Welcome to UNIQUE System Skills LLC.

Our Goal is your success.

At UNIQUE System Skills LLC we provide a wide range of computer training programs and services to encourage and support student involvement and experiential learning inside the classroom and online environments. The team members at the training department within the company have unique responsibilities yet work collaboratively across the institution to serve students and the community. In addition to IT Training classes, our students get a service which includes career guidance, placement assistance, resume building, and interview preparation. We also ensure to provide a safe and healthy environment for our students, the community, and visitors at UNIQUE System Skills LLC.

UNIQUE System Skills LLC has established policies and procedures that comprise the Student Handbook to both promote the Training Institution's mission and protect the rights and safety of Students, faculty, and staff. It is the responsibility of all students of UNIQUE System Skills LLC to know the information included in the Student Handbook. The Student Handbook is reviewed and updated annually or as necessary to ensure compliance with the standards at the NH Division of Higher Education, Office of Career School Licensing and adherence to the values of our Training Institute. UNIQUE System Skills LLC will make every effort to alert students to significant changes when they are made.

Our priority, at UNIQUE System Skills LLC, is to provide the highest quality of IT Training and Career services to our students in an environment which is safe and welcoming. Our goal is the success of our students. We are passionate about assisting each one of our students personally to better understand the needs and goals of everyone.

We invite you to browse our website (www.systemskills.com) and encourage you to contact us with any questions you may have. Also feel free to follow us on all our social network pages which include Instagram, Facebook, and Twitter.

We are fully committed to your success as a student.
Thank you and welcome aboard!

PURPOSE AND MISSION

At UNIQUE System Skills LLC, we very well understand the ever-changing IT industry. We feel that the workforce in the U.S. is going through a global competitive challenge and companies are increasingly looking for highly skilled IT professionals. Unfortunately, it is getting harder and harder for companies to find local IT professionals to fill those invaluable positions.

Our IT training division provides an affordable service available to all members of local communities which will give training in the Information Technology field. We want our students to expand their skill set and increase their productivity by teaching them cutting edge technologies, which will give them a competitive advantage in the job market.

MISSION: To be an ever-expanding global service, solution, and resource in the IT industry. We are committed to maintaining a culture of integrity, diversity, and ethics throughout our organization and our associate partners.

NOTE:
- Schedule is subject to change.
- All our classes are conducted 20 hours per week.
- **10 hours per week are Instructor led training sessions and other 10 hours per week are Supervised lab sessions to practice the concepts learned.**

MINIMUM STUDENT REQUIREMENTS:
- A minimum of 3 registered students will be required to conduct a class successfully at UNIQUE System Skills LLC
- In case we have 2 students registered for a particular class, the class will commence as scheduled.
- But if USS has only single registration for a particular scheduled class, the student will be given an option to transfer to the next scheduled upcoming batch.
- The school will reschedule the class to next scheduled training session as published in the training calendar for the year and we also inform the students about this on a timely basis.
- All certification examination is one week of time allocated after completing any course to prepare for the certification exams. Since they are test preparation time, with practice exams and available instructors and not the exam itself, then "exam preparation" added to each mention on pages 7-9 of ASTQB Cert., Oracle SQL Cert., MS Office Cert., Python Cert., SQL Cert. so that they are "ASTQB certification exam preparation", and so forth.

SUPERVISED STUDY

- Students are welcome to our school to study and attend the classes.
- All our classes are conducted 20 hours each week.
- **10 hours per week are Instructor led training sessions and other 10 hours per week are Supervised lab sessions to practice the concepts learned.**
- A SUPERVISOR is always available in to provide consistent help, guidance and support to all our students.
- All our classes are available as Online INSTRUCTOR-LED classes and also as in-classroom with trainer.
- All the classes are taught by an industry expert trainer and the students can actively participate in group discussion, get their doubts cleared from the trainer during and/or after the class.
- All our trainers give undivided attention to all our students during the class, this gives a great opportunity to build a healthy relationship between the students and the trainer during the learning sessions.

Desktop Computers	Computer Monitors	Keyboards	Mouse
Security Camera systems	Mic Headsets	Audio/Video casting devices	Projectors & screens
Server	Backup servers	Bookcase	Tables and chairs, etc.

Conditions of Enrollment

Certain conditions must be met to be enrolled at the training institute and to function as a member of the community. Failure to meet and maintain these conditions may result in a hold against future registration and/or termination of a student's current enrollment and/or presence on premises. If a student's enrollment is terminated for failure to fulfill conditions of enrollment, she/he may not be present in the educational environment on premises or online or use the training institute resources without the expressed permission of the administrator.

1. Completion of Registration – Students are required to complete their registration with the training institute before they are recognized as students of the school. Students may register for multiple courses at one time on a single registration form or register for each course separately. Registration for any course should be completed prior to the start time or the start date of the intended course.

2. Accuracy of training institute Records – Students are expected to provide accurate and complete information on all training institute forms and documents, including applications for enrollment.

3. Financial Obligations – Students shall be held responsible for all obligations which they have incurred with the training institute. Failure to comply with this policy, without prior permission being granted, could result in a hold placed against the release of grades and/or certificate of a student with such outstanding obligations.

4. Conditions Established by The Student Code of Conduct – All students are expected to fulfill conditions established in the Student Code of Conduct section of this handbook. Students who fail to fulfill these conditions may be subjected to disciplinary action and/or termination of enrollment.

5. Class Attendance – The attendance policy for the training institute is listed on this page of the Student Handbook. Furthermore, it is expected that all UNIQUE System Skills LLC students attend all classes on time. Students are responsible for complying with the training institute's attendance policy.

6. Enrollment dates – We are open to enrollment until a class starts. Students would be enrolled and assigned classes based on completion of any required and/or essential paper work and/or approvals.

7. Class start dates – All our classes typically start on Mondays (except if the Monday is a holiday). Class schedule will be provided to students as required.

ATTENDANCE AND MISSED CLASS MAKEUP POLICY

UNIQUE System Skills LLC subscribes to the belief that an assumption of responsibility is at the center of learning and accomplishment. Each student is expected to arrange a class schedule that minimizes conflicts with other commitments. This includes personal obligations, participation in any other institute events, and the like. Therefore, the responsibility of attendance belongs to the student. We believe that to learn you need to attend and get involved yourself in the course and actively participate, "you learn by doing". If, at times, you choose not to participate you may not successfully complete this course or may be disenrolled. If you are not satisfied with a course, you are free to leave at any time, but you will not receive credit for that course.

- We expected all the students to attend all the training sessions.

- At least 80% attendance is expected from every student in all courses.

- Enrolled students are expected to complete all class assignments in a timely manner.

- Being absent and/or late for class may impact a student's grade. Excessive absences may result in failure of the course and instructor withdrawing the student from the course.

- Missing more than 10 percent of scheduled class time may be considered excessive. Example: Missing more than 4 days of classes in an 80-hour course is equivalent to 8 hours (10%) of missed schedule class time, which can affect a student's grade.

- Arriving more than 15 minutes after the class start time is considered late.

- Students are responsible for all missed work and assignments. Assistance will be provided to the student to complete the missed classes and the trainers will provide guidance on any topics that needs clarification.

- Successfully pass/complete all written and performance examinations.

- The classes that are conducted via Zoom are recorded. If any student misses the class, the Zoom recordings of the class will be shared with the student. The students can view the recording and ask any question or doubts to the instructor in the next class that they would attend.

- Documented absences resulting from legitimate circumstances such as personal illness, a death in the immediate family, etc. should not negatively impact a student's grade or academic standing. Students are responsible for notifying the training institute of such circumstances which will result in absences within 24 hours after the initial absence date.

- Once a student has missed enough classes that the instructor believes that the student cannot meet the goals of the course within the remaining time frame, the student may be given a failing grade, withdrawn from the class or be considered for an incomplete (I) and given a defined period to complete the remaining coursework.

- Complete his/her program within the maximum time allowed. Maximum time allowed is 150%, or one- and one-half times, of the published course length.

Students who fail to meet academic standards or attendance standards as set forth above will be provided with extra period of two weeks. Students who will be given this extra time must show satisfactory progress by the end of the two weeks period or they will be terminated from training.

Satisfactory Progress Period: Progress is measured on a routine basis by the trainer and/or lab assistant.

Incomplete Grades: The student has a maximum of 30 days to complete an incomplete grade. Course Withdrawals: A student who withdraws will not be considered as course work successfully completed but will be counted as course work attempted.

Failure to Meet Progress Standards: If a student fails to meet the progress standards, he/she will be advised of this in writing by the Training Director. The progress notifications are given to the student personally or via email or sent by U.S. Mail.

Appeals: Re-admission after termination/withdrawals for failing to meet academic progress standards may be granted to an individual if a written appeal is made to the Training Director and the individual substantiates that mitigating circumstances were involved and corrective measures have been taken to prevent a re-occurrence. Appeals must be made within ten days of the date of grade submission notification. Answers to appeals will be made by the School within ten days after School receipt of the notification of appeal.

Reinstatement: Students who have been dismissed for lack of acceptable level or academic progress may apply to be re-admitted upon approval from the school administrator.

ATTENDANCE TIME SHEET

USS Requires all the students to fill and submit their attendance time sheet on a weekly basis. We need to maintain attendance record for all for internal purposes. Please Fill the attendance provided on this page and submit via email or handover personally to the USS staff in the office.

STUDENT CODE OF CONDUCT

UNIQUE System Skills LLC is an institute in which the ideals of freedom on inquiry, freedom of thought, freedom of expression, and freedom of the individual are sustained. However, the exercise and preservation of these freedoms and rights requires a respect of the rights of all in the community to enjoy them to the same extent. It is clear that in a community of learning, willful disruption of the educational process, destruction of property, and interference with the orderly process of the training institute as defined by the training institute administration or with the rights of other members of the institute cannot be tolerated. Students enrolling in the institute assume an obligation to conduct themselves in a manner compatible with the institute's functions of imparting and gaining knowledge, the institute retains the power to maintain order within the institute and to remove those who are disruptive to the educational process. The policies help to describe and explain prohibited conduct as well as outline behavioral expectations.

Authority of the Training Institute

The Student Code of Conduct applies to all students. UNIQUE System Skills LLC shall have jurisdiction over student behavior which occurs on USS LLC premises. Additionally, all violations of the Code of Conduct which occur within the USS LLC email system, or any other electronic means of communication prescribed by an instructor as it pertains to class work, research, or communication shall fall under the jurisdiction of the training institute. Behavior that conflicts with the expectations may subject students to discipline pursuant to the Code of Conduct.

When a student withdraws or takes a leave of absence from the training institute after engaging in conduct that may violate any of the school's code of conduct, and the alleged violation has not been adjudicated, a hold will be placed on the student's record and the student will be banned from the premises and online environment. The hold will prevent a student from re-enrolling at the training institute until the alleged violations have been resolved.

Discipline Standing and Sanctions (*Policies & Procedures*)

When a student is found to have violated a policy, the training institute's first priority is to respond and address the student who has allegedly violated the training institute's code of conduct in order to prevent the continuation of any misconduct or behavior which is disruptive to the educational process of other students or interferes with the orderly process of the training institute.

The violations consist of, but are not limited to the following:
- Attending class or being on school property while under the influence of alcohol.
- Attending class or being on school property while under the influence of drugs (illegal narcotics/substances).

59

- Bringing alcoholic beverages or illegal drugs onto school property.
- Bringing weapons onto school property, such as guns, ammunition, knives, stun guns, archery guns, explosives, etc.
- Verbally harassing or insulting any other students, staff, faculty, or visitors of UNIQUE System Skills LLC.
- Physically hurting any other students, staff, faculty, or visitors of UNIQUE System Skills LLC.
- Purposely or intentionally causing damage to any property owned by UNIQUE System Skills LLC.
- Purposely or intentionally causing damage to any property owned by any student, staff, faculty, or visitor of UNIQUE System Skills LLC.
- Theft of any property owned by UNIQUE System Skills LLC.
- Theft of any property owned by any other student, staff, faculty, or visitor of UNIQUE System Skills LLC.
- Purposely or intentionally causing disturbances during class which interrupts the learning process of other students.
- Cheating on exams, quizzes, or tests.

Disciplinary Warning - A warning consists of formal notification given to the student in writing, informing that the student has violated the training institute Student Code of Conduct and advises that repetition will result in a more severe sanction. A counseling session may also be scheduled to help student avoid further violations.

Training Institute Probation – If a student commits another violation after being given a disciplinary warning, the student will be placed on Training Institute Probation. A Training Institute Probation notice will be issued to the student in writing. Students on Training Institute Probation will be closely monitored and may be limited from participating in course activities if deemed necessary by the administration. If the student is found responsible for violating any training institute policy during the period of probation, training institute dismissal may become effective.

Training Institute Dismissal - If a student commits another violation while being on Training Institute Probation, a Training Institute Dismissal notice will be issued to the student in writing. If a student is dismissed from the school, he/she is permanently dismissed from the training institute without opportunity for readmission. If dismissed from the training institute, the student will be persona non grata on training institute premises and online environments.

Educational Sanctions

The training institute reserves the right to create additional sanctions based on the nature of the misconduct. Sanctions may include, but are not limited to:

Removal from Class - Students may be removed from classes if their actions are deemed to be detrimental to the educational environment. A disciplinary sanction may be issued if deemed necessary.

Restitution - Students may be required to pay the full cost of damage(s) they have caused. This could include the cost of materials and labor for the repair. In addition, restitution could include the cost of replacing damaged, destroyed, or stolen property.

Access Restriction - Students may be denied access to USS LLC premises, activity, class or programs, computer and network resources, or denied other student privileges.

ENROLLMENT REQUIREMENTS

1. Applicants must be 18 years of age or older. Applicants under the age of 18 must be enrolled by parent or guardian.

2. Some courses (not all) may require prior knowledge of certain technical languages or software skills. Applicants enrolling into these courses must provide proof that the adequate skills and knowledge either with prior training documentation or by taking a UNIQUE System Skills LLC assessment test. Failure to proof prior knowledge or to pass the assessment test will result in an enrollment denial for that course. Prerequisite courses may be recommended.

STUDENT WITHDRAWAL POLICY & FORM

Students may withdraw from UNIQUE System Skills LLC by notifying the training institute's administration and filing a withdrawal form. Merely ceasing to attend classes does not constitute an official withdrawal, academically or financially. Failure to file a withdrawal form with the administration will result in automatic recording of "F" grades for all courses taken by the student.

Official date of withdrawal is the last date of class participation as verified by an instructor. Class participation is defined as any activity the student takes related to the course, including but not limited to attending the course, submitting assignments and/or accessing the course related materials and/or videos. This date will be used in determining any refund. Students who withdraw from USS LLC completely after 60% of the course duration has elapsed will receive either a "WP" or "WF" from each of their instructors. No adjustments to account balance will be made; nor will withdrawal disputes be considered after 30 days from the end of the course during which the student withdrew.

REFUND POLICY

REFUNDS

A. GENERAL INFORMATION AND PROCEDURES TO BE FOLLOWED: The termination date will be the date the student notifies the school, in writing, or the last day of attendance, or allowable absence, for a student who ceases to attend. Except for cancellation within the one-day period, the school will make refunds within 30 calendar days after receipt of written refund request. A student shall be deemed to have provided constructive notice of an intention to withdraw if the student fails to attend classes for 3 consecutive days without providing, prior to or during   that period, an explanation to the School regarding absences. If student is entitled to a refund, a request for refund must be submitted in writing within 90 days of withdrawal.

All notices must be sent to:
Mr. Santosh Salvi,
ADMINISTRATOR,
UNIQUE System Skills LLC.,
505 West Hollis Street,
Suite 105, Nashua NH 03062

1. If an applicant application of enrollment is rejected, or if for any reason a student withdraws or is dismissed by the School prior to attending school, all monies will be refunded to the student.
2. If an applicant application of enrollment is rejected, or if for any reason a student withdraws or is dismissed by the School prior to or on the first day of attending school, all monies will be refunded to the student. Refunds for cancellation will be made within ten days of the date of cancellation.
3. If for any reason a student withdraws or is dismissed by the School after attending at least three days but prior to completing 50% of the course instruction in the current enrollment period, the student is entitled to a pro-rata refund as follows: The number of course units completed by the student shall be divided by the total number of units in the total course of instruction and the resulting percentage shall be rounded down to the nearest 10 percent; and this percentage shall be multiplied by the total tuition charge and the result shall be the amount of the refund.
4. If for any reason a student withdraws or is dismissed by the School after completing 50% of the course of instruction, the charge may not exceed the total cost of the course of instruction.

* If tuition has been funded by a 3rd party, refunds will only be issued directly to the 3rd party. It is still he student's responsibility to request the refund, and provide all debt letters/documentation, required to facilitate refund.
**If a student's tuition has been paid through a federal program, the school will refund the unused portion of prepaid tuition and fees in a pro rata manner in accordance with 38 CFR 21.4255 and 38 CFR 21.4254(c) (13).
***A student who withdraws or is dismissed after more than 50% of the instruction period shall receive no refund.

All refunds shall be paid within 30 days upon written notification from a student of cancellation or withdrawal; and Students receiving benefits from federal programs shall be subject to federal refund policies, rules and regulations.

- The certification programs and/or materials cover all the major topics on the subject but there is no course or training that can guarantee to cover all the contents on any certification exam.
- There is no course or training program that can be replaced with practical applications or experience of concepts.
- Your certification exam success will depend on how much extra knowledge and hands-on you will have over the subject.
- Our team constantly works to keep up with the industry requirements and updates on IT topics. Nonetheless, since IT is a vast and ever-changing field, there is possibility that not all the topics will be covered during our teaching. However, we feel there might a lot of topics that you would be learning during the course that might not be included in the certification exam.
- We try hard to stay on top of topics, but errors and omissions could happen.
- The training programs are planned to support certification preparations but merely attending the class does not guarantee that you will pass the exam.
- IT topics are vast, so the more you study the more you will discover.
