About Us

Mission & Vision

The motto of our organization is to achieve market leadership in key geographies of the world. Our commitment to mutual growth with our partners in terms of both efficiency and productivity is perfectly illustrated in our claim, "Growing Together". This philosophy has been inspiring all our production processes and business activities since our inception. Transparency, accountability and collaboration guide our actions and we remain focused on the highest standards of governance and ethics in all our business dealings.

Values and Philosophy

Unitech growth and success are the result of an unswerving focus on key areas:

- Innovative Design and Development
- A Technological edge – both in manufacturing capabilities and collaborations
- Excellence in Quality and Delivery
- Competitive Costs
- Responsible and Reliable business practices

Social Responsibility

Considering it part of our social responsibilities, we have adopted the severe/harsh measures for safeguarding the environment. And it goes without saying that we show great respect for our people working every day with passion to achieve our corporate goals.

It is our intention to be the leader and benchmark in the Global Engineering market, in particular in the specialist segments such as industrial, construction and agriculture. The achievement of our mission and vision is based on a functional corporate structure led by an effective management.

Corporate Responsibility

A relentless focus on quality at the heart of Unitech Exports is our perseverance to offer quality products. At each step, beginning from purchase to manufacturing, finishing and packing, a strict and meticulous inspection is carried out. The results of these tests, provides a quick and clear report on product quality. Every product distributed by us conforms to the International Standard of Purity and Functionality.

Quality Assurance

Quality is the primary focus for us. It is the brand's assurance to the customer, and the reputation of our products and service rest on the foundation and legacy of quality. At the core of quality delivery lies incomparable and continuous planning and execution in Research and Development, as well as advanced Manufacturing Capabilities. The management of both these key areas ensures that every aspect of product and service offering surpasses quality expectations.

Total Quality Management lies at the heart of every process from the conceptualization and planning to execution and delivery. The approach and culture of the entire team at Unitech reflects a commitment to excellence and a pride in creating and delivering the best. It is visible on the shop floor, in the raw material, in the state of the art machines and systems, in the expertise of the team, the engagement with the customer and finally, in the product and service delivered. Our Quality Engineers passes the quality check only after various inspection & tests.

For the 21st century, with continuous demand & supply we concentrate on continuous development & innovating new ideas facilitating the next generation.

The Customer

The Customer comes first...defines all behavior and practice. The team is committed through every minute of the day to continuously improve service quality to customers, sharpening responses and flexibility to achieve the customer's objectives.

Packing Quality

Further we provide safe & customized packaging service to maintain quality & safe transit. At Unitech, Manual observation of each & every packing condition is done while loading or unloading. In addition, as per requirement, packing can be tightened through high quality Plastic stripes to fit for Sea worthiness.
