B.JAIN Group of Companies

Dear Doctors,

B.JAIN Group has been serving homeopathy for more than 50 years. It was started with a small publishing house in 1966 to serve passionate practitioners, ambitious students & admirers of homeopathy around the world. It publishes books & homeopathic journals, conducts seminars and workshops for students & doctors to exchange their ideas and experiences. Likewise for the promotion of Homeopathy across the globe.

After serving homeopathy in terms of printing I was still not contended as a large sector of Indian homeopaths still direct their gaze towards medicines which are not manufactured in their own country. I strived to find the reason behind this. After having colloquy with plethora of doctors, I came to a conclusion that there was a lacuna of quality in homeopathic medicines. This unfulfilled quest for quality led to the foundation of B.JAIN Pharmaceuticals in 2007. Today B.JAIN Pharmaceuticals is known for manufacturing finest quality of homeopathic medicines, based upon a dedicated team, appropriate infrastructure, best available raw material and transparent procedures.

In 2010, B.Jain was the first pharmaceutical company in Asia to invest for development and procurement of validated K-Tronic Potentiser, which makes potencies with highest precision. Our goal is to reach to the masses by maintaining quality and accuracy of product.

Quality of raw materials, process and end products is strictly ensured at B.JAIN. We procure our raw materials from original source of cultivation or from reliable vendors which are tested against various parameters. Special emphasis is laid on cleanliness, maintaining ISO class 7 and class 8 environment, cleanrooms with HEPA filters and HVAC system. We are committed to quality at every step of the way.

Our preserverance in quality manufacturing has bagged for us Indian and Canadian GMP. The wide range we offer include mother tinctures, liquid dilution, LM Potency, Biochemic & Biocombination remedies, Trituration & 1x Tablets, lactose, globules, speciality products, personal care products and remedy kits. We are proud to be a part of growing homeopathic community. We export medicines to many countries.

We express our sincere gratitude to valued patients and learned doctors in addition to dealers who perform a wonderful task in conveying our basic objectives to last one in the queue.

Homeopathy is passion for us and we are proud to be a part of flourishing homeopathic society.

CERTIFICATIONS

B. Jain Pharmaceuticals has set a benchmark by achieving GMP certifications from Indian Regulatory, Health Canada, & a U.K based third party audit. B.Jain strives to take Indian homeopathy all across the globe.

GMP CERTIFIED

Good Manufacturing Practice (GMP) is a term that is recognized worldwide for the control and management of manufacturing, testing and overall quality control of pharmaceutical products. GMP addresses issues including documentation, record keeping, personnel qualifications, sanitation, cleanliness, equipment verification, process validation, and complaint handling. GMP certification is a mark of sincerity in providing quality medicines with consistency. We are certified by Indian GMP as well as Canadian GMP for our manufacturing procedures.

REPHINE AUDITED & COMPLIED

Rephine Ltd is a UK based company that offers specialist consultancy services to the pharmaceutical industries worldwide, performs good manufacturing practice audits to ensure GMP compliance. Rephine auditors carried out inspection at B. Jain's manufacturing site and qualified B.Jain to be capable of manufacturing medicines as per HPI, HPUS, EuPH & to be cGMP of highest standards.
