ParcelLive is a global tracking service that enables users to access real time information on the location, condition and security of their shipments no matter the country or carrier. ParcelLive's inbuilt international returns license ensures that trackers are seamlessly returned after use without the need for any stamps or packaging making the service both easy to implement and use

HERE, the Open Location Platform company, enables people, enterprises and cities to harness the power of location. By making sense of the world through the lens of location we empower our customers to achieve better outcomes - from helping a city manage its infrastructure or an enterprise optimize its assets to guiding drivers to their destination safely. To learn more about HERE, including our new generation of cloud-based location platform services visit <http://360.here.com> and www.here.com
