WHAT IS PSYCHOTRONICS?

Beverly Rubik, Ph.D.
President, USPA

Psychotronics originally referred to the mind (*psycho*) operating devices (*tron*) with thought. This term came out of parapsychology in the 1960s in Czechoslovakia. The early psychotronics researchers conceived of and built psychotronic generators—sacred geometrical forms composed of pyramids and cones along with crystals, copper coils, and other materials. Unlike most machines, these devices were “operator dependent”—having various effects depending upon the operator and the directed intention—and demonstrated positive effects on people, animals, plants, and processes.

Today our interests are more broadly based. The US Psychotronics Association (USPA) investigates and applies science and technology to interactions of mind, matter, spirit, consciousness, and the underlying forces of life and nature. Psychotronics challenges the dominant scientific worldview because it deals with the power of consciousness to interact directly with the physical world, which is not considered in mainstream science. However, numerous lines of scientific and other evidence point to severe limitations of the dominant paradigm, which holds that consciousness is only a passive observer. We are among those mavericks shaping the new worldview in which consciousness plays an active role in generating physical reality.

Our membership is quite diverse and fascinating. Some USPA members are frontier scientists conducting research on the effects of intention and subtle energy healing on systems such as structured water and its memory, plant growth, and the integrity of DNA. We are also concerned about the impact of electromagnetic pollution from the proliferation of wireless devices in our environment and how to protect ourselves. Other members are practitioners and teachers of radionics, using directed intention to assess and improve the well-being of living systems through the use of radionics devices, pendulums, and dowsing rods. Still others practice energy therapies ranging from hands-on healing to use of sound and light therapies, homeopathy, Oriental medicine, and other complementary modalities. Some members are skilled intuitives who can assess the biofield and subtle energy directly, without any tools. Still others are exploring psychotronics for personal growth and evolution. Despite our differences, we have much in common as we are all open-minded persons focused on expanding our understanding of nature, consciousness, and the full human potential. We enjoy camaraderie and sharing our new learning with one another.

One main focus of the USPA is the existence of a cosmic energy or bioenergy, also called *qi* in Oriental medicine and *prana* in Ayurveda—associated with the biofield

or life force. Energy may be mobilized with directed intention, which corresponds to the principle of ancient Eastern philosophy—“where mind goes, the *qi* flows.” Psychotronics devices may serve as resonators or conduits of a cosmic energy affecting living systems at a physical level. The biofield, the energy field of each organism, is also fundamental.

Is this cosmic energy an aspect of science that has somehow been overlooked, or a new form of energy? We are taking a deeper look at the science of Nikola Tesla, among other pioneering scientists, who have been largely ignored. We are also revisiting the “aether” in physics that was displaced by a materialistic worldview, but may actually be the quintessence underlying physical reality, and the etheric body in radionics, to expand the scientific perspective.

2019 Annual USPA Conference **Update** with Full Conference Schedule

[The 2019 United States Psychotronics Association \(USPA\) conference will be held July 26-28, 2019,](#) at the beautiful [Doubletree Hilton Hotel in Skokie, Illinois,](#) a suburb of Chicago. (pictured at left). Please note this date on your calendar.

The title of the 2019 USPA conference is: “The Art, Science, and Technology of Healing Energies.”

[To register online, click here,](#) and scroll down to the Registration section to select the events and activities you want to sign up for.

The full day-by-day conference schedule is now available showing names, dates, times, and titles of speaker presentations, breakout sessions, and other activities. [Click here for the full schedule](#) of each day’s events. (Please note that Dr. Dietrich Klinghardt’s presentation, “Applied Biophoton Physics for Healing: Unique Light-Based Tools to Diagnose and Treat Illness”, originally scheduled for 8pm on Friday, July 26, has now been rescheduled to 7:30pm on Saturday, July 27.)

Pre- and Post Conference Workshops

In addition to the regular conference, we are again holding Pre-Conference and Post-Conference Workshops. They are described in detail in articles following this article.

Radionics 101 Workshop

Thursday, July 25, 2019

The workshop is designed for novice practitioners and prospective student, as well as for those simply wanting to learn what radionics and psychotronics is all about. It will combine visual and explanatory presentations by USPA Board members.

This workshop will be an excellent entrée to formal training in radionics. Students will learn fundamental theory, the design, and role of instrumentation, and get an overview of the many applications of this cutting edge art and science. More importantly, much of the program will be hands-on. There will be several opportunities to experience the radionics “stick” and/or dowsing response, which is key to instrument operations in radionics and in radiesthesia.

Radionics 101 Workshop Agenda

Time	Class
8:15 am-9:00 am	Registration
9:00 am-10:15 am	Housekeeping/The Worlds of Radionics, with George Kuepper
10:15 am-10:30 am	***Break***
10:30 am-12:00 pm	Dowsing: Learning the Fundamentals, with Marty Lucas
12:00 pm-1:30 pm	***Lunch***
1:30 pm-2:45 pm	Working With the Radionic Template, with Lutie Larsen
2:45 pm-3:00 pm	***Break***
3:00 pm-4:15 pm	Radionic Instruments: A Look Under the Hood, with Ed Kelly
4:15 pm-5:30 pm	Laws and Applications of Radionics Theory, with Linda Lancaster
5:30 pm-7:30 pm	***Dinner***
7:30 pm-9:30 pm	Hands-opportunities, with all of the instructors

We are Receivers Connected to the Universe – *Now What?*

Become a catalyst for the evolution of humanity and human consciousness as you are introduced to a transparent source of Intelligence that will connect you to inexplicable life-lasting healing, deep inner peace and an expanded bio-photonic essence! **A 4-hour workshop to start learning this simple and powerful approach to Reconnective Healing® and establish the beginning of your life-changing new vibrational reality.**

Experience the highly tangible RH intelligence, its non-verbal language of energy, light & information restructuring our DNA, a portal to a reciprocal universe of immediate lifelong healing and transformation.

Reconnective Healing (RH) allows us to connect with an expanded and fully comprehensive spectrum of energy, light and information through which we experience a highly tangible Intelligence likely presenting itself on Earth for the very first time. The language of this Intelligence is experienced through this inclusive and limitless bandwidth of frequencies that first became accessible and known to the scientific community after they were introduced through Dr. Eric Pearl in 1993.

Eric then discovered a way to teach others how to access and interact with this Intelligence. Learning Reconnective Healing provides you with the process and point of engagement with these frequencies that enable a portal to open, tangibly connecting us to a reciprocal, higher-dimensional universe. Deep and profound transformation, expansion and evolution is instantly received physically, mentally, emotionally, spiritually... and more. This energy interaction has created the new terra firma for the healing of humanity as well as the healing of our planet. This presentation will include case histories and interactive demonstrations of RH with selected audience participants. Numerous scientific studies have been conducted on Reconnective Healing by key Energy Medicine researchers including Drs. Glen Rein, Bill Tiller, Konstantin Korotkov, Gary Schwartz, Ann Baldwin, Melinda Connor and Richard Hanbury.

Bios of Eric Pearl and Jillian Fleer:

Dr. Eric Pearl ran a highly successful chiropractic practice in Los Angeles for 12 years when one day his patients began reporting healings as Eric simply held his hands near them. The healings came in many forms and in unexpected ways. These profound experiences began an amazing exploration of what is known today as Reconnective Healing. Eric Pearl founded The Reconnection in order to share the gifts and the language this Intelligence and to train others to share what science today calls the Reconnective Healing frequencies of Energy, Light & Information.

Easily learnable and practiced without technique or ritual, today Reconnective Healing is recognized and supported by science for facilitating healings that are often instantaneous and lifelong.

In 2012 Eric began practicing with his life partner, Jillian Fleer. Together they manage and have continued to expand Reconnective Healing into an international program with live events, classes and training program in multiple languages.

Jillian is the Director of Insight & Development and Co-Instructor for the Online and Worldwide Live Programs and, together with Eric, travels the globe teaching and spreading awareness of Reconnective Healing. Their work has taken them to over 100 countries and has been carried into many different cultures, affecting the lives of millions. Their hope is that one day everyone will learn to access this comprehensive natural approach and ability to heal themselves and others. Every day Eric, Jillian and the practitioners of Reconnective Healing live their lives in the RH frequencies.

Eric has appeared on The Dr. Oz Show, CNN and in The New York Times, he's also presented at the United Nations and Madison Square Garden. His internationally bestselling book, The Reconnection: Heal Others, Heal Yourself, is now in 40 languages. Eric and Jillian are currently completing their new book, anticipated to be released in early 2020.

KRT Radionics Workshops: **Chicago, Illinois**

Kelly Research Technologies is very proud to support the **U.S. Psychotronics Association's 41st Annual Conference**, to be held in Chicago on **July 26-28, 2019**. The USPA is a non-commercial, not-for-profit organization that supports research in "psychotronics" - the science of mind-body-environment relationships, and interactions of matter, energy, and consciousness. Because the USPA is dedicated not just to radionics, but also the broader spectrum of esoteric phenomena, this meeting will present research and information from a variety of disciplines. The focus of this year's programs will be ***The Art & Science of Energy Healing***.

KRT founder Peter J. Kelly was a founding member of the USPA in 1975, and KRT's Ed Kelly has been a member of the USPA Board of Directors since 2011. At the 2019 conference, Ed will present ***Energy + Resonance = Healing: Understanding the Radionics Equation*** to the membership, participate in panel discussions, and showcase KRT's newest tools and toys in the exhibitor area.

For more information about the USPA and the 2019 conference please visit: www.psychotronics.org.

Immediately following the USPA conference, on **July 29 and 30**, Ed Kelly will put the FUN in "fundamentals" with the **Fundamentals of Radionics**, a two-day course designed to introduce the core functions of practical radionics: analyzing, balancing, and potentizing, using two-dial Hieronymus-type radionic instruments. This hands-on workshop will equip participants with the tools needed to immediately apply radionics at their home or farm. Space is limited, so register today!

KRT FUNDAMENTALS OF RADIONICS: July 29-30, 2019

Chicago, Illinois

Learn how to analyze, balance, and potentize in this hands-on radionics workshop. We will practice using and testing radionic rates, reagents, and other octaves of information, using the samples you bring to the workshop. Specific topics will include:

- Basic analyzing and balancing
- Potentizing: making your own remedies
- Crystallizing focused intent
- Cold-scanning primary & supporting rates
- Selecting/testing for reagents and tones
- Multi-bank testing and balancing

Each individual and family/friend enrollee will be provided with following materials and information:

- *Radionics - Book 2: Applied Radionics*
- Set of 10 KRT radionic worksheets
- One 300 ml Griffin beaker
- Subscription: Kelly Research Report

Individual Enrollment	\$400.00
Retake or with Purchase of a New Instrument	\$200.00
Instrument Rental (Supplies are limited!)	\$50.00

SPECIAL OFFER! Save \$50.00 on your enrollment with each new student you bring to the workshop. *The more folks you bring, the more you save!*

Call: **706-782-2524** or email: cathie@kellyresearchtech.com

- Who:** Courses taught by Ed Kelly, President of KRT. Ed is a uniquely qualified instructor with a lifetime building radionic devices and writing about this amazing art.
- When:** Classes will run from 8:30 am to 5:00 pm on July 29 and 30, with breaks.
- Bring:** Any Hieronymus-type two-dial radionic instrument, plus samples of water, soil, plants, and/or animals from home. *Please order as soon as possible if a new instrument is required from KRT.* A limited number of instruments will be available for rent.
- Where:** This workshop will take place at the DoubleTree by Hilton Chicago North Shore located at 9599 Skokie Blvd, Skokie, IL 60077. Special room rates of \$119.00 have been secured for USPA and KRT workshop program participants and includes two breakfast vouchers per night booked. Register online at the DoubleTree web page at: <https://tinyurl.com/y4umsm6y>, or call for reservations at (847) 679-7000 and ask for "US Psychotronics Association".
- Food:** Participants will be responsible for their own meals.
- Enroll:** All prices are in US dollars. All registration must be paid by credit card or PayPal. Call to enroll via credit card at (706) 782-2524, or complete and fax the following enrollment form to (706) 782-1047. PayPal payments should be directed to: sales@kellyresearchtech.com. Send other correspondence to KRT, Inc., PO Box 128, Lakemont, GA, 30552, USA. Enrollment will be refunded upon request in the event a participant cannot attend, less a non-refundable fee of \$75 each. *New student registration offer can reduce class enrollment fee(s) to zero, then accrues as credit for purchases from the KRT catalog.*

Don Paris to Present Workshop on “Global Radionic Access”, Monday, July 29, Just after USPA Conference

Don describes what his workshop will cover, as follows:

Radionics from your smart phone? When we first heard of a phone that you could use virtually anywhere and would fit in your pocket, we thought it was a pipe dream.

I still remember the AT&T television advertisement that announced the coming of cellular technology. We all thought it was an April fools joke at first.

Within a few short years after the release of that small flip phone, 80% of the people on planet earth have a smart phone that gives live video as you talk on the phone! What if there was a way to access a Radionic network from you smart phone? Pipe dreams? In the Monday, July 29, workshop we will show you exactly how to do just that....

How to Clear Toxins that are Blocking the Mitochondria Signalling to the Cells.

We will explore how most disease comes from a single source, signal interruption of the Mitochondria. How to get the help you need to overcome disease.

Converting Physical Substances into Radionic Tunings

Step by step, the basics of how to take any substance and get a digital, Radionic snapshot of it and store it in a computer. How to reverse the process and convert the digital information back into another medium to use as an informational therapy.

5G, Advanced Communications Technology or Directed Energy Weapon?

The ins and outs of what 5G is and what it is not. Is it dangerous or just another scare mongering? We will explore what you can do to minimize your exposure to EMF and keep balanced in situations where you cannot escape microwave radiation.

Biography:

Don Paris, Ph.D. (h.c.) is a published author, speaker, video producer, and musician. His book, *Regaining Wholeness Through the Subtle Dimensions* has been published internationally in German, Spanish, Japanese, Portuguese, and English. He is known as the guru of the SE-5, the world's most respected subtle energy, scalar instrument.

He is well loved for his style of bringing challenging concepts into an easy to understand language and has been a popular speaker at the Global Sciences Congress, Congress

of Spiritual Scientists, Quantum Energy Medicine Conference and the United States Psychotronics Association.

He has created the most detailed explanation of the principles of Radionics and the most advanced training courses in the entire field of Radionics and Scalar technology. He began exploring the subtle dimensions in the early seventies, and has now trained people in over 30 countries around the world in the workings of Radionics and the subtle dimensional realities.

Don was awarded an honorary doctorate degree in Human Sciences from the International University of Vitalological Sciences in Stockholm Sweden in 2000 for his work with the SE-5 and scalar energies.

He and his wife, Ilona Selke, who work as a team, have contributed to radio and TV shows, and have been quoted in numerous publications around the world. They teach seminars in Quantum Psychology in the US, Europe and Asia.

When not traveling to teach, they divide their time between their homes in the Pacific Northwest and Bali.

In his work he had dedicated himself to bridging the barrier of the physical boundaries to the subtle dimensional realities.

1977-79: Taught music at Mount Palomar Community College, California

1980-82: Studied music and modern dance Baltimore Maryland.

1983-88: Music production and recording engineer

1987- present: Radionics and Bioenergy Medicine and Quantum psychology

2005 - present: Owner of Shambala Oceanside Retreat and Spa

Don studied privately with many teachers including:

Dr. Vern Wolf (Quantum Psychology)

Dr. Robert Beck (Electo Medicine)

Dr. Rod Newton (Subtle Energy Manifestation)

Dr. Robert Shane (Bio-Energetic Medicine)

Dr. Willard Frank (Inventor of the SE-5)

Dr. Fred Allen Wolf (Quantum Reality)

Dr. Tad James (Timeline Hypnotherapy)

Dr. Greg Morgan (Bio-Energetic Medicine)

Nominations Still Open for Three USPA Board Positions

Nominations are still open for three positions on the US Psychotronics Association (USPA) Board of Directors, whose incumbent terms expire in 2019. The current Board members whose three year terms are expiring are: Lutie Larsen, Marty Lucas, and Beverly Rubik.

All three people have been renominated, but if any USPA member would like to nominate others, you are welcome to do so. Please email the names of your nominee(s) to Scott Beutlich at: uspsychotronics@yahoo.com.

Only current members of USPA are eligible to make nominations, and those nominated are required to have two consecutive years of USPA membership, as well as, be qualified in knowledge or work in the areas of psychotronics.

Voting on the nominees to determine who will fill the three expiring positions will take place at the USPA business meeting on Sunday, July 28, 2019, in the hotel meeting room.

So be sure to come to the [2019 USPA Conference](#) and let your voice be heard.

Dr. Beverly Rubik, USPA President, and Colleague Harry Jabs to Make Presentations in China

Dr. Beverly Rubik, President of the US Psychotronics Association (USPA), and fellow researcher Harry Jabs have received a special invitation from Professor Yi-Fang Chang, Vice-Chairman of the International Chinese Parapsychology Association (ICPA), to speak at their conference in Kunming, China, on August 4-7, 2019. The title of the conference is: "Chinese Traditional Culture, Parapsychology, and Its Function Exhibition".

Dr. Rubik was also named honorary chairman of the ICPA Conference, and she and Mr. Jabs have been given the privilege to make two presentations, each at least one hour in length. Dr. Rubik will be speaking on "Biophoton Emission from Human Subjects In Energy Healing and Altered States of Consciousness", and Harry Jabs will be speaking on "Exploring Energy Healing and Altered States of Consciousness with the Sensor Suite". Abstracts and accompanying bios for those presentations are shown below.

Besides speaking on their own research, Dr. Rubik will be giving a history of the USPA at the Chinese conference, and an overview of our two most recent USPA conferences in 2018 and 2019. In addition, Dr. Rubik will be establishing collegial relationships with Professor Chang and the other leaders of the International Chinese Parapsychology Association, as well as, the leaders of other Chinese organizations in attendance. She will initiate a mutual cooperative information exchange between them and the USPA, and will extend invitations to attend and give presentations at USPA conferences in the future.

Through these actions, it is hoped that the USPA will be able to establish an enduring and growing collaboration with our Chinese colleagues to enhance research and development in psychotronics, energy healing, parapsychology, and related subject areas.

Abstract

The ultraweak light known as “biophotons” emitted from organisms may convey information central to life. To explore this, we designed and built a custom photon counting detector system with a walk-in dark closet that can sit 3 persons comfortably. This system measures the light emitted from humans and other organisms either alone or during human interaction. Our experiments show that various regions of the human body, including the palm of the hand, forehead, heart, and abdominal regions, emit photons in the visible spectrum at an extremely low rate (less than 100 counts per min), comparable to published values. We measured the light emitted from mind-body practitioners of *qigong*, meditation, yoga, and various types of energy healing, such as Reiki, external *qi*, including other forms. In some cases, these practitioners were able to alter their own energy emission dramatically, for example by “opening” and “closing” the “third eye” region. In another study, we examined 3 patients pre-post energy therapy that was conducted by an energy practitioner outside of the photon counting chamber. We found that the photon count rate from the patients’ forehead, heart, and abdominal

regions became more balanced immediately post-therapy. In addition to discussing studies conducted within our biophotonic chamber, we will discuss the Bio-Well device, a digital form of high voltage electrophotography from Russia, which measures the induced light emitted from the fingertips and reveals information about health and healing states. Finally, we will give a brief history and update on the United States Psychotronics Association, a 42-year old organization exploring consciousness, parapsychology, and subtle energies.

Presenter: Beverly Rubik, Ph.D.

Beverly Rubik earned her Ph.D. in biophysics in 1979 at the University of California at Berkeley. Her scientific areas of interest include consciousness studies; energy medicine; water, in regard to the living state; and the scientific basis of alternative and complementary medicine. Rubik is especially known for her pioneering research on the biofield, the energy field associated with living organisms. She has conducted exploratory research on humans including qigong masters, psychic healers, and medical intuitives. Rubik measured the extremely low level light (biophotons) emitted by humans in relation to health and states of consciousness. She has won several awards, including the Alyce and Elmer Green Award in 2009 by the International Society for the Study of Subtle Energies and Energy Medicine, and the Integrity in Science Award by the Weston A. Price Foundation in 2015. Rubik has published over 90 scientific papers and 2 books, *Life at the Edge of Science* (1996), and *The Interrelationship between Mind and Matter* (1992), an edited volume. She presently serves on the editorial boards of four peer-reviewed journals: *Journal of Alternative & Complementary Medicine*; *Evidence-Based Integrative Medicine*; *Integrative Medicine Insights*; and the *Journal of Vortex Science and Technology*.

Rubik was one of 18 United States Congressionally-appointed members of the Program Advisory Board to the Office of Alternative Medicine at the United States National Institutes of Health (NIH) from 1992-1997, and chaired the NIH panels on bioelectromagnetic medicine and energy healing. Rubik was director of the Center for Frontier Science at Temple University in Philadelphia from 1988-1995, where she founded a journal, *Frontier Perspectives*, and published scientific reports from scientists worldwide on novel discoveries that challenged mainstream science. In 1996 Dr. Rubik founded the Institute for Frontier Science (IFS), a nonprofit laboratory to continue her research in California. Current research at IFS is focused on detecting new elements of the human biofield in relation to altered states of consciousness. Rubik is a professor at Energy Medicine University and faculty member at Saybrook University. She is also president of the US Psychotronics Association.

Exploring Energy Healing and Altered States of Consciousness with the Sensor Suite

Abstract

Energy healers, qigong masters, and other subjects engaged in altered states of consciousness while engaged in various mind-body modalities were studied in trial sessions at the Sensor Suite, a customized array of environmental, physiological, and purported subtle energy detectors that we developed. Our purpose was to look for possible evidence of a purported subtle energy associated with life that goes beyond conventional energies, which might increase during energy healing, projection of external *qi*, or invoking the presence of disincarnate beings (nonphysical entities) such as deceased persons and spiritual masters. In particular, we looked for detector responses time-correlated with specific psychoenergetic states and subject intent. The purported subtle energy detectors were thermally isolated and electromagnetically shielded, rendering them unresponsive to conventional physical energy from the environment. A baseline of the detector responses was run without subjects present. Then, after brief control and trial periods at the Sensor Suite, each subject was asked to begin their practice in which they achieved heightened psychoenergetic states. These were alternated with resting states (short baselines) whereby subjects were asked to

cease their practice and return to ordinary resting consciousness. In many cases, the purported subtle energy detectors responded differently during subjects' heightened psychoenergetic states, suggesting that these sensors are registering bioenergy or *qi*. These detector responses were occasionally robust, ranging in value up to 90% over baseline, and frequently correlated with abrupt shifts in the subject's physiology, such as galvanic skin response and perfusion index.

Presenter: Harry Jabs, M.S. (Physics)

Harry Jabs earned two masters degrees in physics from Germany and Texas A&M University. Presently he is senior researcher and engineer at the Institute for Frontier Science in Emeryville, California. Mr. Jabs is a multidisciplinary scientist in the fields of physics, chemistry, biochemistry, electronics, mechanics, micromechanics, material science, computer and software engineering. He has developed novel technologies to solve complex real-world problems in such diverse areas as energy, nano/bio-technology, subtle energy devices, electronics, detector systems, machining and fabrication, prototyping, and fluid handling. Mr. Jabs holds 7 patents, 8 disclosures of inventions, and 2 NASA Certificates of Recognition. He developed over 20 product concepts in areas of sensors, automotive engineering, long-duration space travel, nuclear cancer therapy, X-ray generation, household appliances, solar and wind energy harnessing, water treatment, drug delivery, and micro-fluidics. He authored over 40 proposals to government agencies as well as private entities, and published over 22 papers. Harry Jabs is now focused on phenomena that challenge the dominant scientific paradigm, including purported subtle energies associated with humans and the interaction of consciousness with living and material objects.

**International Chinese Parapsychology Association Invites
USPA Members and Colleagues to Attend Conference in
Kunming, China, August 4-7, 2019**

Professor Yi-Fang Chang, Vice-Chairman of International Chinese Parapsychology Association, has extended a personal invitation to all USPA members and colleagues to attend the "Chinese Traditional Culture, Parapsychology and Its Function Exhibition" Conference in Kunming, China, on August 4-7, 2019. If you are interested in attending, please write Professor Chang at: yifangch@sina.com.

Special Invitation from Professor Yi-Fang Chang

Dear USPA:

The year 2019 marks 40 years since the beginning of Somatic Science (Parapsychology) in China. As of 2019, the Parapsychological Association in the United States has been an affiliated organization of the American Association for the Advancement of Science (AAAS) for 50 years, which is an important symbol of the scientific mainstream of advanced countries formally accepting parapsychology.

The two prior conferences on "Chinese Traditional Culture and Parapsychology" held in Kunming on October 23-24, 2011, and November 19-21, 2016, are important milestones in the research of Chinese parapsychology. The two published proceedings have caused great repercussions in China and abroad, and have been reported in international journals.

In the face of the rapid development of science and technology, we are scheduled to hold the 2019 Conference on "Chinese Traditional Culture, Parapsychology and Its Function Exhibition" in Kunming, China on August 4-7, 2019.

This will be the first international conference on parapsychology in mainland China. We sincerely invite all experts, scholars, researchers, and people with special talents, from China and the world, to attend, especially those who can show their research and abilities, including theoretical perspectives, medical treatment, Qigong, magic power, Yi, and related. We invite you to gather together in Kunming, the famous

Chinese tourist city with unique scenery, to display your research and talents, share friendship, exchange and discuss with each other, in order to promote the research of parapsychology in the world. Further, we will organize some special exhibitions for your function.

We especially invite USPA members and colleagues to attend the conference, and your head as honorary chairman of this conference, whose date follows your USPA conference in July. We hope for your support for parapsychology in China.

The conference coincides with the 80th birthday of Dr. Brian D. Josephson, who is the 1973 Nobel Prize winner in physics, a professor at Cambridge University, and a director of Mind-Matter Unification Project. We will celebrate his birthday, and have invited him to hold a special report by Skype for the conference. It will be the first in a series of celebrations on his 80th birthday.

Because James Randy (91 years old) claims that no supernormal function has ever been found in the world, on February 18, 2019, we formally invited him and his Committee for Skeptical Inquiry (CSI) colleagues to participate in this conference for the first time. We will have an open exchange and discussion with them at the conference.

The conference will also set up an academic committee, an organizing committee and an expert committee.

Organizer: International Chinese Parapsychology Association

Planning and Coordinating Unit: International Chinese Parapsychology Association China, South Branch

Presiding Chairman of Conference:

Yi-Fang Chang,

Professor, Department of Physics, Yunnan University,

Vice-Chairman of International Chinese Parapsychology

Association.

Dr. Elizabeth Rauscher Passes Away

Dr. Elizabeth Rauscher (1937-2019)

It is with great sadness that we report that our friend and colleague, Dr. Elizabeth Rauscher, passed away, July 3, 2019. Dr. Rauscher was a world-renowned physicist, with a long and distinguished career at the Stanford Research Institute (SRI), the Lawrence Berkeley National Laboratory (LBNL), and other institutions. One can only grasp the enormous contributions she has made to the world [by visiting her website](#) and seeing her illustrious curriculum vitae, the hundreds of articles, books, and reports she published, and the many research grants, projects, and other activities she lead or participated in.

The USPA was honored and privileged to have Dr. Rauscher as a speaker at many annual USPA conferences, since much of her research related to the effects of electromagnetic fields on biological systems, both positive and

negative, consciousness, remote viewing, psychokinesis, and other subjects of interest to researchers on psychotronics. The annual USPA conferences she spoke at, and the titles of her presentations are as follows:

- 1981 "Physical Models Applicable to Remote Viewing"
- 1982 "ELF Radiation and Non-Linear Coherent Phenomena"
- 1984 "Models of Psychokinesis in Human Volitional Remote Interaction"
- 1985 "Introduction to Tutorial Day of Tesla Physics" with Dr. Bob Beck and Col. Tom Bearden
- 1985 "Examination of Physical Models of Remote Connectedness Phenomena"
- 1985 "Theoretical Examination of Nonlinear, Far From Equilibrium, Self-organizing Phenomena"
- 1986 "Criterion for the Existence of a Phenomena"
- 1987 "Consciousness, Quantum Measure As A Medium For A New Formalism"
- 1987 "Measuring the Fourth Dimension", with Moray B. King
- 2004 "A Life of Science and Consciousness Research"
- 2005 "Low Frequency, Low Level Pulsed Magnetic Fields Effects on Consciousness"
- 2006 "Monitor & Predict Earthquakes, Volcanic Eruptions, & Ionospheric Phenomena"
- 2007 "The Nature and Properties of Consciousness"
- 2008 "Environmental Issues and Global Population; Problems/Solutions to the Global Environmental Crisis"
- 2017 "Psychotronics, PSI and Consciousness: A New Revolution"

Dr. Rauscher's wisdom, insights, kindness, and friendship will always be remembered, and we will miss her greatly.

Dr. Rauscher's online "Memorial Page" with condolences, tributes, and memories can be reached by clicking on the link below.

Short News, Notes, and Queries

(If anyone would like to make a short news announcement, report something, has a question about anything related to psychotronics and related subjects, or has any information or comments about any of the following notes and queries, please write to the editor, John Reed at: joreed43@gmail.com)

1. Member Needs Help to Service Delawaar Instruments, and also Wants to Purchase Peggoty Board

USPA member, John Czernek, has a Delawaar diagnostic instrument and a 12-dial Delawaar treatment instrument that need to be serviced. Is there anyone who could provide serving of these instruments for John, either in person, or through providing advice via phone or email?

In addition, John would like to purchase a Peggotty Board, a radionics device originally developed by Darrell Butcher. [Berkana Labs](#) sells a version of the Peggotty Board, but John may be interested in purchasing an original model. If you can help John with either of the above, please email him at: oste0321@yahoo.com

2. Seeking Psychotronic and Radionics Device Instruction Manuals and Designs for USPA Library

Recently, the USPA has had several requests for help to repair old models of radionics machines, or to get them operating properly. In addition, the USPA museum has numerous radionics machines that we would like to eventually restore to running order. Many of these devices have been acquired by gift or purchase and did not have instruction manuals included.

Because of this, we have decided to seek and obtain instruction manuals and machine designs for all known psychotronics and radionics devices from the original Abrams devices of the 1920s to the present. If you happen to have any instruction manuals or blueprint designs for any radionics or psychotronics devices of any kind, whether old or recently produced, please contact the editor, John H. Reed at: joreed43@gmail.com , or call 443-858-0757.

3. Energy Healing Practitioners in Canada Needed to Test New Device

A new energy healing device, based in part on Lakhovsky, Priore, and Rife technologies, is being built in Canada to provide some degree of safety from certain well known US government agencies. The developers of this device also plan to do

trials and testing in Canada, where the use of energy healing devices is completely legal. They are seeking energy healing practitioners anywhere in Canada, but preferably in Alberta or British Columbia, who would be willing to test this device. If you are a Canadian practitioner, **or know someone who is**, and who has experience using energy healing devices to treat people or animals, **please write to the editor, John H. Reed, M.D., at: joreed43@gmail.com**

4. Excellent Article on 5-G Negative Effects

The whole subject of 5-G wireless technology and its potentially negative effect on the health of humans, animals, and plants is a subject of much debate. USPA Board member Daniel Taylor has found and sent to the editor an excellent article on this subject by Claire Edwards, a United Nations staff member who worked at the UN from 1999-2017. Titled **[“5G Is War on Humanity” \(available here\)](#)**, Edwards gives details on much research that has already been done that shows the potential deleterious effects of 5-G on many life forms, including humans. It is heavily reference, and links to many other sources of information are provided. **This issue will be addresses at the 2019 USPA, where Dr. Beverly Rubik and Harry Jabs will make a presentation titled, “Wireless Radiation, 5G, and Our Health”.**

5. Seeking Help to Repair a Digitron D Spectrometer

please write to her at: srowe@ruraltel.net Sharon is also seeking to purchase a Mattioda frequency instrument, so if you have one that is in good running order, please let her know.

We recently received an email from USPA member Sharon Rowe, who has a Digitron D Spectrometer that is in need of repair. This device, a photo of which appears at left, was invented in the early 1980s by Bill Lawson, also known as “Willard Frank”, and is reported to be the forerunner of the SE-5. Does anyone have a Digitron D Spectrometer, which they have used, and who could possibly help Sharon? If so,

Sharon is also seeking to purchase a Mattioda frequency instrument, so if you have one that is in good running order,

6. Seeking Help on Operating the Gallimore RAU #2 Radionics Instrument

USPA member, Paul Johnston from Australia needs help to get his Gallimore RAU #2 radionics instrument working (pictured below). In a recent email to USPA, Paul wrote: **“The equipment I have is Gallimore's RAU #2. I'm a bit confused by the dials. Most of the radionics gear I have looked at have up to eight dials which all start at zero and go up to 10. On the gear the first dial goes from zero to 100, so I'm not sure about how to set rates here. I have Gallimores "Volume 2 of Handbook of Unusual Energies", which lists the rates, but I'm not sure how to set them on this machine. The instructions that come with it claim that two rates can be used at once with this gear. It has a top bank and a bottom bank of dials (16 in total) with a switch to flick from one to the other so I'm trying to work out how it all goes together. If any of your members can help with this it would be much appreciated.”** If you can help Paul in any way, please contact him at: pauljohnston61@gmail.com

7. Seeking Information from Users of the IMRS 2000 PEMF System

USPA member Robert Conway is seeking information from users of the IMRS 2000 Pulsed Electromagnetic Field (PEMF) system. He is aware of the IMRS 2000 website, where the various IMRS devices and systems are described in great detail. However, Bob would like to hear from people who have actually used these devices, especially the IMRS 2000 Professional Set. If you have any experience with these devices, please write to Bob directly at: bob10841@gmail.com

8. **Italian Translator Needed for Book by Dotto Ring Inventor:** The Dotto Ring was a medical device invented by Dr. Gianni Dotto in the 1970's, and is said to have been used to successfully treat a number of diseases, including cancer. The device was also said to have the ability to slow or reverse aging in mammals. At that time, Dr. Dotto, wrote a 37 page book in Italian, that described how the machine was built, operated, and was able to achieve these remarkable results. However, there are no known English translations of this extremely rare book, which a member of the USPA has a copy of. Is there anyone who speaks Italian fluently who would be willing to translate this short book into English? If so, please contact, John H. Reed, M.D. at joreed43@gmail.com
9. **Trevor James Constable Book or Manuscript about Ruth Drown Wanted:** Does anyone happen to know about, or possess, a book or manuscript about Ruth Drown that was written by Trevor James Constable? It is not certain if this book was ever published, so it may be only in manuscript form. It is well known that Constable wrote a chapter about Ruth Drown in his book, The Cosmic Pulse of Life. However, there is a report that he also wrote an entire book about Drown. If that book exists, it is not known to be library in the United States, Canada, or Europe.
10. **Neurophone Devices Wanted:** Does anyone have any old neurophones that they would be willing to sell, rent, or lend for research and application purposes? The neurophone was originally invented by G. Patrick Flanagan in the 1950's, and enabled people who were completely deaf to hear. This non-invasive device was somehow able to bypass the auditory nerve, and interact directly with the auditory region of the brain, allowing a deaf person to hear. This device is needed to treat a patient of a colleague of John H. Reed, M.D. Please write him at: joreed43@gmail.com if you have such a device or know someone who does.
11. **Seeking Radionics Practitioner in Ohio:** Rebecca Cotterman is looking for a radionics practitioner in Ohio. If you are a practitioner in Ohio, or know one in Ohio, please contact Rebecca at: cotterman@hotmail.com
12. **Does anyone know anything about a man named William Lehr (1933-1996), who lived in Scammon, Kansas, and who developed several energy and healing devices, and made a reproduction of the T. Henry Moray energy device?** In addition, Lehr is said to have created a high-powered spark-gap device for healing purposes that cured a man who had been sent home to die, as well as, a huge

bibliography of articles and books dealing with new energy sources and energy medicine and treatment.

13. **Does anyone know the whereabouts and/or contact information of Dr. Robert N. Miller?** At the 1978 USPA Conference, Dr. Miller gave a presentation with Pierre Paul Sauvin titled “ Methods of Detecting and Measuring Healing Energies.” That was the only time that Dr. Miller ever spoke at a USPA conference, and we would like to follow up with him on any research he has done since that time.
14. **We have been recently informed that one of the radionics devices that Jerry Gallimore invented in the 1970’s or 1980’s used a GSR meter in place of a stick plate.** Does anyone happen to have or know anything about this particular device? Such a device would be very significant, because if there is a such a radionics device that can be successfully used without a stick plate, which depends on the sensitivities and subjectivity of the user, it would enable nearly anyone to use that radionics device. One of the problems that beginners in radionics often have is the detection of the “stick”, on the stick plate, and some people are never able to develop this ability.

15. **Do any of you know anyone who has ever owned, used, or did research on the Dotto Ring?** This was an electrotherapy treatment device, pictured at left, developed by Dr. Gianni Dotto back in the 1970’s and is said to have been used successfully to treat cancer and other diseases in humans and animals. In addition, the Dotto Ring was also said to be able to slow down the aging process and even rejuvenate individuals to some degree.

16. **Does anyone have video tapes of the presentations that Andrija Puharich made at the 1982 US Psychotronics Association Conference?** The title of Dr. Puharich’s first presentation was: “Chemical Compounds: Receptors of Artificial ELF”, and was sold for a period of time on the USPA website with this title and catalog number F6. The second presentation that Dr. Puharich made at the 1982 USPA Conference was the Keynote Address at the Awards banquet. The Title of this presentation was “Kindling + 1” and had catalog number F7. If anyone has either or both of these tapes, please contact the editor, John Reed at: joreed43@gmail.com.

Does Anyone Have Copies of the USPA Newsletter That Are Missing from the USPA Library?

The USPA Library is attempting to gather a complete set of all hardcopy issues of the USPA Newsletter from the very first issue of Vol. 1, no. 1 (Spring, 1979) to December, 2015, when the New Series of newsletters began online, under the editorship of John H. Reed.

Through the generous contributions of Scott Beutlich and Gail Ruggles, we have most of the issues, which were usually published quarterly, but sometimes only semi-annually. However, we are missing quite a few issues, and we need your help to find those that we need.

Would you be kind enough to check your files to see if you have any of the issues we need, which are listed below. If you have any of the missing issues, please write to me, John Reed, at: joreed43@gmail.com.

Vol. 1: no. 2 (Summer, 1979), no. 3 (Fall, 1979), no. 4 (Winter, 1979)

Vol. 2: no. 1 (Spring, 1980) no. 2, no. 3 (Fall, 1980), no. 4 (Winter, 1980)

Vol. 4: no. 2 (Summer, 1983)

Vol. 5: no. 3 (Fall, 1985), no. 4 (Winter, 1985) **(Please note that the 1985 issues were accidentally numbered as “Vol. 5”, the same as 1984. However, for 1985, we only need the two noted issues.)**

Vol. 6: no. 2 (Summer, 1986), no. 4 (Winter, 1986)

Vol. 7: no. 2 (Summer, 1987), no. 3 (Fall, 1987), no. 4 (Winter, 1987)

Vol. 9: no. 4 (Winter, 1989)

Vol. 13: no. 2 (Summer, 1993), no. 3 (Fall, 1993)

Vol. 14: no. 2 (Summer, 1994), no. 3 (Fall, 1994)

Vol. 21: no. 1 (Spring, 2002) no. 2 (Summer, 2002, no. 3 (Fall, 2002)

Vol. 22: no. 3 (Fall, 2003), no. 4 (Winter, 2003) **(Please note that for the years 2003, 2004, 2005, and perhaps beyond, numbering and dating errors occurred frequently. For example, we have Vol. 22, no. 1, which is dated as “Summer, 2003”; we have Vol 23, no. 2, which is dated “Nov., 2004”; and we have Vol. 24, no 1 dated as “Fall, 2005”. But it is not clear if the numbers, dates, or perhaps both are in error. So please let me know of any issues you have for these years, so we can figure out the correct numbering and dating, and determine what issues were actually published. Among the Missing, (and Updates): A Column about Missing People, Organizations, Periodicals, Books, Artifacts, and Collections in the Psychotronics Field

by John H. Reed, M.D

This is a new “column” or section of the USPA Newsletter, and will be an ongoing part of every issue, with the purpose of helping the USPA, as well as, our members and research associates locate people, organizations, periodicals, books, artifacts, devices, collections, and other items that have seemingly disappeared, or have been extremely difficult to find. **Updates will be added, and each missing item will be retained in future issues until it is found or otherwise resolved, since some readers may not have seen prior issues of the USPA Newsletter or the original notice of the missing item.**

In addition, this will also serve as a “People Locator Service” to help find authors and researchers on psychotronics, radionics, subtle energies, energy medicine, and related subjects, who have “disappeared” or have died long ago, and whose relatives you may be trying to find in order to preserve the research papers and collection of that person.

In our research and reading, we all have encountered people, organizations, periodicals, books, articles, or other things that we have tried to find, and some people have searched for years to find something, but have not yet found it, despite the vast resources of the Internet. However, with our large USPA membership, we can all help one another find what we have been searching for. Some of you may have experience in genealogical research, or private investigation, law enforcement, or even intelligence work which you could utilize to help each other, or perhaps just make suggestions on how or where to search for something.

So if there is anything you have been searching for and need help to find, please write to me, John H. Reed, M.D. at: joreed43@gmail.com, and I will include your search help request in the next and subsequent issues of the USPA Newsletter. And if you have any information about an item that is listed in “**Among the Missing**”, please write to the same email address and share what you know or your suggestions. If there is something that is confidential, your confidentiality request will be honored and protected.

Where Are the Missing DeLaWarr Camera Plates?

As is well known, George DeLaWarr, founder of the DeLaWarr Laboratories in Oxford, England, invented a type of radionic camera that could make diagnostic images of internal organs and other anatomical structures that were said to be as good, or better than x-rays.

DeLaWarr patented this device (below) in the 1950s, and over the years until his death in 1969, produced thousands of images on plates of glass and other materials which would show the images. It has been claimed that as many as 12,000 image plates were produced by DeLaWarr and others.

However, these image plates have disappeared, and the whereabouts of even a single image plate is unknown. After the DeLaWarr Laboratories closed in the 1980s, it is said that several thousand plates had been purchased by an American. But based on an investigation in 2017 in England by Daniel Daylor and John H. Reed, it was determined that those plates were never picked up in England nor sent to the US. In addition, no image plates were found at the location where the DeLaWarr Laboratories once operated.

If anyone has any information on where these DeLaWarr Camera image plates are or might be located, please write to the editor, John H. Reed, M.D. at: joreed43@gmail.com

Missing Person: Willard Frank , also known as Bill Lawson

We are trying to find any relatives or other people who personally knew Willard Frank, also known as Bill Lawson, who was the developer of the radionics device called the Digitron. This device, a photo of which appears at left, was invented by Willard Frank in the early 1980's, and is reported to be the forerunner of the SE-5, which Don Paris has developed into one of the finest radionics devices in the world.

Willard Frank is reported to have died in 2009, and there is some question as to whether his real name was Willard Frank or Bill Lawson. If any reader knew Willard Frank, or where he lived, or any of his relatives, please contact the editor, John Reed at: joreed43@gmail.com.

The USPA would also like to obtain one of the Digitron devices for the USPA Museum. If anyone has a Digitron (or knows someone who does) and would like to donate it to the USPA or sell it for a reasonable price, please contact the editor.

Missing Inventions: The Missing Invention of Arthur H. Matthews to Control Insect Pests, Microbes, and Diseases at a Distance

Where are the patent and invention by Arthur H. Matthews, a Canadian, who in his own words stated “This refers to my invention of selective control – at a distance – with no physical contact – to control any form of germ – any sickness – all kinds of insect[s] which cause damage to forest, garden and human[s].” Those words appeared in Matthews' own hand writing at the bottom of a reproduced letter on Appendix page A-10 of his book, *The Wall of Light*, which he published in 1971. But the

big mystery is that the Canadian Patent Office database of patents does not show this invention or any other invention by Arthur H. Matthews.

Interestingly, correspondence of the Canadian Commissioner of Patents shows the title of the invention as “ Methods for the Control of Insect Pests” and the patent **application** number of: 510,626, but not the number of the patent, if it was ever granted. So the question arises: What happened to this wonderful invention by Mr. Matthews, and why does the Canadian Patent database have no record of this device whatsoever in its database of patents?

Further details on this mystery are available in an article titled, “Among the Missing” Special: The Missing Invention of Arthur H. Matthews to Control Insect Pests, Microbes, and Diseases at a Distance” in the [February, 2018, issue of the USPA Journal and Newsletter, pages 24-27, available here.](#)

If anyone has any information about this invention by Arthur H. Matthews, please write to the USPA editor, John H. Reed, M.D. at: joreed43@gmail.com.

Missing Device: Marcel Vogel’s Omega- 1 Radionics Instrument

In a 1987 meeting presentation, [YouTube Video, available here, beginning about 4:20](#), Marcel Vogel states that he had been trying to find a way by which he could measure the subtle energies and fields in the crystals he was working with, and that he prayed to God to give him an instrument to make such measurements. Marcel says that about two months later, a man named Daniel Perkins, apparently guided by higher forces to build such an instrument, came to Marcel’s door and said, “Here is your instrument, the Omega-1. You will know how to use it,” and walked away. **But where is that particular Omega-1, and were any other Omega-1 instruments built?** It is known that other Omega models of radionics instruments were produced, especially Omega-5 instruments, but it is not known if the company that built them still exists. **In addition, does anyone know who Daniel Perkins is, and where he is located?** Anyone who can shed light on this mystery, please write to the editor at: joreed43@gmail.com.

Missing Psychotronics Device:

The AGRAD Machine: In the 1970’s Mankind Research Unlimited, Inc.(MRU), headed by Dr. Carl Schleicher, was offering for sale a device called the AGRAD Machine. It was intended to be used in the electromagnetic treatment of crops and the control of insect populations, and sold for \$390.00. MRU claimed that AGRAD machines had been used for several years by MRU researchers to conduct experimental applications of the type described in **The Secret Life of Plants** by Christopher Bird and Peter Tompkins, and **Report on Radionics** by Edward W. Russell. Theoretically, the AGRAD machine was intended to produce effects through electromagnetic wavefronts that would interact with and control insects by disturbing the insect sensor mechanisms. A photo of the device and additional information appeared in one of MRU’s publications [which you can access here](#). If you have any information about this device, please contact John H. Reed, at joreed43@gmail.com

Ultra-weak Photon Emissions Differentiate Malignant Cells from Non-Malignant Cells In Vitro*

by Blake T. Dotta, Lukasz M. Karbowski, Nirosha J. Murugan, David A. E. Vares, and Michael A. Persinger

Editor's Note: For copyright reasons, this article cannot be republished directly in the **USPA Journal and Newsletter**. However, it is freely available online at the following link, so just click on it and you can read the article in its entirety. The abstract of the article is below the link.

Abstract/Summary:

“A fast, inexpensive, and accurate method for differentiating normal (non-malignant) cells from malignant cells could facilitate diagnosis and subsequently treatment.

Although blood constituents are the current dominant indicators, we have found that Spectral Power Densities (SPD) obtained from only 100 s of measurements of spontaneous ultra-weak photonemissions (UPE) from cell cultures significantly differentiated malignant from non-malignant states.

Breast cells were particularly differentiable from non-breast cells according to their SPD profiles. More critically, the combination of only 3 discrete frequency increment changes in SPD profiles accurately classified 85% of malignant breast cells from normal breast cells in culture. These results confirm results from our mouse experiments and preliminary observations from our human measurements that appropriately analyzed and interpreted SPD from very brief samples of UPE. This may be a viable tool for early detection of malignancy.”

Crystals, Love and the Matrix of Consciousness - The Therapeutic Use of Quartz Crystals, Chapter 5: Experiments

by Rumi Da

Rumi Da is in the process of writing a very informative book titled, [Crystals, Love and the Matrix of Consciousness - The Therapeutic Use of Quartz Crystals](#). As he progresses, he is generously sharing the chapters of his book freely online. Rumi Da worked closely with Marcel Vogel, who was one of the most knowledgeable people in the world about the therapeutic use of crystals. You can reach Rumi Da's website, [Vogelcrystal.net, here](#).

For copyright reasons, Chapter 5 of this book cannot be republished directly in the USPA Journal and Newsletter. However, it is freely available online at the following link, so just click on it and you can read the chapter in its entirety.

<https://www.vogelcrystals.net/experiment.htm>

This chapter shows experiments that you can perform to duplicate and verify Marcel Vogel's work. It details the specific materials and equipment required, how to prepare the experiments, and the procedures for conducting the experiments.

This is the last chapter, so far, that Rumi Da has made freely available on his website, and states that other chapters will be "coming soon". So watch for them at: <https://www.vogelcrystals.net/index.htm>

The History and Development of Radionics, Part 6

By The Radionist

This is the sixth of a nine part series of articles that gives an excellent portrayal of the history and development of radionics from its inception with Dr. Albert Abrams in the early 1900s, up to the 1960s, when the articles were published. It is uncertain who the author is, but he or she clearly has extensive knowledge of this subject. If anyone knows the identity of “The Radionist”, please write the editor John H. Reed at: joreed43@gmail.com)

This article was originally published in the Journal of Borderlands Research, vol. 25, no. 3 (May - June, 1969). This is one of the best books ever written on radionics. What is of particular importance and value is that the author provides detailed results of field trials of radionic treatment of various crops to eliminate disease and insects, without the use of harmful pesticides. Few, if any, other books on this subject have ever provided such evidence of the effectiveness of radionics.

To many, radionics seems too good to be true, but this book shows that it is true, and how brilliant men and women, working in natural and logical steps, have brought it to its present state of development. This book is what the author calls "The First Act in the Drama of Radionics, and opens with the great American genius, Albert Abrams, M.D., an internationally known medical doctor, who discovered radionics and its therapeutic effects in the early 1900s, when treating patients at his San Francisco clinic.

The book depicts the trials and triumphs of the early pioneers, and their persecution and suppression by colleagues in the medical profession, professional medical organizations, as well as, government agencies. Despite these actions, radionics survived, and the author shows how radionics can not only help revitalize the healing arts, but also increase agricultural production without chemical fertilizers and pesticides.

This book is "must" reading for all who are interested in radionics, radiesthesia, and related subjects.

USPA Generous Donor Recognition Page

The USPA would like to give special recognition on a continuing basis to people making generous donations to the United States Psychotronics Association. To do this, we are creating this special “USPA Generous Donors Recognition Page” that will be carried in each issue of the **USPA Journal & Newsletter**, beginning with the December, 2016, issue and going forward. New names will be added as other generous donations are received.

The USPA wishes to recognize the following individuals and extend our gratitude for their generosity: (in alphabetical order):

George B. Alder, II

Scott Beutlich

Mary Hardy ([Temple of Sakkara](#))

Ed Kelly ([Kelly Research Technologies](#))

Michael Leger ([Homeodynamics, LLC](#))

John H. Reed, M.D.

William Reeves (Print & Web Design - breeves66@gmail.com)

Arnold Reinhold

Eric Rowley

Daniel Taylor

To make a tax deductible donation to the United States Psychotronics Association (USPA) online, please go to the [USPA donations page and scroll down to the orange “Donate” button](#), where you can make a donation using your credit, debit card, or PayPal. **For those who wish to make a donation by check**, please make your check payable to USPA and mail it to the **USPA treasurer, Scott Beutlich, 525 Juanita Vista, Crystal Lake, IL 60014.**

USPA Psychotronics Periodicals Library

In order to do good psychotronics research of any kind, whether it involves radionics, radiesthesia, psionic medicine, dowsing, subtle energies, biophotons, or any other subject covered by psychotronics, one needs access to as much of the periodical literature as possible on these subjects.

To address this issue, the United States Psychotronics Association has resolved to identify, acquire, and digitize copies of every psychotronics related periodical that has ever been published anywhere in the world, and to retain copies in the USPA Library.

As a first step, we have developed an [online list of psychotronics related periodicals \(click here\)](#) that focus on or frequently have articles on the psychotronics subjects noted above. This is a growing list, since we know there are probably other psychotronics periodicals that have been published, but that we do not yet know about.

Please look over the online list and check your own personal physical libraries and your computer files, thumb discs, and other external hard drives to see if you have any issues of the periodicals on this list. Even if you just have one issue, please let us know, because that may be the one we need to complete all the issues of a particular periodical. **Please write to me (John Reed) at: joreed43@gmail.com, since I am the USPA librarian and archivist coordinating this effort,** and tell me what periodicals you have.

As a whole, the members of USPA and other interested non-members, have a huge "library" of periodicals, but it just happens to be "distributed" among these people at this point in time. However, we can work together, and if you would be willing to loan, donate, xerox, or as a last resort, sell copies of your periodicals to the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. And all USPA members will then be able to use these periodicals in their research or for their reading enjoyment.

USPA Local Groups and Affiliates Update

As mentioned in the May, 2016, USPA Newsletter, one of our goals is to reactivate all of the former 24 USPA Chapters that once existed across the US and Mexico. In addition, we plan to establish new local groups of people interested in psychotronics and related subjects in other major cities in the US and other countries as well. All such local groups and affiliates will be independent, but will work together with the USPA in a mutually beneficial relationship to achieve our goals of advancing research and applications in psychotronics, radionics, subtle energy, and related fields.

So I would like to invite all of former USPA Chapters leaders and members to contact me (John Reed) at: joreed43@gmail.com and let me know if you would like to help reactivate your local chapter. In addition, if you are a leader or member of a psychotronics or related organization which was never a chapter of USPA, and we would welcome you as a USPA affiliated organization as well.

We will be establishing a USPA affiliated groups as traditional organizations and also via the Meetup.com online group platform. This will enable current and former members to more easily have local get-togethers, meetings, and other activities, and those activities, times, and other details can be posted online. So please let me know if you would like to be the leader of a group in your area.

If you do decide to use Meetup.com to establish your local group, you could do it quickly and easily by going to www.meetup.com , and clicking on the big red word “**Start**” in the upper left, and then just following the step-by-step procedures.

You can give your local group any name you want, but it should probably have a name that relates to psychotronics in some way. And if you need any help, please let me know, and I will help you in any way I can. Perhaps the most important thing is enthusiasm and determination, so write to me, even if you don't know any other USPA members in your area, and I will help you set up a local group: joreed43@gmail.com

Exchange Corner and Advertisements

The "Exchange Corner", is a place where people can advertise to buy, exchange, or sell items of interest, or request information or other help in relation to something wanted. So if there is anything you want to buy, sell or trade that has to do with psychotronics, radionics, subtle energy, or related subjects, please contacted the Classified Ads manager at: joreed43@gmail.com. Advertisements are free of charge to USPA member within certain limits, but non-members will be charged for any classified or display ads. So please send your ads and wanted requests to: joreed43@gmail.com.

Wanted: Any articles, periodicals, books, devices, or other materials on psychotronic related subjects that you can donate or lend to the USPA for its library, archives, and museum. **The USPA is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. Please email the USPA at: joreed43@gmail.com to make shipping arrangements. Thank you for your generosity.**

Kelly Personal Analyzer for Sale

Mariette Picket has a friend that has a brand new unused Kelly Personal Analyzer that she paid \$2100 for, and is offering it for sale at only \$1600.00 Anyone interested call Mariette at: [317-773-0061](tel:317-773-0061)

Bruce Copen MARS III for Sale

I am a current USPA member and have a **Bruce Copen MARS III** for sale. The system is about 7 or 8 years old and in original, excellent condition. Sale includes original SCOPE analysis, database and broadcast software, HP laptop, comprehensive training manual and program disc, interconnects and boxes. I have always run it on XP with no issues; everything original as supplied by Copen.

All operations can be automated and multiple broadcasts can be run simultaneously, although Copen saw to develop this device so it could be used in many radionic styles and without computer control. The price is \$8500 USD roughly half the original cost. I prefer to not ship to a destination outside the USA. A limited amount of training by me, as I understand it, is available to a confirmed purchaser, as time and distance reasonably permit. Please contact: **Dr Robert Dixon, robertdixondc@gmail.com or call (304) 259-9439** Berkeley Springs, WV.

KRT Experimental Agricultural Radionic Analyzer for Sale

For Sale:

USED EXPERIMENTAL AGRICULTURAL RADIONIC ANALYZER

Manufactured by KRT (Kelly), this machine is a predecessor to their current Workstation model. The machine is clean and in good condition. For more information please see KRT's website:

<http://www.kellyresearchtech.com>

Asking a very reasonable \$2499,00 plus \$100.00shipping to the lower 48 states.

What Research and Subjects Does Psychotronics Cover?

The United States Psychotronics Association defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness. Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Some Prominent People in the history of psychotronics research and application: Albert Abrams, Thomas Bearden, Robert C. Beck, Robert O. Becker, Jacques Benveniste, David Bohm, Harold Saxon Burr, George W. Crile, Ruth Drown, T. Galen Hieronymus, Vlail P. Kaznacheyev, Georges Lakhovsky, Wilhelm Reich, Royal R. Rife, Rupert Sheldrake, Nikola Tesla, Marcel Vogel, and others.

Some of the forces, fields, waves, and energies studied and researched in psychotronics include: bioelectromagnetism, biophotons, biopotentials, electromagnetic wave pollution and harmful effects; coherent emanations of DNA, emanations of matter, “free energy”, morphogenetic fields, non-hertzian waves, orgone energy, pyramid energy and power, qi (chi), quantum fields, scalar waves, subtle energies, ultra-weak radiation of living matter, zero-point energy, and others.

Some of the phenomena believed to be produced or involved with the above fields and energies: action-at-a-distance, the aura of the body and other living things, bioinformation, bioluminescence, chakras, consciousness, distant intercellular interactions, meridians of the body, mind-body interactions, non-locality, the placebo effect, quantum consciousness, spontaneous remission of cancer and other diseases, water memory, water structure, and others.

Related fields of study and research covering the above forces, energies, and phenomena of psychotronics: bioelectromagnetics, bioenergetics, biophotonics, biophysics, psionics, psychoenergetics, psychoneuroimmunology, quantum biology, radionics, scalar electromagnetics, and others.

Some practices, techniques, and applications related to psychotronics include: acupuncture, biogeometry, brain entrainment, clairvoyance, dowsing, energy healing and medicine, extrasensory perception, feng shui, homeopathy, kirlian photography, magnetic therapy, pendulum use and methods, prayer effects, psionic medicine, psychic healing, psychometry, qigong, radiesthesia, radionics, remote viewing, shamanism, sound and sonic healing, telekinesis, telepathy, and others.

Membership Benefits

So if you are interested in any of the above subjects, then the USPA is the place for you, where you can interact with, exchange ideas, and collaborate with other people who are interested in the same subjects. So sign up now for membership in the USPA using the form on the following page and start enjoying all of your membership benefits. These benefits include, but are not limited to:

1. **USPA Psychotronics Library: Free access to copies of certain articles, periodicals, books, audio tapes, videos, and other materials in USPA Psychotronics Library. Please write to joreed43@gmail.com for whatever item(s) you are seeking;**
2. **Your free subscription to the USPA Journal & Newsletter;**
3. **Your right to freely publish articles in the WISE Journal - The Journal of the World Institute for Scientific Exploration (ISSN 2381-1536), enabling the world to see your ideas or research, and thereby enhance your resume and credentials;**
4. **Your right to use the USPA Literature Research Service, whereby we will find any article, book, or other item you are seeking on the above subjects, and provide it to you;**
5. **Your right to participate in the USPA "Research Assistance Program", especially useful to professors, authors, and other researchers, who need extra help on their projects. USPA will help find volunteers to help you with your research project(s).**
6. **Your right to be part of the USPA Project Participation Program, whereby you can volunteer to help on numerous available USPA projects, or help researchers who are conducting research on psychotronics and related subjects.**
7. **Your right to make oral or poster presentations at the annual USPA meeting, with the approval of the Annual USPA Meeting Planning Committee.**
8. **Your right to discounts on the purchase of certain items and services made available for sale or provided by the USPA and its members.**
9. **Your right to freely advertise in the WISE Journal, which goes out to thousands of people.**
10. **Your right to participate in the USPA Psychotronic Literature Preservation Program (UPLPP). The USPA, via its Library and Archives, has established a "Literature Preservation Program" to preserve your personal papers, files, records, and collection of articles, periodicals, books, and devices on psychotronics and related subjects, noted above. You may no longer need or use some of these items that you have, and you can send them to the USPA, and we will preserve them in our library and archives, so that they can be of use to other researchers.**

MEMBERSHIP INFORMATION

The U.S. Psychotronics Association (USPA), was incorporated in the District of Columbia in August, 1977, and is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. It is empowered to enroll members in the parent organization throughout the United States, Canada, and other foreign countries. Membership is open to all people who wish to join with the USPA on the new frontiers of science in working constructively for the qualitative improvement of man and his environment. **Please remember the USPA in your annual charitable giving, especially if you want to advance research in the above subject areas, which can greatly benefit humans, animals, plants, and the environment.**

USPA Catalog of Conference Lectures, 1978-1994 Now Available

A compilation of nearly 300 lectures given at the first 17 years of the United States Psychotronics Association (USPA) conferences, from 1978 through 1994 is [now available in a 30 page catalog \(click here\)](#).

There are talks by some of the most well known scientists of our age, including Andrija Puharich, Thomas Bearden, Marcel Vogel, Lynn Surgalla, Robert Beck, T. Galen Hieronymus, J.G. Gallimore, Elizabeth Rauscher, Christopher Bird, and many, many more.

There are also lectures specifically about radionics from some of the top practitioners: Robert Beutlich, Lutie Larsen, Jerry Fridenstine, Frances Farrelly, and others.

If you have an interest in the paranormal, the life of plants or zero-point energy, there are speakers here who are experts in the fields. How about dark-field microscopy, scalars, magnetic fields, or the Philadelphia Experiment? Yes, they are in here in this catalog too. Homeopathy, color-healing, use of crystals, structuring water, water memory, and Tesla's work are some of the other topics covered in this catalog.

As of this date, (April 15, 2017) they are available only by direct contact with USPA, but soon, they will be available online. The USPA home page is at <http://www.psychotronics.org> and we will have a linked site where purchase will lead to immediate download of the MP3, and payment can be made through Pay Pal.

Please note that [in the Catalog \(click here\)](#), most of the lectures are standard MP3s, are 30-45 minutes long, and priced at a very reasonable \$5.00 each. These have no marking in the right-hand column of the catalog listing. Other MP3s are one hour or slightly longer, and are marked "Prime" in the right-hand column, with a price of \$8.00 each. And a few of the MP3s are 90 minutes or longer, and are marked "Double", with a price of \$10.00 each. USPA members get 40% off.

However, if you just "can't wait," for the online order website, email us at uspsychotronics@gmail.com or contact our USPA Treasurer by snail mail at:

J.G. Gallimore's Five Rare Books Now Available for Sale

All five of J.G. Gallimore's rare books on psychotronics subjects and unusual energies have been reprinted by the United States Psychotronics Association (USPA) and are being made available at a fraction of the cost that used copies were being sold at online. So rare have these books been, that only a few libraries in the entire world had them in their collections, and some of Gallimore's books were being sold for several hundred dollars each online. However, with these newly reprinted volumes, each will be available for less than \$30.00. Each of Gallimore's books is described below with links to Amazon.com.

Jerry G. Gallimore was one of the founders of the USPA in 1975, and was a leading researcher in psychotronics and unusual energies until his untimely death in 1989.

This is J.G. Gallimore's first book of three volumes on unusual energies, and at 468 pages, it is a magnificent work. In this book, Gallimore discusses in depth the research, discoveries, and

inventions of all the major researchers in subtle energies, the aether, biological

fields, pyramid energy, radiesthesia, radionics, crystal transduction, and related subjects. These include the works of Baron Von Reichenbach's and his odic energy, Dr. Wilhelm Reich's orgone energy, Dr. Harold Burr's biological life fields, Kozyrev's time mirror, Edgar Cayce's transmission of energy, and related research done by many others. Of particular importance is Gallimore's 127 page chapter on radionics. In this chapter he discusses in depth the research and devices of Ruth Drown, T. Galen Hieronymus, Rho Sigma, Dr. L. P. Corte and other prominent people in the radionics field. But in addition, Gallimore provided diagrams showing how such devices are made and how they actually work.

This is the second book in the “Unusual Energies” series that J.G

Callimore published. It covers Gallimore's research on Albert Abrams, the founder of modern radionics, psychological physics, psychic energy, thought resonance, subtle energies, crystals, and related subjects. In addition, a number of radionics devices are discussed, such as the De La Warr Diagnostic Instrument. And very helpfully, the rates are provided for substances, body organs, and medical diseases and disorders. A very interesting interview of Christopher Bird, conducted by J.G. Gallimore is provided, as well as a discussion of Walter Russell and his research.

The Relationship Between Parapsychology and Gravity is Volume 3 of J.G. Gallimore's series of three handbooks of unusual energies. This book describes in depth the research and theories of J.G. Gallimore into the question of "parapsychology transmission" --the question of how such things as telepathy, remote viewing, ESP, and similar phenomena can physically occur. Gallimore discusses various explanation on how they occur, including the possibility that gravity waves may play a role. He also discusses the various emanations, radiations, and energy fields of all matter and life. This includes the ancient Chinese energy called "chi" (qi), the ancient Indian's prana energy, Reichenback's "oddc force", Gurwitsch's "mitogenic radiation", Wilhelm Reich's orgone energy, and other subtle energies of life and matter. Gallimore shows how all of these energies are the same or similar, how they interact, and how they are related to gravity. He also discusses crystals as transducers of these energies, and provides diagrams of devices that could potentially be used to harness or control these energies.

This book covers the visionary research and theories developed by J.G. Gallimore about anti-gravity, space, time, and biophysics. He discusses in depth the dimensions of space, time, and gravity, and new discoveries in each of these areas. In addition, he covers research being done on anti-gravity and then discusses anti-gravity patents that have been obtained. He also discusses the intriguing concept of aura energy fields surrounding humans and other living things, and how extra-sensory perception (ESP) might be explained through biophysical principles.

Unified Field Theory Research Book: Using Subjective Response to Psi-Plasma for Analysis of Properties Neutral Charge Plasma Fields

This book is about psychotronics, radionics, electromagnetic fields and waves, psi-plasma, plasma fields, subtle energies, bioelectromagnetic energy, and other unusual energies emitted by living and non-living things. It also is about how living things interact with and are affected by these energies, which may enhance health or harm health. The book covers the research of Wilhem Reich on orgone energy, of Baron Reichenback on the odic forces, as well as research done by Cazzamalli on brain radiations and Lakhovsky on using high frequency radiations to successfully treat cancer in humans. In addition, Lakhovsky used similar methods to enhance the growth of plants. Gallimore shows how these energies, forces, and fields are all inter-related and provides hypotheses and ideas on their possible unification.
