# Safety first! Your firearm stays holstered with the patented PRO-3 locking system

## PRO-3® Duty Holsters

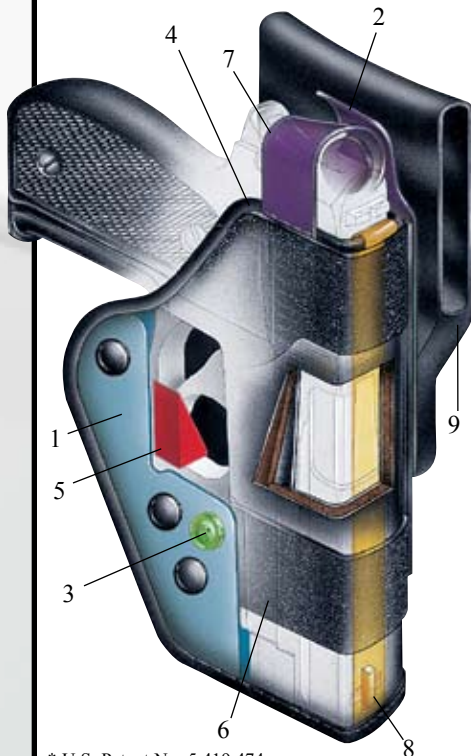

Our triple retention feature makes Uncle Mike's® PRO-3 Duty Holster the best on the market today. With it, your firearm stays exactly where it's supposed to stay until you draw it. Our PRO-3 is:

- **Hard to Grab** — Our patented locking system positively locks the firearm from the front, rear, top and side.
- **Easy to Draw** — No complicated buttons or straps, drawing is as easy as releasing the thumb break.
- **Easy to Carry** — Ergonomically designed to work with your body so the strains of carrying a holster are kept to a minimum. And for even less bulk, our SlimLine™ PRO-3 model offers the same triple retention in a smaller profile than our standard PRO-3 duty holster.

### Deconstructing our patented PRO-3 Triple Retention

- 1 Patented internal locking device\*
- 2 Molded thumb break
- 3 Adjustable tensioning device
- 4 Patented laminated construction— either MIRAGE® or Cordura® nylon exterior, foam core and smooth nylon lining
- 5 Positive triggerguard stop positions gun the same way every time
- 6 Holster suspended within patented Kydex® exoskeleton for support, strength and rigidity
- 7 Non-stretch retention strap works with molded thumb break to stay open for easy, one-handed reholstering. Contoured thumb break discourages blading
- 8 Patented, molded sight track protects front sight and reduces holster wear
- 9 Injection-molded belt loop accepts Spacer Pack, keeping the holster parallel to the body while compensating for body contours (See Spacer Pack on Page 5)

**FYI** A 10-minute video explaining the features, functions and operations of the PRO-3 Triple Retention Holster is available. Contact us for availability.

# Dual Retention holsters for security and ease of use

## PRO-2® Dual Retention Holsters

Our PRO-2 Dual Retention holsters are for departments who need more than a conventional thumb break device, but not as much retention as our PRO-3. The PRO-2 uses both a non-stretch retention strap and traditional outboard tensioning device, as well as an internal detent to engage its trigger-guard. But even with these effective dual retention devices, a simple upward drawstroke is all that is required to produce the handgun.

Constructed from a tough foam laminate, the PRO-2 features an injection-molded welt, a riveted body and the same jacket slot belt loop as our famous PRO-3 model.

## Standard Dual Retention Holsters

These Dual Retention Holsters are designed to fit a wide variety of law enforcement pistols and revolvers and a broad range of law enforcement and security situations.

Retention is provided by the non-stretch retention strap, plus an independent adjustable tensioning device that applies varying amounts of pressure to the surface of the firearm.

## Jacket Slot Duty Holster Spacer Pack

- Use with PRO-3, PRO-2 and Dual Retention Jacket Slot Holsters.
- Spacers compensate for body contours that keep Jacket Slot holster from riding parallel to centerline of body.
- Especially useful for women officers whose narrow waists can cause gun muzzles to angle outward, away from the body, putting the grip into their ribs or under body armor.
- Includes ¼" and ⅛" thick spacers.

Without Spacer Pack      With Spacer Pack      # 9890-0

## Removable Rotating Belt Loop

- Seated officers can rotate holster from the locked vertical position, allowing muzzle to clear obstructing surfaces.
- Mobile officers entering "no gun" areas can rotate and detach locked holster and firearm without handling the firearm.
- Off-duty officers can safely remove the still holstered firearm from belt, and lock both pieces up as an assembly.

# 9890-1

Rotating Belt Loop allows holster to go from locked position to removal with the push of a button. Holster can also be rotated for optimum comfort while seated.

## NEW High Ride Belt Loop Accessory

If high ride is your preferred carry method, this belt loop accessory allows you to convert an Uncle Mike's PRO-3, PRO-2 or Dual Retention holster into a high ride holster.

- Conversion tools included.
- Works with Mirage Plain, Basketweave or Cordura finishes.

MIRAGE Plain      #6699-0  
Cordura            #9699-0

## Jacket Slot Duty Holsters

For 4" and 5" barreled pistols employing Insight Technology, M3 and M5 Light Modules.

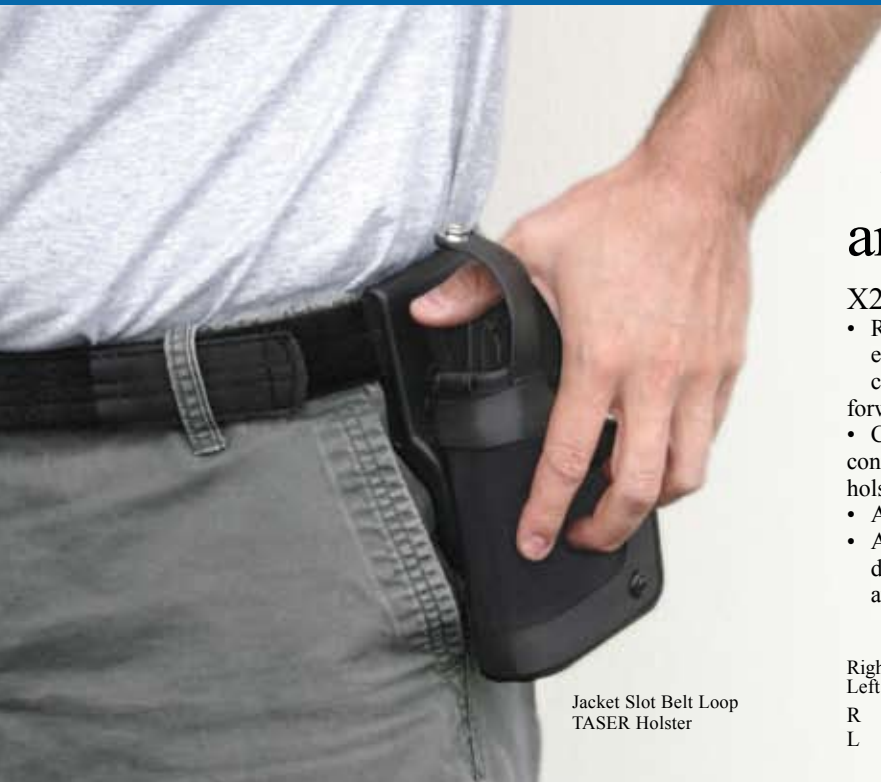

SIZE	M3 or M5	FIT INFORMATION
Right/Left		
5 R	9905-7	4½ - 5" lg. auto
L	9905-8	4½ - 5" lg. auto
15 R	9915-7	3¾ - 4¼" lg. auto

## FYL Jacket Slot Belt Loop

Provides a defined offset to position the holster outside an Ike or Tuffy jacket. The cant angle is fixed for PRO-3 holsters, but adjustable for vertical, muzzle forward or butt forward cant on Dual Retention Holsters and PRO-2 holsters.

# Carry the X26 TASER comfortably in our Jacket Slot Holster and Thigh Rig

Jacket Slot Belt Loop  
TASER Holster

## X26 TASER Holster

- Rotating belt loop allows holster and device to be carried either in a conventional “strong side” location, or as a cross draw, with the weapon carried and employed butt-forward, vertically, horizontally or at any point in-between.
- Can be used with a drop-style leg mount, allowing the connector to be snapped on the belt and left there with the holster being snapped into it only when needed.
- Available in right-and-left hand versions.
- Accommodates department policies where a less than lethal device is carried on the non-dominant side of the body and away from the firearm.

	Tactical	Jacket Slot with Belt Loop

## **NEW** TASER Holster with MOLLE attachment

Attach your TASER holster to any MOLLE-compatible vest system or drop leg platform. TASER holster with Cordura finish can be mounted vertically or angled.

Right Hand #6851-1  
Left Hand #6851-2

TASER Holster can be mounted in vertical or angled positions.

## TASER Cartridge Pouch

- Single compartment cartridge pouch designed to carry a spare projectile cartridge.

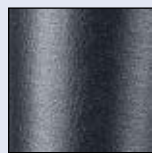

Cordura #8827-1  
MIRAGE Plain #7427-1

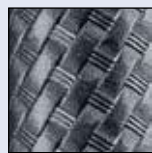

## It's all about options when it comes to Uncle Mike's duty gear

Our Mirage® Nylon looks and feels like leather, but outperforms it in 6 ways!

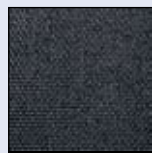

1. **Appearance**—A Mirage duty rig starts out looking like leather and continues to look sharp despite wear, dirt, moisture and rough usage.
2. **Weight**—Your lower back will thank you because Mirage products are constructed of Nytek nylon, making them significantly lighter than leather or other synthetic rigs.
3. **Durability**—Mirage is incredibly strong and abrasion-resistant, developed from microfibers that are 1,000 times finer than silk. It needs virtually no maintenance.
4. **Comfort**—More pliable than leather, Mirage flexes to your body's contours for better fit and feel.
5. **Cleaning**—A damp cloth is all it takes. And spilled blood won't seep into the pores of the Mirage material, so there's no threat of pathogens remaining behind. It's easy to decontaminate with bleach water.
6. **Odor**—Mirage doesn't absorb body odor, perfume or other odors. Nor will it rot, mildew or wear away your gun's bluing.

Mirage Plain

Mirage Basketweave

Cordura

Our pioneering use of multi-layer laminates and Cordura® nylon assures benefits you just can't get from nylon alone!

1. **Appearance**—The bonded foam creates clean lines and long-lasting good looks, while the Cordura® exterior provides a professional, non-reflective surface.
2. **Performance**—Your duty items are properly supported and immediately removable—even under stress—thanks to the use of hardened inserts.
3. **Durability**—All materials used in our line resist abrasion and wear and protect your sidearm, radio, cuffs and chemical canisters from harm.
4. **Weight**—Your rig weighs less, so it's less tiring for you to wear. Your back and hips will welcome the change.
5. **Comfort**—Soft flaps, flexible bound edges and backwalls won't poke or cut into you. You'll be more comfortable at work and less fatigued at the end of your shift when you wear Uncle Mike's gear.
6. **Cleaning**—A damp cloth will work for most stains, while a soft nylon brush and water lifts out stubborn stains.

# PRO-3 in service worldwide

## PRO-3® and Dual Retention Tactical Holsters

Adverse conditions require a tactical holster you can rely on in every situation. Uncle Mike's Law Enforcement lets you choose between our triple retention PRO-3 and our steadfast Dual Retention holsters. Whichever holster you choose, we mount it onto our new double strap tactical platform—creating an effective rig that carries well and is extraordinarily stable.

**The Holsters:** The PRO-3 has an independent internal locking device that provides positive retention under all conditions. The injection-molded Thumb Break and Retention Strap will not stretch over time. Our PRO-3 is popular with police high-risk units and is also used by Force Protection and specialized military units. Our Dual Retention offers two retention devices and fits most standard duty needs.

**The Platform:** Our tactical platform has two leg straps, which increases stability and rigidity. The platform is injection-molded for solidity. Leg straps stay put, due to a rubberized inlay woven throughout. Straps buckle into place and are MOLLE-system compatible.

Double Strap Tactical Leg Platform

### Double Strap Tactical Platform

Our ultra-stable tactical holster platform is available separately, allowing you to convert your current holster into a tactical holster. Platform is injection-molded, MOLLE-compatible and has rubber-inlaid webbing on the leg straps.

## Everything to outfit your AR15/M16 tactical firearms

### 3-Point Tactical Sling

- Designed primarily for use with AR-15-type patrol rifles but this 1 1/4" nylon web sling will also clip onto M16's, M4 Carbines, HK MP5's and a number of police and combat shotguns.
- Length is adjustable; sling converts easily from a carrying to a shooting sling.

#2699-2

3-Point Tactical Sling attaches quickly to the rifle buttstock and fore end

### Mil-Spec Swivel Set QD SS MIM

- Developed at the request of the U.S. Military, these 1 1/4" Mil-Spec Parkerized swivels were designed to meet their strength and surface treatment standards.

Set No. 1402-3

### AR15/M16 20-Round Magazine Case

- Compact Double Mag Case doubles as a 20 Round .223 Mag Case.
- Low profile is perfect for patrol division applications.
- Only 3 inches wide; takes up little room on the belt.

Cordura #8895-1

### QD 115 AR15 Swivels

Two Super Swivels plus special fore-end adapter replace factory loops on Colt AR-15.

Set No. 1090-2

### Dual 30-Round Buttstock Mag Carrier

- Designed at the request of several major tactical units.
- Pouches are set "low" so they will not interfere with the shooter's "cheek weld".
- Magazines are easily removed even with the firearm in the mounted position.

Cordura #8848-7

# Sling converts quickly from carry to shooting mode

## Tactical Shotgun Sling with Sewn-On Swivels

- 1¼" nylon web tactical sling includes Uncle Mike's® 1¼" QD® swivels.
- Flip-open snap converts sling from carry mode to shooting mode.
- 48" length easily adjusts with snap open or closed.

#2699-3

A complete line of Law Enforcement slings can be found on page 26

Unsnap to lengthen sling, swing forward

Raise to shooting position

Sling tightens over bicep, anchoring gun

Also use as hasty sling

## Our Tactical Accessories give you many carry options

### Double Strap Tactical Platform

Our ultra-stable tactical holster platform is available separately, allowing you to convert your current holster into a tactical holster. Platform is injection-molded, MOLLE-compatible and has rubber inlaid webbing on the leg straps.

#5700-0

### Off-Side, Load-Bearing Accessory Harness

- Free-standing model designed to be worn on the leg opposite the one carrying the firearm.
- Puts accessories directly under the officer's hand.

#9958-1

Harness and Leg Platform only—Accessories not included

### Leg Mounted, Load-Bearing Accessory Harness

- Fits PRO-3®, Kydex and Dual Retention Tactical Holsters.
- Carry accessories down on the leg—where they're comfortable, out-of-the-way and still within reach.

#9958-0

### Magazine Case

- Fits all magazine sizes.
- Gives better access because it positions magazine case on leg harness rather than on holster.

#9957-1

### Light Carrier Cases

- Carries clip-on tactical lights for pistols.

Cordura #8853-1  
Mirage Plain #7453-1  
Mirage Basketweave #7453-2

# Uncle Mike's makes Kydex affordable!

If you've always wanted the performance and durability of true Kydex®, but thought you couldn't afford it, think Uncle Mike's®. Instead of using the standard process of taking sheets of Kydex and hand-molding them around a form, we injection-mold our Kydex to create custom-fit holsters with precision measurements at a price that's more affordable than most other holsters!

## Kydex Paddle Holster

Customer demand drove us to introduce this holster. It's been a winner because it can do so much. We designed our paddle holster for carry—it's comfortable against the hip and the venting aids air circulation to minimize perspiration. Plus it's adjustable for rake and height, so you can tailor the holster position to better match your torso height and body type.

- Drawing is easier because the body's lead edge is cut down.
- An excellent choice for both men and women.

Kydex Paddle Holster

## Kydex Belt Holster

Designed to ride close to the body at a mid-level height, this holster is an excellent choice for IDPA.

- Nearly vertical rake allows for conventional behind-the-hip carry. Can be used as an appendix carry.
- Cut-down lead edge aids in presentation of firearm.
- Fits belts up to 1 3/4".

Kydex Thumb Break Belt Holster

Kydex Thumb Break Paddle Holster

## Kydex Thumb Break Holster

With both an adjustable thumb break and tension screws, these holsters meet the requirements of agencies or municipalities where a thumb break is required.

- Available in Paddle or Belt Loop formats.

Hi-Lo Adjustment—Paddle lets you adjust holster height to fit body contours for best concealment.

Enhanced paddle design holds even more solidly. For 2006, we re-engineered our paddle to help it stay more solidly against the interior of your pants and your belt, without compromising comfort. Newly developed wedges provide additional resistance to solidify your holster's hold.

## Kydex paddle holsters cant options

Butt Forward behind-the-hip position

Vertical position

Muzzle Forward position for crossdraw

## Kydex Retention Holster

Our Kydex Retention holster is a brilliant combination of Kydex strength and dual retention. Perfect for Close Quarter Combat operations, this Kydex holster retains your firearm, even if someone tries to grab it. Engineered with the same retention device as our Uncle Mike's Law Enforcement dual retention duty holsters, this holster also takes safety to a new level with its release that aligns your finger along the frame of the firearm, rather than on the trigger—preventing accidental discharges. This holster is a great choice for concealment and undercover operations.

### **NEW** Kydex Retention Holster with MOLLE Platform

This system includes both a Cordura MOLLE-compatible platform and a Kydex injection-molded plate. Utilizing both the plate and the platform together allows you to mount an Uncle Mike's Law Enforcement Kydex holster anywhere you need it on a MOLLE-compatible system. By dismantling the plate from the platform, you can attach any Uncle Mike's Law Enforcement holster to a Molle compatible vest system. Holster can be mounted in a vertical or angled position.

- Size 20 #6820-1 Right handfits most Beretta 92 & 96 Models
- Size 21 #6821-1 Right handfits Glock 17, 22, 19, 23
- Size 22 #6822-1 Right handfits Sigarms 220, 226

# Decades of experience helps us design superior concealed carry options

Uncle Mike's® knows concealed carry. After working for decades with law enforcement agencies and understanding what works for undercover officers, we've been able to develop what is arguably the best and widest selection of concealed carry holsters on the market today. From inside-the-pant to ankle to belt pouches, you're certain to find the size and carry option that works best.

## The ultimate in concealment

### Inside-the-pant holsters

- Unique, ultra-thin four-layer laminate no thicker than conventional suede leather holsters.
- Internal moisture barrier won't transmit perspiration to firearm.
- Smooth nylon lining for easy draw.

Inside-the-Pant Holsters

	L	8936-2	7636-2	

Inside-the-Pant holsters are offered in two styles; Open Style as shown here, or with Fold-over Velcro® retention strap

Suede-like exterior helps anchor holster inside pants or skirt

Belt clip slips over pant top & belt to hold gun securely and anchor firearm for positive draw

Fold-over Velcro retention strap releases quickly with thumb and meets requirements of many jurisdictions

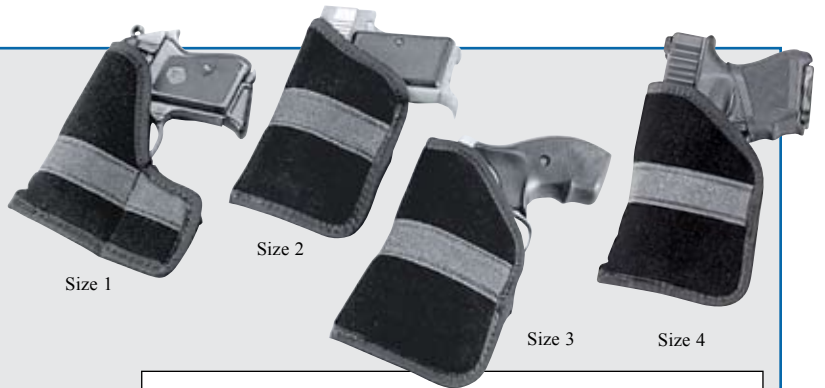

Please see our holster fit chart on page 46-47.

## Excellent protection for firearm and clothing

### Inside-the-Pocket Holsters

- Laminated construction lessens print-through recognition, cushions the wearer's leg from sharp contours of the firearm, and provides a barrier against perspiration.
- Open-top holster provides grip-up positioning and prevents the movement of levers, buttons or catches that are common to loose pocket carry.
- Non-slip material band surrounds holster body to retain holster in pocket when firearm is drawn.

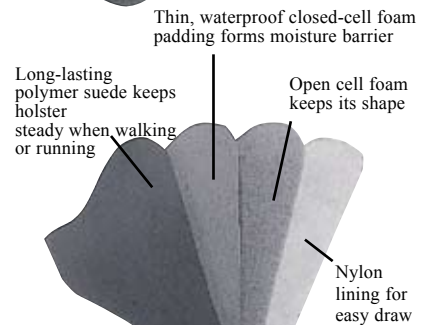

Gun rides upright for a clean draw and is protected from lint and debris inside pocket

SIZE	ITEM NO.	FIT INFORMATION

Holsters are Constructed With a Unique Four-Layer Laminate

Inside-the-Pant Inside-the-Pocket Belly Band/Body Armor

### Concealment Vest Holster

- Completely covered on both sides with Velcro hook, this nylon holster is intended for use in vests and other garments with compatible Velcro loop mounting surfaces.
- Holster can be positioned to facilitate popular drawing techniques, and fits most autos and revolvers. Comes with a Velcro overstrap.
- Integral front pocket accommodates most spare magazines and clip-on pocket knives or flashlights.

#8745-8

### Sidekick Ambidextrous Hip Holsters

Fully ambidextrous holster easily converts from right to left-handed.

- **Two holsters in one**—Wear as a belt holster (fits belts up to 2 1/4" wide) or an inside-pant holster, just by reversing the belt clip.
- **Secure**—Non-stretch Velcro® retention strap and molded thumb break keep your firearm secure. Holster includes a Strap Trap™ adjustment tool.
- **Durable**—Constructed of our patented Sidekick laminate of Cordura® nylon. Padded, waterproof interior holds the firearm snugly. Spring steel belt clip is powder coated for rust and corrosion resistance.

Removable and reversible belt clip

#### Sidekick Ambidextrous Hip Holster Sizing

SIZE R/L	ITEM NO.	FIT INFORMATION
1	7001-0	3 - 4" barrel medium autos
2	7002-0	3 - 4" barrel medium and large double action revolvers

# Pouches and Fanny Packs offer versatility for informal concealed carry

## Gun Pak™ Belt Pouch Holsters

Specifically designed for discreet handgun carry, the Uncle Mike's® Gun Pak™ utilizes an innovative hidden rear compartment that allows for a quick, smooth draw. The gun compartment is accessed first through a zippered top and then through a Velcro® closure. The unique design of the Gun Pak allows you to open the center compartment without exposing the firearm, making it an ideal choice for off-duty carry. Fits on any belt up to 2 1/4" wide.

- **Handy**—Enough room to carry sunglasses, a wallet and ID—in addition to a concealed firearm.
- **Discreet**—Black Gun Pak attracts no more attention than a conventional fanny pack.
- **Original size:** 8" w x 5 1/2" h x 1 5/8" d. Carries most small and medium frame pocket autos, compact 9mms, and small frame 2" to 3" barrel revolvers.
- **Federal size:** 8 3/4" w x 7" h x 1 5/8" d. Carries most medium and large frame autos and many medium frame short barrel revolvers.

Original #8889-1      Federal #8889-5

Reach front compartment without exposing firearm in rear

Quick access to firearm in rear compartment

Divided compartments, plus outside pocket

## GunRunner® Fanny Pack Holsters

The GunRunner® is an unassuming Fanny Pack holster designed to accommodate all basic firearm sizes. Like the Gun Pak, its lack of an internal holster allows a quick, smooth draw and, more importantly, a one-handed return.

- Generic-appearing black belt pack has 3 zippered compartments.
- Reholster with one hand to secure gun and wipe Velcro shut—all without taking your eyes off surroundings.
- All-Velcro back panel and a 12" strap included to position and secure firearm.
- Tough, 1 1/2" wide adjustable nylon web belt with quick-release buckle.
- **Small size** is 11 1/2" x 5 3/4". Holster compartment fits small frame 2" barrel revolvers, most .380 autos and some sub compact 9mm or .40 autos. **Medium size** is 12 1/2" x 6 1/8". Holster compartment fits compact 9mm, .40 and .45 autos, 2" - 3" barrel medium revolvers and most full size service pistols.
- **Large size** is 12 1/2" x 7". Holster compartment fits larger autos and 4" barrel revolvers.

Small #8872-1

Medium #8873-1

Large #8874-1

Velcro belt loop on rear secures GunRunner to belt if desired

## Briefcase with Hidden Holster

This is the perfect commuter briefcase because it gives you unsurpassed security. Although it looks like an ordinary briefcase, this Uncle Mike's model is completely different because it gives you ready access to a hidden holster built right into the interior.

- Internal holster can be adjusted for most handguns and positioned to facilitate most drawing techniques.
- Firearm is easily reached, even with flap secured and the rear compartment closed.
- Conventional in appearance, this expandable briefcase has a multi-use front panel and large interior pockets. Full-flap cover secures with two quick-release buckles to keep all interior contents secure.

#5255-1

**One-way Velcro solidly holds our retention straps** Non-stretch retention straps and molded thumb breaks—available on most Uncle Mike's Law Enforcement concealment and shoulder holsters—utilize an improved Velcro material for better performance. The molded, uni-directional teeth grab onto the loop material in just one direction, keeping your retention straps from slipping. The result is a tight, solid hold that can be easily pushed into place.

Draw your firearm directly through the Velcro®-sealed opening at the front of the bag

# More choices for concealment... belt holsters that really stand up!

## Super Belt Slide Holsters

Optimum for concealed carry because of the flattened profile. Plus, the medium-high-ride design positions firearm for a smooth draw. 3-slot design on all configurations (except PRO-3®) allows for crossdraw, dual position or strong-side carry.

- Extra-thin laminate has minimal thickness and conforms to body contours for comfort and concealment.
- Thumb break and retention strap are both protected by Strap Traps™ to prevent straps from detaching and to prevent chafing. Adjustment tool included.

## PRO-3® Super Belt Slide Holsters

Our triple retention design makes this holster a great choice for concealed carry. Choose from Cordura® or plain Mirage® finishes.

Interior view of the PRO-3 Super Belt Slide Holster

Cordura nylon has a woven rugged appearance. It's abrasion-resistant and water-resistant. Super Belt Slide Holster pictured above.

## HiddenHammer™ Super Belt Slide Holster

If you've had problems finding a holster that works for your firearm with a concealed, shrouded or spurless hammer, we've got the solution with our Hidden-Hammer™ Super Belt Slide holster.

- Holds 2-inch 5-shot revolvers, using an internal retention mechanism, similar to that patented on the Uncle Mike's professional PRO-3 holster.
- Internal locking device fits into revolver trigger guard. A separate, sewn-down retention strap fits positively over firearm frame.
- Right hand only.

Size 40 #6340-1

MIRAGE nylon looks like leather and wears like steel. Easy to clean, it'll look great for years.

### Super Belt Slide Holsters

## Side Bet™ and Baby Bet™ Belt Slide Holsters

Now you have a choice for carrying very small revolvers and autos. Our Side Bet™ and Baby Bet™ carry the firearm at a butt forward angle, making them ideal for strong side concealment.

- Ambidextrous design. Just reverse thumb break and retention strap to change from right to left.
- Nylon web belt loops on both sides fit belts up to 1 1/2" wide.
- Side Bet fits most autos and revolvers.
- Baby Bet fits .22 and .25 autos and very small frame .380s.

Side Bet #8690-0

Baby Bet #8690-1

Baby Bet for baby autos

Side Bet for most handguns

## Our most versatile holster

### Paddle Holsters

- Paddle adjusts for vertical, butt-forward or muzzle-forward (cross draw) carry.
- Molded offset spacer adjusts holster height to accommodate various body types, torso lengths, gun butt configurations and modes of dress.
- Paddle made of semi-rigid material that conforms to hip for comfort & concealability.
- Offset spacer and vertical adjustability make this a great holster for women.
- Thin Cordura® laminate reduces bulk.
- Holster completely encloses triggerguard and features a non-stretch retention strap and molded thumb break.
- Offset spacer keeps gun off of hip structure and parallel to centerline of body.

Hi-Lo Adjustment—offset spacer lets you adjust height of paddle to fit body contours for best concealment

## Great value and full features make this holster a winner

### Hip Holsters with Thumb Break

We thought of everything in this Cordura nylon holster, including features not found in more expensive holsters:

- A great choice for officers on inside duty, security officers and institutional personnel.
- Can be used on a duty or dress belt, thanks to a dual-slot belt loop.
- Patented laminate construction makes holster waterproof and protective. There's even a sight track for protecting the front sight.
- Molded thumb break and non-stretch retention strap assure safety.
- Strap Trap™ Technology included.

Strap Trap™ innovation assures adjustability and staying power

Many Uncle Mike's nylon holsters, including Pro-Pak and Paddle Holsters, benefit from our Strap Trap technology, which keeps thumb breaks and straps from stripping away. This exclusive technology not only assures your adjustment will stay put, it also helps prevent chafing that can occur without such technology. All holsters with Strap Trap include a tool to make adjustment quick and easy.

# Pro-Pak Holsters and the art of concealment

## Your personal carry and drawing style are accommodated

For everyday wear, Uncle Mike's® Pro-Pak® holsters are unbeatable. Developed for simplicity and wearability, our Pro-Pak holsters weigh just ounces, but are engineered to hold up to the stresses of every-day firearm carrying and are ergonomically designed for comfort.

Pro-Pak holsters lay flat against your body, making them an excellent choice for use under jackets. Constructed of an extra-thin laminate with

a Cordura® nylon outer shell, the Pro-Pak doesn't print, thanks to a smooth nylon lining that protects your firearm's finish and aids in drawing and reholstering.

Developed for professional detectives, Pro-Pak holsters are now widely used by people outside of law enforcement because they fit the bill for durability and ease-of-wear.

### Pro-Pak Horizontal Shoulder Holsters

- Horizontal carry for a fast draw and lightweight comfort.
- Offside tie-down has single mag case for autos or single speedloader case for revolvers.
- Weight: (Size 15) 6.3 oz.

Most popular of the three Pro-Pak models

## Accessorize your Pro-Pak Holster with these cases

### Double Magazine Case

Can be carried vertically or horizontally.

#7790-1

Back snap attachment

### Open Handcuff Case

This one-piece design assures a fast draw. Just pull on cuffs to break snap open. Reholster cuffs with one hand. Attaches horizontally to the off-side tie-down strap, below the double mag case for both the Vertical and the Horizontal Shoulder Holsters.

#7792-1

### Universal Radio Case

Fully adjustable to hold any handheld radio. Radio can be carried with antenna up or down. Offers a quick release buckle to make access to the radio both easy and secure.

#7793-1

# Nylon duty belts for every uniform, every kind of duty

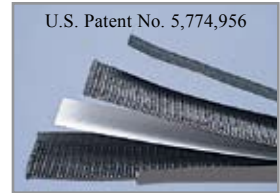

For lightweight flexibility and comfort, nothing compares to our line of duty belts.

Uncle Mike's Law Enforcement® offers four styles of belts in three finishes of nylon and MIRAGE®-laminated nylon to match our duty accessories and holsters. Our duty belts are tough, lightweight, flexible and offer such features as triple retention buckles for security, layered construction for durability and advanced Velcro® for fit.

Your duty belt is the platform on which you carry all your vital tools into the field. Your choice of duty belt is as important as your choice of holster or service firearm. Make sure you choose Uncle Mike's Law Enforcement.

Triple Retention Buckle

U.S. Patent No. 5,774,956

## Duty Belts

Nylon Web Ultra® Duty Belt

MIRAGE Plain Ultra® Duty Belt

### Ultra® Duty Belt

- Designed and constructed of a double layer of tough 2" nylon that minimizes bulk and maximizes comfort with its padded edges. The entire belt is stiffened with polymer for support.
- All belt finishes share the same construction, based on sturdy nylon webbing. Leather-look plain and basketweave finishes are added to all MIRAGE models.
- Rigid enough to support duty gear, yet flexible for comfort.
- All belts have Velcro lining to mate with Ultra and Loop-Back Inner Duty belts; nylon web model is also available without Velcro.
- Edges of web belts are finished with smooth nylon to prevent snagging and cutting into your side; MIRAGE models have rolled edges.

### Deluxe Duty Belt

- Designed for light to moderate use, this lightweight belt is nearly as rigid as many heavy leather belts.
- Made of a double layer of tough 2" nylon web for comfort and support.

Other sizes of Ultra Duty Belts are available by Special Order only

## Inner Duty Belts

### Ultra Inner Duty Belt

- Adds even more stability for times when you're carrying a lot of gear.
- 1½" wide double layer nylon web with bound edges and Velcro sizing adjustment.
- Outer surface has full length of Velcro loop to mate with Velcro hook on Ultra or Duty Belts.
- Reversible for administrative wear.

### Deluxe Inner Duty Belt

- Made of a single thickness of sturdy 1½" nylon web.
- Velcro-adjustable.

### Loop Back Inner Duty Belts

- Reversible belt can be worn nylon side out for dress use.
- Loop back system with Nylon Loop and Velcro fastening permits easy tightening and superior strength in a low-profile configuration.
- Constructed of 1½" nylon web covered with Velcro loop to mate with Velcro hook on Ultra Duty Belts.

### Reinforced Instructor's Belt

- Styled after traditional rescue or "riggers" belt.
- 1 1/2" width allows for wear with khakis and jeans, as well as BDUs.
- Polymer reinforcement is sandwiched between two layers of rigid nylon, to support even the heaviest pistol.
- Works great at the range, in the squad room or on a casual day off.

Medium	32" - 36"	#8767-1
Large	38" - 42"	#8768-1
X-Large	44" - 48"	#8769-1
XX-Large	50" - 54"	#8769-2

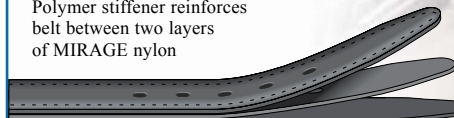

### Looks like a dress belt, but works like a holster belt

#### Reinforced Holster Belt

- Smart dress belt appearance, with the rigidity to support even the heaviest handgun.
- Laminated construction sandwiches a polymer stiffener between two layers of MIRAGE® nylon.
- Belt remains flexible and is no thicker than an average leather dress belt, yet provides a good platform for carrying a holstered handgun, radio and other accessories.
- Black belt is 1 1/4" wide.

Polymer stiffener reinforces belt between two layers of MIRAGE nylon

### PRO-3® Triple Retention Buckle

All Ultra and Deluxe Duty Belts utilize our patented PRO-3 Triple Retention Buckle. The top, bottom and center releases must be used together to open the buckle. Easily done with one hand, this reduces the possibility of accidental opening or opening under attack. The buckle is contoured to fit closely and comfortably against your body. Please contact us for more information.

## Keep your duty and inner belt together with Uncle Mike's Belt Keepers

Uncle Mike's Law Enforcement Belt Keepers are designed to lock the duty belt and the inner duty belt together. Tough, no-wear, no-glare snaps stay secure despite the most rigorous activity. Comes in sets of 4.

### Molded Belt Keepers

- Best on the market because they're more flexible than hardened plastic belt keepers.
- Molded polymer won't stretch out of shape, crack, fray or fade with age like other web belt keepers can.

Molded for 2" belts	#8865-3
Molded for 2 1/4" belts	#8865-4
Basketweave molded for 2" belts	#8865-7
Basketweave molded for 2 1/4" belts	#8865-8

### Nylon Web Belt Keepers

- Resist stretching or fraying.

|----------------------------|---------|
| Nylon web for 2" belts     | #8865-1 |
| Nylon web for 2 1/4" belts | #8865-2 |

### Key-Per™

- Special belt keeper with hidden cuff key.
- Molded and nylon web models for 2" belts.
- Matches Uncle Mike's keepers shown above.

Nylon Web Key-Per	#8865-5
Molded Key-Per	#8865-6

### Duty Suspenders

Transfer the weight of the duty rig from your hips to your shoulders to prevent lower back injuries.

- Fully adjustable front and rear, with a special cross piece in back that adjusts as you move.
- A break-away snap design helps defeat grabbing.

Sm/Med	Fits up to 40" chest	#9120-3
Lg/XL	Fits 42" and up chest	#9120-4

Break-away snap design

# Designed for function and durability

## Fitted Pistol Magazine Cases with Protective Inserts

For long lasting, hard working mag cases that really look professional on your duty belt, you can't beat Fitted Pistol Magazine Cases from Uncle Mike's Law Enforcement®.

All of our mag cases offer:

- Hardened inserts that are rigid on the sides, front and bottom for maximum protection.
- Separate compartments for each magazine.
- Separate internal devices retain each magazine.
- Soft-molded belt loop for belts up to 2 1/4".

Open top models also provide:

- Increased retention of the magazine.
- Direct access to the magazine.

Flap models have:

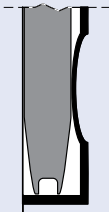

- Padded, reinforced flaps with knit lining to cover and protect magazine.
- A nylon stiffener in the flaps makes them easier to open and helps them keep their shape after continued use.
- Versions for both single and double row, metal and polymer mags in 9mm, .40 S&W, 10mm and .45ACP.

A Guide to the special features of our Law Enforcement mag cases

Molded Insert

Internal Tensioning Device

**Reinforced Flaps on Belt Accessories**  
A layer of polymer has been added to the laminate of the accessory flaps. This construction helps avoid crushing and allows flaps to retain their shape, despite continued use.

Quad Case w/Flaps for Single Row Mags	8837-4	—	—

Double Cases, Divided Double Cases and Quad Cases can be carried either horizontally or vertically. Single Cases are designed for vertical carry only.

Fitted Pistol Magazine Cases with Insert  
Divided Double Cases have traditional separated compartments to facilitate grip on magazines.

Open Top Single Magazine Case with Insert

Fitted Quad Magazine Case

### SlimLine™ Dual Magazine Case

- Originally intended for smaller waistlines, this mag case can also be used on load-bearing tactical leg platforms, in plainclothes use for carrying two mags as conveniently as one, in specialty units that need maneuverability, and in uniform duty where space makes it easier to access the equipment under stress.
- The SlimLine Dual Mag Case is 2/3 the width of our standard models.
- Case is designed for metal or polymer, double-column, 9mm or .40 S&W magazines.
- Separate compartments with independent tensioning devices protect and retain the mags.
- Case uses a molded "Dual Slot" belt loop for either dress or duty belts up to 2 1/4".

Cordura

#8894-1

### Police Wallet Badge Holder

- Long-lasting police wallet constructed of Cordura nylon.
- Currency and credit card compartments.
- Window for I.D. holds card up to 2 1/2" x 3 1/2" (64mm x 89mm).

#8856-1

# Universal Pistol Magazine Cases work with every magazine and other field tools

Use these universal cases not just for mags, but also for holding knives and multi-purpose tools. All have a protective knit interior laminated to a closed-cell foam laminated to a Cordura® outer shell.

## Large Frame Glock Single Mag Case

Fits Glock 10mm or .45ACP magazines, polymer HK .45 mags and larger folding knives. Fits belts up to 2 1/4" when carried vertically or belts up to 1 1/2" when carried horizontally.

#8819-1

## Universal Double Mag Case

Can be carried both horizontally or vertically. Fits most standard single and double row metal and polymer mags in 9mm, .40 S&W, 10mm, and .45ACP. Fits belts up to 1 1/2".

#8829-1

## Single .380 Mag Case

Fits single row .380 magazines, single row compact and subcompact 9mm magazines, small folding knives and multi-purpose tools. Vertical carry only on belts up to 2 1/4".

#8893-1

## Universal Single MagCase/ Undercover Single Mag Case with Belt Clip

Fit most standard 9mm, .40 S&W, and single row 10mm and .45ACP metal magazines and mid-to-large police-type knives. Undercover model has belt clip allowing it to be worn on most dress belts.

Universal Single Mag Case #8832-1  
Undercover Single Mag Case #8824-1

## Fitted Speedloader Cases

- Reinforced flaps have nylon stiffener for easier opening; no-glare, no-wear snap closures.
- Accepts most popular .38 and .357 speedloaders including Safariland® and HKS (not for N-frame or Ruger Redhawk).
- Cases fit belts up to 2 1/4".
- Molded insert holds speedloader upright; makes it easier to remove.

Single Cordura #8830-1  
Double Cordura #8831-1  
MIRAGE Basketweave #7431-2

## Universal Speedloader Cases

- Sturdy Cordura nylon cases hold most speedloaders from .38 to .45 Colt; fit belts up to 2 1/4".
- Closed-cell foam padding and knit lining; flaps have Velcro closure.
- Double model has Cordura divider to keep speedloaders apart.
- Single case fits TASER cartridges.

Single Cordura #8827-1  
Double Cordura #8828-1

# Uncle Mike's offers more variety in flashlight holders

We offer cases for the most popular police and professional-grade flashlights, including Streamlight® Scorpion®, Strion™, and Stinger® models, and Pelican® and SureFire® models.

## Light Cases

- Molded belt loop fits belts up to 2 1/4".
- Choose open or closed designs depending on flashlight design. On closed designs, a reinforced flap protects the flashlight from damage. A no-glare, no-wear snap secures the flap.
  - Available in Mirage® or Cordura® nylon finishes.

## Leave it to Uncle Mike's for the best innovations in handcuff retention

### Handcuff Cases

- Innovative one-piece design limits bulk and allows for additional reinforcement from flap to back wall.
- Fast, easy gripping is assured, thanks to a low-cut front wall. Reholstering is easy, too.
- Works with plainclothes applications as easily as uniformed.
- Narrow width uses a minimum of belt space.
- Dual slot belt loops on all models except the open top belt clip allow wearer to move the case to either dress or duty belts up to 2 1/4".
- Open top belt model comes with a strong clip for easy fit on dress belts and waistbands.

### SlimLine™ Dual Retention Cuff Case

- No bigger than our Single Duty Cuff Case with Flap.
- Cuffs are better protected due to a "pull-through" internal fastener.
- Produce cuffs simply by opening the flap and pulling them through.
- Ideal for special response teams, bike and motor patrols, marine units and natural resource departments.
- Works with conventionally sized cuffs from S&W, Peerless, American Handcuff and Hyatt.

See our Handcuff Fit Chart on Page 44.

## Aerosol Chemical Agent Cases

- Perfect for keeping personal chemical agents right at your fingertips. Four sizes will fit pocket, mid-size and 1 1/2" diameter canisters.
- Works for conventional duty and larger canisters of most popular agents, including CS, CN, Mace, Pepper Mace, Cap Stun and Punch.
- Polymer insert in medium and large models prevents canister denting; smooth lining preserves canister markings.
- Foam spacer on medium and large cases accommodates canisters with over-sized nozzles.
- Fits belts up to 2 1/4".

## IMPROVED FOR 2006!

We've upgraded the attachment system for our Chemical Agent case by adding a metal clip, increasing the durability.

\* Will accept fogger handle

Belt Clip Model

Medium and large models have an impact-resistant insert to protect canister from damage.

## Expandable Baton Holders

- Injection-molded for durability.
- Same tension arm principle as in our magazine pouches—keeps baton in place.
- 16" model retains previous flexible design with body made of Cordura.
- Holders have hole in back to permit holstering fully extended baton.

Rear slot allows open baton to be reholstered under stress

# Trust Uncle Mike's to protect your important communications tools

Radios and phones are life lines for our customers; that's why we design our radio cases and other belt cases to stand up to the rigors of field use. Whether constructed from our signature Mirage® laminate or extra tough Cordura® nylon, we've engineered strength and long life into all our communications carrying products. With Uncle Mike's® you can assure your radio and phone are always there when you need them.

## Laminated Radio Cases

- Padded to protect against the day-to-day abuse of striking the handheld radio against steering wheels, desktops and door frames.
- Two configurations—Swivel Belt Loop and Fixed Belt Loop.

Laminated Radio Case

## Fitted Handheld Radio Cases with Insert

- Cordura nylon outer cover with rigid polymer insert for protection.
- Ideal for bicycle, motorcycle, tactical and specialized unit applications where severe abrasion is possible.
- Fitted with a swivel belt loop, case can be detached quickly from the belt loop simply by rotating radio.

Fitted Handheld Radio Case with Insert

## Universal Radio Case

- Available in both fixed belt loop and swivel belt loop for easy removal of case.
- Fits most police, fire and business-band radios.
- Nylon web and Velcro® construction adjusts the height, width and depth of the case to fit your specific needs.
- Excellent for agencies with mixed inventories or hard-to-fit designs.

## Slings For Law Enforcement

### Tactical Shotgun Sling

with Swivels

- 1 1/4" nylon web tactical sling with sewn-in swivels. See page 9 for details.

### Mountain Sling

- 1 1/4" nylon web sling with Super Swivel® sewn on both ends; non-slip lining.

### Utility Sling

- 1" nylon web with adjustment buckle.

### Ultra® Sling

- Padded Cordura® 1" nylon sling.
- Stitched, quilted non-slip shoulder pad.

### Rifle Cartridge Sling

- Padded 1" nylon sling carries 6 cartridges.

### Shotgun Cartridge Sling

- Carries 4 shells vertically.

### Leather Military Sling

- Designed for shooting accuracy in prone or kneeling position.

### 3-Point Tactical Sling

- Converts easily from a carry to a shooting sling. See page 8 for details.

# Swivel Sets

## Premier Swivel

For decades, Uncle Mike's has led the way with our full line of QD® Quick Detachable Sling Swivels. Drawing from the enhanced safety of our patented screw-down Super Swivel and the enhanced performance of our solid loop Mil-Spec model, the Premier Swivel is low profile, strong and silent. Covered by the sling to which it attaches, noise and glare are all but eliminated.

Set No. 1400-2  
LoPro Patent No. 6,536,154

## Mil-Spec Swivel Set

QD SS MIM  
Developed at the request of the U.S. Military, these 1/4" Mil-Spec Parkerized swivels were designed to meet their strength and surface treatment standards.

Set No. 1402-3

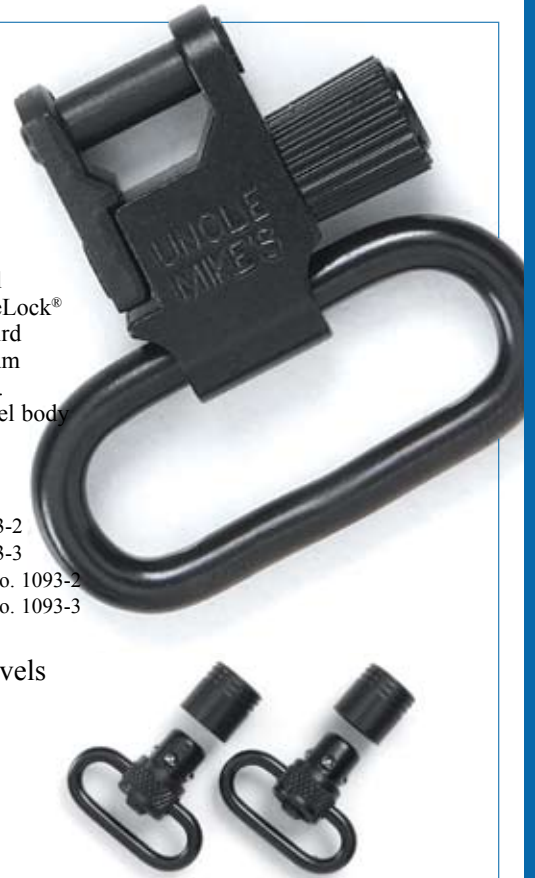

## Tri-Lock® Swivel

The registered Tri-Lock® represents another advance in QD Quick Detachable Swivel design by Uncle Mike's. Building upon the closed link of the original QD Swivel and the patented SwiveLock® of the Super Swivel, this adds a third locking mechanism to offer optimum security against accidental opening. Tri-Lock also stops the metal swivel body from contacting the gun to reduce noise transmission.

QD SS BL  
1" Loops – Blued Set No. 1403-2  
1/4" Loops – Blued Set No. 1403-3  
1" Loops – Nickel-Plated Set No. 1093-2  
1/4" Loops – Nickel-Plated Set No. 1093-3

## Push Button Detachable Swivels

QD 100  
Special flush-mount front and rear bases for stud-free profile when sling and swivels are removed.  
Set No. 1011-2

## Slotted Sling Mount QD Swivel Assembly

- Attaches QD Swivels to slotted mounts on specialty shotguns.
- Allows conventional mounting of sling.
- Eliminates "roping" or gathering problems common to slotted designs.

Set No. 1089-2

## QD Magazine Cap Swivel Sets for Pump and Auto Shotguns

These swivel sets include a replacement magazine cap with a swivel base for most pump and auto shotguns.

## Swivels for Police Shotguns

### QD 115 UPSFL

For shotguns with flashlights. Two Super Swivels plus special mounting bracket for Remington, Mossberg and Winchester pumps with extended magazines. Bracket holds a 1" diameter flashlight such as the Sure Fire® L-30.  
Set No. 1673-2

### QD 115 UPS

Two Super Swivels plus hardware for Remington 870P Shotguns with factory and after-market extended magazines.  
Set No. 1671-2

### QD 115 UPS II

Two Super Swivels plus hardware for Mossberg 500 and 590, Remington 1100 and 11-87, and Winchester 1200 and 1300 with factory and after-market extended magazines  
Set No. 1672-2

## Cartridge Slides

- Keeps your ammunition organized.
- Fit all belts up to 2 1/4".
- Shell loops made of sturdy elastic sewn to tough nylon web backing.

Handgun (6 loops) #8840-1  
Shotgun (6 loops) #8847-1  
Rifle (10 loops) #8841-1

## Folding Handgun Cartridge Carrier

- Keeps ammunition dry, protected and out of sight.
  - Lift Velcro® secured flap and the carrier with 12 loops folds down.
  - Fits all belts up to 2 1/4".
- Cordura #8844-1

# Take it with you! Uncle Mike's makes moving gear easier than ever!

All Uncle Mike's bags and gun cases are built tough to withstand all the needs of the police and military professional. We use the finest 1200 denier PVC-coated nylon fabric to offer superior scuff resistance and water repellency. All zippers are heavy duty and provide dual locking tabs to keep your gear secure. For outstanding durability at reasonable prices, trust Uncle Mike's bags and gun cases.

## Police Briefcase with Hidden Holster Compartment

- Looks like a conventional briefcase, but the hidden compartment inside gives you ready access to a holster velcroed into the interior.
- Internal holster can be adjusted for most handguns and can be positioned to facilitate most drawing techniques.
- Firearm is easily reached, even with flap secured and rear compartment closed.
- Conventional in appearance, this expandable briefcase has a multi-use front panel for pens, keys, etc. plus pockets that are large enough for conventional writing tablets. A full-flap cover that secures with two quick-release buckles keeps all interior contents secure.
- Soft molded carry handle and detachable shoulder strap.

# 5255-1

Draw your gun directly through the Velcro®-sealed opening at the front of the bag

## Deluxe Range Bag

This is THE bag you want for the range because it's a workhorse. Durable with ample storage, you'll be able to load this bag with everything you need for a day of shooting.

- Easy entry—A roll-up double-zippered flap with hook-and-loop fastener secures the main compartment.
- Easy carry—Bag features over-the-shoulder strap with quick-release buckles and two web-constructed carry handles make this bag easy to tote.
- Secure—A padded pistol rug is included and it fits in one of two lockable side compartments. The other compartment is thickly padded.

Black #5241-1  
Ranger Green #5241-2

Dimensions: Main compartment 15" w x 9" h x 7" d  
(381 x 229 x 178mm).

## Wheeled Duffel Bag

If you're going out into the field for an extended time, you'll need a bag with this much carry room to get you there. And because it's on wheels, you won't be straining your back to get all your gear there.

- Huge center compartment and padded top-end compartment. Two full-length zippered side compartments—one is conveniently divided in half, the other offers generous storage. All compartments have lockable zippers.
- Internal tie downs in large center compartment keep your gear secured.
- Radius urethane wheels provide maneuverability and easy transport, even with the heaviest loads.
- Polymer "pull" handle with metal legs collapses completely into molded recess for travel.

Black #5245-1

Dimensions: Center compartment is 13 1/2" w x 27 1/2" h x 14" d (343 x 699 x 356mm).  
Top-end compartment is 13 1/2" w x 13 1/2" h x 2" d (343 x 343 x 51mm).

Urethane wheels provide better maneuverability than older designs

## Car Seat Organizer

Move your gear from the car to the station without missing a beat with this handy car seat organizer.

- Perfect for people who share vehicles because it can store everything at your fingertips, and then be moved quickly to facilitate other drivers.
- Sits flat against the seat to make its main compartments quickly accessible. Store notebooks, pens, even a 1-liter water bottle right in the bag.
- Zippered front compartment keeps items secure.
- Great quality and innovation, especially when compared to similar carryalls at twice the price!

#5256-1

## Field Bag

- Roomy carry bag with removable hard bottom and dual zippers.
- External pouches at both ends—one with a zippered compartment for carrying I.D.
- Large front and rear external zippered compartments; front has divider.
- Three-sided zipper on main compartment allows full access while keeping bag upright.
- Wrap-around web handle and removable shoulder strap.
- Lockable zippers.

#5248-1

Dimensions: Center is 10" w x 20 1/2" l x 12" h (254 x 645 x 305mm).  
Ends are 10" w x 12" h x 3" d (254 x 305 x 76mm).  
Front/Rear is 20 1/2" w x 9" h x 3" d (645 x 229 x 76mm).

## Tactical Equipment Bag

- Holds nearly 3 cubic feet of gear. Perfect for helmet, vest, fatigues and other items.
- Water repellent and reinforced construction will stand up to abuse and rugged conditions.
- Lockable zippers.

Black #5249-1  
Ranger Green #5249-3

Dimensions: Main compartment is 26" w x 14" h x 10" d (660 x 356 x 254mm).  
Zippered side pocket is 22" w x 13" h x 3" d (559 x 330 x 76mm).  
Two zippered end pockets are 9" w x 11 1/2" h x 3" d (229 x 292 x 76mm).

## Police Equipment Bags

- Choose wheeled or carry bags, each with rigid bottom, front, back and end panels.
- Top is heavily padded.
- Handle collapses for storage and will fit in most police lockers.
- Lockable zippers.

Police Equipment Bag #5247-1

Wheeled Police Equipment Bag #5247-2

Original Police Equipment Bag

Wheeled Police Equipment Bag

305 x 12" w x 12" h x 9" d (229mm)

Dimensions: Main compartment is 18 1/2" w x 12" h x 7 1/2" d (470 x 191mm) on Original Bag. Wheeled Bag is 18 1/2"

## Compact Duffel Bag

- Choose from plain, Police or Sheriff versions.
- Clear plastic I.D. holder.

Plain #5244-1  
Police #5244-2  
Sheriff #5244-3

Dimensions: 12" w x 26" l (305 x 660mm).

## Tactical Bag with Shoulder Straps

- Use as a duffel bag or a pack. This sturdy pack stands up to the rigors of tactical conditions.
- Wrap-around web carry handle and two padded, adjustable shoulder straps allow multiple carrying options.
- Special reinforced bottom panel increases abrasion resistance and water repellency.
- Lockable zippers.

#5249-2

Dimensions: Main compartment is 12" w x 31" h x 18" d (305 x 787 x 457mm).  
One end compartment is two-tiered with a 10" x 10 1/2" (254 x 267mm) zippered pocket behind a 5 3/4" x 7" (146 x 178mm) Velcro-sealed front

## Tactical Rifle Cases

- Full-length zipper opens case out flat for better access. Tab and loop can lock bag open.
- Adjustable web shoulder strap.
- Zippered accessory pouch for storage.
- Large case has five magazine pouches, medium case has three.
- Quick access center pocket.

Medium #5212-1  
Large #5214-1

Dimensions:  
Medium: 33" w x 10" h (838 x 254mm).  
Large: 41" w x 10" h (1041 x 254mm).

Medium Tactical Case shown at left

Large Tactical Case shown below

## Tactical Submachine Gun Case

- Heavy duty case designed specifically for HK collapsible stock MP-5 and similar weapons with magazine attached.
- Case opens at end to insert gun barrel first.
- Six magazine pockets covered with three Velcro® flaps.
- Large flapped pocket provides storage for essentials.

#5210-1

Dimensions: 24 1/2" w x 13" h (622 x 330mm).

## Police Gun Cases

- Medium Shotgun Case is sized to carry police shotguns with barrels up to 22" and other guns up to 42" long.
- Rifle cases designed to carry scoped or unscoped rifles (3 sizes).
- Large pocket on exterior of case.
- Full length lockable zipper opens case flat for use as a shooting mat.
- Wrap-around web carry handles.
- Available in Black.

Medium Shotgun Case (up to 42" length) #5205-1  
Small Rifle Case (up to 40" length) #5200-1  
Medium Rifle Case (up to 44" length) #5201-1  
Large Rifle Case (up to 48" length) #5202-1

FULL PROTECTION GLOVES

# Protect your hands in every situation with Armor Skins!

## The perfect duty glove

### Leather Shooting Gloves

- Black leather gloves with Lycra® inserts for flexibility.
- Rugged but lightweight leather lets you feel what you're touching and permits writing without removing gloves.
- Knuckles covered with leather to protect hands from cold and abrasion.

Small #00100 X-Large #00103  
 Medium #00101 XX-Large #00104  
 Large #00102

## Great for range days or bicycle patrols

### Half-finger Leather Shooting Gloves

- Half-finger design with extended middle finger to protect against sharp trigger-guards and rollback effects of revolvers.
- Gel padded palm assures that trigger reach and aim remain intact.
- Dampens vibrations on bicycles.

Small #00110 X-Large #00113  
 Medium #00111 XX-Large #00114  
 Large #00112

## Excellent sensitivity, yet still protective during searches

### Neoprene Gloves

- Searching for small objects? These flexible gloves allow you to feel subtle surroundings, without giving up durability.
- Non-slip material on fingertips, except trigger finger.
- Adjustable wrist closure and reinforced leather palm add to wearability.
- All-weather durability, even in wet conditions.

# Clean your gun faster, easier and keep it clean longer

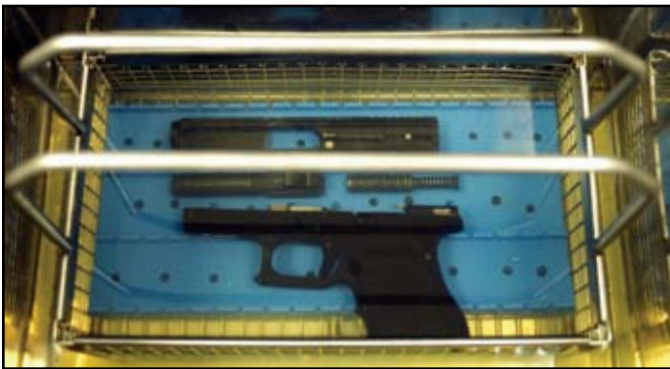

## Hoppe's Elite® Gun Cleaner

Hoppe's Elite Gun Cleaner cleans down to the pores, removing layers of fouling and embedded carbon that has been there since your gun's first firing. With continued use, Hoppe's Elite conditions your bore to resist additional carbon fouling—making gun cleaning easier and faster. In fact, using Hoppe's Elite regularly can cut your gun cleaning time by up to 80%.

Plus, Hoppe's Elite is non-toxic and biodegradable, so you can literally clean your gun at your kitchen sink, without worrying about harmful chemicals and fumes.

- Biodegradable
- Non-flammable
- Low odor
- Non-toxic

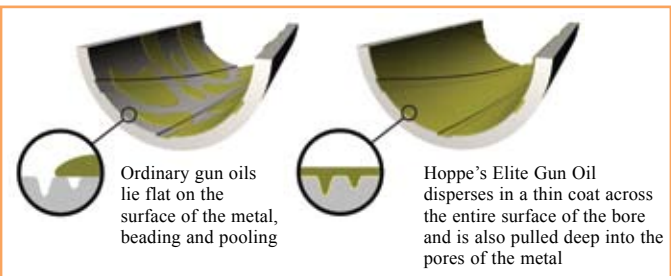

Side-by-side comparison shows how Hoppe's Elite cleans down to the pores

## Hoppe's Elite Gun Oil

Hoppe's Elite Gun Oil is the perfect match to our Hoppe's Elite Gun Cleaner. The oil uses super slick technology that eliminates puddling in the bore and instead creates a micro-fine layer of oil all over the surface. With this superior coating layer, you actually get better, longer-lasting protection throughout your firearm.

1 gallon	#BG1	55 gallon drum	#BG55

## **NEW** Hoppe's Elite Copper Terminator

Our new Hoppe's Elite Copper Terminator creates a powerful system when combined with Hoppe's Elite Gun Cleaner. The gun cleaner removes the carbon which typically slows the copper etching process. The Copper Terminator etches faster than standard ammonia-based products, which allows the gun cleaner (used intermittently in the process) to penetrate under the copper and remove it even faster.

- Works up to 4 times faster than other copper removal systems.
- Is ammonia free, virtually odorless, non-hazardous, non-flammable and can be shipped overnight.
- Is completely safe on bore steel.
- Does not leave ammonia-type crystals after use that can attract water from the air, expand and cause corrosion and/or microscopic stress fractures.
- Conditions the bore so copper does not build up as quickly.

2 oz.	#ECC2
4 oz.	#ECC4

### HOW HOPPE'S ELITE COPPER TERMINATOR WORKS

Here the surface carbon and copper fouling have been removed by Hoppe's Elite Gun Cleaner; exposing the "welded" copper attached to the bore. Hoppe's Elite Copper Terminator is needed to dissolve or etch the welded copper from the bore steel. Removal of the carbon allows for the copper cutter to "attack" from all angles. Etching of copper from above and below makes for maximum removal time and speedier cleanings.

# Introducing a new innovation in cleaning rods...

## **NEW** Hoppe's Elite Cleaning Rod System

If you have several firearms that need cleaning, you're going to love this new Hoppe's Elite cleaning rod concept that uses a single handle to accept all rod diameters and lengths. The handle is ergonomically designed and comfortable enough to handle even the toughest cleaning project. Change to a new rod length or diameter simply by pushing a button.

### Handle

- Push button attachment and detachment allows for quick changeovers.
- Precision ball bearings allow smooth rotation of rod.
- Accepts all rod diameters and lengths.

Cleaning Rod Handle		#ECRH	

### Rods

- Available in all rod diameters and lengths: pistol, rifle and shotgun.
- Choose from stainless or coated rods. The stainless rods are manufactured from 17-4 stainless steel and the coated rods from high quality spring steel. Both rod materials offer exceptional yield and tensile strength to ensure that your rods remain straight and true through years of use. Stainless rods are polished to a micro-fine finish and coated rods employ a unique DuPont® hard epoxy coating for protection of rifling.
- Encased in a self-storing package for extra protection.
- Rods accept standard 8-32 threaded brushes and jags, and are long enough to use with a Hoppe's Universal Bore Guide.

Storage for Elite Cleaning Rods is easy, because each rod comes in its own clear acrylic tube, keeping the rods straight and true. Simply hang them on a peg board or workbench for quick access.

Handle attaches quickly to any Hoppe's Elite Cleaning Rod, and formed cushion grip assures comfort and ergonomic fit

With the Hoppe's Elite Cleaning Rod system, one single handle gives you access to a wide variety of cleaning rods, all at the push of a button. Quality ball bearing design and state-of-the-art engineering assure you can clean effortlessly, with perfect rod rotation and the strength you need.

## **NEW** Hoppe's Elite Foaming Gun Cleaner

Now get the excellent bore cleaning action of Hoppe's Elite in a foaming cleaner. This spray-on foam cleans deep into the bore, removing carbon and fouling better than ordinary cleaners. Hoppe's Elite Foaming Gun Cleaner is odorless, non-toxic, non-flammable and bio-degradable, so you can clean anywhere, even in unventilated rooms.

4 oz. #EFGC4

## Hoppe's Elite BoreSnake Cleaning Kit

Strap this onto your belt or put it in your bag the next time you head to the range. This soft-sided kit holds everything you need to quickly clean your gun, including the patented one-step Hoppe's BoreSnake, Hoppe's Elite Gun Cleaner and Hoppe's Elite Gun Oil.

## Specifically developed for Semi-Autos

### Semi-Auto Solvent

To remove copper, lead and powder fouling from today's high performance, semi-auto firearms, look no further than Hoppe's Semi-Auto Solvent. This cleaner leaves no trace of residue that can cause sticking or jamming in semis that are finely tuned. Perfect for competition shooters. Use on semi-autos or any firearm. 5 oz. bottle.

#SA904

## Eliminate copper quickly

### Bench Rest 9 Copper Solvent

Copper fouling, the bane of shooters, doesn't have to be a problem any longer—thanks to Hoppe's Bench Rest 9®. With this powerful solvent, copper fouling can be cleaned from the bore overnight, instead of taking the standard 3 to 4 days. Bench Rest 9 is safe and effective and contains no abrasives. Although the solvent is essentially a copper buster, it's also great for removing powder, lead and plastic fouling from rifles, shotguns, pistols and revolvers.

## Moly works in extreme heat applications

### Moly Aerosol, Paste and Oil

A molybdenum disulfide compound, Hoppe's® Moly provides excellent lubrication under extreme heat and pressure. Bullets achieve higher velocities and greater accuracy. Also prevents wear and reduces fouling, making barrels easier to clean. Perfect for competition shooters. Use the paste and oil for coating bores, the aerosol for bores and bullets.

14.9 ml oil in Precision Lubricator	#3064
4 oz. Aerosol	#3068
3 1/2 oz. Paste (Pegboardable)	#3069

## Grease will protect firearms for storage

### Gun Grease

Specifically compounded for protecting idle firearms, Gun Grease displaces metal "sweat" when applied to bore or exterior metal. It also provides long-term protection when cleaning is delayed by lubricating moving parts and protecting them from corrosion. 1 3/4 oz. Tube.

#1102

### Dri-Lube

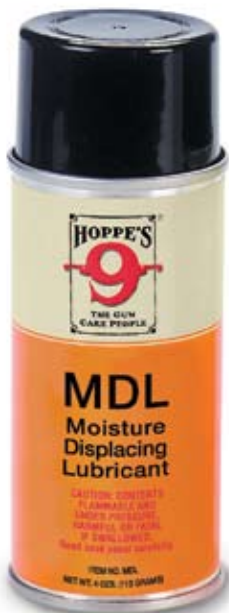

Dri-Lube reduces friction on metal and bearing surfaces, without sticky oils or silicones. Plus, Dri-Lube doesn't attract dust or dirt and it evaporates in seconds, leaving a dry lubricating film. Available in a 4 oz. Aerosol.

#DL1

### Moisture Displacing Lubricant

MDL drives out moisture while it cleans, lubricates, protects and prevents corrosion on metal surfaces. Ideal for immediate after-use protection of guns, fishing gear and most outdoor equipment. Prevents damage from moisture, salt and friction.

4 oz. Aerosol	#MDL
Quart	#MDL-32

### Bench Rest Lubricating Oil with Weatherguard™

A proven winner for all shooters. Use before and after range practice to provide moisture and rust protection. Unlike conventional lubricating oil, Hoppe's Bench Rest Lubricating Oil with Weatherguard contains a moisture-fighting agent that drives moisture out while lubricating your firearm. Available in 2 1/4 oz. Squeeze Bottle.

Squeeze Bottle	#BR1003
Squeeze Bottle with Clamshell	#BR1003B

# Only the BoreSnake cleans, brushes and swabs in a single pass

BoreSnake®, quite simply, is the “World’s Fastest Gun Bore Cleaner” and never before has something so simple made such an impact in the shooting industry. The revolutionary single-piece BoreSnake takes the hassle and mess out of cleaning rifles, pistols and shotguns. One or two pulls of the BoreSnake and you get a shiny clean bore that’s ready for more action. Ideal for quick cleans or for cleaning in the field. Add a few drops of Hoppe’s No. 9™, Hoppe’s Elite® or Hoppe’s Lubricating Oil and your bore is ready for storage. Don’t be fooled by imitators, BoreSnake is the only patented one-piece system on the market. It comes in all the most popular calibers and gauges. A brass weight on the pull cord has the size stamp. Machine washable. See chart below for sizes.

## Give a soldier the perfect tool to clean his weapon

Project BoreSnake provides U.S. Soldiers and Marines with Hoppe’s BoreSnake Cleaning Kits. This 501-c 3 non-profit group sends kits to any named soldier serving in Iraq or Afghanistan.

Soldiers receive a kit with the appropriate sized BoreSnake for their weapon, along with Hoppe’s Elite Gun Cleaner and Hoppe’s Elite Gun Oil. The kits make gun cleaning easier and faster for the soldiers and they work well against the sand and elements that get trapped in their military firearms.

To learn more about Project BoreSnake or to make a donation, log on to [www.projectboresnake.org](http://www.projectboresnake.org).

Dear Projectboresnake.org,

Thanks so much for the cleaning kit. One of my Soldiers received several kits and passed them out to others. The sands and elements are hell on weapons and the BoreSnake and Hoppe’s [Elite] are excellent for getting my weapons clear quickly. As you know the M16 and M4’s have tight fits and any dirt or grime makes the weapons difficult to fire. Being able to quickly clean the action of the weapons with a kit that fits in my pocket keeps my weapons ready.

Major M.L.,  
Camp Summerall, Iraq

## Here’s how the BoreSnake works...

Main Floss area provides 160 times more surface area than a “patch.”

Brass Weight slips easily through the barrel. Grasp and pull cleaning cord through bore. Stamped for identification of caliber or gauge.

Bore Brush, with bronze bristles embedded in cord, loosens hard deposits.

First Floss area removes foreign particles prior to the scrubbing action of the brush.

# Hoppe's Cleaning Kits with Aluminum Rods

Cleaning kits are some of our most popular items because they make so much sense for so many people. You'll find our kits contain everything you need to get your firearm as clean as it can be. From solvents to lubricating oils, patches, slotted ends and brushes, Hoppe's cleaning kits come complete with the elements you need for shooting and/or storage. We offer kits in plastic reusable boxes with instructions mounted right in. They make storing your components easy. Or if you want a more economical cleaning kit, select from a Hoppe's clamshell kit—each has the same accessories, except for the plastic storage box.

Here's what's included in Hoppe's Cleaning kits:

- Hoppe's No. 9 Solvent, 2 oz.
- Hoppe's Lubricating Oil, 2.25 oz.
- Patches, square die-cut patches for an absorbent surface with deep cleaning
- Slotted ends and adapters, where appropriate
- Aluminum Cleaning Rods

## Rifle Cleaning Kit

Includes a brush to fit your specific caliber.

"I love the smell of Hoppe's in the morning."  
American Handgunner  
June 2005

## Universal Field Cleaning Kit

This handy Universal Kit works equally well for pistols, rifles and shotguns. Accessories are neatly packed into a rugged soft-sided case that attaches easily to a belt or fits compactly into a box or bag. Contains all necessary accessories, except brushes, with plenty of added

room for things like Hoppe's silicone cloth and cleaning brushes.

Specially designed cleaning rod uses single rotating handle for all types of firearms. Great when you can't pack a full-size Hoppe's cleaning kit.

#FC2

## Premium Universal Field Kit

Bring all your cleaning supplies and accessories to the range in this soft-sided version of our popular wooden Bench Rest Premium Gun Cleaning Kit. This full-sized field cleaning kit has everything you need, plus extra room to add your personal tools. Kit includes: No. 9™ Solvent, Lubricating Oil, assorted gun cleaning patches, 3-piece solid brass cleaning rod, 3 slotted ends, 2 adapters, 5 popular phosphor bronze cleaning brushes, silicone cleaning cloth, phosphor bronze utility brush, bore light, 12" x 36" gun cleaning mat, and Hoppe's "Guide to Gun Care."

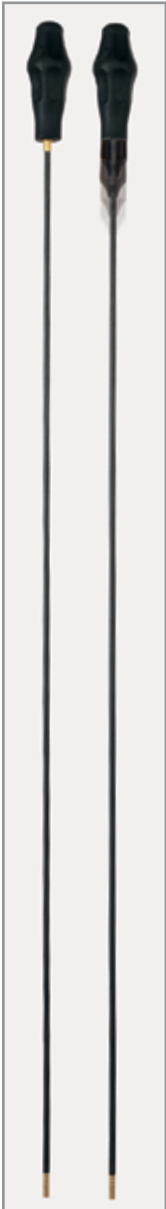

#DFC

# Count on Hoppe's to give you the components and accessories you need for the deepest cleaning

## Premium One-Piece Graphite Rod

No longer do professionals have to fear inadvertent metal contact that can harm fine rifling and affect accuracy. These new one-piece graphite cleaning rods were created by Hoppe's to eliminate worries. Combining high strength and light weight, these rods are 100% graphite, not coated metal that can chip and peel. The advanced design has a comfortable, ergonomic handle, too—the rifle rod even rotates to follow delicate barrel rifling. Length 36".

Rifle #RG1R  
Shotgun #RG1S

The Bore Guide prevents damage caused by misalignment, which protects precision crowning.

## Nylon and Phosphor Bronze Brushes

Nylon brushes will handle most cleaning jobs and the built-in memory makes the bristles return to their original shape, so the brushes can be used over and over again. Nylon offers a unique scrubbing action for a thorough cleaning. Phosphor bronze brushes are available in the same styles and calibers as the nylon, but these brushes are most effective on lead.

## Tornado Brushes

Known as "The Gunsmith's Brush," the Tornado brush has a special spiral-wound design that's highly effective for cleaning bores. The stainless steel loops eliminate any bristle ends that could leave scratches, yet still removes fouling without damaging the bore.

## Cleaning Swabs

100% cotton swabs are soft, washable, and will not scratch smooth shotgun bores. Swabs available for all gauges and most rifle calibers.

### Cleaning Swabs

1320	12 gauge	1325	17 HMR/.204

## NEW Muzzle Guides

Protect your muzzles from rod and cleaning handle scrapes with these muzzle guides. They fit right into the bore.

Rifle #RMS  
Shotgun #SMS

## NEW Universal Bore Guide

The Universal Bore Guide is just what's needed to properly clean almost any caliber of centerfire bolt-action firearm. Three interchangeable chamber tips fit bore sizes from .17 to .416 caliber. Aluminum Action Collar fits .695"/.700" (17.65mm/17.78mm) diameter bolt actions of any action length. Threaded Brass Pin locks the guide into the action in place of the bolt to allow proper cleaning from the breech.

## Self-Adhering Bullseye Dots

Bullseye Dots allow the shooter or archer to pinpoint the way to better groupings and scores. Available in three different sizes—for sighting-in rifles and target practice with slug shotguns and pistols.

ITEM NO. PACKAGE	SIZE	PER
#DOT1	1"	105
For sighting-in rifles & patching paper targets		
#DOT2	1" & 2"	35 of each
For target practice with slug shotguns/pistols		

## Fold-Up Sound Muffler—28 dB

Our best 28 dB Sound Muffler is available in a fold-up style for convenience and compact storage. Ideal for field use. Features durable ABS plastic ear cups with foam pillow inserts. Fully adjustable. Unique design folds into itself when not in use. Provides superior ear protection by muffling noise to 28 dB. #3092

## Sound Muffler—25 dB

Our 25 dB Sound Muffler is perfect for the range, trap and skeet, in the field or wherever superior sound protection is required. Constructed of durable ABS plastic ear cups with foam pillow inserts. Fully adjustable to fit all shapes and sizes when worn over the head, behind the neck/head, or under the chin. #3090

## Hoppe's Ear Plugs—25 dB

Many professional shooters prefer ear plugs to mufflers. Plugs allow freedom of movement and eliminate problems when shouldering or mounting firearms. Hoppe's Ear Plugs more than fit the bill. Industrial-grade ultra-soft polymer with flanged conical design offers superior protection against loud noises, with a soft, flexible fit. Handy plastic container with Hoppe's logo included. #3085

## Standard Safety Glasses

Can fit over standard eye glasses. Great for shooting and industrial work.

Yellow	#3070
Gray	#3071
Clear	#3073

## Comfort Fit Safety Glasses

A wide vision field and total comfort make these glasses a top choice.

Yellow	#3053
Gray	#3054
Clear	#3055

## Sport and Safety Glasses

Great for target shooting because no bottom frame gets in the way. Adjustable length bows.

Yellow	#3056
Gray	#3057
Clear	#3058

# Folding Stocks make shooting and storage easier

## Protector Shell Carrier Folding Stock

The Protector series of shotgun stocks has a shell carrier buttstock option for Remington, Mossberg and Winchester pump shotguns.

- Carry three 12-gauge shotgun shells in the stock.
- Wide, radiused comb assures comfort in shooting.

Finger formed pistol grip offers solid control and proper wrist positioning

## Solid Steel Folding Stock

Available for 12-gauge Remington, Mossberg and Winchester pump shotguns.

- Certain shotguns require replacement of forearms with a shorter version to allow shell ejection while stock is folded.

Stock in folded position

## Pistol Grip

Finger-formed pistol grip has raised checkering for solid control and proper wrist positioning for 12-gauge shooting. Available for Mossberg, Winchester and Remington shotguns.

Standard Blued Folding Stock

## Folding Stock

### Ruger Mini-14, MiniThirty

Black pistol grip with raised checkering offers solid control while shooting. Lightweight folding design. Fits Mini-14 and MiniThirty, 181 series to present, does not fit Model 180. Drop in fit, no gunsmithing required. Not shown.

U.S. patent 6,810,616. International patents pending.

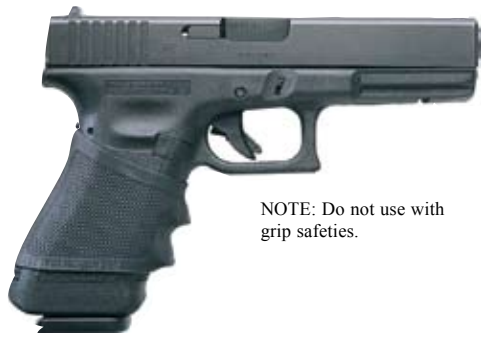

## NEW LULA BenchLoader™

If you're loading hundreds of mags each day, get the LULA BenchLoader and save yourself the time and the hassle of getting your rounds into a mag. It takes just seconds to drop 30 bullets from a box into a magazine. With this ingenious, patented system, you can examine and clean every round prior to loading.

- M16/AR15 USGI #24225
- H&K Metal SA80/M15/AR USGI #24226
- H&K XM8/G36 #24227
- GALIL #24228
- STEYR AUG & M16/AR15 USGI #24229

NOTE: Do not use with grip safeties.

### Slip-On Grips

Improve your control with virtually any pistol by slipping these grips onto the pistol stock. Medium and large size have finger grooves. Available in three sizes.

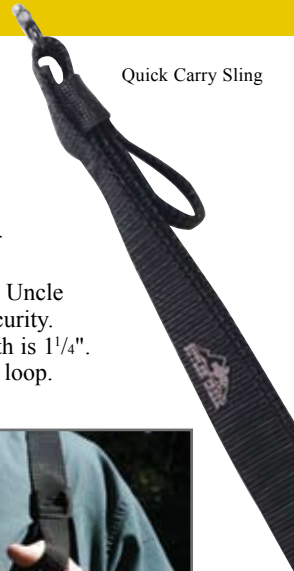

Small	Fits small and medium frame autos	#50541
Medium	Fits compact large frame autos	#50542
Large	Fits full size large frame autos	#50543

### Quick Carry™ Sling

Our Quick Carry Sling goes lightning fast from a carry position to a shooting sling. And one hand is all it takes to adjust! This versatile sling can be used in prone or marksman shooting positions and fits nearly everyone.

- Multiple carry positions — carry over shoulder or as a hasty sling.
- Installs quickly — no tools necessary. Includes Uncle Mike's famous locking swivels for safety and security.
- Fits everyone — adjusts from 27" to 36". Width is 1 1/4".
- **No carry fatigue** — thanks to a built-in thumb loop.

Black #80091

## The top choice of shooters for decades

### Flip-Open™ Scope Covers

Butler Creek's Flip-Open Scope Covers are custom fitted to your specific scope for maximum protection. Quiet opening lids flip open at the touch of your thumb and are virtually silent. The red button that opens the cover is ergonomically designed so that even the slightest pressure applied will open the lid allowing you to keep your eye on the target, without fumbling to open the scope cover.

Water-tight friction mounts anchor the covers to your scope while an airtight semi-o-ring keeps out dust and moisture that can damage and cloud your scope. In fact, our scope covers have been tested to perform from -40 degrees to 120 degrees.

- Design serves both right- and left-handed shooters.
- Weighs less than an ounce, but protects in the most extreme conditions.

See fit chart on Page 45.

For more fit information, please call customer service at (800) 845-2444.

### Flip-Open Spotting Scope Covers

The same easy flip-open technology and rugged durability of the standard scope covers that now fit spotting scopes as well. Just measure your spotter and order from the chart on Page 45.

Silent action hinge provides flawless performance in all weather

Inner o-ring provides an airtight seal to keep out dust and moisture

Ergonomic button design has a non-slip surface for one-touch action

Easily opens with the touch of a thumb for right and left-handed shooters

## **NEW** Protect your scope with these flexible fit scope covers

Butler Creek MultiFlex Flip-Open Scope Covers are spring-activated to give you the fast opening action you need. The tight, flexible collar prevents field of view blockage, eliminates accidental opening, and protects against snow, rain, dirt and dust.

Butler Creek MultiFlex Flip-Open Scope Covers are packed in dual kits containing perfectly sized eye and objective covers for most popular hunting scopes.

Measure both the outside diameter of the eye and objective ends of your scope and use the sizing information on page 45 to find the kit that works best for your scope.

# Get that shot! Bipods and monopods will steady your aim

## Telescoping Bipod

Maximize your ability to shoot accurately at any moment with the rigidity, steady support, versatility and portability you can only get from PoleCat® telescoping bipods. This bipod won't alter the gun's accuracy or damage the firearm like attached bipods can, thanks to a protective rubber over-molded yoke that protects your gun's finish.

Manufactured from high-strength, lightweight, tempered aluminum with a corrosion-resistant, satin black anodized finish. Legs quickly telescope up or down, then rigidly lock in place with a single half twist. Our exclusive Posi-Lock™ system guarantees a rock-steady hold and reliable, unlimited adjustments. Legs extend from 35" to 65". Weighs 18 oz.

Expedition Bipod #T2B65-BXX

## Telescoping Monopod

Our monopod may be the fastest way to set up a precise shot. Our PoleCat monopod is constructed of hard-tempered alloy aluminum and weighs only 11 oz.—but it's very strong and will give you years of durability. Plus, our patented Posi-Lock pole adjustment system is the strongest and most reliable locking system available.

The all-terrain carbide tip grips rock and ice and a removable rubber tip grips hard surfaces. Can be used standing or kneeling. Telescopes from 35" to 65".

Expedition Monopod #T2M65-VXX

## Folding Steady Stix II

Experience one-shot confidence when you shoot with rock-steady feather-light folding Steady Stix II. With Steady Stix, you get versatility on any terrain—a steady hold on a steep hillside or rooftop. More convenient, portable and versatile than attached bipods and won't change your point of impact.

To use, simply pull the tie cord that holds the Stix in a bundle. Legs automatically unfold and self assemble to their full height. Your sights level quickly, right on target, as you lay the forestock in the non-slip rubber V-yoke. Use sitting or kneeling. Three-section legs unfold from 14" to 39".

Steady Stix II #F3B39-R1X

**NEW**

## Rapid Pivot Bipod System

Introducing the quickest attaching bipod on the market today. The Rapid Pivot Bipod System snaps right onto your rifle stock, giving you instant set-up for an accurate shot.

This innovative bipod weighs less than more expensive and complex mechanical bipods, but it out-performs them with its pivoting action, flexibility and solid support. Use it in the prone, sitting, kneeling or standing positions.

- Quickly attach and detach from your forearm sling stud.
- Pivoting action allows you to follow target.
- Silent set-up.
- Accommodates prone, sitting, kneeling and standing positions.

Prone/Bench  
10" - 13" (25.4 - 33.02cm)  
Weighs 8 oz. (227g)

The PoleCat Rapid Pivot Bipod System can pivot up to 360 degrees, allowing you to adjust your shot easily. The legs of the bipod move silently and independently, helping you accommodate any type of terrain.

**NEW**

### Rapid Pivot Monopod Attachment with Hardware

Hit those tough shots with the New PoleCat Rapid Pivot Monopod attachment that gives you extra flexibility and versatility when you need it. This attachment converts a hiking staff into a shooting rest, by clipping quickly on to your stock's swivel stud. The attachment allows you to immediately pivot your stock left or right, or make quick sighting adjustments by flexing up, down, left or right, and still allows you to use your sling. Includes all mounting hardware.

#RPM-102

**FYT**

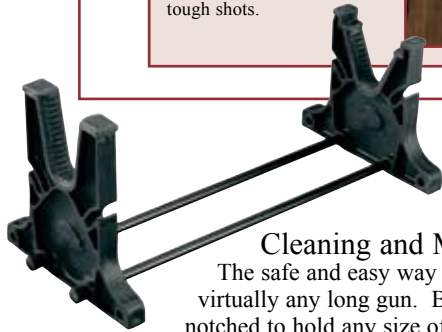

The PoleCat Rapid Pivot Monopod Attachment turns a walking stick into a shooting rest by quickly attaching onto your swivel stud. It provides rock-solid support, but still gives you the flexibility to get tough shots.

The PoleCat Rapid Pivot Monopod Attachment gives you great flexibility, allowing you to pivot the stock left or right, up or down... all to get that important shot.

Get that shot — optimum versatility is what you get with the PoleCat Rapid Pivot Monopod Attachment.

### Cleaning and Maintenance Cradle

The safe and easy way to clean, maintain or display virtually any long gun. Both sides of the cradle are notched to hold any size of cleaning rod. Adjusts for length and quickly disassembles without tools, for compact transport in your range bag or cleaning kit.

#CC-20

### Sight Lines Lens

This affordable, easy-to-use lens quickly determines scope alignment problems and makes scope installation faster, easier and more precise. Engraved lines on the lens allow the scope's vertical crosshair to be plumb with the bore as it squares the horizontal crosshair.

Simply place the lens directly on the opened bolt of the gun and slide it forward against the ocular lens. Hold in place with the furnished stretch cord. Plumb and square the scope with the lens, then secure the scope in place with the ring screws.

Lens fits bolt actions on Remington, Ruger, Savage, Winchester, Browning, Stolle, Mauser, Weatherby Vanguard and many others with .695"/700" bolts.

Sight Lines Lens #SL-12

Sight Lines Lens

Interchangeable Target Knobs

### Interchangeable Target Knobs

Stoney Point's Target Knobs thread-on in place of your scope's dust covers. They employ a stainless steel, spring-loaded, internal spindle, which has a screwdriver tip that mates with the scope's coin slot to provide fingertip control of the scope's internal adjustments.

Target Knobs install in minutes and are interchangeable with other scopes of the same manufacturer, all without disturbing your settings. Or, you can remove the Target Knobs and install your dust covers for "field-duty."

Leupold, pair #K-2L  
Tasco/Simmons/Sightron, pair #K-2T  
Burris, pair #K-2B

**NEW**

### Stoney Point Shooting Bags

Stoney Point Shooting Bags give you the extra support you need to make those long shots. New this year, these bags are constructed of durable 600 denier nylon and feature a non-skid bottom and a semi-smooth cradle that allows for gun recoil. All bags are available filled with polypropylene pellets to retard moisture buildup and molding.

Stoney Point Shooting Bags

1. Standard Rear Bag

#FSRB-10 Size: 7" l x 5.5" h x 5" w

Unfilled Bag: #USR-40

2. Standard Front Bag

#FSFB-25 Size: 7" l x 4.25" h x 5" w

Unfilled Bag: #USF-45

3. Compact Rear Bag

#FCRB-15 Size: 5.5" l x 4.5" h x 5.375" w

w

4. Bench Rest/Universal Front Bag

#FUFB-20 Size: 4.75" l x 2.5" h x 2" w

5. Stacker/Elbow Pad Bag

#FEPB-35 Size: 5" l x 4.5" h x 5" w

6. Marksman's Bench Rest - Non Skid Cradle

How to use the UNCLE MIKE'S LAW ENFORCEMENT® Holster Selection Guide

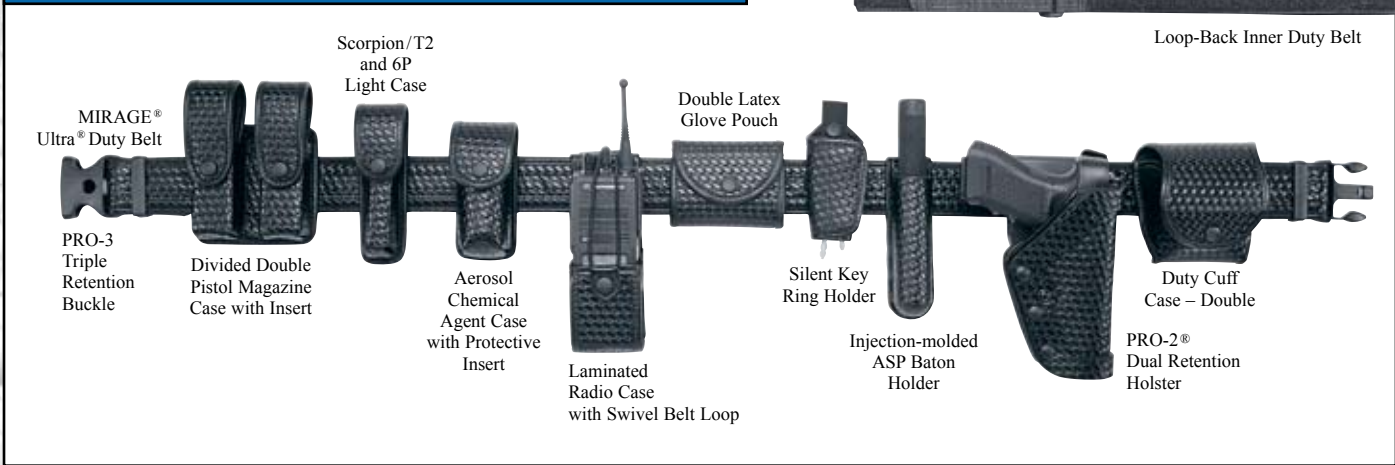

- Just look up the brand of your handgun, then the particular model of gun, and the barrel length.
- Numbers listed under each style of holster indicate the SIZE of holster you should buy.
- Fit information for the following holsters can be found on earlier pages of this catalog.

Ambidextrous Hip	Hip-Thumb Break	Paddle	Super Belt Slide	Pro-Pak® Horizontal	Pro-Pak® Vertical	Pro-Pak® Undercover	PRO-3® Duty/Tactical	Dual Retention Duty/Tactical	Tactical/Flashlight/Laser	PRO-2® Jacket Slot	Inside-Pant Open	Ankle
------------------	-----------------	--------	------------------	---------------------	-------------------	---------------------	----------------------	------------------------------	---------------------------	--------------------	------------------	-------
