A Chance in life is all they need to have brighter tomorrow... Would you give them that chance?

Thank you for being part of El Shaddai Charitable Trust in supporting orphans, Street Children and children coming from economically marginalized conditions. For the last twenty two years our hope has been in bringing childhood to children who have never had one. There are ***hundreds of children on the streets in South Goa*** living alone for a number of different reasons. Some are orphans, other's runaways who are trying to escape the horrors that surround their daily lives and many others are the children of migrants who work at construction sites. Our Stepping Stones Shelter and Albert's Good news Centre in Margao South Goa are reaching out to hundreds of children every day with food, clothes and education but there is no safe environment for their healthy growth.

For many years El Shaddai has been providing residential care for several hundred children in North Goa. Now there is an urgent need to have a Residential Children's Home in South Goa for such children. ***The exciting news is we found an old Portuguese house in Verna, South Goa suitable for these children.*** It has not been occupied for many years. Thanks to receiving a Legacy from one of our supporters we have been able to purchase this beautiful property. Now the challenge is getting it ready for the children to move in. With a little financial help from some of our supporters, the house is already under repair and the roof tiling, Painting, Carpentry and Masonry work

has been completed. Electric and plumbing work is going on and hoping to open the home for children to move in by first week of month of July! We are yet to furnish the kitchen and furnish the house.

The reality for a Street Child who is often innocent, lonely and frightened, is living in poverty with sickness and exploitation, often being physically and sexually abused. The sooner we open this house the better, ***for up to 75 additional children will be in our residential care and a healthy environment where they can safely grow up***, so saving them from further suffering.

We look forward to opening this house at the ***start of this academic year which in India is in June***. The children have been identified and are ready to move in. The challenge is to make it ready, at least with basic things the children will need.
