Bostik's Green Vision

Bostik worldwide has been synonymous with sealants and adhesives since the turn of the 20th century, Bostik has access to new and innovative technologies which influence the development of products that are environmentally friendly and in line with changing regulations.

Bostik's commitment to meet and go beyond market expectations means that we ensure our products comply to the toughest global standards for sustainability providing architects, builders and customers with the optimum building solutions for a more environmentally friendly tomorrow.

With a strong focus on innovation, Bostik continues to develop new adhesives with reduced VOC emissions and even eliminating the use of solvents and hazardous chemicals.

Bostik provides a complete solution from substrate preparation to adhesives and repair kits.

Ultraseal Vapour Barrier: Specifically designed for hard flooring applications, ultraseal vapour barrier is a one coat system which is easy to mix and easy to apply.

Ultraset HP: Highly recommended for pre-finished timber due to the easy clean up & sound deadening properties

Ultraset SF: Market leader for over a decade Ultraset SF is highly recommended for hardwood floors.

Selleys offers over 75 years experience developing and marketing products within the residential and commercial construction sector. Over the last 10 years Selleys has developed a solid presence within the timber flooring industry with their range of timber floor adhesives, moisture barriers and sealants. Committed to the delivery of quality products, Selleys has a strong focus on innovation, technical advice and customer service ensuring their products are the ideal solution for industry professionals.

Selleys supply the complete timber flooring solution with products ranging from moisture barriers, adhesives and sealants right through to repair kits and accessories.

PURCHASED FROM

- Flooring distributors
- Retail hardware stores

An advertisement for the Selleys Timber Flooring System. At the top, the Selleys logo is displayed in a white box on a dark blue background, with the tagline 'IF IT'S SELLEYS IT WORKS®' below it. The main image shows a large, polished wooden floor in a room with large windows. In the foreground, several Selleys product containers are arranged on a dark surface. The containers include a large white tub of 'TIMBERFLEX', a smaller white tub of 'DIRECT STICK', a white tub of 'DIRECT STICK LF', a white tub of 'AQUADHERE', and several smaller green and blue containers of 'VBS FRESH'. Below the image, the text reads 'TIMBER FLOORING SYSTEM' in large, bold, white letters, followed by 'Discover the range behind beautiful timber floors with Selleys complete timber flooring system.' in a smaller white font. At the bottom right, the website address 'www.selleys.com.au' is printed in white.

Mapei are a world leader in the supply of solvent-free, innovative timber flooring adhesives and related products to the building industry. Mapei possesses all the technology and can supply a complete range of innovative products adapted to all installation systems, on any scale. **Mapei** offer high performance products with cutting-edge technology to complete a perfect installation every time.

The perfect combination - Mapei products and your expertise!

levelling compound:

Ultraplan

- ultra quick-hardening self-levelling smoothing compound
- ideal for smoothing substrates under timber flooring
- high mechanical strength
- exceptionally smooth finish
- set to light foot traffic in 3 hours
- install flooring after 12 hours
- very low VOC content

moisture vapour barrier:

Apply Planiseal EMB

- 100% epoxy moisture barrier for concrete substrates
- ultimate in moisture transmission reduction
- one coat application system
- 3 coverage rates available for varying moisture vapour emission conditions
- internal use only
- approved Mapei adhesives can be applied directly over Planiseal EMB**

adhesive:

Ultrabond Eco S955 1K

- ready to use siltated polymer-based adhesive
- isocyanate, solvent & water free
- excellent rib stability
- low expansion and viscosity
- used for all sizes and formats of prefinished, laminated, lamparaquet, parquet timber flooring planks
- suitable substrates: concrete, cementitious screeds, old timber, properly prepared ceramic & marble floors
- suitable over heated screeds

or

Ultrabond P990 1K**

- ready to use, polyurethane, moisture curing adhesive
- solvent free, no unpleasant odour
- excellent rib stability
- low expansion and viscosity
- used for all sizes and formats of wooden flooring including, pre-finished parquetry, laminates, solid wood and planks
- suitable substrates: concrete, cementitious screeds, old timber, properly prepared ceramic & marble floors

** If floor requires rectification/levelling or a moisture curing adhesive is used, apply Eco Prim T (bonding agent) over MVB followed by Ultraplan self-levelling compound prior to adhesive use.

Please refer to relevant product data sheets for further information.

BUILDING TRUST

Sika Australia is a specialty chemical supplier to the building and construction industry. Part of the global Sika Group, operating in seven target markets: Concrete, Waterproofing, Roofing, Flooring, Sealing and Bonding, Refurbishment and Industry.

Sika provides its customers with solutions that boost the efficiency, durability and aesthetic appeal of buildings, infrastructure facilities, installations and vehicles, through production and use, and thereby makes a substantial contribution to sustainable development.

Sika's objective is to create value with reduced ecological footprint. Sika solutions encompass high quality products in concrete admixtures, speciality mortars, sealants and adhesives, damping, reinforcing materials, and structural strengthening systems.

SikaBond®-T55J – High strength, elastic, polyurethane timber flooring adhesive

SikaBond®-T54 (J) – High strength, solvent free timber flooring adhesive

Sika® Primer MB
– Epoxy primer and moisture regulator for timber flooring systems

Sika® Primer MR Fast – Water based primer and moisture regulator for timber flooring systems

Peerless JAL have been Australian leaders in the manufacture and supply of floor care products nationwide since 1947. Peerless JAL specialise in finishes and coatings for: Timber Sports Floors, Commercial and Domestic Timber Floors, Vinyl and Resilient floors, Concrete and Hard Floors and External Decking.

STAUF ADHESIVES

Peerless JAL is proud to have recently become the Master distributor for Stauf Adhesives throughout Australia. Creating a complete floor care system from preparation right through to cleaning and maintenance.

Stauf is a German specialist flooring adhesive company in operation since 1828.

STAUF PUM-950 Power-Mastic provides a tremendous improvement for urethane adhesives. It is a urethane based, high strength adhesive for professional wood flooring installation. But unlike other urethane adhesives, it contains no isocyanates, the primary chemical in other urethane adhesives that will etch fine floor finishes and is a suspected carcinogen.

PUM 950 provides adhesion and moisture barrier in one application.

STAUF SMP-960 One-Step is an advanced formula, unique polymer, antimicrobial 3-in-1 adhesive designed for professional wood flooring installation.

SMP 960 provides moisture and sound barrier and adhesive all in one.

PEERLESS JAL COATING

Commercial and domestic timber

- Hy Traffic – Water Based Hybrid Coating
- Hy Traffic Satin – Water Based Hybrid Coating
- Hy Prime- Water based Hybrid Sealer/Primer

whittle

W A X E S

FOR BEAUTIFUL TIMBER
NATURALLY...

Whittle Waxes is fortunate enough to carry its own diverse brand as well as the Treatex range of products.

Please visit our website to find more of our products and always refer to the information sheets before using products.

Treatex Traditional Hardwax Oil Matte, Satin, Lustre, and Gloss, for the coating of all internal timber, particularly floors, as well as porous surfaces such as stone tiles. Durable clear hardwax finish that is easily maintained, is water repellent and dirt resistant, will not discolour, crack, flake or peel, safe for use on children's toys contains no pollutants and minimal solvents. Allows timber to breathe and move seasonally, enhances natural grain and timber colour, tends to be non-yellowing and will not edge bond when applied correctly.

Treatex Colours: Spruce, Grey, Slate, Ebony, Medium Oak, Dark Oak, Antique Oak and Mahogany. All Treatex Colour Tones can be intermixed. As various timbers will take colours differently, we do advise to do a sample before applying to the whole area. Using colourfast, natural pigments to enhance the grain & strengthen the colours. No overlapping, applicator marks.

Whittle Waxes HARDWAX OIL Matte and Classic Natural, durable, water repellent finish for all interior timbers, such as floors, bench-tops and doors as well as stone, marble, engineered and cork floors. Open-pored, moisture regulating efficient in damp rooms such as the bathroom and kitchen. Well suited for children's nurseries, hospitals etc. Replenish able simply with buffing a maintenance coat onto the floor. Potentially this means the floor will never need aggressive sanding again.

Whittle Waxes OBJECT-OIL Also known as Whittle Waxes Repair Wax. A versatile product that can be used as a finish, as well as maintenance of existing interior waxed surfaces. Can be buffed on to Classic, Lustre, Satin and Gloss hardwax oil finishes to remove minor scratches, leaves the surface looking like new. Also ideal for OBS boards and exotic Timber.

Whittle Waxes FLOOR-CARE Natural treatment for internal wood surfaces. Mopping Additive designed to both clean and maintain floors finished with Whittle Waxes Hardwax Oil without making the surface slippery. Floor Care will prolong the durability of Hardwax Oiled surfaces.

Whittle Waxes PREPARATION CLEANER Application / Treatment: Whittle Waxes Preparation Cleaner is an aggressive cleaner for dirty or worn surfaces in commercial situations. Preparation Cleaner removes contaminants such as dirt, grease and fat leaving the surface ready for refinishing or refreshing.

Whittle Waxes SPECIAL THINNER

For cleaning and degreasing. To clean and degrease tools, machines and soiled surfaces.

Whittle Waxes WOOD FILLER A clear wood filler solution which is designed to be mixed with sawdust, to fill cracks in timber and parquet floors. Serves as a bonding agent for saw dust, which must be wax and paint free. Provides good binding and adhesive strength, quick drying and extreme hardness. Is easy to sand and simple to apply, provides low shrinkage in the joint on drying and is coatable with all Whittle Waxes products.

Lägler Australia

LEADERS IN FLOORSANDING SUPPLIES

Lagler Australia are the leaders in timber floor sanding technology and supplies. As the Australian agent for the legendary German range of Lagler floor sanding machinery since 1989, they have been at the forefront of development and consultation with the timber flooring profession. Lagler Australia's range of coatings, abrasives, adhesives and accessories represents a true point of difference, giving your business a genuine unique edge over your competition. More than a supplier – Lagler are a partner.

LAGLER is the German-crafted range of quality floorsanding machinery, headed by the legendary HUMMEL, the original and best 8" Belt Sander. TRIO – for the perfect finish, with its innovative three-disk planetary system. UNICO – 7" pole motor edger with a unique, ergonomic stand-up operating position. 12" SUPERHUMMEL – For more power.

LAGLER AUSTRALIA'S RANGE OF COATINGS provides you with a genuine edge over the competition:

HANDLEYS solvent-based polyurethane- Exclusive to LAGLER AUSTRALIA. Incredible value, plus genuine high-solids Satin and Lo-Sheen with unique capabilities.

SYNTEKO CLASSIC – Exclusive to LAGLER AUSTRALIA. A smooth Alkyd coating system, fast-drying and only two coats in most cases. Also, SYNTEKO NATURAL – A pure, no-VOC burnishing oil.

TMMC (The Moisture Meter Company) established in 1994 we are the only company in Australia specialising solely on the sale and service of moisture meters and moisture detection equipment and have built a reputation and respect within a diverse and rapidly changing and expanding market place and are now recognised as a leading supplier of this equipment. We have over thirty different hand held models for many different applications – we cater to the agricultural, construction, flooring, paper, pest, restoration and timber industries. We also supply in-line meters, in-kiln meters and laboratory ovens. Our primary suppliers are Delmhorst Instrument Co. and Wagner Electronic Products. We are members of the Australasian Timber Drying Group, Australian Timber Flooring Association and have staff who have attended IICRC approved Water Damage Restoration courses.

There are two types of meters:

- **Pin type meters** provide more definitive information on the overall condition of a structure than pin less meters. This is because insulated electrodes are available allowing the operator to take readings in various materials, and at different depths of penetration, ultimately finding the source of moisture.
- Pin less meters allows the operator to assess the overall moisture condition quickly, and with no “damage” to the material being tested.

BD-2100 Moisture Meter by Delmhorst

J-Lite Moisture Meter by Delmhorst

Delmhorst TotalCheck Moisture Meter

HT-4000 Moisture Meter by Delmhorst

We have your moisture equipment covered.

The Galaxy is a prime example of the innovative creativity and engineering that Galaxy consistently delivers. Having the flexibility of using either drum or belt sanding option, allows you the ability to aggressively tackle difficult projects with a drum sander while using a belt sander for fine sanding.

Whether you need to increase production or ensure the finest finish, the Galaxy sanding machines are the perfect tool to ensure the best possible results.

Our staff are always happy to help, so feel free to contact us or drop in on our showroom in Chatswood, Sydney to view all our range floating or engineered timber floors.

Synteko and the Environment ...

Synteko strives to make sure that all possible care is taken to not effect the environment when using our products.

BJ's TIMBER FLOORING

When you invest in timber flooring, you expect a lifetime of stunning good looks and rugged durability. **BJ's Timber Flooring** has been supplying quality timber floors in Perth for almost 50 years. We use premium indigenous species such as Brushbox, Spotted Gum, Jarrah and Blackbutt to provide solid flooring that is a subtle statement of natural sophistication. We select only the highest quality imported timbers such as French Oak, American Oak and Bamboo for flooring Perth homes.

Professional and Personalised Service BJ's Timber Flooring is an independently owned and operated family business and we pride ourselves in being able to provide a high level of quality service to our customers. Established in 1964, the main focus of our operations has been with the trade and prominent builders across Australia. Over the years we've developed strong relationships with suppliers and formed alliances with the country's top mills so that we can offer industry leading expertise and great value for our customers. Being a member of the Australian Timber Flooring Association we have constantly been at the forefront of the latest advances within the industry.

BJ's Timber Flooring are distributors of:

- Solid Tongue & Groove 10, 12, 14, 19mm and 21mm thick timber flooring ranging in widths from 63mm – 210mm
- Big River Engineered 14mm floorboards
- Acoustic Systems – laboratory and field tested for multi storey residential or commercial applications
- Finishes include Bona, Feast Watson, Polycure and Toby Polyurethane
- Moisture barriers include Sika, Selleys, Bostik and Epecrete
- Adhesives include Bostik, Sika, Selleys and construction chemicals
- Sanding machines include American Sanders, Frank, Clarke and Bona
- Cleaning and maintenance products

- Stair nosing, skirting boards, splay bead and reducer strips.
- Sandpaper, nails, power fasteners and fillers complete the range.

RED HEAT

EXTRA
THE MUSCLE BEHIND THE MACHINE

Full Wrap Red Heat Carton Graphics for Easy Stocking and Selection

CLOTH

Features

- 100% patented SG (Seeded Gel)
- Full phenolic resin bond
- Patent pending colour
- Heavy X-weight polyester

Benefits

- Unmatched cut rate and (Seeded Gel) product life with optimum resistance to wear ceramic grain with razor abrasive sharp micro-fracturing capabilities that prevent premature dulling or wearing
- Excellent cutting ability on A/O or ceramic finishes
- Ideal for harder wood species and large jobs where saving time means saving money
- Heat and chip resistant
- Eliminates risk of colour technology transfer with stabilizer assured product colour consistency
- Extremely flexible and backing shock absorbent for extreme conditions
- Atmospherically stable with little or no effect from moisture or heat

Boral Timber is one of the largest manufacturers of Australian hardwood products. Boral Timber has implemented AFS Chain of Custody certification to support responsible and sustainable forest management in Australia. With Australian Forestry Standard (AFS) certified products, the timber used for Boral Timber's hardwood flooring and decking is sourced from legal and sustainably managed resources.

Boral Timber has become one of the largest suppliers of hardwood and softwood timber in Australia with a diverse product range.

Decorative hardwood products

- Boral 19mm and overlay solid strip flooring
- Boral Silkwood engineered hardwood flooring
- Boral parquetry
- Boral decking
- Furniture boards

Structural

- Softwood
- Green and seasoned hardwoods

Boral Timber has access to some of the most sought after native Australian hardwood timber species on the market to suit any interior.

The modern trend towards creating a seamless transition from inside to outside, makes Boral Timber Blackbutt and Spotted Gum the ideal species to use.

Available in internal flooring and outdoor decking, it is perfect for anyone interested in expanding their living area to create an outdoor room.

Blackbutt and Spotted Gum also have a natural fire resistance. Their fire retarding properties make them suitable for use in many bushfire prone areas under Australian Standard AS3959.

For further information on Boral Timber products and for a list of stores and display centres please contact Boral Timber on 1800 818 317 or visit www.boral.com.au/timber

 we can **save your wooden floors**

Timber Flooring Industry Product Buying Guide

Restoration

platon

KEEP IT DRY.

Platon Stop

The Perfect Solution

Moisture Vapour Barrier for dampness protection under parquet & laminate timber floors.

Platon Stop is an air gap membrane that has been specifically developed for wooden floors as an effective barrier to water vapour.

Platon Stop supports the natural drying process of a newly poured slab & provides protection from moisture issues in an existing slab.

Platon Stop

All the benefits, All the protection

Facing the membrane studs down creates a thin but highly effective air gap between the concrete slab & **Platon Stop**.

Platon Stop is 3 times as impervious to water vapour as .2mm polythene sheeting. No residual dampness can seep through at all. This means floor coverings can be laid on top of **Platon Stop** even with residual moisture levels as high as 5% for cement screed.

BENEFITS OF PLATON STOP

- **Threefold improvement** in permeability to water vapour over conventional plastic underlays
- Put an **end to Rising Dampness**
- **Protection** from efflorescence
- Effective **sound insulation**
- **Quick & Simple installation**
- **Environmentally Friendly**
No chemicals, no odour
- Can be installed on top of **underfloor heating**

For a supplier in your area, please call:

List your timber flooring project with ATFA

Are you about to get a timber floor installed and/or sanded and polished? Now you can get a quote directly from an ATFA member simply by posting it on the ATFA website. You set the timelines and conditions and ATFA sets a quality standard for quoting members to apply.

So if you're a home owner, insurance company, builder, project company, architect or retailer, this is designed to make life easier for you! Just complete the project template and then expect to hear from ATFA timber flooring technicians wanting to provide a quote for you.

How it works

- You can list the details of your project at www.atfa.com.au/atfa-list-a-project and ATFA members will in turn contact you to organise a visit to your project site and to complete a quotation for you.
- You can specify how they contact you, the quotation timelines and which members you accept to undertake a quote (we recommend at least 3 quotations).
- ATFA will check that you are receiving offers of quotation midway through the open quotation period.
- ATFA will notify ATFA members as soon as your project is posted.
- This is a free service from ATFA, designed to benefit both consumers and ATFA members.

We're always here when you need us.
