a tax increase for middle class families – was also blocked, leaving those families to shoulder the burden of tax cuts for millionaires.

Q. PRIORITIES REVEALED

The bills that this Republican Leadership has jammed through the House speak volumes regarding their priorities, but the ideas that they have stifled communicate an even more powerful message. This Republican Leadership will stop at nothing to advance their agenda, shutting down debate on amendments to create jobs, protect the social safety net, prevent gun violence, protect veterans, and so much more. The nearly 1,800 amendments blocked by Republicans could have sparked important debates on the House floor and produced stronger, more bipartisan legislation.

Instead, these ideas – and hundreds more like them – never saw the light of day.

IV. THE IMPACT OF CLOSED RULES ON DELIBERATIVE DEMOCRACY

A. SILENCING MEMBERS OF CONGRESS SILENCES THE PEOPLE THEY REPRESENT

Blocking amendments shuts out members of Congress from offering their ideas to improve legislation, and in doing so silences the voices of the millions of Americans they are elected to represent. So far during this record-breaking closed 115th Congress, 380 Members have had at least one amendment blocked from consideration by the Republican-controlled Rules Committee and Republican Leadership.

⁵⁰ Amendment #1 by Representative Pascrell (D-NJ), Higgins (D-NY), Thompson (D-CA), Sánchez (D-CA), Larson (D-CT), Davis (D-IL), Crowley (D-NY), Esty (D-CT), Hanabusa (D-HI), Suozzi (D-NY), Titus (D-NV), Adams (D-NC), Raskin (D-MD), Chu (D-CA), Meng (D-NY) to H.R. 1, the Tax Cut and Jobs Act.

The below map indicates the Congressional districts of every Member who has had an amendment blocked this Congress.

Millions of American's Voices Aren't Being Heard

These districts account for 270 million Americans. In other words, Representatives from roughly 80 percent of the country have been blocked from offering an idea for debate on the House Floor – the ideas their constituents sent them to Congress to advocate for on their behalf.

Importantly, it should be noted that this heavy-handed, closed process is a bipartisan problem. Members on both sides of the aisle have equally had their ideas thwarted, with 190 Democrats and 190 Republicans having had at least one amendment blocked this Congress. This means that the small handful of members who make up Republican House Leadership have blocked the majority of Members – even the majority of their *own* Members – from having an idea debated on the floor.

While the negative consequences of this stifling of debate are felt on both sides of the aisle, it is striking how many Republican Members decry the closed process, but are complicit in allowing it to continue. Those Members' public critiques diverge sharply from their voting records, which show they have helped to perpetuate the most closed Congress in history.

For example, Representative Tom Reed (R-NY) said of how the House has been operated this Congress,

“It’s a top down approach... And we’re putting pressure on our leadership and this is what’s going to force more of these debates on the floor of the House.”

However, Congressman Reed has *never* voted against a closed rule this Congress.

Likewise, Representative Jeff Duncan (R-SC) said, “Compromise is easier when we follow regular order. Which I’ve pushed for.” Unfortunately, Congressman Duncan has not pushed for regular order by opposing closed rules – he hasn’t voted against a single closed rule during the 115th Congress. Below are several more instances of House Republicans calling for an open process, yet voting for closed rules.

The People’s House is meant to operate as a deliberative body. Shutting out the voices of the representatives of hundreds of millions of Americans erodes the foundation of our democracy, and makes the job of governing increasingly more difficult. This top-down process results in bills that are written and amended by a small number of Members, leaving most Members – and the constituents they represent – out of the action.

And that’s how the process is supposed to work.” Twitter, April 27, 2018</p>	<p><u>Never voted against a closed rule in the 115th Congress</u> Voted in favor of closed rules 90% of the time Recorded as Yea for 72 out of 80 votes Recorded as “not voting” on eight votes</p>

B. WHY AMENDMENTS MATTER

The importance of amendments in the House of Representatives cannot be overstated. The amendment process offers each Member a voice in legislation being considered on the floor, regardless of their party or committee membership. This allows Members to fully represent the approximately 700,000 constituents who sent them to Washington to advocate for their district. While improving legislation through the amendment process can challenge the Majority Leadership at times, it is also one of the most vital and significant components of this deliberative body. Unfortunately, during the 115th Congress the Republican-led Rules Committee has taken this important legislative tool from a sizable portion of this body – including members of their own party.

Operating the House in such a closed manner has a chilling effect on the deliberative process, signaling to Members that their ideas are not even worth submitting as amendments. Representative Thomas Massie (R-KY) summed this sentiment up succinctly, saying,

“There are three kinds of amendments they [allow] in the Rules Committee — Republican amendments that will fail, Democratic amendments that will fail and any amendment on a bipartisan basis that will do nothing.”

In short, most amendments allowed won’t actually have a significant impact on the bill. Faced with a record like that, many Members must be thinking, when it comes to offering their ideas to improve legislation – why bother?

Republicans have blocked nearly 1,800 amendments so far this Congress. But with the record-breaking number of closed rules – for which the Majority never even sends out a call for amendments – a clear message has been communicated to Members that in most cases, their amendments have no chance of being made in order. This means that the true number of amendments that have been blocked, both in practice and by discouraging ideas from even being offered, is much greater.

Amendments are not simply authored for messaging purposes – most are legitimate, thoughtful policy ideas offered by Members to, in their view, improve legislation. Important laws in our nation’s history that began as amendments on the House floor include:

Extending Civil Rights Protections to Women

The gender protections found in the landmark Civil Rights Act of 1964, providing protection against unfair discrimination in hiring, firing, and promotion, and setting the stage for protection against sexual harassment in the workplace, began as an amendment offered on the House floor.

U.S. Criminal Code Reform

The Comprehensive Crime Control Act of 1984 was successfully added as an amendment to an appropriations measure in a motion to recommit. This marked the first comprehensive revision of the U.S. criminal code since the early 1900s.

Federal Student Loan Repayment

The Executive Branch Student Loan Repayment Program, an important program that encourages public service and alleviates the burden of student debt, was first authorized as the result of an amendment being added to the National Defense Authorization Act for Fiscal Year 1991.

As these examples illustrate, amendments are important vehicles by which major ideas and policies can be debated, and often enacted. By discouraging amendments from being submitted to the Rules Committee and blocking most amendments from being considered, Republicans are shutting down a critical avenue for improving legislation.

V. CONCLUSION

The Republican Majority has blocked amendments that would help to create jobs, protect health care, root out corruption, make college affordable, prevent school shootings, support our troops and veterans, and address many other important priorities for American families. All of those amendments deserved a vigorous debate and an up-or-down vote on the House floor; many of them also reflected bipartisan priorities, and could have been adopted and be-

come law. But instead of working together to create stronger legislation, Republican Leadership has stifled debate and discouraged ideas from members of both parties.

The result is apparent: a steady stream of damaging, partisan bills. Republicans used a closed rule to pass a health care bill that the American Medical Association warned would “result in millions of Americans losing access to quality, affordable health insurance.”⁵¹ They used a closed rule to pass a bill that the Brady Campaign to Prevent Gun Violence wrote would “make it easier for dangerous people to carry loaded guns in our communities.”⁵² They even used a closed rule to pass their disastrous tax giveaway to the wealthy and corporations, which exploded the deficit by \$2 trillion and, according to the nonpartisan Tax Policy Center, “will worsen income inequality in the short and long run.”⁵³

Other bills considered under closed rules would deregulate Wall Street, eliminate a woman’s right to choose, endanger our clean air and water, increase the risk of veteran suicide – and the list goes on. Republicans’ abuse of the process has contributed to Congressional gridlock as the House passes one partisan bill after another, only to sit untouched in the Senate. It has also damaged our credibility as a democratic institution.

Running the House under this level of dysfunction has resulted in two government shutdowns this Congress alone – not to mention the devastating shutdown in 2013, which lasted over two weeks. This Republican Majority has literally shut down the government three times because even keeping the lights on has become a partisan battle. The People’s House should be run in a professional manner. It shouldn’t be a vehicle used by the Majority Leadership to push through controversial bills as they silence any voices of dissent. If bills were brought to the floor under a more accommodating process, we would see stronger, more bipartisan legislation, and this Congress could once again function as our Founders intended.
